Studies on virus diseases of strawberries in the western Cape Province. II. The latent period of mild yellowedge and crinkle viruses in the vector Chaetosiphon fragaefolii (Ckll.). 2734

Hot-water treatment of plant material. 3461

Weed control studies in strawberries. 4779

The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces. 5837

Heat sensitization for control of grey mold of strawberry fruits by gamma irradiation. 6090

Studies on the strawberry mite (Tetranychus telarius (L). 6161

1969, strawberry insect and disease control. 6247

Weed control techniques aid trials with hedge row planting of blackcurrants. 6314

Dicloran analysis by gas chromatography. 7960

Inhibition of strawberry runner production with Alar, Cycocel, maleic hydrazide, and TIBA. 7985

STREAMS
Methoxychlor as a blackfly larvicide, persistence of its residues in fish and its effect on stream arthropods. 1139

The food and feeding relationships of the common meso and macrofauna in the Maha Oya, a small mountainous stream at Peradeniya, Ceylon. 2557

Persistence of DDT in crayfish in a natural environment. 4878

The effect of reduction in stream flow on invertebrate drift. 5475

Life cycles of benthic insects in Lapland streams (Ephemeroptera, Plecoptera, Trichoptera, Diptera Simuliidae). 5653

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies . 7078

STREBLIDAE
Faunal and ecological study on the families Nycteribiidae and Streblidae (Dipt., Pupipara) of the Nangahar Province (Eastern Afghanistan). 3829

STREPSIPTERA
Furthur descriptions of Halictophagbus pontifex Fox and H. regina Fox (Strepsiptera: Halictophagidae) from Uganda. 25

Strepsiptera from the Smithsonian Institution's survey of Dominica, with description of a new species of Elenchidae. 621

Strepsiptera from the Mississippi coast. 1888

STREPTOCOCCUS
The occurrence of streptococci of various serological groups as the cause of mastitis with special consideration of group L. 389

An approach to identifying atypical streptococci from bovine mastitis- Serological classification and resistance determinations. 3542

A microbiological survey of British fresh sausage. 3643

Some biochemical changes taking place in the course of the transformation of streptomycin resistance in streptococci. 4932

The influence of streptococci on the genitals and fertility of thoroughbred mares. 6804

Observations on the incidence and histopathology of pneumonia of sheep and goats in India. 7911

STREPTOCOCCUS AGALACTIAE
A selective-differential medium for detection of Streptococcus agalactiae. 367

Swine mastitis-metritis agalactia syndrome. 369

The occurrence of streptococci of various serological groups as the cause of mastitis with special consideration of group L. 389

Study on the incidence and etiology of mastitis in sows. 2302

STREPTOCOCCUS EQUISIMILIS
Influence of Streptococcus equisimilis on sites of endochondral ossification in swine. 3579

STREPTOCOCCUS FAECALIS
Pathogens of the gypsy moth. 5289

An infection of Streptococcus faecalis Andrewes et Horder in the pine looper moth, Bupalus piniarius L. (Lepidoptera, Geometridae). 5654

Identification of enterococci in chicken livers. 6762

STREPTOCOCCUS THERMOPHILUS
Penicillin and other inhibitory substances in milk: The development and application of a routine test in New Zealand. 7061

STREPTOMYCES
Oryzoxymycin, a new antibiotic. 371

The effects of plant amendments and their associated microflora on Rhizoctonia solani Kuehn. 2451

Cooperative description of type cultures of Strepomyces. II. Species descriptions from first study. 3349

STREPTOMYCES GRISEUS

Saprozoic nematodes transmit Streptomyces phage. 2245

STREPTOMYCES HENETUS

Process for producing oxytetracycline antibiotic. Patent 3,408,258. 555

STREPTOMYCES SCABIES

Observations on the timing of irrigation and the incidence of potato common scab (Streptomyces scabies). 1573

Enzymic browning and free tyrosine in potatoes as affected by pentachloronitrobenzene. 2188

Virus enhancement with a growth product of Streptomyces scabies. I. Production and properties of scaben. 5810

Virus enhancement with a growth product of Streptomyces scabies. II. Increased release of coxsackievirus B5 from hEp-2 monolayers treated with scaben. 5811

Selection of parents and crosses suitable for use in breeding for resistance to scab. 6038

STREPTOMYCES VIRIDOCHROMOGENES

Electron microscope examination of ultra-thin sections of Streptomyces viridochromogenes for hyphal anastomoses. 3910

STREPTOMYCIN

Streptomycin resistance and morphological variation in Phytophthora cactorum. 984

Experiments for liquidating abortions in ewes on sheep farms with abortions. 2330

Disease control in nonbearing orchards. 4699

Sensitiveness of E. coli isolated from the intestines of broilers in the terrain to chlortetracyclin, streptomycin and furazolidon in 1966. 4795

Some biochemical changes taking place in the course of the transformation of streptomycin resistance in streptococci. 4932

Leafspot of gardenia. 6126

Effects of dimetridazole and antibiotics on growth and reproduction in turkeys. 6415

Use of ampicillin instead of streptomycin in Salmonella-infected mouse peritoneal macrophage cultures. 6605

Field observations on parenteral antibiotic treatment of ovine foot-rot. 6613

Observing the sensitivity of Francisella tularensis to antibiotics in vitro. 6621

In vitro degradation of DDT by intestinal contents of Atlantic salmon (Salmo salar). 7096

Increase in resistance to antibiotics in mastitis agents. 7213

STRESS

Growth and resistance to stress in brook trout fed sublethal levels of DDT. 3040

The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress. 3788

Steroid alkaloids as compounds produced by potato tubers under stress. 4323

Comparative modifications of the figurative parts of the hemolymph of the Sahara scorpion, Androctonus australis (L.) Hector C. L. Koch, subjected either to environmental stresses or to experimental irradiations. 7690

STRIDULATION

Seasonal and daily chirping cycles in the northern spring and fall field crickets, Gryllus veletis and G. pennsylvanicus. 738

Structures of unknown, possibly stridulatory, function of the wings and body of Neuroptera; with an appendix on other endopterygote orders. 2034

Sound production in the white-pine weevil, Pissodes strobi, and the northern pine weevil, P. approximatus. 4506

On the investigative methods of the sound characteristics of small cicadas (Homoptera-Cicadina). 4603

A sound-activated method for recording insect activity. 4970

Mechanism of the insect ear. 5373

Sounds produced by Neptis hylas (Nymphalidae). 5596

STRIGA

Domestic quarantine notices. Witchweed. Regulated areas. 2259

Domestic quarantine notices. Witchweed. Regulated areas. 4067

STRIGA ASIATICA

Progress in witchweed control seen as pest fails to spread. 6319

STRIP-MINED AREAS

Manganese toxicity of legumes seeded in Kentucky strip-mine spoils. 7145

STRIPE

Bacterial stripe blight of oats caused by Pseudomonas striafaciens (Elliott) Starr et Burkholder. 260

Inhibition by blasticidin S of the ability of leafhoppers to transmit rice stripe virus. 279

Dwarf, yellow dwarf, stripe, and black-streaked dwarf diseases of rice. 5968

Rice stripe disease in Korea. 5992

Varietal resistance to stripe, dwarf, yellow dwarf, and black-streaked dwarf. 6064

Genetics of and breeding for resistance to rice virus diseases. 6111

Ecology of insect vectors, forecasting, and chemical control. 6205

Effect of rice-pathogenic viruses on their insect vectors. 6216

STRIPE RUST

Pessimism over crop diseases. 4679

Wheat. 4691

Collected papers on cereal diseases. (Septoria, Fusarium, yellow rust). 5881

The occurrence and observation of Puccinia striiformis in the State of Washington. 5935

Investigations on yellow rust in wheat and barley, 1962-1965. 6096

STRIPE SMUT

Chemical control of stripe smut in Merion Kentucky bluegrass. 3964

Additional varieties of Agrostis palustris infected by Ustilago striiformis var. agrostidis. 3968

The stripe smut problem in Merion Bluegrass. 5965

STRONGYLOIDES

Threadworms and the plant protection. 1625

Dizan powder and tablets. Drugs for veterinary use; drug efficacy study implementation announcement. 2367

Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil. 6911

The geographical and evolutionary relationships of Australian trichostrongyloid parasites and their hosts. 6955

Further experiments on the treatment of Strongyloides infestation of horses with thiabendazole. 7011

STRONTIUM

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria. 3815

Strontium metabolism in hens. (Abstract). 4258

STRONTIUM ISOTOPES

The distribution of radioactive strontium, cesium and iodine in the bodies of some insects. 1937

Veterinary treatment of farm animals in the case of external radioactive contamination. First communication. Veterinary treatment of sheep and pigs externally contaminated with phosphorus32 and strontium89. 6428

Strontium-90: Concentrations in surface waters of the Atlantic Ocean. 7070

Distribution of Strontium 90 and Cesium 137 in dairy products in the processing of ewe's milk. 2. In white brined cheese. 7140

STRYCHNINE

Aversion to strychnine sulfate by Norway rats, roof rats, and pocket gophers. (abstract). 7171

STUBBLE

Stubble burning helps control Wimmera rye grass. 6362

STUMPS

Borax and control of stump infection by Fomes annosus in western hemlock. 5920

STUNT

Greenhouse studies of host plant suitability to Graminella nigrifrons, a vector of corn stunt virus. 2206

Studies of peanut stunt virus on Trifolium species, especially Trifolium repens L. 2722

The present status of virus diseases of rice in Ceylon. 5858

Transmission of rice viruses in Southeast Asia. 5998

Some rice diseases suspected to be of virus origin in South Viet Nam.
6110

STYGOMOMONIA
Water mites of the genus Stygomomonia in North America (Acarina: Momoniidae).
608

STYLETS
The stylets of the green peach aphid, Myzus persicae (Homoptera: Aphididae).
2575

SUBSTRATES
The culture of Phytophtora infestans on fully synthetic culture medium substrata.
525

Plant treatment in relation to the rhizosphere effect. II. Foliar applications of certain chemicals and antibiotics in relation to the rhizosphere microflora of rice (Oryza sativa L.).
2458

Effect of ultraviolet radiation on the oxidation of certain Krebs cycle substrates in Vibrio cholerae.
4930

Neuraminidase activity of the Newcastle disease virus. I. A study of the enzyme activity in differently cultivated strains.
6847

SUBTERRANEAN CLOVER
Redistribution of 45Ca in Trifolium subterraneum L and Antirrhinum majus L.
243

The effect of anti-fungal antibiotics on the nodulation of Trifolium subterraneum and the estimation of Rhizobium trifolii populations.
3061

SUCCINIC ACID
Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein.
536

Adsorption of maleic acid on mercury-electrolyte interface and the problem of preceding surface recombination.
565

SUCCINIC ACID, 2,2-DIMETHYLHYDRAZIDE
Succinic acid 2,2-dimethylhydrazide. Notice of extension of temporary tolerance.
2405

B-Nine reversal of Benzimidazole-or IAA-INDUCED inhibition of growth and yield of cowpea plants.
3697

Effects of growth retardants on Vitis vinifera L.
7218

Inhibition of strawberry runner production with Alar, Cycocel, maleic hydrazide, and TIBA.
7985

SUCCINIC OXIDASE
Spectrophotometric studies on the succinate oxidase system of Taenia hydatigena.
7933

SUCROSE
Responses of aphids to pressure applied to liquid diet behind parafilm membrane longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L9) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
172

Effect of hormones on the sugar level of maize (Zea mays L.) plants.
538

On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers.
1169

The effects of 1-naphthylacetic acid on the growth of excised tomato roots.
1176

Inositol metabolism in plants. VI. Conversion of myo-inositol to phytic acid in Wolffiella floridana.
1822

Effect of metabolic inhibitors on systems involved in the growth of elongating cells during root formation.
1827

Biochemistry of friend virus-infected cells. I. Virionspecific RNA.
2292

Responses of aphids to pressure applied to liquid diet behind parafilm membrane. Longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L.) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
2665

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. II. Selected environmental and nutritional factors affecting development and sex ratio.
2834

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. I. Selected environmental factors affecting penetration.
2835

Isolation and characterization of ribonucleic acid from Musca domestica (L.).
3798

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet.
4602

Long-term regulation of sugar intake by the blowfly.
5322

Heat resistance of Salmonella in various egg products.
7057

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production.
7315

Feeding bees.
7594

SUCTION TRAPS
New trapping and recording methods for investigations into the migration phenomenon of virus-transmitting insects.
2583

Aphid trapping.
3289

SUGAR
Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants.
1825

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana.
3217

Mastitis conditioned by feeding.
3574

Size independent secretion by the corpus allatum of Calliphora erythrocephala.
3843

Changes in ration of sugars and amino acids in cotton-plant and maize upon gamma-irradiation of seeds prior to sowing.
7250

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production.
7315

SUGAR BEETS
Sex attractant of sugar beet wirework: Identification and biological activity.
55

A new contribution to the study of the cabbage moth control (Mamestra brassicae L.).
159

The sugarbeet nematode. Problems and progress in its control in Colorado.
293

Factors influencing the selectivity of herbicides.
500

Lea beetles (Phyllotreta species) and sugar beets. (Short communication).
1014

The overwintering of aphids and viruses on sugar beet seed crops in England, 1963-1966.
1606

Small doses of D-D soil fumigant to control free-living nematodes injurious to sugar beet.
1630

Influence of crop sequence, nitrogen fertilizer and herbicides on weed seed populations in sugar beet fields.
1632

Economic estimation of chemical weed control of sugar beet.
1638

Diseases of sugarbeet in Arizona.
2112

Preference of green peach aphids for virus-infected sugarbeet leaves.
2224

Nebraska root-gall nematode of sugar beets.
2253

A new promising systemic fungicide against Cercospora.
2706

Effect on young sugar beet (Beta vulgaris L.) plants of Heterodera schachtii Schmidt 1871, alone, and in combination with Rhizoctonia solani Kuhn 1858.
2778

Appearance and damaging effect of Heterodera schachtii in sugar beet farms in the Rhein.
2849

Some considerations on chemical weed control in Italian beet fields and a survey of some experimental data collected in 1966.
2856

Progress and goals of chemical weed control.
2871

A study of pyrazon and its herbicidal residues in the soil.
3019

Proteinaceous and virus-like inclusions in cells infected with beet mosaic virus.
3377

The influence of darkness on the uptake and movement of diquat and paraquat in tomatoes, sugar beet and potatoes.
3680

Boron nutrition of sugar beet, cotton, and soybean.
3699

Plant virus diseases in Turkey which are transmitted by insect vectors.
4036

Further test of the control of Avena fatua in sugar beets.
4079

The effectiveness of the newer herbicides for the control of weeds in cultivated plants with special attention to weeds which are difficult to control. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4081

Sugar beet crop protected through aerial application.
4721

Sex lure hoax may prove male beet wireworm's undoing.
4765

Tests of nematocidal fumigants in the control of the nematodes of beets (Heterodera schachtii Schm. and Meloidogyne spp.).
4766

Comparison of various methods for the determination of the herbicidal action of herbicide preparations against annual weeds in sugarbeets and potatoes. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4774

Study of the selectivity of herbicides for sugarbeets, using laboratory, greenhouse and physiological methods. In: Collection of reports

given at the International Herbicide Conference, Prague, June 21-24, 1966.
4785

The sugar beet.
5791

Physiological studies on Phoma betae Frank and Rhizoctonia solani(Prill and Delacr.) Bourd and Galz which cause damping-off and root diseases of sugar beet in Egypt.
5867

Soil nematode fauna occuring in the Jadwisin fields near Warsaw and the effect of environmental conditions on them.
6296

Matricaria and lambsquarter control in Brassicas with analogs of propachlor.
6368

Burning weeds in drainage ditches to suppress populations of green peach aphids and incidence of beet western yellows disease in sugarbeets.
6395

On the agricultural importance of the rook (Corvus frugilegus L.).
6435

Soil factors contributing to atrazine carryover.
7084

Persistent pesticides: A problem.
7110

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production.
7315

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients.
7316

SUGARCANE

A new Japanese species of Atherigona Rond. (Diptera: Muscidae) reared from sugar-cane.
44

68th annual report of the Bureau of Sugar Experiment Stations.
191

Partial purification of sugarcane mosaic virus by filtration through gel.
219

Plant inspection and what it entails.
258

Ratoon stunting disease and drought a disastrous combination.
259

Grassy shoot disease of sugarcane. II Hot-air therapy.
1588

Annual report 1967.
1826

Free amino acid contents in corn infected with maize dwarf mosaic virus and sugarcane mosaic virus.
2137

Interaction of maize dwarf mosaic virus strains and sugarcane mosaic virus H in corn.
2190

Transmission of maize dwarf mosaic by the greenbug, Schizaphis graminum.
2214

Population models for supression of the sugarcane borer by inherited partial sterility.
3303

Residues on sugarcane tissues 24 hours after application of different formulations of azinphosmethyl.
3685

Morphological variation in the sugarcane smut, Ustilago scitaminea Syd.
3920

Influence of infestation by early shoot borer Chilotraea infuscatellus Sn. on shoot production and yield of sugarcane.
4751

Control of smut on sugarcane. Regulation of varieties of sugarcane which can be cultivated in the state of Sao Paulo.
5854

Inheritance of mosaic resistance in sugarcane.
6084

Insect-pests attacking sugar cane at Agra.
6165

Comparative efficacy and economics of various measures adopted for eradication of white grub beetle (Holotrichia serrata Fabricius) damaging sugarcane in Uttar Pradesh.
6204

Preliminary observations on Heteronychus robustus ArrowA beetle pest of sugarcane in Uttar Pradesh.
6250

Tropical nematology.
6305

The bases of defferentiating Sclerospora philippinensis Weston as a species distinct from Sclerospora sacchari Miyake.
7779

New pests of sugarcane in Mexico (Sacchardsydne saccharivora Westw.).
7822

SUGARS

The biochemistry of sugars and polysaccharides in insects.
176

Effect of hormones on the sugar level of maize (Zea mays L.) plants.
538

Sugar transport in Mycoplasma gallisepticum.
1099

Hydroxyproline formation and its relation to auxin-induced cell elongation in the Avena coleoptile.
1812

Sugars and trehalase in the reproductive organs and hemolymph of the queen and drone honey bees (Apis mellifica L. var. Ligustica Spin.).
3152

Comparison of sulphur dioxide and formaldehyde as bacteriostats in diffusion. Part II.
4913

Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars.
5206

Influence of some herbicides on accumulation of 32P in above-ground organs of oats.
7223

SUINT

Investigation of sheep dips. 3. The influence of breed on stripping and deposition in the fleece of diazinon.
7124

SULFADIMETHOXINE

Notice of filing of petition for food additive sulfadimethoxine.
1066

Clinical effectiveness of sulfamonomethoxine and sulfadimethoxine in spontaneous coccidial infections in rabbits.
3633

Sulfadimethoxine injectable. Drugs for veterinary use; drug efficacy study implementation.
4180

Safety and compatability of sulfadimethoxine potentiated mixture (Ro 5-0013), a new broad spectrum coccidiostat-antibacterial, in chickens. (Abstract).
4185

Anticoccidial activity of sulfadimethoxine potentiated mixture (Ro 5-0013) in chickens.
4196

Antibacterial activity of sulfadimethoxine potentiated mixture (Ro 5-0013). (Abstract).
4197

Safety and compatibility of sulfadimethoxine potentiated mixture (Ro 5-0013), a new broad spectrum coccidiostat-antibacterial, in chickens.
6707

Anticoccidial activity of sulfadinethoxine potentiated mixture (Ro 5-0013) in chickens.
6726

SULFAMERAZINE

Sulfamerazine. Drugs for veterinary use; drug efficacy study implementation.
1083

SULFAMETER

Clinical effectiveness of sulfamonomethoxine and sulfadimethoxine in spontaneous coccidial infections in rabbits.
3633

SULFAMOYL-4,4'-DIAMINODIPHENYL SULFONE, 2-

Therapeutic effect of SDDS (2-sulfamoyl-4,4'-diaminodiphenyl sulfone) on experimental toxoplasmosis.
4843

SULFANILAMIDE

Safety and compatability of sulfadimethoxine potentiated mixture (Ro 5-0013), a new broad spectrum coccidiostat-antibacterial, in chickens. (Abstract).
4185

Anticoccidial activity of sulfadimethoxine potentiated mixture (Ro 5-0013) in chickens.
4196

Antibacterial activity of sulfadimethoxine potentiated mixture (Ro 5-0013). (Abstract).
4197

SULFAQUINOXALINE

Inherited resistance to sulfaquinoxaline toxicity in the chicken. (Abstract).
4111

SULFATES

Toxicological problems of dinitro-ortho-cresol with particular consideration of its quantitative detection in biological material.
1154

Crop response to applied zinc in ammoniated phosphate fertilizers.
2455

Role of salts in oviposition site selection by the black salt-marsh mosquito, Aedes taeniorhynchus (Wiedemann).
2608

Studies on enzyme synthesis of cerebroside sulphate from 3'-phosphoadenosine-5'-phosphosulphate.
4788

Aversion to strychnine sulfate by Norway rats, roof rats, and pocket gophers. (abstract).
7171

Influence of magnesium and zinc fertilizing on the yield, quality as well as health of hops.
7266

The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections.
7297

SULFIDES

Laboratory determination of resistance to tetradifon in the fruit tree red spider mite, Panonychus ulmi (Koch).
7823

SULFISOXAZOLE

Sulfisoxazole. Drugs for veterinary use; drug efficacy study implementation.
4178

SULFITES

Germicidal composition. Patent 3,440,319.
3727

SULFONAMIDES

Improved method for determination of sulfonamides in milk and tissues.
2425

Long-acting sulfonamides in cattle: A study of pharmacologic properties.
3503

Sulphamide and antibiotic sensitivity of some Listeria monocytogenes strains isolated from animals.
3508

Killing of pests with alkyl sulfonamide phosphates and phosphonates. Patent 3,446,896. 7379

SULFONE
Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421

SULFONIC ACIDS
Effects of chronic exposure to zinc on toxicity of a mixture of detergent and zinc. 4894

SULFOTEPP
Pesticide residues in cultivated mushrooms. 4891

SULFOXIDES
Collaborative study of the ultraviolet spectrophotometric determination of sulfoxide in formulations. 557

SULFUR
In vivo activity of propolis against Bacillus larvae. 1430

Chemical control of mango hoppers (Idioccrus spp.). 2211

Controlling insects and other pests with phosphonothioates. Patent 3,428,655. 3850

Sulfur amino acid requirement of laying hens. (Abstract). 4156

The effect of different fungicides on the yeast flora during the treatment of grape vines. 4329

New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata). 4497

Disease control in nonbearing orchards. 4699

New disease in European plums. 6129

Influence of sulfur on incidence of white muscle disease in lambs. 6865

Sulfur response of alfalfa in Western Montana. 7296

Intensive field comparison of fungicides for apple mildew control. 7769

SULFUR COMPOUNDS
Olfactory response of larvae of the onion maggot, thylemya antiqua Meigen (Diptera: Anthomyiidae) to organic sulfur compounds. 5458

The broad mite: Hemitarsonemus latus (Banks) (Acarina: Tarsonemidae). 7825

SULFUR DIOXIDE
Studies on the mechanism of injurious effects of toxic gases on crop plants. I. Relation between the concentration of sulfur dioxide and the degree of leaf injuries in several crops. 541

On the effect of industrial air pollution on the nematode population in the soil of pine groves. 1020

Comparison of sulphur dioxide and formaldehyde as bacteriostats in diffusion. Part II. 4913

Effects of chemical preservatives and storage on constituents used to characterize lemon juice. 4940

Studies on the effectiveness of fox den fumigation for rabies control in the district of Wolgast. 6696

SULFUR ISOTOPES
Metabolism of S35-parathion in the house fly. 3256

New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata). 3820

Mutations produced by transmutation of phosphorus-32 to sulfur-32 within Drosophila DNA. 5437

SULLA SWEETVETCH
The crinkly mosaic of sweetvetch (Hedysarum coronarium L.). 6005

SUMMER SORES
On the granular dermatitis in horses which contains a kind of true fungus in the foci II. 6460

SUNFLOWER SEEDS
Malathion, methyl parathion, diazinon, and endosulfan residues in sunflower seeds. 3665

SUNFLOWERS
Distribution, importance and problems of herbicide use in Yugoslavia. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4083

Chemical weed control in sunflower cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4087

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings. 4903

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. I. Production and translocation of a necrosisinducing toxin. 5890

Physiological changes in sunflowers infected by storage rot. 6041

Research on the associated culture of viruses and vegetable tissues. 6049

The influence of indole-3-acetic acid and vitamin B1 on the growth and yields of sunflower plants. 7261

SUPELLA SUPELLECTILIUM
The brown-banded cockroach in Hamburg. 3308

A sound-activated method for recording insect activity. 4970

SUPERPHOSPHATES
Gorse control at a profit. 3488

Incidence of Bacillus popilliae (Dutky) in Costelytra zealandica (White) larva. 5406

SUPPLY AND DEMAND
The pesticide review. 4952

SURFACE CHEMISTRY
The effect of the association of organic material with clays on parathion and DDT adsorption. 3072

SURFACE FINISH
Behavior of the German cockroach, Blattella germanica (L.), in response to surface textures. 5224

SURFACE-ACTIVE AGENTS
Chemical weed control. 301

Adsorption of maleic acid on mercury-electrolyte interface and the problem of preceding surface recombination. 565

Oils: Their effect on black carpet beetle larvae when applied to different types of surfaces. 3282

Factors influencing the toxicity of aqueous formulations of pyrethrum against an aphid, Macrosiphum Euphoribae (Thomas). (abstract). 3664

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Surfactants. 3738

Relative susceptibility of stored-product insects to insecticides. 5631

Postemergence weed control in soybeans. 6378

Controlling bloat in cattle grazing clover. 6578

Oil deposit on grapefruit leaves with 3 types of spray equipment in relation to control of certain citrus pests. 7101

SURGERY
Hygiene and practical medicine of the cat. 1702

Surgical treatment of heartworm disease. 1749

Some aspects of cardio-vascular disease in the dog. 2966

Duodenal leiomyosarcoma: A case report. 6491

Urine-retention caused by a peri-urethal leiomyoma, in a female dog. 6691

SURGICAL PROCEDURES
Sheath rot is on the increase. 1674

SURRA
The natural occurrence of surra in the African longhaired fox. 4236

SURVEYS
Studies on some silvatic reservoirs and vectors of Trypanosoma cruzi. XXI: observations on the ecology of Panstrongylus geniculatus (Latreille 1811) (Hemiptera Reduviidae). 9

First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) II. Plankton in general and phytoplankton. 204

Plant inspection and what it entails. 258

The Hessian fly. 281

First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) IV. Beothos. 335

First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) III. Zooplankton. 336

The incidence of disease resulting from infection with Haemonchus contortus in sheep sent to the Veterinary Investigation Centres in England and Wales from 1965 to 1967. 447

Survey of green coffee for potential aflatoxin contamination. 456

Retailing of barbecued chickens: A Canadian survey. 459

Retailing of barbecued chickens: A survey in British Columbia. 463

First report of the regular limnological survey of Lake Biwa (Oct. 1965-Dec. 1966) V. Abiotic environment. 559

Farmers' expenditures for custom pesticide service in 1964. 574

Some notes on the Syrphidae (Diptera) of a Yorkshire clough. 610

Strepsiptera from the Smithsonian Institution's survey of Dominica, with description of a new species of Elenchidae. 621

On the orthopterous fauna in the south of the Krasnoyarsk Territory. 632

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera). 638

Paratephritis transitoria Rhod. (Diptera, Tephritidae), a fly that forms galls on tassel flowers in the Maritime Territory. 640

Tingidae from Korea (Heteroptera). 654

A preliminary list of Tachinidae (Diptera) from Japan. 664

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 3. Subfamilies Ophioninae, Cremastinae and Ichneumoninae. 668

Distribution of seed beetles (Coleoptera, Bruchidae) in the forest-steppe zone of the eastern Ukraine. 698

Notes on Sciomyzidae collected in paddy field (Diptera), I. 727

Larvae of injurious beetles (Coleoptera) in the soils of the Archeda Forest Farm, Volgograd Province. 742

Treehoppers of certain Mississippi River islands (Homoptera, Membracidae). 779

Wireworms (Coleoptera, Elateridae) of the Smolensk region, their distribution and incidence in different soil types. 855

An abnormal intermediate form of Dactynotus (D.) hypochoeridis H.R.L. (Hem., Aphididae). 913

Report on a limited anopheline survey at Ifakara, south-eastern Tanzania. 934

Organization for effective mosquito control programs. 936

Forest insect and disease survey. 939

Cultivated palms of Venezuela. 941

Extent of farm pesticide use on crops in 1966. 945

White fir stands killed by tussock mothi 70-mm. color photography aids detection. 1019

Losses caused by potato cyst eelworm in the Isle of Ely. 1022

Surveying the pre-emergent chemicals and ideas. 1026

On the Trypanosome-infection rate of Glossina morsitans in the Ulanga District, (Tanzania). 1120

The fresh-water mites from a small pond. 1216

Microlepidoptera of the Philippine Islands. 1239

The insect fauna of Surinam, as well as a comparison of these insects with the Odonata fauna of the Antilles. 1251

The Mantodea of Lamto and the savannahs in the Ivory Coast. 1254

A biocenological investigation of salt marshes on the south coast of the isle of Terschelling. 1265

Further records of New Jersey aphids (Homoptera: Aphididae). 1286

Acridological excursion in El Juncal Valley of the Negro River. 1288

A new species of Hirstionyssus from Taiwan (Mesostigmata: Laelapidae. 1335

The collection of biting flies in west Texas with Malaise and animal-baited traps. 1383

The Lepidoptera distribution maps scheme. 1406

The use of the forage ratio technique in mosquito host preference studies. 1407

A preliminary note on the fauna of water-filled tree-holes. 1420

The relative abundance of two digger wasps, Oxybelus bipunctatus and Tachysphex terminatus, and their associates, in a sand pit in central New York. 1426

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. 1427

On the sensitivity of Azotobacter to some antibiotics and herbicides. 1551

Parasitic and ecological study of the small mammals (insectivores and rodents) of the Allondon valley (Geneva). 1643

An epizootiological study of the development of cattle brucellosis in Czechoslovakia--detection. 1680

The mosquitoes attracted to turtles. 1716

Childhood poisoning accidents. 1807

The distribution of ants in central southern England. 1867

As yet unknown Dolichopodidae (Dipt.) for the Bulgarian fauna. 1870

Strepsiptera from the Mississippi coast. 1888

A survey of the scutacarid (Acari: Tarsonemini) fauna of Australia. 1895

Glossina palpalis gambiensis Vanderplank 1949 (Diptera in the Niayes and 1899

Flight and ground collection records of Costelytra zealandica (White) at a site in Canterbury, New Zealand. 1996

On the soil fauna of meadow and alfalfa stocked fields of different locations with special consideration of the Oribatids. 2045

Studies of the ecology of the cabbage aphid (Brevicoryne brassicae (L.)) on brassica field crops in Canterbury, New Zealand. II. Population study, 1959-60. 2219

Aphid populations in relation to tristeza in Florida citrus. 2235

Serological survey on the Rickettsioses in dromedary in Chad. 2319

Quantitative sampling of the pseudoscorpion Chthonius ischnocheles from beech litter. 2577

Seasonal fluctuations in the protozoan parasites of the centipedes Lithobius variegatus and Lithobius forficatus in a Yorkshire woodland. 2603

Some data on the fauna and ecology of the tabanid flies (Diptera, Tabanidae) of north Belorussia. 2607

Insects of the season 1967 related to fruit, vegetables and ornamentals. 2807

Salmonellosis. 2900

Salmonella and Arizona in reptiles and man in Western Australia. 2922

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

Insects and other arthropods of importance during 1967 in households and on livestock in Ontario. 2986

On the distribution of pest control agents. 3009

Investigation into herbicide residues. 3023

Studies of Queensland Tetranychidae. 5. Records of the genus Panonychus from Queensland, with a note on the occurrence of Panonychus citri (McGregor) in New Guinea. 3095

Survey of the European species of the family Geometridae (Lep.). 3127

The distribution of the cereal cyst nematode (Heterodera avenae) in Victoria and its relation to soil type. 3457

Hydatid disease--dog testing results, 1 April-13 June 1968. 3632

A microbiological survey of British fresh sausage. 3643

To the fauna of ixodid ticks of Mongolia. 3744

On the Orthopterous fauna in the south of the Krasnoyarsk Territory. 3754

Collembola fauna of Malta. 3774

The entomology of the Isle of Rhum National Nature Reserve. 3775

Materials to the knowledge of the scale insects fauna of Yugoslavia (Homoptera, Coccoidea). 3786

A survey of leaf-miners and their parasites on Laburnum. 3797

Survey, screening, and breeding for bacterial blight resistance in cotton. 3952

Fungal and bacterial diseases of crucifers and cucurbits in western Ontario in 1967. 3996

Nematodofauna of a mixed hornbeam-oak forest soil and of the neighboring cultivated lands at Bab near Nitra. 4055

A survey of Brucella infection of cattle in Kenya. A comparison of four serological tests for the diagnosis of infection. 4202

Mallophaga of domestic chickens from Cuba. 4268

Current status of methods for identifying pesticides, a survey. (JPRS 32,031) 4303

Growth regulator survey for activity in inducing parthenocarpy in the highbush blueberry. 4324

Bees of the Nevada Test Site. 4355

Lepidoptera of the Nevada Test Site. 4356

Valley centipedes (Chilopoda, Symphyla) from northern Kentucky. 4362

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 2. Subfamilies Porizontinae, Metopiinae and Diplazontinae. 4412

SURVEYS

A revision of the subgenus Hirtodrosophila of the Old World, with descriptions of some new species and subspecies (Diptera, Drosophilidae, Drosophila). 4418

First occurrence of balsam woolly aphid in the interior of British Columbia. 4441

The Plecoptera of a headwater stream (Gaitscale Gill, English Lake District). 4569

The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 4620

Chromosome numbers of some central European Cerambycidae. II. 4648

A look at the plant pest control divison. 4887

1969-Pest Control's economic forecast. 4951

A report on the eulophid (Hymenoptera: Chalcidoidea) fauna of two scottish birch woods. 4990

Horse-flies (Diptera, Tabanidae) collected in the East Hindukush Mountains, Afghanistan. 5010

New species of Pseudosinella from caves (Insecta: Collembola). 5045

New combinations affecting the genus Aiolopus (Orthoptera: Acridoidea) and a description of a related new genus and species from Australia. 5071

Orthoptera-Caelifera from northern Kenya and Jubaland. IV. Acrididae, s. str.: Calopteninae, Euryphyminae, Eyprepocnemidinae, Catantopinae, Cyrtacanthacridinae. 5080

Some remarks on the tampans of the Ornithodoros moubata complex in southern Africa. 5102

The arthropod fauna of Sambhar Salt Lake, Rajasthan, india. 5203

Cave Carabidae (Coleoptera) of Mammoth Cave, part II. 5211

A simple method for counting leaf-hopper eggs inserted in plant issue. 5319

Insect-flower associations in the high Arctic with special reference to nectar. 5366

Plant protectors. 5812

Contribution to the knowledge of Microlepidoptera on oaks in Israel. 6258

The golden nematode of potatoes and tomatoes. 6283

Are herbicides doing their job . 6311

A new method of rat control in coconuts. 6412

Parasites of man and domestic animals in Vietnam, Thailand, Laos, and Cambodia. Host list and bibliography. 6437

Survey of dairy herds in the Moss Vale district of New South Wales. 1. Disease wastage. 6711

Incidence of bovine coccidia in western Oregon. 6748

Investigations on the incidence of rinderpest virus infection in game animals of n. Tanganyika and s. Kenya 1960/63. 6769

Encephalitis field surveillance in Orleans Parish. 6903

Salt marsh mosquito control in relation to beef cattle production: A preliminary report. 6904

A helminthological survey of wild mink in Wisconsin. 6939

On the nematode fauna of domestic fowl in the Lithuanian SSR. 6959

Parasitological situation on the hen farms in Lithuania. 6960

On the infection of the Lithuanian birds by the cestodes. 7018

The murids in the vicinity of Lake Kivu and neighboring regions (Central Africa) and their ecology. 7045

Salmonella in meat imported from South American countries. 7064

No serious problem with pesticide residues. 7089

Pesticide residues are not a problem. 7099

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. (abstract). 7121

Agricultural engineering. 7392

Commodity notes. Pesticides. 7406

New or remarkable lepidopteran forms from the Greater Baucasus. 7427

A contribution to the Coleoptera fauna of the Ostufer der Muritz nature reserve (southern part) (Coleoptera: Carabidae, Coccinellidae). 7445

Systematic catalogue of the Indochinese Buprestidae. XII. Agrilinae. (suppl). 7450

Results of the Albanian 1961 Expedition of the German Entomological Institute. 61. Contribution Catalog of Albanian habitats. 7461

Results of the Albanian 1961 Expedition of the German Entomological Institute. 60. Contribution. Review of the first evaluation period 1961 until 1965. 7462

Supplement to Florida insects taken in light traps. 7464

A survey of the wild species of Drosophilidae within Monongalia County, West Virginia. 7471

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking arthropoda in Vietnam. 7472

Results of the Albanian 1961 Expedition of the German Entomological Institute. 71. Contribution. Coleoptera: Cerambycidae. 7476

Results of the Albanian 1961 Expedition of the German Entomological Institute. 70. Contribution. Coleoptera: Tenebrionidae. 7483

Results of the Albanian 1961 Expedition of the German Entomological Institute. 69. Contribution. Coleoptera: Meloidae. 7484

The sphingid genus Sphinx Linne (Lep., Sphingidae). 7486

Results of the Albanian 1961 Expedition of the German Entomological Institute. 62. Contribution. Bibliography of the entomological investigation of Albania. Part II. 7491

Two new Odonata from Southeast Asia, with comments on previously described species. 7499

Results of the Albanian 1961 Expedition of the German Entomological Institute. 63. Contribution. Diptera: Limoniidae. 7502

Mites of the families Tenuipalpidae and Tetranychidae intercepted entering New Zealand from overseas. 7503

Plecoptera from the Hamburg vicinity (Insecta-Plecoptera) (A contribution to the knowledge of the Plecoptera fauna of the north German lowlands. 7508

Results of the Albanian 1961 Expedition of the German Entomological Institute. 66. Contribution. Hymenoptera: Tiphiidae. 7516

Notes on the Muscidae of New Guinea (Diptera). iii. Species described by Stein in 1900, Termeszetr. Fuz., Volume 23. 7524

The mites of subfamily Labidophorinae Zachvatkin, 1941 (Acarina, Acarinhe) from the nests of small mammals. 7531

Results of the Albanian 1961 Expedition of the German Entomological Institute. 68. Contribution. Hymenoptera Apidae. III. (Genus Nomada Scopoli). 7537

New Carabus forms from Anatolia (Col., Carabidae). 7538

Distribution of the Macrolepidoptera in the Baltic. III. Nocturnal moths (Fam. Noctuidae). 7548

Entomological survey of the Cook Islands and Niue. 1-Hymenoptera-Formicidae. 7551

The establishment in New Zealand of Bracon variegator Nees (Hymenoptera: Braconidae) a parasite of Coleophora species (Lepidoptera: Coleophoridae). 7552

The Tricoptera of the Lule Lappmark (Sweden), II. Inventory of the species, habitats, and flight periods. 7555

The Trichoptera of the Lule Lappmark (Sweden), II. Catalog of the species, habitats and flight periods. 7556

Results of the Albanian 1961 Expedition of the German Entomological Institute. 67. Contribution. Hymenoptera. Pompilidae and Ceropalidae. 7564

On a method of population estimation using capture-recapture data. 7649

The carabid fauna of the Hoher Vogelsberg nature conservation park. 7696

Coincidence and incidence of Entomophthora floridana with and in Eutetranychus banksi in Florida citrus groves. 7796

Twenty-second annual conference report on cotton insect research and control, New Orleans. 1969. 7817

A preliminary survey of the relationships between the soil fauna and the roots of fruit trees. 7827

Occurrence of Bemisia tabaci (Genn.) in the field and its relation to the leaf curl disease of tobacco. 7829

Basic premises of a theory of the protection of plants against pests. 7836

Forest entomology in the USSR. 7843

Survey, identification and pathogenicity tests of nematodes associated with tobacco grown in Cagayan Valley and the Ilocos Region. 7845

Survey, identification and host-parasite relationships of root-knot nematodes occurring in some parts of the Philippines. 7850

A survey of diseases in fallow, Virginia and Japanese deer, chamois, tahr, and feral goats and pigs in New Zealand. 7875

Swine salmonellosis in a Hawaiian piggery. 7884

The development of foci incidence of bovine brucellosis in Czechoslovakia. 7896

The prevalence of brucellosis of cattle in Czechoslovakia. 7897

The incidence of brucellosis of cattle in Czechoslovakia. 7898

Prevalence of salmonellae in Virginia poultry flocks and in feed. 7902

Poultry diseases. Old diseases under control, but new ones raise their heads. 7916

Studies of effects of Dursban and fenthion insecticides on wildlife. 1140

SUSANA ANNULATA
The genus Susana Rohwer and Middleton (Hymenoptera: Tenthredinidae). 3773

SUSANA OREGONENSIS
The genus Susana Rohwer and Middleton (Hymenoptera: Tenthredinidae). 3773

SUSANA PUNCTATA
The genus Susana Rohwer and Middleton (Hymenoptera: Tenthredinidae). 3773

SUSANA RUFA
The genus Susana Rohwer and Middleton (Hymenoptera: Tenthredinidae). 3773

SUSCEPTIBILITY
Aliphatic amines against insecticide-susceptible and resistant strains of Culex pipiens quinquefasciatus and Anopheles albimanus. 1968

Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan. 2129

Results of investigations on the susceptibility of different varieties of Pisum sativum L. to attacks of Laspeyresis nigricana Steph. (Lep., Tortricidae). 2825

Host-parasite relationships in Brucellosis. I. Reservoirs of infection and interhost transmissibility of the parasite. 2941

Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. I. Studies on the physiological properties of some commercial products. 3253

Resistance to chlorinated hydrocarbons in Culex pipiens quinquefasciatus in Egypt. 3294

Avian leucoses: 1966-1967. 3523

A tidal rhythm in the susceptibility of Fundulus similis to sodium chloride and endrin. 4896

Susceptibility of an alfalfa leafcutting bee to residues of insecticides on foliage. 5668

Comparative susceptibilities of the cat and the domestic pig to the west African strain of Trichinella spiralis. (Owen, 1835). 6947

Growth characteristics and herbicide susceptibility of Texas Panicum. 7232

SUTURES
Effect of ligaturing on puparium formation in the larva of the tsetse fly, Glossina morsitans Westwood. 5432

SWAINSONA
Neuronopathy in sheep fed Swainsona luteola and S. galegifolia. 1081

SWAMPS
Vertical distribution of biological activity in peat of some virgin and drained swamp types. 950

SWARMING
Swarming of lonchaeid flies and other insects, with descriptions of four new species of Lonchaeidae (Diptera). 663

Blacus-dances, experiences and studies (Braconidae, Hymenoptera). 5343

Blacus-dances, experiences and studies (Braconidae, Hymenoptera). 5344

Diel patterns of swarming and other activities of two arctic dipterans (Chironomidae and Trichoceridae) on Spitsbergen. 5639

A peculiar swarming mechanism of an Arctic chironomid (Diptera) at Spitsbergen. 7708

SWEET POTATOES
Ion uptake of sweet potato roots infected by the black rot fungus. 7989

SWEETCLOVER
Effect of temperature, light, and date of collection on the feeding rate of the sweetclover weevil. 2209

Transmission and translocation of red clover vein mosaic virus in clover. 5921

SWEETCORN
Tifton ultra-low-volume nozzle tip. 3729

Performance of sweetcorn under natural epiphytotic of maize dwarf mosaic virus. 7812

SWEETFERN BLISTER RUST
Occurrence of Cronartium comptoniae in the Maritime Provinces. 4018

SWEETPOTATOES
Herbicides for weed control in sweet potatoes. 6341

Chemical weed control in sweet potatoes. 6396

Dicloran analysis by gas chromatography. 7960

SWIETENIA
The use of herbicides for site preparation and their effects on tree survival. 6369

SWINE
A perplexing case of hog cholera confirmed by virus isolation and supported by the fluorescent antibody serum neutralization test. 348

Erysipelas--our costliest pig disease. 352

Swine mastitis-metritis agalactia syndrome. 369

Effect of dietary fat source on the apparent digestibility of fat and the composition of fecal lipids of the young pig. 370

Cholera eradication progress report. 374

Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus. 375

If vaccines go - Will hog cholera follow . 381

Card brucellosis test... swine. 382

Susceptibility of embryonic swine spleen and swine kidney cell lines to hog cholera virus. 385

Isolation and characterization of a porcine enterovirus. 386

Tuberculosis in the pig and the tuberculin test. 388

Characterisation and fractionisation of various strains of Teschen virus by column chromatography and electrophoresis. 391

Evaluation of the fluorescent antibody-cell culture tests for hog cholera diagnosis. 393

Experimental data on the pathogenesis of edema disease of swine. Clinical picture, gross and microscopic lesions related to endotoxin shock. 396

An outbreak of rabies in swine. 413

Effectiveness of antibacterials infused into the proximal colon on the pig. 426

Hyostrongylus rubidus: A field study of its pathogenesis, diagnosis and treatment. 440

Diagnosis and treatment of chronic Salmonella typhimurium infection in sows. 443

Control of internal parasites of swine and sheep with dimethyl 2,2-dichlorovinyl phosphate. Patent 3,408,443. 444

A new salmonella serotype of the C 2 group, Salmonella sandow. 1087

An electron microscopic study of transmissible gastroenteritis in swine. 1093

On a new and changed picture of the socalled edema disease in the differential diagnosis of hog cholera. 5th. Communication. The part played by the liver in the course of the disease. 1096

Toxicological problems of dinitro-ortho-cresol with particular consideration of its quantitative detection in biological material. 1154

Anemia of suckling pigs. 1646

Some criteria for the field diagnosis of porcine transmissible gastroenteritis. 1659

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Oleandomycin. 1679

Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690

Contribution to the occurrence of Aujeszky's virus in clinically healthy porkers from chronically infested pig fattening centres. 1711

On the role of hog louse Haematopinus suis (L.) in the transmission of swine fever. 1715

Contribution to the control of swine mange. 1720

Fumigation for lice control in pig breeding stock. 1722

Tetramisole treatment for lungworm infection in pigs. 1736

The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803). 1742

SWINE

Assay on the treatment of intestinal nematodiasis of pigs by means of 2,2-Dichlorovinyl Dimethyl Phosphate (Dichlorvos, Atgard V) administered with dry food, in comparison to Piperazine Dihydrochloride administered in drinking water. 1759

Cell and humoral factors of immunity in metastrongyliasis of swine. 1772

Leucosis in swine as a finding from carcass inspection. 2281

Leptospiric abortion pathogenia in sows. 2295

Fatty tissue biopsy in pigs. 2299

Study on the incidence and etiology of mastitis in sows. 2302

Studies on the tumours of the domestic animals. I. Lymphatic leucaemia of the swine. 2308

Studies on the tumours of the domestic animals. II. Tumours of the swine. 2309

Pulmonary diseases of pig in Madagascar. 2335

Serological differentiation of mycoplasma in swine. 2338

Experience obtained from the use of formol-adsorbat vaccines against Salmonella cholerae-suis in pig stocks. 2339

Occurrence of a skin response to intracutaneous injection of adrenaline as a method to detect the effects of endotoxines in pig organism. 2349

Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363

Cadmium salts. Drugs for veterinary use - drug efficacy study implementation. 2368

Notice of filing of petition regarding pesticide chemicals. 2392

Notice of filing of petition regarding pesticide chemicals. 2393

Improved method for determination of sulfonamides in milk and tissues. 2425

Ascariasis in pig and in man. 2876

Porcine enteritis due to Clostridium perfringens type C. I. Epizootiology and diagnosis. 2887

The outbreak of foot-and-mouth disease in Worcestershire. An epidemiological study: With special reference to spread of the disease by wind-carriage of the virus. 2915

A trend in the prevalence of brucellosis in Iowa swine. 2916

Studies on E. coli vaccines to protect pigs against postweaning coliform infections. 2921

Influenza in animals. 2939

Porcine polioencephalomyelitides. 2942

Safety testing hog cholera live virus modified vaccines. 2957

Status of State-Federal hog cholera eradication program. 2975

Heterotypic hog cholera protection in swine: An analysis of the response. 2978

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

Spreading characteristics of commercial hog cholera modified live virus vaccines in swine. I. In vivo studies. 2985

Oesophagostomum longicaudum Goodey, 1925, (Nematoda: Cyathostomidae) in pig from the State of Sao Paulo, Brazil. 2992

Trichinae in garbage fed swine. 2995

Nitrate-nitrite intoxication in swine. 3035

Pig health scheme. 3496

Interstate movement of vaccines and swine treated with such vaccines; notice regarding proposed amendments and of hearing thereon. 3507

Further data on hypovitaminosis A in swine. 3511

Fingerprinting disease. 3512

Vaccination against swine brucellosis. Second field test. 3530

Leptospirosis. 3547

Leptospirosis as a factor of abortion and sterility in female domesticated animals. 3550

Melioidosis in animals in north Queensland. VI. Serological methods of diagnosis in goats, pigs, cattle, horses, and man. 3561

Occurence of spontaneous atherosclerosis in the aortas of swine. 3564

Swine brucellosis. 3578

Influence of Streptococcus equisimilis on sites of endochondral ossification in swine. 3579

Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pommona. 3593

The incidence of metastrongylosis in swine slaughtered in the Manila abattoir. 3615

Parasites of sows and pigs in Europe. 3625

Biosynthesis of an estrogenic metabolite by Fusarium graminearum. (Abstract). 3696

Insects and mites of livestock and in farm buildings. 3792

Biochemical research on hog cholera. Behavior of some enzymatic activities in the serum. 4132

Animal food composition. Patent 3,428,457. 4159

Sulfadimethoxine injectable. Drugs for veterinary use; drug efficacy study implementation. 4180

The animal adenoviruses. 4217

Epizootics of trichinosis in pigs and its relation with anti-rat procedures using warfarin. 4227

Appetite suppression in hamsters and swine fed a dithiocarbamoylhydrazine (ICI 33828). 4241

Comparative toxicology of organic and inorganic arsenicals in swine. 4306

Proceedings of the American College of Veterinary Toxicologists, 1967. 4309

Respiratory disease in the pig. II. 4798

The focal distribution of lesions of porcine hypernatremic eosinophilic meningo-encephalitis for diagnostic purposes. 4803

Studies of serum enzymes in swine infected by two strains of hog cholera virus. 4804

Sudden death in feeder pigs. 4816

Characterization of a small porcine DNA virus. 4826

Pathological studies on pseudotuberculosis rodentium. III. Spontaneous swine cases. 4829

Therapeutic effect of SDDS (2-sulfamoyl-4,4'-diaminodiphenyl sulfone) on experimental toxoplasmosis. 4843

The pale muscle problem in pigs. 4845

Growth, feed efficiency and gross chemical composition in market-weight pigs as influenced by a combination of synthetic sex hormones and tylosin. 6420

Zootechnical initiatives carried out during 1966. 6422

Experiments with fattening pigs on pasture. 6426

Veterinary treatment of farm animals in the case of external radioactive contamination. First communication. Veterinary treatment of sheep and pigs externally contaminated with phosphorus32 and strontium89. 6428

Excretion of radioactive mestranol in the milk of animals. 6444

Bordetella bronchiseptica and infections of the nasal cavity in swine. 6457

Pig diseases. 6489

Investigations on the viruses of the Orphan type occurring in pigs in Poland. IV. Haematological findings in piglets artificially infected with virus L1. 6500

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VII. Influence of the Orphan virus L1 on the virus of hog cholera in swine kidney cell cultures. 6501

Disease prevention in the piggery. 6544

Characterization of Mycoplasma suipneumonuaii A mycoplasma causing enzootic pneumonia of pigs. 6597

Investigation on the viruses of the Orphan type occuring in pigs in Poland. III. Pathogenic properties of virus L1. 6645

Propagation of swine-fever virus in cell culture. 6655

The prophylaxis of so-called milk fever of sows. 6662

Pathology of extranasal lesions in experimental inclusion-body rhinitis of pigs. 6664

Eperythrozoonosis in swine: A review. 6669

Simultaneous prophylactic vaccinations of swine against hog cholera and pasteurellosis. 6673

Diarrhoea in pigs. 6699

The diagnosis of European swine fever. 6709

On antibody metabolism in pigs and calves, following the application of homologous and heterologous specific gamma-globulins. 6718

Dietary hepatic necrosis associated with selenium-vitamin E deficiency in swine. 6723

Fibrinous colitis in pigs. 6745

Immunoglobulin development in sera of pigs injected with killed suspensions of Salmonella choleraesuis. 6788

Contribution to atrophic rhinitis in pigs. 6803

Action of bacterial endotoxins on the blood circulation system with consideration of the relations to enterotoxemia (edema disease) of the swine. 6859

Biochemical and biophysical characteristics of vesicular exanthema virus and the viral ribonucleic acid. 6864

Relationship of aflatoxin to epizootics of toxic hepatitis among animals in southern United States. 6870

Hypovitaminosis A and hypomagnesaemia of swine. 6882

Investigations on the viruses of the Orphan type occurring in pigs in Polannd. V. Histopaphological changes in the central nervous system of piglets infected with virus L1. 6885

Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil. 6911

Worms in pigs. 6916

The investigation of alkaline phosphatase in the feces of pigs during experimental oesophagostomosis. 6931

Worm control in swine. 6942

Comparative susceptibilities of the cat and the domestic pig to the west African strain of Trichinella spiralis. (Owen, 1835). 6947

The value of some standardized Trichinella spiralis antigens, as estimated by intradermal tests. 6948

The investigations of main intestine enzymes--enterokinase and alkaline phosphatase in experimental pig trichocephaliasis. 6964

The dynamics of total protein amount and protein fractions in the blood serum during experimental pig trichocephaliasis. 6971

A physico-chemical approach to the serological diagnosis of cysticercosis. 6976

Adenosinetriphosphatase activity in muscle tissue mitochondria of swine ascarid (Ascaris suum, Goeze, 1758). 6990

Metastrongylus salmi Gepoelst, 1923--the pig parasite. 6996

Cytochrome c oxidase in migrating larvae of Ascaris lumbricoides var. suum. 7014

Anthelmintic treatment of sows with thiabendazole. 7015

Nebraska's specific pathogen-free (SPF) swine program; tenth year report. 7016

Experimental arsanilic acid poisoning in pigs. 7169

Applicability of mildew-infested wheat to feeding.- Short communication. 7214

Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine. 7869

A survey of diseases in fallow, Virginia and Japanese deer, chamois, tahr, and feral goats and pigs in New Zealand. 7875

Swine salmonellosis in a Hawaiian piggery. 7884

House fly, Musca domestica, control with chemosterilants and insecticides. 7927

Isolation of collagens of high hydroxyproline, hydroxylysine and carbohydrate content from muscle layer of Ascaris lumbricoides and pig kidney. 7941

Shell products for animal health. 6423

SWINE DYSENTERY
Sodium arsanilate tablets for water medication. Drugs for veterinary use; drug efficacy study implementation. 1084

SWINE ERYSIPELAS
The present clinical and pathological picture of chronic erysipelas infection in pigs. III-V. 344

SWINE HOUSES
Fumigation for lice control in pig breeding stock. 1722

SWINE INFLUENZA
Respiratory disease in the pig. II. 4798

SWINE PLAGUE
The effect of antibiotics on the immunity development to pasteurellosis in swine. 6592

SWINEPOX
Electron microscopic observations of inclusion bodies in swinepox. 6735

SYMBIOSIS
Trophic symbiosis between forest ants and plant lice with studies on the reciprocal effects between plant lice and plant tissues. 824

Honeydew as food of hill-building forest ants. 850

Host resistance responses- an induction hypothesis. 2139

Localization of dehydrogenases in the nodular tissues of leguminous crops. 3060

Sources of alcohol dehydrogenase (NAD0-LINKED) in the cockroach, Leucophaea maderae. 3187

Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae. 3208

Mycetangial glands and their seasonal changes in Gnathotrichus retusus and G. sulcatus. 3275

Mycorrhizae: Indispensable invasions by fungi. 3374

Cytology and cytochemistry of the mycetone of Pseudococcus maritimus (Earhorn) (Homoptera Coccidae. 4550

Comparison of the structure of symbiotic bacteria in various sap sucking insects. 5433

Preliminary studies on mycorrhiza in Adonis vernalis. 5991

Figs (Ficus spp.) and fig-wasps (Chalcidoidea). 6190

The evolution and significance of the epizoic mode of life in Chironomidae-larvae (Diptera). 7706

SYMMITICUS COSTATUS
Complement to the study of the larval biology of Symmiticus costatus Loew (Diptera Nemestrinidae), a grasshopper parasite, and general considerations on the biology of Nemestrinidae. 118

SYMPHYLA
Biological effects of starvation on the garden symphylan. 3306

Valley centipedes (Chilopoda, Symphyla) from northern Kentucky. 4362

A preliminary survey of the relationships between the soil fauna and the roots of fruit trees. 7827

SYMPHYTA
On sawflies synonyms (Hymenoptera, Symphyta). 656

Sawflies (Hym., Symphyta) in Berkshire: addenda and corrigenda. 785

Structure of the cryptonephridial malpighian region of the larval Hymenopteran Symphyta. 1460

Four new sawflies from Sweden (Hymenoptera, Symphyta). 4406

Sawfly studies (Hymenoptera, Symphyta). 7500

SYMPOSIA
Symposium: Mycosis. 2895

Symposium on Brucellosis in Ireland. I. Brucellosis: Bacteriology and epidemiology. II. Brucellosis: Serological diagnosis. III. Vaccines and brucellosis. 4260

The virus diseases of the rice plant. Proceedings of a symposium at the International Rice Research Institute, April, 1967. 5973

Tropical nematology. 6305

The Second International Symposium of Chironomid Research, Helsinki 1967. 7669

SYMPTOMATOLOGY
Diagnosis: A central pillar of insect pathology. 162

The present clinical and pathological picture of chronic erysipelas infection in pigs. III-V. 344

Medical observations concerning ornithosis control in the poultry industry. 365

A focal point of pseudorabies of dogs in the Department of Ain. 366

Swine mastitis-metritis agalactia syndrome. 369

Nutrient requirements of poultry. 397

Control of equine infectious anemia (swamp fever). 1059

Contribution to the study of the mode of action of certain synthetic insecticides, most particularly of Lindane, and of the phenomena of resistance to these compounds in Musca domestica L. 1457

Papular eruption secondary to thrips bites. 1534

Effect of infection by Hypomyces solani f. sp. Cucurbitae on apparent free space, cell membrane permeability, and respiration of squash hypocotyls. 1565

SYMTOMATOLOGY

Studies on Sclerotium rot of mints. 1577

The distribution of the Q fever agent in dairy cattle. 1683

Equine protozoan diarrhea (equine intestinal trichomoniasis) at Trinidad racetracks. 1729

Internal parasitism of dairy cattle. 1733

Specificity of insect viruses. 1987

Stem pitting of Italian prune. 2124

Bacterial fruit rot of watermelon in Florida. 2130

Local reaction and cross protection for strains of squash mosaic virus. 2131

Alfalfa mosaic virus-induced lesions on bean: Effect of light and temperature. 2133

Free amino acid contents in corn infected with maize dwarf mosaic virus and sugarcane mosaic virus. 2137

Host resistance responses- an induction hypothesis. 2139

Fruit rot of papaya (Carica papaya L.) caused by Macrophomina phaseoli (Maubl). Ashby. 2143

Fungal diseases of bananas in Hawaii. 2152

Stem pitting in Prunus spp. other than peach. 2154

Effects of temperature on expression and transmission of stubborn disease of citrus. 2161

Chemical and biological properties of phytotoxic glycopeptides isolated from Corynebacterium michiganense. 2167

Cucurbit virus studies in Hawaii. 2172

Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

Downy mildew of sorghum in Georgia. 2182

Citrus-root nematode in Iran. 2246

Equine protozoan diarrhea (equine intestinal Trichomoniasis) at Trinidad racetracks. 2278

Effects of whole-body irradiation on baby pigs (Sus scrofa). 2283

Eczema and liver disease in dogs (hepatodermal syndrome). 2287

Mycoplasma infection in a Wisconsin dairy herd. 2333

Hemangiosarcoma in a dog. 2342

Infectious peritonitis in cats. 2351

Effects of DDT on brain electrical activity in awake, unrestrained rats. 2352

Air pollution damage to chrysanthemum foliage. 2387

Gloeosporium. 2705

Virus diseases of lettuce. 2724

Control of tobacco mosaic virus in tobacco. 2731

Downy mildew of stocks. 2741

A fissure of physiological origin in carnation plants. 2742

A physiological defoliation of the rose. 2743

Trends in the development of plant virology. 2752

Apple and pear canker. 2762

Cauliflower mosaic. 2763

Barley yellow dwarf virus. 2767

Clinical signs and pathology of chronic pancreas diseases of the dog. 2893

Haemorrhagic nephritis in experimental bovine leptospirosis bratislava. 2901

The virus-caused respiratory diseases of the cat. 2906

Clinical signs and pathology of pancreas diseases of the dog. 2910

Bovine leukemia: A clinical, epidemiological and experimental study. 2931

Chlorothiazide. Drugs for veterinary use; drug efficacy study implementation. 2933

Salmonellosis in calves. 2935

Nocardia asteroides, cause of an endemic mastitis in the cow. 2950

Stomach worm disease in young cattle. 2999

First aid in cases of acute poisoning with agricultural pesticides. 3036

Electrocardiographic aspects of experimental methyl-parathion poisoning. 3041

Hypsipyla robusta Moore, a new host for Beauveria tenella (Delacroix) Siemaszko. 3224

Control of tobacco mosaic virus. 3366

Proteinaceous and virus-like inclusions in cells infected with beet mosaic virus. 3377

Care of tobacco seedlings. 3388

Powdery mildew of apple (Podosphaera leucotricha). 3396

Growth of Pseudomonas phaseolicola in susceptible and in resistant bean plants. 3397

Turf diseases. 3416

Brassica diseases. 3418

Further data on hypovitaminosis A in swine. 3511

Anthrax. 3526

Brucellosis. Some aspects of brucellosis in goats. 3529

Brucellosis in bulls. Correlations between clinical symptoms and agglutination test in blood serum and seminal plasma. 3532

Bovine Leptospira pomona infection: The disease in inoculated cattle. 3538

Mastitis. 3541

Leptospirosis. 3547

Contribution to the study of malignant ocular neoplasms in cattle. 3549

Pullorum disease--an important cause of chicken deaths. 3554

Anaphylactic shock type reactions subsequent to rabies vaccination of cattle. 3563

Swine brucellosis. 3578

An outbreak of infectious bovine keratitis in Kedah. 3583

Footrot in sheep. 3603

Boron nutrition of sugar beet, cotton, and soybean. 3699

The training course of the European Plant Protection Organization in England. 3914

Notes on the International Meeting on Virus and Virus Diseases of Grapes, held at Bernkastel (West Germany) in September 1967. 3938

Investigations on hydrangea ring spot virus and proof of its presence in Italy. 3942

Dutch elm disease detected in Alabama. 3947

Virus diseases survey on citrus in the Black Sea region. 3951

A flower blight of chrysanthemum in South Florida. 3955

Diseases and parasites of the rose. 3956

Broad-bean stain and true broad-bean mosaic virus. 3960

Aglaonema pictum, a new host of Erwinia chrysanthemi. 3982

A new virus disease of Carica papaya in India. 4005

Buggy-whip of corn and its relation to the incidence of common smut. 4017

Illustrative scales for the evaluation of potato scab and Rhizoctonia infection. 4024

Ragwort. 4073

Inherited resistance to sulfaquinoxaline toxicity in the chicken. (Abstract). 4111

Enterotoxaemia of calves evoked by Clostridium perfringens type B. 4114

Notes on toxicology: The clover. 4122

Contribution to the study of bovine mastitis due to fungi. 4125

Leptospirosis in Argentina. Diffusion, morbidity and nosological map. 4127

The infectious bursal agent and pathology of the disease. (Abstract). 4131

The pathology of avian osteodystrophy. (Abstract). 4136

Towards the eradication op bovine tuberculosis. 4172

The mycotic abortions in the cow. 4194

Contribution to the study of the treatment of bovine ketosis. 4200

Observations on septicemia of cattle caused by a Haemophilus-like organism. 4211

Milk fever in the dog. 4262

Contribution to the study of hydrogen sulfide poisoning of domestic animals. 4311

Chemical injury on Golden Delicious apples treated with diphenylamine. 4328

A preliminary study on the polyhedrosis virus of jute semilooper, Anomis sabulifera Guen. 4516

Poisoning of Pieris brassicae L. by an enzyme fraction of the toxin of the crystals of the strains Bacillus thuringiensis serotype U Berliner and serotype. III. Anduze. 4560

The problem of the potato blackleg disease. 4697

The viruses of the black and red currant. 4705

The role of nematodes in horticulture. 4767

Sudden death in feeder pigs. 4816

Effects of chronic exposure to zinc on toxicity of a mixture of detergent and zinc. 4894

Some pathological effects of sub-acute and acute poisoning of rainbow trout by phenol in hard water. 4898

Transmission experiments on the tungro virus in Thailand. 5429

In vivo and in vitro cytological diagnosis of densonucleosis in Lepidoptera. 5469

Some observations and comments on stem-pitting of peach, its control and a nursery improvement program. 5782

Snapdragon rust. 5882

Potato early blight and storage rot. 5911

The stripe smut problem in Merion Bluegrass. 5965

Cross interaction between different components of two strains of alfalfa mosaic virus. 6004

Peach leaf curl. 6006

Perennial canker and bull's eye rot of apples. 6007

Khaira disease of rice and its control. 6028

Etiology, symptomatology and epidemiology of a virus disease of cultivated mushrooms. 6069

Studies on resistance to yellow mosaic in barley. II. Comparison of varietal reactions to the viruses of different sources and relation between disease symptom and damage. 6103

Rubbery wood disease becomes more extensive. 6121

Leafspot of gardenia. 6126

Fusarium foot-and-stem disease of the carnation. 6127

'miracle' tree is in trouble. 6301

Enzootic abortion and sterility from bovine leptospirosis in the Po valley. 6488

Pig diseases. 6489

Actinomycosis of mandible gingivae. 6494

Observations on the causes of chronic bloating in young cattle. 6537

Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease. 6562

Outbreak of ornithosis in a flock of carrier pigeons in Copenhagen. 6584

Remarks on the receptivity of new born lambs towards the foot-and-mouth disease virus. 6649

The control of contagious abortion. 6702

Vaginal papilloma of the cat. 6706

Contribution to the traumatic splenitis and hepatitis in cattle. 6740

A study of experimental ornithosis in the white mouse infected through the peritoneal cavity. 6751

Experimental salmonellosis in swine and its clinical-hematological characteristics. 6825

Experimental studies on bovine tick-borne fever. 1. Clinical and haematological data, some properties of the causative agent, and homologous immunity. 6844

TGE prevention your goal. 6845

The canine leptospiroses. 6848

Action of bacterial endotoxins on the blood circulation system with consideration of the relations to enterotoxemia (edema disease) of the swine. 6859

Worms in pigs. 6916

Investigation of the effect of preparation Bayer 9015-12.50W.G. on adult Fasciola hepatica in sheep. 6922

Symptoms of intoxications by poisonous pesticides. (JPRS 46216) 7143

The management of cases of suspected poisoning. 7173

Diagnosis and treatment of poisoning in cats and dogs. 7183

Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

Teratogenic action of carbaryl in beagle dogs. 7202

Ethylene prevents normal photoperiodic response in Chrysanthemum morifolium. 7286

SYNANTHEDON TIPULIFORMIS

Some factors influencing the population dynamics of Synanthedon tipuliformis Cl. (Lepidoptera, Aegeriidae). 2826

SYNCHYTRIUM ENDOBIOTICUM

Breeding potatoes for resistance to wart and golden nematode. 5828

SYNERGISM

Drug residues, synergism and antagonism. 3017

Physiological factors influencing the toxicity of carbamate insecticides to insects. 3193

Studies on the increment of the efficacy of insecticides (IX). On the synergistic action of pyrethrosin with pyrethroid. 3826

Western pine beetle: Field response to its sex pheromone and a synergistic host terpene, myrcene. 5217

Oxidative metabolism of C14-labeled Baygon by living house flies and by house fly enzyme preparations. 5604

SYNERGISTS

The toxicological effect on animals of mixtures of chlorophos and DDT. 1156

Two types of carboxyesterase degrading malathion in resistant houseflies and their inhibition by synergists. 3859

Specificity in insecticides. 4507

Juvenile hormone: Activity of natural and synthetic synergists. 5238

SYNETA BETULAE

Leaf beetle larvae of the subfamily Eumolpinae and of Syneta betulae F. (Coleoptera, Chrysomelidae). 3840

SYNGAMUS TRACHEA

Seasonal dynamics of the invasion extensity of the nematode Syngamus trachea (Montagu, 1811) in breeding turkeys (Meleagris gallopavo f. domestica). 1728

SYNTHESIS

Synthesis of rubrosterone, a metabolite of insect-moulting substances from Achyranthes rubrofusca. 102

Constitution of a compound with a pronounced juvenile hormone activity. 1463

White eye, a new sex-linked mutant of Aedes aegypti. 1499

In vivo--produced anthrax toxin. 1663

Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis. 1811

Ribonucleic acid synthesis and glutamate excretion in Escherichia coli. 1833

A demonstration through symbiotic microorganisms of the effect of sterol synthesis in artificially fed aphids (Homoptera, Rhynchota, Insecta). 1955

Influence of aging on the rate of incorporation of tritiated thymidine in the nurse cells of Drosophila melanogaster. 2068

Aspects of RNA and protein synthesis in imaginal discs of Drosophila melanogaster. 2078

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection. 2142

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells. 2327

Control of DNA synthesis in cells infected with polyoma virus. 2894

Epidermal chalone and mitotic control in the Vx2 epidermal tumour. 2896

The proteins specified by herpes simplex virus. I. Time of synthesis, transfer into nuclei, and properties of proteins made in productively infected cells. 2973

Sources of alcohol dehydrogenase (NAD0-LINKED) in the cockroach, Leucophaea maderae. 3187

Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae. 3208

Conversion of serine to glycine during the formation of egg-shells in the silkworm, Bombyx mori. 3227

The production and effect of interferon on influenza virus growth in chick embryo lung epithelial and fibroblast cell cultures. 3546

Lipid metabolism in helminth parasites--VI. Synthesis of 2-cis,6-trans farnesol by Hymenolepis diminuta (Cestoda). 3621

Pinocytosis during vitellogenesis in the mealworm, Tenebrio molitor L. (Coleoptera, Tenebrionidae). 3789

Control systems in insect development. (abstract). 3872

Control of metabolism in the silkworm pupal ovary by the diapause hormone. 4508

An action of insect hormones on carbohydrate metabolism in insects. 4531

DNA synthesis in the neo-X neo-Y sex determination system of Dichroplus bergi (Orthoptera: Acrididae). 4633

Tritium labelling and cytochemistry of extra DNA in Acheta. 4642

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B. 4673

Regulation of branched-chain amino acid biosynthesis in Salmonella typhimurium: Isolation of regulatory mutants. 4801

Isolation of conjugation-constitutive mutants of Colicin factor Ib. 4832

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 4907

Synthesis of substances related to gibberellins. Part XVIII. Total synthesis of (plus or minus) gibberellins A A subscript 4, A subscript 9, and A subscript 10. 4935

Cytodifferentiation during insect metamorphosis: The galea of silkmoths. 5399

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae. 5468

Mutants at the bobbed locus in Drosophila melanogaster: Relation to ribosomal RNA synthesis . 5706

A study of the synthesis of lysopine from lysine by crown-gall tissues. 5994

Sequence of RNA synthesis in chick fibroblasts infected with Sendai virus. 6503

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD). 6536

Catabolite repression in Escherichia coli. A study of tow hypotheses. 6732

Effects of aflatoxin B1 on polysomal profiles and RNA synthesis in rat liver. 6793

Effect of DDT and dieldrin on RNA and protein synthesis in subcellular fractions of HeLa S cells. 7097

Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue. 7278

Effect of trifluralin on growth, morphology, and nucleic acid synthesis. 7292

The preparation of L- and D-alpha-amino-beta-methylaminopropionic acids and the identification of the compound isolated from Cycas circinalis as the L-isomer. 7311

Synthesis of compounds related to gibberellic acid. Iii. Analogs of ring A of the gibberllins. 7327

Chemical constitution and activity of bipyridylium herbicides- III Pyrazino(1.2.3.4-lmn)1,10-phenanthrolinium dibromide. 7330

(-)-pimaradiene: A new precursor of the gibberellins. 7337

Biosynthesis of gibberellic acid. A correction. 7338

Spiro thiophosphates. Patent 3,445,468. 7367

Patterns of ribonucleic acid synthesis in salivary glands of Rhynchosciara angelae larvae during development. 7723

The chemistry of GS 13005, a new insecticidal phosphoric acid ester. 7368

SYNTHETIC DIETS

Rearing three species of fruitsucking moths on artificial diets. 2548

Calcium alginate: A new approach in the artificial culturing of insects, applied to Spodoptera littoralis (Boisduval). 2620

Nutrition of the silkworm, Bombyx mori. XVI. Quantitative requirements for essential amino acids. 4451

A semi-synthetic diet for Eri-silkworm raising. 4492

The development of an artificial diet not containing leaf powder of any food plants for Eri-silkworm raising. 4493

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality. 4517

SYNTHETIC FIBERS

Notes on insect and gastropode damage to enclosed cotton plantations. 4671

SYRPHIDAE

Original descriptions, synonyms and geographical distribution of the species of the Syrphidae (Diptera) family in chile. 24

Hoverflies and a bug from Caernarvonshire. 609

Some notes on the Syrphidae (Diptera) of a Yorkshire clough. 610

On the syrphid larvae attacking the aphids in Japan (Diptera). 677

The male genitalia of some Criorhina Meigen species from North America (Diptera: Syrphidae). 857

Male genitalia of the Sericomyiini complex (Diptera: Syrphidae). 905

Syrphid inventory of the Heilooer collection. 1256

Hoverflies (Dipt., Syrphidae) from Spitsbergen. 1271

Mesosyrphus nigritarsis (Zett.) (Dipt., Syrphidae) a new species to the Dutch fauna. 1303

Faunal notes on Diptera in the Netherlands. III. 1346

Observations on the natural predators of the aphid pests in the Ranchi District with special reference to Chilomenes sexmaculata Fabr. 1459

New species of hover flies (Diptera, Syrhidae) from the Caucasus. 2527

Chromosomes of Syrphidae. IV. Karyotypes of fourteen species in the tribe Chrysotoxini. 3893

An epidemic of Entomophthora among syrphid flies of the region of Geneva. 4610

Flukea vockerothi, a new genus and new species of Chilean Syrphidae (Diptera). 5027

Oviposition responses by aphidophagous Syrphipae (Diptera). 5260

A contribution to the knowledge of the genus Spheginobaccha De Meijere (Diptera, Syrphidae). 7452

SYRUPS

Feeding bees. 7594

SYSTEMIC FUNGICIDES

Studies with two systemic fungicides, benlate and thiabendazole. 5962

Control of Armillaria mellea with systemic chemicals. 6018

SYSTEMIC INSECTICIDES

Designing systemic insecticides. 1829

Systemics, a new tool for the home gardener. 5688

Experiments to control acorn weevils with systemic insecticides. dorsey, c k. 6142

Control cotton insects . 6278

Cotton unaffected by systemics and herbicides. 7220

Stem applications of azodrin for control of the cotton fleahopper. 7838

T, 2,4,5-

Decay of rubber wood in a replanting and its effect on root disease. 245

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies . 1784

Some histological effects of 2,4,5-trichlorophenoxyacetic acid appied to mature apricot leaves. 1810

Effect of moisture stress on the absorption and transport of herbicides in woody plants. 1814

Comparison of herbicides and times of spraying for the control of blackberry (Rubus fruticosus). 2258

Ethylene: A factor in defoliation induced by auxins. 3051

Control of thorn trees can double veld capacity. 3343

Rainfall effects following herbicidal treatment of woody plants. 3487

Effects of foliarly applied desiccants on selected species under tropical environment. 3679

Response of woody species to 2,4-D, 2,4,5-T, and picloram as a function of treatment method. 3684

Defoliation effects on forest ecology. 4062

Defoliation effects on forest ecology. 4080

Blackberry control near orchards and vegetable gardens. 4770

Weed and brush control for drainage ditches. 6320

Repeated spraying to control southwest Oregon brush species. 6338

Broadleaf weed control in rice. 6370

Alligatorweed found in Arkansas. 6384

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies. 7078

Interaction of pesticides with natural organic material. 7081

Penetration of chlorinated phenoxyacetic and benzoic acids into leaves. 7289

TABANIDAE

New species of horse flies (Diptera, Tabanidae) from Palaearctica. 678

On the Norwegian Tabanidae (Diptera). 1272

New species of horse flies (Diptera, Tabanidae) from palaearctica. 1306

A new synonymy in Hybomitra (Diptera: Tabanidae). 1309

The collection of biting flies in west Texas with Malaise and animal-baited traps. 1383

Methods used in Utah for sampling Tabanid populations. 1423

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

Some data on the fauna and ecology of the tabanid flies (Diptera, Tabanidae) of north Belorussia. 2607

Collecting methods for Tabanidae (Diptera). 3084

Climate and the phylogeny and distribution of Tabanidae. 3746

The natural occurrence of surra in the African longhaired fox. 4236

Tabanidae (Diptera) of the Netherlands. 4403

Horse-flies (Diptera, Tabanidae) collected in the East Hindukush Mountains, Afghanistan. 5010

On ecology and phenology of Heptatoma pellucens F. (Tabanidae, Diptera). 5415

Notes on the horse-flies of Cuba (Diptera, Tabanidae). 7444

TABANUS

The influence of weather on the activity and behavior of greenhead flies, Tabanus nigrovittatus Macquart and Tabanus lineola Fabricius. 1413

Electrophysiological study of contact chemoreceptors in bloodsucking Diptera. 4624

Tabanus spodopteroides sp. n., a new horsefly species from the Tabanus bovinus group. 7517

TABANUS LINEOLA

The influence of weather on the activity and behavior of greenhead flies, Tabanus nigrovittatus Macquart and Tabanus lineola Fabricius. 1413

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

TABANUS NIGROVITTATUS

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

TABANUS RUBIDUS

Life-history and biology of Tabanus rubidus. 5610

TABLES (DATA)

Complement to the study of the larval biology of Symmiticus costatus Loew (Diptera Nemestrinidae), a grasshopper parasite, and general considerations on the biology of Nemestrinidae. 118

Morphological and biological investigations on clones and field populations of the foxglove-aphid, Aulacorthum solani KLTB. 1843 sensu latiore (Hemipt. Aphid.). 127

Effect of superparasitism on the development, sex ratio and progeny of Bracon greeni Ashmead. 139

Pre-gravid phase of ovarian development in Aedes detritus Aedes detritus Haliday. 151

Fenetic study of a mutation modifying the sensitivity of a lambda phage to immunity. 184

Official register of plant protection preparations-and equipment 1968. 189

Official register of plant protection preparations-and equipment 1967. 190

Methods concerning the determination of the effectiveness of insecticides against the European corn borer (Ostrinia (Pyrausta) nubilalis Hbn.) with small control tests and aerial chemical applications. 227

Physiologic races of Puccinia recondita f. sp. tritici in the United States from 1926 through 1960. 236

Physiological races of Puccinia striiformis in the wheat of Iran. 246

The susceptibility of some cultivated plants to Sclerotium rolfsii Sacc. 247

Biology of the spiny bollworm. 278

The influence of the sowing time on the intesity of attack by the panicle generation of frit fly (Oscinella frit L.). 288

Aphelenchoides bicaudatus, a parasite of cultivated mushroom. 299

The state of weeds when applying herbicides and insecticides in corn fields. 318

Concentration of certain myxoviruses with polyethylene glycol. 378

Gains from worm drenching ewe hoggets in South Canterbury. 445

Are fertilizers creating pollution problems. 468

Pesticide residue levels in foods in the United States from July 1, 1963, to June 30 1967. 475

Dieldrin effects in two generations of penned hen pheasants. 502

Household insecticides. 503

Effects of gibberellin on photosynthesis in red clover (Trifolium pratense L.). 542

The dosage of the insecticides: DDT, HCH and methoxychlor for chromatography on a thin layer and for polarography. 562

Farmers' expenditures for custom pesticide service in 1964. 574

Contribution to the study of the population dynamic of insects: 1. Stimulating action of the host, Acrolepia assectella Z., on the multiplication of an hymenoptera Ichneumonidae (Diadromus sp.). 828

Tolerance of spruce budworm to malathion; Montana, New Mexico populations show no differences. 839

The night-day activity rhythm of Tetratoma fungorum F. (Col., Tetratomidae). 885

1966 plant inspection statistics. 944

Extent of farm pesticide use on crops in 1966. 945

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season. 949

Vertical distribution of biological activity in peat of some virgin and drained swamp types. 950

On the precision of some methods of forest inventory. 951

Investigations on disease complex of rice in West Bengal (India). 1. Study of rhizosphere microflora of the affected plants. 967

Studies on the microfungi in the forest floor of subarctic pine forests. 983

Wheat as a stock fodder. 1056

Immunofluorescent demonstration of staphylococcal leucocidin components F and S. 1070

Retardation of flowering by auxin-gibberellin spray in Chrysanthemum morifolium. 1175

Studies of the useability of aluminumOxide for the cleaning of fat extracts for the gas-chromatographic analysis of residues of chlorinated insecticides. 1182

Field screening of new chemicals for herbicidal activity, 1968. 1189

Statistical inestigations of the accuracy of gas-chromatographic residue analysis. (Sources of error of the GCstandards). 1193

Pesticides industry: 15 Years of progress. 1201

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae. 1379

Studies on the fauna of mayflies (Ephemeroptera) in the environs of Cracow. 1398

TABLES (DATA)

A case of bacterial epizooty in a larval population of Selenephere lunigera Esp. (Lepidoptera, Lasiocampidae).
1485

Contribution to the study of temperature and humidity factors on the duration of the embryonic development of the Collembola Hypogastruridae.
1486

Some effects of the southern green stinkbug on soybeans.
1558

Effect of infection by Hypomyces solani f. sp. Cucurbitae on apparent free space, cell membrane permeability, and respiration of squash hypocotyls.
1565

New controls for peach fungus diseases.
1589

Analysis of the occurrence of nematodes in alfalfa crops. III. Some observations on age structure.
1627

Analysis of the occurrence of nematodes in alfalfa crops. I. Species composition of nematodes in two alfalfa crops of different age and penetration of species from soil to plants.
1629

Hydroxyproline formation and its relation to auxin-induced cell elongation in the Avena coleoptile.
1812

Studies on the biocidal activity of cyanomethyl xanthates.
1837

Separation of the free ninhydrin-positive fractions in Phormia and Drosophila using two-dimensional high voltage electrophoresis.
1940

The control of some species of pest insects by Bacillus thuringiensis.
1953

Control tests against Dacus oleae Gmel. in the coastal region of Tuscany during 1965.
1960

Specificity of insect viruses.
1987

Mass rearing technique of rice gall midge (Pachydiplosis oryzae Wood-Mason) and notes on its biology.
2002

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. I. Laboratory experiments.
2003

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. II. Experiments related to transmission in nature.
2004

Laboratory evaluation of several new insecticides for control of the pale western cutworm.
2012

Records of predators and parasites naturally prevalent in the Gujarat state.
2024

Certain minor crop pests hitherto unrecorded from the Gujarat state.
2025

Developing alfalfa resistant to alfalfa weevil oviposition.
2101

Germination, growth, and respiration rates of birdsfoot trefoil at three temperatures during the early nonphotosynthetic stage of development.
2110

Salmonella species. First isolations, names and occurrence. QR82.S27K4.
2303

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells.
2327

Preliminary reports on the Lepidoptera of Mount Terminillo.
2537

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea.
2613

Visual form discrimination of the honey bee within the range of 6- and 4-pointed stars.
2651

DNA base composition and hybridization in the taxonomy of phytopathogenic bacteria.
2729

Research results concerning means of agrochemical control of Agrobacterium tumefaciens.
2781

Some considerations on chemical weed control in Italian beet fields and a survey of some experimental data collected in 1966.
2856

Weed control tests in onion fields.
2858

Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones.
2880

Clinical signs and pathology of pancreas diseases of the dog.
2910

Notes on Pasteurella tularensis isolated from a vole, Microtus oeconomus Pallas, in Alaska.
2959

Experiences with culture media for selective microbiological analysis of meat products.
3007

A check of the resistance to washing of various pesticides on apples and grapes.
3028

The sterol esters of maize seedlings.
3055

Studies on the sterols and sterol esters of the intracellular organelles of maize shoots.
3056

Chemical control of the Gujhia weevil, Tanymecus indicus Faust. (Curculiondae: Coleoptera).
3082

Materials evaluated as insecticides, repellents, and chemosterilants at Orlando and Gainsville, Fla., 1952-1964.
3147

Isolation, identification, and synthesis of the sex attractant of the black carpet beetle. Final report, June 1, 1965 - October 31, 1967.
3148

A review of the problem of insecticide resistance in Australia.
3220

The influence of the width of black stripes on visual goniometry in the bee (Apis mellifera).
3307

Seed crops; annual summary, 1968: Acreage, yield, production, seasonal average price, value of production, by states. 1967-1968.
3344

Plain 1 and plains 2; new broomcorn varieties resistant to anthracnose stalk rot.
3378

Concerning the problem of the persistence of certain weeds in weeded cultures and in the fall sowing of the Banat region.
3467

Antibody titer against leptospira in liver- and other internal diseases.
3559

Foot-and-mouth disease immunity as dependent on vaccine dosis and on the reactivity of the organism.
3572

Parasites of Felis domestica from Belo Horizonte, Minas Gerais, Brazil.
3613

Investigation of the soil of a vineyard flooded with kerosine.
3652

The determination of dimethoate residues in fruits and vegetables.
3653

Papilionoidea and Hesperioidea (Lepidoptera) of the virgin forest of Bialowieski.
3758

Fauna and ecology of mosquitoes in the southern part of the Moscow district.
3770

Insects and mites of livestock and in farm buildings.
3792

Is it possible to predict apple moth infestations .
3868

Insect control for garden vegetables.
3916

Chemical weed control in sunflower cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4087

Harmlessness of herbicides for the biocenosis. In: Collection of reports geven at the International Herbicide Conference, Prague, June 21-24, 1966.
4090

Influence of various chelating agents on absorption of 60Co, 59Fe, 54Mn, and 65Zn by chickens.
4105

The boll weevil; How to control it. Part II.
4348

Choice of resting site by Noctuidae (Lepidoptera).
4352

Industrial tests of the biological preparation Entobacterin-3 in the USSR.
4489

Termite control in rubber plantations.
4521

Practical application of Bacillus thuringiensis.
4612

Caterpillar size and the dosage of Bacillus thuringiensis preparations.
4621

Preservative treatments and service life of fence posts in Puerto Rico.
4658

Rhizosphere root exudates and their effect on microbial activity.
4662

Red rot in residual ponderosa pine stands on the Navajo Indian Reservation.
4663

Changes in fungi with age. iv. Role of coenzymes in the respiratory decreases in Rhizoctonia solani and Sclerotium bataticola.
4669

The use of growth promoters to increase potato yields.
4677

Studies on Phyllosticta blight of rice.
4703

The inheritance of a new source of resistance to the potato virus Y in pepper (Capsicum annuum L.).
4713

Fusarium foot rot of kenaf (Hibiscus lannabinus L.) in Iran.
4723

Study of the dependence of the population dynamic of the apple moth (Carpocapsa pomonella L.) on the fruit yield of the hostplant.
4755

Resistance of Lycopersicon species to the carmine spider mite.
4760

Possibilities of limiting tillage measures in potato cultures when using herbicides. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4773

Results of tests with a new corn cultivation technology, using a minimum of work effort and the effectiveness of new herbicides under the conditions prevailing in the Socialist Rumanian

Republic. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4783

Bacteriostatic properties of milk from tropical countries.
4868

Pesticides in water, Pesticides in selected western streams--A contribution to the national program.
4870

Pesticides in hatchery trout---differences between species and residues levels occuring in commercial fish food.
4874

Residues in fish, wildlife, and estuaries. Chlorinated pesticide levels in the Eastern oyster (Crassostrea virginica) from selected areas of the South Atlantic and Gulf of Mexico.
4875

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas.
4876

Residues in food and feed. Chlorinated pesticide residues in fluid milk and other dairy products in the United States.
4880

An evaluation of the effects of the Aedes aegypti eradication program on wildlife in South Florida.
4884

Pesticides in people. Storage of DDT in the people of Israel.
4890

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings.
4903

Trials with carbon dioxide, light and growth substances on forest tree plants.
4909

Ribonucleic acids in crown-gall bacteria, Agrobacterium tumefaciens (Smith and Town), treated with sodium borate.
4911

Effect of gibberellic acid on the fruit-set, and partheno-carpic development of fruit in Bhokri grapes. (Vitis vinifera L).
4919

Structure of Klein's metabolites of aldrin and of dieldrin.
4926

Transmission experiments on the tungro virus in Thailand.
5429

Anthracnose resistance in anthurium.
5866

Results from the International Septoria assortment in 1966.
5876

Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil.
5880

Factors affecting infection of balsam fir (Abies balsamea) by Stereum sanguinolentum in Quebec.
5924

Breeding for Septoria and Fusarium resistance in wheat.
5925

Khaira disease of rice and its control.
6028

Investigations on yellow rust in wheat and barley, 1962-1965.
6096

Results of tests of fall colza varieties 1963-1966.
6120

Long distance dispersal of seeds by retention in digestive tract of birds.
6436

S.N.F. content of milk.
6446

Ovine anti-brucellosis serology. Vaccine and infectious antibodies. Serums negative to the sero-agglutination of Wright and positive to complement deviation.
6689

Catabolite repression in Escherichia coli. A study of tow hypotheses.
6732

Blood parasites found in imported birds at post-mortem examination.
6987

Table of human infections. In: Diseases of man acquired from his pets.
7146

Aflatoxin in the groundnut crop at harvest in Northern Nigeria.
7185

On the behavior of xanthurenic acid in rabbits treated with massive doses of pyridoxine.
7203

The effect of herbicides and cultivation measures on the yield of corn.
7271

The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections.
7297

Substituted phenyl-N-methylcarbamates. Cholinesterasis inhibition and insecticidal action.
7382

Log-normal spray drop distribution analyzed by two new computer programs.
7402

Distribution of lake-dwelling Chironomidae (Diptera) in the Alpine Region.
7527

Entomological evaluation within the Colusa project.
763

TACHINIDAE

Tachinidae catch in the Swiss Jura, using tent traps.
30

Contributions to the study of Phasiinae cimicophages (Diptera Tachinidae). 35. Taxonomic and biological studies of Clairvillia biguttata and the related European Leucostomatina.
618

Review of the parasitic Diptera of the genus Eriothrix Meigen (Diptera, Tachinidae) in the USSR.
650

A preliminary list of Tachinidae (Diptera) from Japan.
664

A new genus of parasitic tachinid flies (Diptera, Tachinidae) from Soviet Central Asia.
694

Alophora obesa F. (Dipt., Tachinidae) bred from Neottiglossa pusilla Gmel. (Hem., Pentatomidae).
740

A new genus of parasitic tachinid flies (Diptera, Tachinidae) from Soviet Central Asia.
1320

The life history and development of Lypha dubia Fall. (Dipt., Tachinidae).
1371

Meigenia mutabilis Fall. (Dipt. Tachinidae) as a parasite of Oulema melanopa L. and its relation to Leptinotarsa decemlineata Say.
2544

A tachinid parasite of Australian grasshoppers.
2545

On the occurrence and seasonal dynamic of Diptera, Tachinidae in the reservation area of Jasov.
3808

Review of the parasitic Diptera of the genus Eriothrix meigen (Diptera, Tachinidae) in the USSR.
3838

New species of the genus Trachina Mg. (diptera, Tachnidae), parasites of injurious Lepidoptera in the Ussr.
4445

A new Chilean species of Opsophagus aldrich, 1926, (Diptera, Tachinidae).
5008

Record of a Tachinid parasite, Alsomyia anomala Villen, Sesamia inferens Wlk..
5400

A review of the genus Juriniopsis Townsend (Diptera: Tachinidae).
7533

Study on the Japanese Calocarcelia Townsend and Eucarcelia Baranov (Di ptera: Tachinidae).
7544

TAENIA

AH-NBC capsules. Drugs for veterinary use; drug efficacy study implementation.
2365

The guilty fox.
6977

TAENIA HYDATIGENA

Morphologic and histochemical studies on the nervous system of tapeworms revealed by the cholinesterase method (Taenia hydatigena, Dipylidium caninum and Moniezia expansa).
6963

Spectrophotometric studies on the succinate oxidase system of Taenia hydatigena.
7933

TAENIA PISIFORMIS

General method for the culture of helminths in anaerobic conditions.
4854

TAENIA SAGINATA

Redescription of Taenia solium Linnaeus, 1758 and Taenia saginata Goeze, 1782.
1773

TAENIA SOLIUM

Redescription of Taenia solium Linnaeus, 1758 and Taenia saginata Goeze, 1782.
1773

TAENIA TAENIAEFORMIS

Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis: V. Glycogen synthesis, metabolic endproducts, and carbon balances of glucose and glycerol utilization.
1732

TAENIASIS

·Pharmacodynamic properties on new anthelmintics.
2994

TAENIOTHRIPS

Preliminary note on a review of subgenus Taeniothrips (Isochaetothrips) (Thysanoptera: Thripidae).
5139

TAGALIS

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae).
3105

TAHYNA VIRUS

Food sources of some mosquito species in the natural focus of Tahyna virus in southern Moravia.
3854

Hemagglutination inhibiting antibodies to arboviruses in the population of Hajdu-Bihar District, Hungary.
4167

Experimental infection of the bat Myotis myotis Borkhausen with the Tahyna virus.
6674

TAKE-ALL

An aerial view of take-all.
5863

Notes on the appearance in France of Ophiobolus graminis, avenae variety.
5995

TANGELOS

GA increases tangelo yields.
530

TANK TRUCKS

Sodium tri-polyphosphate carried by tanker.
4950

TANYDERIDAE
Undescribed species of nematocerous Diptera. IX.
4983

TANYTARSUS LEWISI
Insecticidal operations against chironomid midges along the Blue Nile.
5240

TAPHRINA DEFORMANS
Peach leaf curl.
6006

TARAXACUM
The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae).
5166

TARSONEMIDAE
What the practitioner should know about arthropods.
3740

TARSONEMUS
Polarized light observations on striated muscle contraction in a mite.
5198

TAXONOMY
Some thoughts on the taxonomy of Bacillus thuringiensis Berliner.
124

Eelworm in tea: Some important groups.
296

Nematodes of the Northern Great Plains.
300

New Hoplisoides from the United States (Hymenoptera: Sphecidae).
598

The genus Ischnothyreus (Araneae, Oonopidae) in Central America and the West Indies.
605

Strepsiptera from the Smithsonian Institution's survey of Dominica, with description of a new species of Elenchidae.
621

New species of Erythroneura related to Erythroneura dira (Homoptera: Cicadellidae).
631

Revision of the North American species of Slaterocoris (Heteroptera:Miridae).
642

A new genus of Bruchidae from South America, with the description of a new species (Coleoptera).
646

A new species of the genus Macrocephalus Swederus from Mexico (Hemiptera: Phymatidae).
651

Two new species of Gigantolaelaps (Acarina: Laelaptidae) with a key to the females.
655

A new species of Alysia parasitic on carrion-feeding flies (Hymenoptera: Braconidae).
661

Swarming of lonchaeid flies and other insects, with descriptions of four new species of Lonchaeidae (Diptera).
663

Observations and records for some British Thysanoptera. VII. Thripidae, Thrips flavus Schrank and Thrips brevicornis Priesner.
670

The status of the name Prosimulium albionense Rothfels.
681

A review of the genus Turacoeca with description of a new species (Mallophaga: Menoponidae).
687

Neuquenaphis papillata, a new Nothofagus-infesting aphid from Chile, with a review of related species from South America (Homoptera: Aphididae).
691

A new species of Iziphya from Ontario and Quebec, with a review of the nearctic species (Homoptera: Aphididae).
692

Calaphis manitobensis, a new aphid collected on Betula pumila in Manitoba (Homoptera: Aphididae).
693

Notes on a few Mexican Scarabaeidae (Coleoptera).
695

Two new species of crab spiders (Araneae: Thomisidae) from North Dakota.
700

A new species of Agathymus and a new subspecies of Megathymus (Lepidoptera, Rhopalocera, Megathymidae).
705

The genus Somatia Schiner, II. (Diptera: Somatiidae).
708

Selection of lectotypes for some species of Euxoa Hubner described by J. B. Smith (Lepidoptera: Noctuidae).
712

Notes on the mallophagan genus Comatomenopon and descriptions of two new species.
713

The Orthoptera of Alaska, Yukon and the MacKenzie district of the Northwest territories.
715

New record of Agriosphodrus dohrni Signoret from Shikoku (Hemiptera: Reduviidae).
729

Sibling species in the Eurytoma rosae group. (Hym., Eurytomidae).
772

Serological classification of Soviet strains of Leptospira belonging to the group Hebdomadis.
1060

On Fischoederius cobboldi--a pouched amphistome from cattle in India.
1129

A new species of Phaeophleospora affecting Achras sapota L.
1556

Variability in Candida albicans (Robin) Berkhout. I. Studies on morphology and biochemical activity.
1655

A contribution to the systematic position of Aegyptianella pullorum Carpano, 1928.
1667

On the synonymy of the genus Artyfechinostomum Lane, 1915 (Trematoda: Echinostomatidae).
1764

Cestodes of vertebrates XI.
1768

Redescription of Taenia solium Linnaeus, 1758 and Taenia saginata Goeze, 1782.
1773

Rainbow's end: The quest for an optimal taxonomy.
1885

Rondonema thapari n. sp. from the millipede (Spirostreptus sp.).
1958

On a known and some new species of insect nematodes.
1959

A new species of Salmonella of Nigerian origin, Salmonella Biafra. (3, 10:z10:26).
2439

A new species of Colpocephalum (Hallophaga: Menoponidae) from the kea.
2517

Electron microscopy of plant viruses. Bibliography 1935-1965.
2714

DNA base composition and hybridization in the taxonomy of phytopathogenic bacteria.
2729

The special forms in the classification of phytopathogenic bacteria.
2793

Discocriconemella yossifovichi n. sp. (Nematoda: criconematidae) on grape vine in Yugoslavia.
2838

Salmonellosis.
2900

Malaria in mammals excluding man.
2908

Evolutionary trends in mammalian trypanosomes.
2917

Influenza in animals.
2939

East Coast fever.
2981

Rediscovery of the type of the milliped, Harpaphe telodonta (Chamberlin)(Diplopoda: Eurydesmidae).
3089

The genus Phytoseius Ribaga,1902 (Acarina: Phytoseiidae).
3093

Integrated pest control and its relationship to the taxonomy of useful and noxious insects.
3099

A new species of Stethorus Weise (Coleoptera-Coccinellidae), feeding on arecanut palm mites in Kerala, southern India.
3109

Taxonomy, ecology and biological control.
3114

Common names of British insect and other pests.
3135

Isopoda terrestria of Turkey, 4th report, and on the adaptation to volvation in the families of Armadillidiidae, Eubelidae and Armadillidae.
3137

Systematic foundations of forest ant reproduction in Germany.
3234

Cooperative description of type cultures of Strepomyces. II. Species descriptions from first study.
3349

Contributions to the knowledge of Analgesoidea of Czechoslovakia.
3743

Phoma exigua Desm. and its varieties.
3945

The role of systematics in biology.
4344

Taxonomic notes on the larva of British Diptera. no. 25, The larva and pupa of Dioctria rufipes (Degeer) (Asilidae).
4363

Classification of the strains of Bacillus thuringiensis.
4485

The infrastructural morphology of Pillotina calotermitidis nov. gen., nov. sp., a Spirochaetales of the intestine of Calotermes praecox.
4513

Theory of classification of the densonucleose viruses , based on the study of molecular structures and physiochemical properties.
4823

A new kind of Macrosiphoniella (Macrosiponiella Haerelli n. sp.(Aphididae)) of Artemisia rupestris.
5058

A new species of Batyle from Utah (Coleoptera: Cerambycidae).
5082

Parachernes (Arachnida, Chelonethida, Chernetidae) from the coast of North Carolina.
5107

What is Psallus dilutus Fieber 1858 (Hem.,Het.,Miridae.
5165

On a new species of Mirzaiella Basir, 1942 from Gryllotalpa africana. 5302

The classification of strains of Bacillus thuringiensis on the basis of the antigenic patterns of the toxic protein inclusions. 5521

Description and taxonomic position of the DD-136 nematode (Steinernematidae, Rhabditoidea) and its relationship to Neoaplectana carpocapsae Weiser. 5533

An Enterobryus (Trichomycetes, Eccrinales) in a milliped. 5544

Zoological nomenclature in the Jet Age. 5577

On the domestic geese coccidia in the Lithuanian SSR. 6473

Eurycestus avocetti Clark, 1954 (Cestoda, Cyclophyllidaen parasite of the Avocet in Camargue. 6914

Pelecitus ceylonensis n. sp. from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 6938

Brachylaima degiustii n. sp. from Columba livia in Venezuela. 6980

Contribution to the knowledge of the variability of the species Lithobius lucifugus L. Koch, 1862 (Chilopoda). 7438

Contribution to the ecology of the scorpions (Bothriuridae). The habitat of three species of Bothriurus in Uruguay and its application in systematics. 7534

The Uredinales on Mexican Gramineae. 7775

The bases of defferentiating Sclerospora philippinensis Weston as a species distinct from Sclerospora sacchari Miyake. 7779

TAXUS

Control of some pests of evergreens. 6162

TBA

Progress and goals of chemical weed control. 2871

TCA

Perennial weed grasses and their control in relation to cereal growing. 2859

Chemical weed control in tropical root crops. 6352

TDE

Pesticides in hatchery trout---differences between species and residues levels occuring in commercial fish food. 4874

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas. 4876

An evaluation of the effects of the Aedes aegypti eradication program on wildlife in South Florida. 4884

Problems in monitoring DDT and its metabolites in the environment. 4889

Pesticides in people. Storage of DDT in the people of Israel. 4890

Conversion of DDT to DDD in soil and the effect of these compounds on soil microorganisms. 5809

Effect of some pesticides on the adrenal glands in the rat. 6424

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD). 6536

In vitro degradation of DDT by intestinal contents of Atlantic salmon (Salmo salar). 7096

TDE (or DDD). Proposed reduction of tolerances for residues in or on raw agricultural commodities. 7120

Pesticide residues - USDA'S position. 7139

Conversion of DDT to DDD by pathogenic and saprophytic bacteria associated with plants. 7254

Residues in milk of cows fed rations containing low concentrations of five chlorinated hydrocarbon pesticides. 7860

Pesticide residues in total diet samples. 7961

FDA publishes proposal for residue tolerance in milk,. 8018

TEA

How to produce high yields. 194

Sampling pests and diseases of tea: III. 208

Sampling pests and diseases of tea. II. 254

The need for conserving natural enemies of pests. 270

Ethion a new acaricide for control of red spider, scarlet, pink and purple mites. 284

Eelworms in tea: Some problems. 295

Eelworm in tea: Some important groups. 296

Developments in the control of tea pests. 1580

Control of mites in tea results in increased yields. 1613

The question of resistance to pesticides. 5207

The distribution and host-range of the Shot-hole Borer (Xyleborus fornicatus Eichh.) of tea. 5278

A new chemical for control of scarlet and pink mite. 5484

TEATS

A protective bag for teats of cows as a preventive measure against mastitis. 1103

TEETH

Fluorosis in cattle and sheep, observed around industrial plants in Bulgaria. 7205

TEGULA

Three species of Mexican Krombeinia having an elongated tegula with an extended apical angle (Hymenoptera: Tiphiidae). 3793

TELENOMUS

Palearctic species of egg parasites of the genus Telenomus Haliday (Hymenoptera, Scelionidae, Telenominae). 827

TELEOGRYLLUS COMMODUS

Inter-racial mating of a non-diapausing and a diapausing race of Teleogryllus commodus (Walk.) (Orthoptera: Gryllidae). 2587

Cytological studies of Antipodean Teleogryllus species and their hybrids (Orthoptera: Gryllidae). 4641

TEMPERATURE

Effects of temperature and water on viability and virulence fo Bacillus thuringiensis var. thuringiensis Berliner spores. 106

Effects of temperature and photoperiod on larval development in Lestes eurinus (Odonata: Lestidae). 123

The effect of bioclimate on the communication system of night-flying moths. 170

The effect of mucin on the amino acid absorption in the rat intestine. 203

The effect of temperature and fumigation on the nitrification rate in soil. 215

Hindsight and foresight can control cotton seedling disease. 222

Didymella bryoniae, a new fungus parasite of cucumber cultures. 232

Bacterial stripe blight of oats caused by Pseudomonas striafaciens (Elliott) Starr et Burkholder. 260

Biology of the spiny bollworm. 278

The influence of the sowing time on the intesity of attack by the panicle generation of frit fly (Oscinella frit L.). 288

Studies on acute Marek's disease. VI. Body temperature of infected chickens. 354

The inactivation effect of beta-propiolactone on the virus or the classical fowl plague. 404

Effect of warming cycles during storage on the behavior of Jonathan and Granny Smith apples in cool storages. 454

Effect of DDT on temperature selection by young atlantic salmon, Salmon solar. (Abstract). 484

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera). 638

Seasonal and daily chirping cycles in the northern spring and fall field crickets, Gryllus veletis and G. pennsylvanicus. 738

The effect of ecological conditions on the appearance of an intestinal bacterial disease in Thaumetopoea pityocampa Schiff. 744

Manifestations of viral infection in Agrotis segetum Schiff. and in Hadena sordida BKH under conditions of the simultaneous existence of two viruses. 771

Studies on free colonies of Cryptocerus texanus Santschi (Hymenoptera: Formicidae). 776

Compared activity of the different pathogens to the larvae of common cockchafer (Melolontha melolontha L.). 812

Differential spectra of cytochromes in development of the flight-muscles in Antheraea pernyi. 821

On the effect of lower temperatures on several sawfly larvae (Hymenoptera, Tenthredinidae). 834

Ecology and biogeography of high altitude insects. 841

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 867

TEMPERATURE

A preliminary observation on cannibalistic habit in Hieroglyphus nigrorepletus Bolivar (Orthoptera: Acrididae). 869

Ecology of virus diseases of insects. 899

The influence of selection and mating systems on larval weight in Tribolium. 931

The mite battle goes on and on. 992

Investigations of the population fluctuations of Oscinella frit. (abstract). 1004

The biology of Rotylenchulus parvus. 1023

Effect of volatile fatty acids on Salmonella typhimurium. 1071

Sugar transport in Mycoplasma gallisepticum. 1099

Dietary efficiency of natural foods for the growth and development of Tribolium castaneum Hbst. and Corcyra cephalonica Staint. 1160

Cycad husk from Guam: Its toxicity to rats. 1162

The interaction of coumarin and temperature in the germination of lettuce seed. 1163

On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers. 1169

Studies on some land snails injurious to agriculture in U.A.R. 1363

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae. 1379

Hypersensitivity of Nicotiana Xanthi n. c. to virus, temperature, and soluble proteins. 1396

Effect of food and temperature on Aedes aegypti (L.) and Aedes triseriatus (Say) larval development. 1418

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. 1427

Temperature and lifespan in Drosophila. 1429

Investigation into the diapause, capacity adaptation and temperature resistance of several insects and snails. 1453

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 1461

Contribution to the study of temperature and humidity factors on the duration of the embryonic development of the Collembola Hypogastruridae. 1486

The nervous control of insect flight and related behavior. 1491

Temperature sensitivity of segregation-distortion in Drosophila melanogaster. 1511

Temperature-sensitive mutations in Drosophila melanogaster, I. Relative frequencies among gamma-ray and chemically induced sex-linked recessive lethals and semilethals. 1521

The role of convection currents in mosquito attraction to human skin. 1535

Susceptibility to insecticides of certain anophelines according to the time of catch and testing. 1541

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction. 1584

Analysis of the occurence of nematodes in alfalfa crops. II. Abundance and quantitative relations between species and ecological groups of species. 1628

Herbicide research and finesse. 1639

Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 1649

The heat resistance of Salmonellae in egg albumen. 1777

An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

Factors influencing growth and morphology of Candida albicans in a marine environment. 1820

Temporal distribution of Tribolium castaneum Herbst and Cadra cautella Walker on temperature gradients. 1917

Adaptations to temperature in geographic races of the Queensland fruit fly Dacus (Strumeta) tyroni. 1926

Behavioral and physiological aspects of mating and oviposition by the adult western corn rootworm, Diabrotica virgifera LeConte. 1936

Hints on the permanent rearing of Dacus oleae Gmelin (Diptera, Tyrpetidae)in the laboratory. 1938

Biology and colonization of the winter tick in the laboratory. 1952

Principles of crowding effect in Aphis gossypii Glover (Aphididae, Homoptera). 1975

Dispersal and local distribution of laboratory-reared sterile screw-worm flies released in winter. 1980

The possibility of the occurrence of warm- and cold season relicts on the Zitzmannsdorf meadow at the Neusiedler lake. 1995

Flight and ground collection records of Costelytra zealandica (White) at a site in Canterbury, New Zealand. 1996

Environmental factors regulating the diurnal vertical migration of Chaoborus larvae. 2000

The effect of climatic integrants on population fluctuations of the Columbian timber beetle Corthylus columbianus Hopkins (Coleoptera; Scolytidae). 2015

Laboratory rearing of aphids. 2019

Histopathology of the developing reproductive system of Aedes stimulans (Walker) (Diptera: Culicidae) under thermal stress. 2026

Isolation of the population aggregating pheromone of the southern pine bettle. 2033

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

Photoperiodic induction of vernal phenotype in Pieris protodice Boisduval and Le Conte (Lepidoptera: Pieridae). 2047

Hourly and seasonal collections of six harmful insects in traps equipped with blacklight lamps. 2056

Physiological bases for the luring and catching of insects. 2069

Seedlings vigor evaluation of four birdsfoot trefoil varieties grown under two temperature regimes. 2106

Germination, growth, and respiration rates of birdsfoot trefoil at three temperatures during the early nonphotosynthetic stage of development. 2110

Alfalfa mosaic virus-induced lesions on bean: Effect of light and temperature. 2133

Effects of temperature on expression and transmission of stubborn disease of citrus. 2161

On the incubation period of Puccinia horiana. 2197

A mass screening procedure for isolating alfalfa seedlings with resistance to the alfalfa weevil. 2204

Effect of temperature, light, and date of collection on the feeding rate of the sweetclover weevil. 2209

Damage by the strawberry spider mite to cotton when infestations commenced at the beginning, middle, and end of the flowering period. 2228

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato. 2247

Some observations on the biological cycle of Tylenchulus semipenetrans Cobb, 1913 (Nematoda, Tylenchulidae). 2250

Nebraska root-gall nematode of sugar beets. 2253

Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363

Comparative review of BHC dust and malathion emulsion as agents for disinfestation on the basis of past experience. 2379

Influence of moisture content, temperature, and time of storage upon invasion of rough rice by storage fungi. 2380

Epoxidation of aldrin by plant materials. 2457

A portable instrumented tower for use in meteorologically related research. 2468

Overwintering habits of Orthopodomyia californica Bohart (Diptera: Culicidae). 2540

The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L. 2558

Investigation of the effect of governing chemical compounds in trees on bark beetle orientation. 2593

Ecology of Laccifer lacca Kerr (Homoptera, Coccoidea) under the conditions of the Black Sea coast of Georgia. 2594

Consumption of nutritional reserves by hungry females Ixodes persulcatus P. Sch. during the life cycle. 2595

The specificities of alimentary canal carbohydrases of the cockroach, Blaberus craniifer Burmeister. 2618

Influence of some environmental factors on the viability and hatching of Aedes aegypti (L.) eggs. 2621

Sub-zero mortality responses of Tribolium confusum Duval (two stocks) and T. castaneum (Herbst) (four stocks) analyzed by weighted regression lines based on individual temperature LD50 s. 2626

On the photoperiodic reaction of Chilocorus renipustulatus Scriba (Coleoptera, Coccinellidae). 2629

Experimental analysis of phenology of the European red mite Panonychus ulmi Koch (Acarina, Tetranychidae). 2642

Studies on the scutellar bristles of Drosophila melanogaster. I. Basic variability, some temperature and culture effects, and responses to short-term selection in the Oregon-RC strain. 2681

A physiological defoliation of the rose. 2743

The inheritance of resistance to stem and crown rust in Kyto oats. 2759

An investigation of certain factors in the host-pathogen relationship of Cercospora arachidicola on the peanut plant Arachis hypogaea var. Argentine. 2790

Psylla pruni Scop.-The plum psylla. 2801

Environmental biology of Eriosoma pyricola Baker and Davidson. 2822

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. II. Selected environmental and nutritional factors affecting development and sex ratio. 2834

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character. 2911

Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 3032

Growth and resistance to stress in brook trout fed sublethal levels of DDT. 3040

Influence of refrigeration on aflatoxin production. (abstract). 3044

Storage effects on forcing response and gibberellin levels in easter lilies. 3053

Lethal limits of low temperature for the alfalfa weevil in Illinois. 3155

Rearing Euleucophaeus rubridorsa and E. lex (Saturniidae). 3204

Feeding larvae of the Japan beetle in the laboratory. 3209

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana. 3217

Minor brood diseases and disorders. 3248

The determining factors in the appearance of winged forms among aphids. 3268

Mycetangial glands and their seasonal changes in Gnathotrichus retusus and G. sulcatus. 3275

A simple method for measuring the motor activity of fleas (Xenopsylla cheopid Roth.). 3285

Chronic melanization in the eggs of Aedes aegypti. 3304

Inactivation of lettuce necrotic yellows virus by chelating agents. 3355

Some cultural studies on Rhizoctonia solani the causal organism of sheath blight of paddy. 3382

Botrytis disease of lettuce. 3391

Temperature and relative humidity regimes in the pine stump habitat of Fomes annosus. 3412

Canonical correlations of seed viability, seed-borne fungi, and environment in bulk grain ecosystems. 3414

Effect of temperature on resistance in lima bean, tomato, and chrysanthemum to Liriomyza munda. 3453

How herbicides work. 3464

Ecological aspects of weed control in cotton in the Ord River valley, W.A. i. Conditions affecting germination of weeds. 3482

Electron microscopic aspects of germs of Pasteurella animalium (P. multocida) in different stages of incubation and conservation. 3595

Low temperature growth of Salmonella. 3638

Breakdown and weight loss in Red Jonathan apples in controlled atmosphere storage. 3639

A note on the salmonella problem in the United States. 3645

Process for detecting staphylococcienterotoxin in foodstuffs Patent 3,408,259. 3646

Salmonella organisms in milk powders, The characteristics and importance of Salmonellae. 3648

Process for de-toxifying substances contaminated with aflatoxin. Patent 3,429,709. 3672

Dissipation and phytotoxicity of dicamba. 3687

Growth responses of Marquillo X Kenya Farmer wheat dwarf 1 and 2 to gibberellic acid, kinetin, and indolebutyric acid under controlled environmental conditions. 3714

Dissipation of herbicides at three soil depths. 3722

Temperature and circadian control of cuticle growth on the bug, Oncopeltus fasciatus. 3814

Changes in gonads and primary sexual characters in triploid intersexes of Drosophila melanogaster (Diptera) exposed to the effect of different temperatures. 3842

The influence of photoperiod and temperature on the induction of diapause in mulberry pyralid, Glyphodes pyloalis Walker. 3858

Studies on sex pheromones of pyralididae. II. Mass rearing of virgin females of the almond moth, Cadra cautella Walker (Phycitinae). 3880

Effect of rearing condition on growth and development of the silkworm, Bombyx mori L., on artificial diet. II. 3882

Electrifying agriculture and horticulture. 3921

The effect of temperature on ascospore release by Scleroderris lagerbergii. 3928

Freezing and thawing of purified suspensions of the tobacco mosaic virus and its effect on infectivity. 3944

Low temperature sprays for Dutch elm disease control. 3957

Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract). 4118

Effect of environmental temperature on iron deficiency anemia in Athens-Canadian randombred chicks. 4257

Effect of storage on cottonseed and cottonseed products. 4283

Control of metabolism in the silkworm pupal ovary by the diapause hormone. 4508

Further notes on the reproductive biology of the earwig Forficula auricularia L.. 4510

Experiments on the milky disease of the larva of Melolontha melolontha L. 4515

An action of insect hormones on carbohydrate metabolism in insects. 4531

The Plecoptera of a headwater stream (Gaitscale Gill, English Lake District). 4569

Effect of high temperatures on the resistance of insects to infectious diseases. 4607

The influence of external factors on the anticipated elimination of the diapause of Psylla pyri (Homoptera: Psyllidae). 4608

The action of different temperatures on the duration of postembryonic development and the duration between molts in adults of six species of epigeous and cave Collembola, Hypogastruridae. 4609

Unstable multilunar modifying genes in the silkworm, Bombyx mori. III. 4646

Zoospore in Phytophthora parasitica var. sabdariffae. 4666

DPA for scald control. 4715

Sudden death in feeder pigs. 4816

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

Cold-sensitive mutations in Salmonella typhimurium which affect ribosome synthesis. 4844

The pale muscle problem in pigs. 4845

Problems with scald inhibitors. 4863

On the antioxidative mechanism of alpha-, beta-, gamma- and delta tocopherols in lard. 4865

Bacteriostatic properties of milk from tropical countries. 4868

Problems in monitoring DDT and its metabolites in the environment. 4889

DDT: Sublethal effects on brook trout nervous system. 4892

Effects of chemical preservatives and storage on constituents used to characterize lemon juice. 4940

Some factors affecting the choice of materials for chemical plant equipment. 4947

Locomotory responses to temperature in the grain weevil, Sitophilus granarius (L.) (Coleoptera: Curculionidae). 5210

Effects of temperature on Drosophila--V. Weight and water, protein and RNA content.
5247

Temperature effects on the toxicity of five insecticides against five species of stored-product insects.
5384

Investigations concerning resistance to cold of Araneus cornutus (Araneidae).
5409

An octosporeosis of the black blowfly Phormia regina: Effect of temperature on the longevity of diseased adults.
5419

The influence of light and temperature variations on the behavior and fecundity of the larch-bud moth Zeiraphera diniana (Gn.) (Lepidoptera: Tortricidae).
5467

The relation between temperature and lethal action of carbaryl on adults on the housefly and the oriental housefly (Diptera: Muscidae).
5490

Temperature and termination of diapause in Epicauta gorhami Marseul (Coleoptera, Meloidae), with particular reference to the mechanism of contemporaneous emergence.
5491

Flight activity of honeybees in a flight and rearing room. II. The influence of constant and cycling temperatures.
5496

An apparent discontinuity in the relation between temperature and the respiratory rate of tsetse pupae. (Glossina morsitans).
5543

Influence of temperature on the rate of development of six varieties of the Bacillus cereus group.
5615

Report of the Suffolk County Mosquito Control Commission.
5633

Sterilizing effect of high temperature on the male silkworm, Bombyx mori L. (Lepidoptera: Bombycidae).
5634

Seasonal distribution, sex ratios, and mating of female noctuid moths in blacklight trapping studies.
5655

Ecological studies on aphids. I. On the temperature relations of the Virginoparae (Aliencolae) of Myzus persicae at constant temperatures on Swedes.
5675

Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.).
5687

Environmental and genetic variations of wing size, cell size and cell division rate, in Drosophila melanogaster.
5700

Genetic and environmental control of melanotic tumors in Drosophila.
5719

Temperature-sensitive mutations in Drosophila melanogaster, III. Dominant lethals and semilethals on chromosome 2.
5740

Selection and temperature effects on extra dorsocentral bristles in Drosophila melanogaster.
5744

Modification of gamma ray mutagenic action by temperature shock.
5790

Comparative behavior of the oospores and oogonia of Phytophthora citricola during germination on an artificial medium.
5798

Effect of the low temperature treatment of the wet culture Aspergillus oryzae 8F1 and germinated seed on the increase of the fermentation activity.
5848

It takes more than tender, loving care to prevent blackspot.
5870

Apple scab, pecan scab, and the duration of leaf wetness.
5878

Controlling insects and diseases on trees.
5897

Factors affecting infection of balsam fir (Abies balsamea) by Stereum sanguinolentum in Quebec.
5924

Crown gall: Effect of temperature on tumorigenesis in pea seedlings.
5988

Studies on the natural accumulation of loose smut infection on wheat - Ustilago tritici (Pers.) Jensen.
6020

Effect of climatic factors on the susceptibility of insects to insecticdes.
6251

Survival of ascarid eggs in soil under conditions of Moscow region.
6295

Injury to Heterodera tabacum by high soil temperatures.
6299

The conditions for occurrence of potato root eelworm (Heterodera rostochiensis Woll.) in Poland.
6302

The effect of mastitis on the freezing-point of cows' milk. king, j o l.
6451

Experimental leptospirosis. III. Leptospirosis in dogs. Experimental reproduction of the sickness.
6508

Some observations of hypomagnesemic tetany in cattle.
6606

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs.
6811

Relation of infection to tissue temperature in mice infected with Mycobacterium marinum and Mycobacterium leprae.
6813

Temperature response in animals infected with Bacillus anthracis.
6860

Effect of differences in ambient temperature upon the fate of Pasteurella pestis in Xenopsylla cheopis.
6894

The effects of low temperature on the sporulation and survival of oocysts of Eimeria perforans, media, magna and irresidua.
6944

The introduction of Nematodirus battus (Crofton and Thomas, 1951) into a new environment.
6951

Radiobiological damage: A new class identified in barley seeds stored after irradiation.
7022

Survival of encysted larvae of Trichinella spiralis: Effect of exposure to 0 F, using precooled and fresh ground pork.
7039

Interaction of salt, pH, and temperature on the growth and survival of Salmonellae in ground pork.
7047

Investigations into the source of bacterial contamination of pork. II. In steaming.
7054

Low temperature growth of type E Clostridium botulinum spores. 1. Effects of sodium chloride, sodium nitrite and pH. 2. Effects of solutes and incubation temperature.
7055

Water pollution and agriculture.
7075

DDT. Sublethal effects on brook trout nervous system.
7087

Retention and vooatilization of lindane and DDT in presence of organic colloids isolated from soils and leonardite.

Reduction in aflatoxin contamination of rice by milling procedures.
7200

Growth characteristics and herbicide susceptibility of Texas Panicum.
7232

Effect of the moisture content and post-irradiation temperature on the radiosensitivity of wheat and barley seeds.
7239

The effect of some treatment conditions on the radiomimetic activity of 1-methyl-3-nitro-1-nitrosoguanidine in plants.
7258

Flavone composition, flowering, and hypersensitivity to virus in vegetables.
7281

Ethylene prevents normal photoperiodic response in Chrysanthemum morifolium.
7286

Evolution of wing reduction in crane flies (Diptera: Tipulidae).
7584

On some problems with the bionomics of the beet nematode (Heterodera schachtii Schmidt, 1871).
7597

Experimental investigation into the morphological variability of Musca domestica L. (Dipt. Muscidae).
7639

The influence of temperature and relative humidity on the weight loss of the pugnacious ant, Anoplolepis custodiens (Smith).
7644

The influence of temperature upon the growth of Acrolepia assectella Zeller.
7658

On the absence of circadian rhythmicity in Drosophila pseudoobscura pupae.
7722

The B-chromosome system of Myrmeleotettix maculatus (Thunb.). III. The statistics.
7735

Influence of temperature on polyphenol oxidase activity in three species of Heterodera.
7846

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures.
7847

The protonephridial system in the miracidium of the liver fluke, Fasciola hepatica L..
7951

Entomological evaluation within the Colusa project.
763

TENDIPEDIDAE

On the determination of age structure of the larvae of Tendipedidae (Diptera).
2561

On the determination of age structure of the larvae of Tendipedidae (Diptera).
3813

TENEBRIO

Infectiousness of coccidians for insects.
174

TENEBRIO MOLITOR

Distribution of nitrogen during the embryonic development of the mealworm, Tenebrio molitor Linnaeus.
819

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L..
1432

On the ethometry of sign stimuli; the theory of the telotactic choice, and the power principle of the terminal cumulation in arthropods.
1990

Effect of radiofrequency electric field treatment on protein metabolism in yellow mealworm larvae.
1993

Teratology of the beetle Tenebrio molitor. III. Ultrastructural alterations in the flight musculature of the pupal-winged adult.
2090

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L.
3235

Influence of cecropia oil on the cuticle of Tenebrio molitor.
3321

Pinocytosis during vitellogenesis in the mealworm, Tenebrio molitor L. (Coleoptera, Tenebrionidae).
3789

Reminiscence in the cold flour beetle (Tenebrio molitor).
3794

Juvenile hormone: Activity of aromatic terpenoid ethers.
3805

Inactivation of juvenile hormone like compounds in insects.
4501

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). The importance of the composition of the medium for survival, growth, and yolk formation.
4541

The mode of action of the corpora allata in the course of yolk formation in Tenebrio molitor (Coleoptera).
4542

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). Growth and yolk formation.
4546

Response of some stored-product insects to Trogoderma granarium pheromones.
4625

New possibilities of pest control in mills and flour storages by DDVP chemicals.
7035

Experimental study on male reproduction systems of the mealworm: Tenebrio molitor (Coleoptera, Tenebrionidae).
7621

Cortisol and growth in insects.
7661

TENEBRIONIDAE

Darkling beetles of the genus Epitrichia Gebler (Coleoptera, Tenebrionidae).
597

Soil surface zoo-microbial complex of Orthoptera and Tenebrionids in the southeast Altai-mountains and their relationship to soil formation processes.
888

Revision of the Epitgini (Col., Tenebridnidae). Part I.
1246

Investigation into the diapause, capacity adaptation and temperature resistance of several insects and snails.
1453

On the morphology and the bionomies of the insects of economic importance. II. Head appendages in Alphitobius diaperinus (Panz.) (Tenebrionidae, Coleoptera).
2043

A new species of the genus Pseudoblaps Guerin (Coleoptera, Tenebrionidae) from Iran.
2512

On nocturnal darkling beetles of the genus Melanesthes Lac. (Coleoptera, Tenebrionidae) from central Kazakhstan.
3772

A review of darkling beetles of the tribe Leptodini (Coleoptera, Tenebrionidae).
4411

On nocturnal darkling beetles of the genus Melanesthes Lac. (Scoleoptera, Tenebrionidae) from central Kazakhstan.
4431

Biology of wasps of the tribe Cercerini, with a list of the Coleoptera used as prey.
4597

Beetle finds in the South Ticino, July 1964.
5043

A new species of Tribolium from North America previously confused with Tribolium madens (Charp.) (Coleoptera: Tenebrionidae).
5055

Pongamia cake can control tobacco beetle.
6201

Fumigate stored rice to reduce loss to insects.
7030

Results of the Albanian 1961 Expedition of the German Entomological Institute. 70. Contribution. Coleoptera: Tenebrionidae.
7483

TENEBROIDES MAURITANICUS

New possibilities of pest control in mills and flour storages by DDVP chemicals.
7035

TENSION

Activation of the myofibrillar ATPASE activity by extension of glycerolextracted insect fibrillar muscle.
5571

TENTHREDINIDAE

Resistance to cold in Ceratomia catalpae.
1

Considerations on the toxic and labile substance produced by Bacillus thuringiensis var. thuringiensis Berliner (labile exotoxin).
154

On the effect of lower temperatures on several sawfly larvae (Hymenoptera, Tenthredinidae).
834

The Finnish Empira-species (Hymenoptera, Symphyta).
1891

Evolutionary morphology of insect genitalia as exemplified by the sawfly Euura (Hymenoptera: Tenthredinidae).
2052

The genus Susana Rohwer and Middleton (Hymenoptera: Tenthredinidae).
3773

Reassignment of the Ambigua group of Pristiphora to a new genus, Sharliphora (Hymenoptera: Tenthredinidae).
5172

Notes on some Nematinae from Czechoslovakia (Hym., Tenthredinidae).
5218

Czechoslovak species of Pontania crassipes-group (Hymenoptera, Tenthredinidae).
7431

TENUIPALPIDAE

Mites of the families Tenuipalpidae and Tetranychidae intercepted entering New Zealand from overseas.
7503

TEPA

A rapid method of marking corn earworm moths with dyes for release studies.
803

A comparison and evaluation of residual, oral and topical treatments of tepa, tris (1-aziridinyl) phosphine oxide, used to sterilize German cockroaches Blattella germanica (Linnaeus).
1965

Studies on the control of mosquitoes in Egypt by means of chemosterilants. I. Chemosterilization of Anopheles pharoensis.
2582

Transfer of chemosterilant by tepa-sterilized Mexican fruit flies.
3243

Effect of certain alkylating and non-alkylating chemosterilants on Culex fatigans Weid.
5342

Studies on control of house flies in Egypt by chemosterilants. I. Laboratory studies on Musca domestica vicina.
5346

Chemosterilization of the two-spotted spider mite. I. Effect of chemosterilants on the biology of the mite. II. Histopathological effect of apholate and 5-fluorouracil on the reproductive organs.
5390

Chemosterilization of the two-spotted spider mite. IV. Effect on population.
5391

Chemosterilization of the two-spotted spider mite. III. Effect on host plant.
7252

Chemosterilisation of the red bollworm, Diparopsis castanea Hmps. (Lepidoptera: Noctuidae).
7585

TEPHRITIDAE

Paratephritis transitoria Rhod. (Diptera, Tephritidae), a fly that forms galls on tassel flowers in the Maritime Territory.
640

Trapping for control of the Mexican fruit fly in mango and citrus groves.
1924

Whole town treatment for fruit fly control.
2236

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae).
2573

The importance of Solanum carolinense L. as a host of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae) in southwestern Ontario.
2574

Paratephritis transitoria Rhod. (Diptera, Tephritidae), a fly that forms galls on tassel flowers in the Maritime Territory.
3833

Mexican fruit containment.
3879

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan. June 1961 - June 1969. Part II. Fruit flies.
5324

Whole town treatment for fruit fly control.
7702

TERATOMA

Crown gall tumors in various species and hybrids of Kalanchoideae.
2122

A case of teratoma in the liver of sheep.
7864

TERBACIL

Selective control of hoary alyssum in alfalfa.
6355

TEREDO

Timber. Tetrameles nudiflora R., resistant to teredid borers in Bombay harbour.
198

Estimation of marine-borer attack on wooden surfaces.
7046

TERMITES

African termites of the genus Schedorhinotermes (Isoptera: Rhinotermitidae) and associated termitophiles (Lepidoptera Tineidae).
28

Long-term movement of DDT applied to soil for termite control.
492

The harvester termite, Hodotermes mossambicus (Hagen), as a pest of natural pasture.
1008

Termite rearing and testing of Makrolin as a woodpreservative against termites. (Isopteratermitidae).
1133

The termites of Paris. 2383

On a collection of termites from Daman. 4369

Termite control in rubber plantations. 4521

Preservative treatments and service life of fence posts in Puerto Rico. 4658

Note on the deportment particularly towards the dead in Coptotermes intermedius Silvestri (Isoptere Rhinotermitidae). 5569

Natural durability of some woods used in Hawaii; preliminary findings. 5843

Vitamin A in the vision of termites. 7694

TERMITIDAE

Wing micro-sculpturing in termite genera Odontotermes, Hypotermes and Microtermes (Termitidae: Macrotermitinae) and its taxonomic value. 1906

The particle lining of the plasmic membrane in connection with excretion in a specialized region of the middle intestine of higher termites. 4574

TERPENES

Research on the odoriferous constituents of the terpenic fumes of various substances and their action on Ips sexdentatus Boerner (Coleoptera, Scolytidae). 4475

Research on the reactions of Ips sexdentatus Boerner to terpenic fumes of several conifers. 5262

TERPENOIDS

Responses of the pales weevil to natural and synthetic host attractants. 3291

Juvenile hormone: Activity of aromatic terpenoid ethers. 3805

TERPINEOL

Investigation of the effect of governing chemical compounds in trees on bark beetle orientation. 2593

TERRITORIALITY

Temporal territorial behavior of the dragonfly Aeschna cyanea. 1415

Observations on the behavior of the bee Anthidium manicatum (6.). 1443

A study of area occupation and mating behavior in Incisalia iroides (Lepidoptera: Lycaenidae). 1452

TESCHEN DISEASE

Porcine polioencephalomyelitides. 2942

TESCHEN DISEASE VIRUS

Characterisation and fractionisation of various strains of Teschen virus by column chromatography and electrophoresis. 391

TESTES

On the presence of a virus in the testicle of a homopteran insect. 4555

Roeckl granuloma with an excessively testicular localization. 6571

Propagation of swine-fever virus in cell culture. 6655

A mycoplasma associated with ovine orchitis. 6714

Testicle hypoplasia in a boar of the Gottinger miniature swine breed. 6792

TESTING

A new promising systemic fungicide against Cercospora. 2706

Experimental tests with thiabendazole against Cercospora beticola Sacc. 2712

Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato. 2779

The influence of the width of black stripes on visual goniometry in the bee (Apis mellifera). 3307

Additional sources of resistance to the barley yellow dwarf virus in barley. 3406

Interrelationship of three laboratory screening procedures for breeding alfalfa resistant to the alfalfa weevil. 3429

Studies on the stability of some biological properties of the rabbit-adapted swine fever virus strain C. 3522

Vaccination against swine brucellosis. Second field test. 3530

Mastitis. 3541

Identification and differentiation of Bacillus anthracis in cultures and tissues from other germs of the genus Bacillus with the aid of fluorescent antibodies. 3582

Can mastitis be eliminated . 3604

Determination of Dimethoate residues in flue-cured tobacco. 3654

Spore germination test and Vicia faba plant test for testing the effectiveness of fungicides against Botrytis cinerea. 3678

Laboratory methods for testing the effectiveness of fungicides against Botrytis cinerea. 3683

Methods for testing the effectiveness of fungicides against Botrytis cinerea. 3702

Grape leaf and begonia test for testing the effectiveness of fungicides against Botrytis cinerea. 3706

Index tests of certified and uncertified nursery fruit trees in Washington in 1968. 3961

Buquinolate-A review. 4218

Tests of nematocidal fumigants in the control of the nematodes of beets (Heterodera schachtii Schm. and Meloidogyne spp.). 4766

Imidazole: Fungitoxic derivatives. 4902

Report on experiments with varieties of medium early to late potatoes for human consumption and industrial use 1964-1966 (series 46). 5806

Results from the International Septoria assortment in 1966. 5876

The possibility of estimating loose smut in a seed lot of barley with regard to the increase from one generation to the next. 5934

Investigations on yellow rust in wheat and barley, 1962-1965. 6096

Some aspects of Fusarium infection of wheat seeds. 6107

Experiments on the use of new chemicals in weed control in maize. 6367

Reduction in or elimination of cultural practices in potato cultures following the application of herbicides. 6394

Enhanced metabolism of methyprylon, meprobamate, and chlordiazepoxide hydrochloride after chronic feeding of a low dietary level of DDT to male and female rats. 7152

Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

The effect of the application of herbicides in the control of weeds in corn fields. 7272

Testing of fungicides as to their effectiveness against Botrytis cinerea with the aid of a grape juice test. 7320

The permeability of protective clothing and packing materials in regard to insecticidal phosphoric acid derivatives. 7339

Substituted phenyl-N-methylcarbamates. Cholinesterasis inhibition and insecticidal action. 7382

TESTOSTERONE

Sheath rot is on the increase. 1674

Testosterone proprionate-estradiol benzoate (hormonal implant). Drugs for veterinary use; drug efficacy study implementation. 2306

Effects of Salmonella senftenberg injection on chicks hatched from eggs in treatment of testosterone propionate. 6736

The control and treatment of posthitis. 6829

TETRACHLOROETHYLTHIO)-4-CYCLOHEXENE-1,2-DICARBOXIMIDE, THIOCARBAMATES

Field biology and control of Phytophthora parasitica on papaya (Carica papaya) in Hawaii. 5967

TETRACHLOROISOPHTHALONITRILE

A flower blight of chrysanthemum in South Florida. 3955

Botrytis flower spot control in orchids. 6037

Spraying trials against Sclerotinia diseases of plums on flowers and fruits. 6053

TETRACYCLINE

Stabilization of animal and poultry feeds containing a tetracycline antibiotic. Patent 3,427,166. 2264

Control of rabies in wildlife in New York. 2329

Antibiotic-sensitivity of S- and R- forms of Salmonella minnesota. 2964

Some characteristics of Staphylococcus aureus isolated from the skin and upper respiratory tract of domesticated and wild (Feral) birds. 6615

Observing the sensitivity of Francisella tularensis to antibiotics in vitro. 6621

Increase in resistance to antibiotics in mastitis agents. 7213

TETRADIFON

First occurrence of balsam woolly aphid in the interior of British Columbia. 4441

Genetics of resistance to tedion in Tetranychus urticae C. L. Koch. 5731

Laboratory determination of resistance to tetradifon in the fruit tree red spider mite, Panonychus ulmi (Koch). 7823

Growth and fruit drop of young fruit trees sprayed with the acaricides demeton-methyl or tetradifon. 7984

TETRAMETHYLENE BIS(1-AZIRIDINECARBOXAMIDE), N,N'

Chemosterilization of screw-worm flies, Cochliomyia hominivorax (Coquerel) (Diptera: Calliphoridae): Influence of age at treatment and mating, effect on survival, and transfer of chemosterilant by contamination. 5275

TETRAMISOLE

The anthelmintic activity of the optical isomers of tetramisole in sheep and cattle. 1128

Treatment of experimentally-induced lungworm of the cat by parenteral administration of tetramisole. 1130

Tetramisole treatment for lungworm infection in pigs. 1736

Assay of tetramizole, orally and subcutaneously, for treatment of gastro-intestinal nematoiasis of sheep. 1770

The effect of tetramisole on Muellerius capillaris in goats. 2374

Notice of filing of petition for food additive l-tetramisole. 3635

Further studies on the anthelmintic activity of l-tetramisole against gastro-intestinal helminths in sheep. 4279

The biochemical mechanism of action of the anthelmintic drug tetramisole. 6918

Critical and controlled laboratory trials in sheep with tetramisole. 6950

Efficacy of tetramisole on nematode infections of dogs. 6981

TETRANYCHIDAE

Sampling pests and diseases of tea. II. 254

Ethion a new acaricide for control of red spider, scarlet, pink and purple mites. 284

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 1461

Methods for the determination of population dynamics in orchards. (Including sampling and collection). 2657

What the practitioner should know about arthropods. 3740

Spider mites on cotton; how to control them. 4737

New Tetranychidae of Madagascar. 5054

Inflated plastic bags as cages for insects on potted plants. 5212

Mites of the families Tenuipalpidae and Tetranychidae intercepted entering New Zealand from overseas. 7503

TETRANYCHUS

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 867

Tetranychus lintearius Dufour, 1832, is a valid species (Acar.) Notulae ad Tetranychidas II. 1388

Studies of Queensland Tetranychidae. 3. Records of the genus Tetranychus. 3097

The spider mite family Tetranychidae in New Zealand. IV Two new species of Tetranychus and a revised key to the genus. 7504

TETRANYCHUS ATLANTICUS

Damage by the strawberry spider mite to cotton when infestations commenced at the beginning, middle, and end of the flowering period. 2228

Control of insects on alfalfa and red clover. 6185

TETRANYCHUS CINNABARINUS

Resistance of Lycopersicon species to the carmine spider mite. 4760

TETRANYCHUS DIANELLAE

Studies of Queensland Tetranychidae. 2. Tetranychus dianellae sp. n., a spider mite found on Dianella caerulea Sims. 3094

TETRANYCHUS MCDANIELI

Integrated control of fruit tree pests. Orchard mites. Orchard insects. 5292

TETRANYCHUS TELARIUS

Studies on the strawberry mite (Tetranychus telarius (L). 6161

Resistance to organophosphates in New Zealand strains of the two-spotted spider mite, Tetranychus telarius (L.). 7571

Bionomics of Stethorus gilvifrons Mulsant (Coleoptera: Coccinellidae). 7650

TETRANYCHUS TUMIDUS

Effects of dimethyl sulfoxide on the biological activity of selected miticides and insecticides. 7280

TETRANYCHUS URTICAE

Old and new Acaridae, citrus plant parasites in Italy. 274

Investigations of the digestive processes in the common spider mite, Tetranychus urticae Koch. 909

Life history and life table of Phytoseiulus persimilis Athias-Heriot. 1428

Inheritance and biochemistry of OP-RESISTANCE in a New York strain of the two-spotted spider mite. 2080

A new active acaricide substance. 2661

Chemical control of the rose mite--Tetranychus urticae (Koch, 1836) Bordreaux and Dosse, 1963 (Acarina, Tetranychidae). 3450

Genetics of organophosphate resistance in the two-spotted spider mite (Tetranychus urticae Koch). 3905

Internal anatomy of the developmental stages of the twospotted spider mite. 4520

Chemosterilization of the two-spotted spider mite. I. Effect of chemosterilants on the biology of the mite. II. Histopathological effect of apholate and 5-fluorouracil on the reproductive organs. 5390

Chemosterilization of the two-spotted spider mite. IV. Effect on population. 5391

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae). 5407

Life history and life table of Tetranychus urticae Koch. 5428

A tactile seta of the Two-spotted Spider Mite, Tetranychus urticae K. (Acarina: Tetranychidae). 5460

Insecticidal and acaricidal effect of some binary mixtures. 5627

Genetics of resistance to tedion in Tetranychus urticae C. L. Koch. 5731

Chemosterilization of the two-spotted spider mite. III. Effect on host plant. 7252

TETRASTICHUS

Ceroplastes rusci L. (Homoptera, Coccoidea, Lecaninae) an interesting example for the study of population dynamics. 749

TETRASUL

The red currant gall mite can be controlled by spraying. 6268

Laboratory determination of resistance to tetradifon in the fruit tree red spider mite, Panonychus ulmi (Koch). 7823

TETRATOMA FUNGORUM

The night-day activity rhythm of Tetratoma fungorum F. (Col., Tetratomidae). 885

TETRAZOLIUM

A tetrazolium reduction test to evaluate the viability of strain 19 vaccines. 6831

TETRAZOLIUM 2,3,5-TRIPHENYL-2H CHLORIDE

The determination of the embryo viability of weed seeds by the TTC method. 4917

TETRIX

The spermatophore of Tetrix Latreille (Orthoptera: Tetrigidae). 783

TETROPIUM VELUTINUM

Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion. 4754

TETTIGONIIDAE

The color change of Poecilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae). 2017

The chromosome formula of the cave Orthoptera Troglophilus neglectus (Rhaphidophoridae). 4590

The karyotype of some Australian species of Macropathinae (Gryllacridoidea--Rhaphidophoridae). 4643

Annual pest control programs for Central California. 6260

Basis for a monograph on the Saginae. I. Super revision of the genus Saga Charpentier (Saltatoria; Tettigoniidae). 7482

Pseudo-multiple formation as a consequence of prolonged non-homologous chromosome association in Metrioptera brachyptera. 7755

TETYLENCHUS JOCTUS

Morphological variant of Tetylenchus joctus Thorne (Nemata: Tylenchida) associated with cultivated blueberries in Indiana. 6289

TEXTILES

Zirconium compounds as algaecides. Patent 3,446,656. 7336

THALLIUM

Thallium poisoning in dogs. 6884

THAMNOSPHECIA

Life history and habits of the dogwood borer, Thamnosphecia scitula (Lepidoptera: Aegeriidae) in Tennessee. 7678

THANATOPSYCHE CHILENSIS

The biology of Thanatopsyche chilensis (Philippi). (Lepidoptera). 101

THANITE
Water-base insecticides.
8015

THAUMETOPOEA PITYOCAMPA
The effect of ecological conditions on the appearance of an intestinal bacterial disease in Thaumetopoea pityocampa Schiff.
744

THEILERIA PARVA
East Coast fever.
2981

Immunization against East Coast Fever using tick infections and chlortetracycline.
6643

THEILERIASIS
Immunization against East Coast Fever using tick infections and chlortetracycline.
6643

THELAZIA
Clinical observations and studies regarding the etiology of enzootically occurring bovine keratoconjunctivitis, with particular consideration of Thelazia.
6992

Observations on the occurrence of Thelazia or eyeworm infection of cattle in Northern New South Wales.
7010

THELAZIA GULOSA
Brief communication on the occurance of thelaciaepathogens of an enzootic eye disease in cattle in the German Democratic Republic.
4273

THELAZIA SKRJABINI
Brief communication on the occurance of thelaciaepathogens of an enzootic eye disease in cattle in the German Democratic Republic.
4273

THELOHANIA
A microsporidian, Thelohania sp., pathogenic for the cabbage looper Trichoplusia ni.
158

THEOPHILA MANDARINA
Esterase and phosphatase polymorphism in natural population of wild silkworm, Theophila mandarina L.
4626

THERAPEUTICS
Mineral deficit in cattle of the Szczecin Voyevodship.
1074

Sheath rot is on the increase.
1674

Composition containing penicillin and dye indicator for treating udders. Patent 3,427,377.
2265

Some aspects of cardio-vascular disease in the dog.
2966

The anabolic steroids and their use in veterinary therapeutics.
4099

British poisonous plants.
4308

Magnetic probes in prophylaxis and therapy of traumatic reticuloperitonitis in cattle.
6514

Studies on the method of experimental infection of Vibrio parahaemolyticus. I. Infection of Vibrio parahaemolyticus into intestinal segments of rabbits. II. Influence of chemotherapeutic agents on intestinal segments of rabbit infected with Vibrio parahaemolyticus.
6617

Treatment of anoestrus in dairy cattle.
6624

An enzooty of strangles caused by virus A2 equi Miami 63 in the region of Lyon.
6656

Pathogenetic therapeutics in cases of cow mastitis.
6697

Specific activation of the properdin system in orientation experiments for a therapeutic control of bovine leukosis.
6727

The saftey evaluation of pet products.
7204

Contribution to the study of arthritis of the dog. Attempts of treatment with orotic acid.
7900

THERAPY
First aid in cases of acute poisoning with agricultural pesticides.
3036

THEREVIDAE
On the genus Dialineura Rondani, 1856 (Diptera, Therevidae).
4409

THERIOAPHIS MACULATA
Alfalfa variety tests in central California.
1582

The spotted alfalfa aphid; how to control it.
3426

Behavior of the spotted alfalfa aphid on resistant and susceptible alfalfas.
3440

THERMOBIA DOMESTICA
The growth and activity of the corpora allata in the larval firebrat, Thermobia domestica (Packard) (Thysanura, Lepismatidae).
5669

Thermobia domestica (Packard 1873).
5673

THERMOCHEMISTRY
Insect resistant thermoplastic compositions. Patent 3,408,323.
556

THERMOTHERAPY
Possibilities and limits of visual selection in the control of the virus diseases of grapevines: An experience with some red varieties in the Swiss romand.
224

Efficacy of fungicides, hot water and gamma-irradiation for control of postharvest fruit rots of papaya.
3971

Thermoresistant Clostridium perfringens of the A type in poultry.
4807

Hot-water treatment of seed as a method for decreasing the incidence of certain cotton and flax seedling diseases.
5857

THIACETARSAMIDE
Thiacetarsamide for preventive treatment of Dirofilaria immitis.
1744

Treatment of heartworm-infected dogs with chemical agents.
1746

Recommendations of the symposium panel: Treatment and prevention of heartworm disease in dogs.
1760

THIAMINE
The possible involvement of thiamine in the aetiology of cerebro-cortical necrosis.
1064

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow.
6539

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow.
6867

The influence of indole-3-acetic acid and vitamin B1 on the growth and yields of sunflower plants.
7261

THIAZOLE
Quinoline derivatives: Part XIX. Potential amoebicidal agents.
551

THIAZOLYL)-BENZIMIDAZOLE, (2-(4-
Effects of gastrointestinal nematode parasites on performance in feedlot cattle.
6912

THIAZOLYL)-BENZIMIDIZOLE, 2-(4-
Hyostrongylus rubidus: A field study of its pathogenesis, diagnosis and treatment.
440

Gains from worm drenching ewe hoggets in South Canterbury.
445

Effect of thiabendazole on Pithomyces chartarum (Berk. Curt.) M. B. Ellis.
2340

Pseudohookworm infection - trichostrongyliasis. Treatment with thiabendazole. (abstract).
2373

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Thiabendazole.
2409

A new promising systemic fungicide against Cercospora.
2706

Experimental tests with thiabendazole against Cercospora beticola Sacc.
2712

Thiabendazole as a broad-spectrum anthelmintic. (abstract).
4853

Evaluation of the anthelmintic activity of thiabendazole in man. (abstract).
4860

New developments in the treatment of bananas before packing.
5902

Studies with two systemic fungicides, benlate and thiabendazole.
5962

Spraying trials against Sclerotinia diseases of plums on flowers and fruits.
6053

Effect of thiabendazole on ovine posthitis.
6827

Effect of paddock size, stocking rate, anthelmintics, and trace elements on the weight gain of young cattle.
6828

Bovine Ostertagia infection. Bibliography organized around the disease, its treatment, and its prevention.
6997

A comparative study of the activities of 2,6-diiodopara-nitrophenol (Disophenol) and 2-para-thiazolylbenzimidazole (Thiabendazole) as anthelmenthic for sheep.
6999

Further experiments on the treatment of Strongyloides infestation of horses with thiabendazole.
7011

Anthelmintic treatment of sows with thiabendazole.
7015

Comparative susceptibility of Aspergillus towards various fungicides and antiseptics.
7226

THIBENZOLE
Study indicates most dairy cattle have worms.
6913

THIELAVIOPSIS BASICOLA
Survival of root-infecting fungi in soil. X. Sensitivity of propagules of Thielaviopsis basicola to soil fungistasis in natural and alfalfa-amended soil.
2444

Strains of the fungus Thielaviopsis basicola (Berk. et Br.) Ferr. isolated from the roots of blue lupin (Lupinus
5976

Effects of fungicide drenches on established poinsettia plants.
7267

THINNING (FRUIT)
Effects of gibberellic acid on flower thinning and bloom delay of stone fruits.
517

Chemical thinning of peaches. I. Effect of N-1-naphthylphthalamic acid (peach thin 322) on fruit set of Hakuho peaches.
3705

Current status on chemical thinning of peaches and pears in Michigan.
3913

This may be the year for spray thinning.
3917

Thiram thins Granny Smith apples.
4726

Effect of gibberellic acid on the fruit-set, and partheno-carpic development of fruit in Bhokri grapes. (Vitis vinifera L).
4919

THINNING (TREES)
Annosus root-rot in slash pine plantations four years after thinning and stump treatments.
2138

THINNING SPRAYS
This may be the year for spray thinning.
3917

THIOCARBAMATES
Chemical analysis of the fungicidal mixtures of dithiocarbamates and copper.
1840

Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control.
2174

Absorbtion and degradation of zineb.
3068

Diseases and parasites of the rose.
3956

Why is the disinfection treatment of corn seeds absolutely necessary.
4030

Damages done to beet seeds by the forest mouse (Apodemus sylvaticus).
4092

Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables.
5899

Dogwood diseases.
5944

Lemon scab (Sphaceloma fawcettii scabiosa).
6029

Investigations on chemical control of zebra disease in Agave hybrid no. 11648.
6036

Use of herbicides in coffee nurseries with full exposure to sun.
6324

Weeds in barley and their control.
6381

Economic poisons containing certain pesticide chemicals for certain uses. Cancellation of registration.
7170

Tomato leaf mould: Its assessment and effects on yield.
6089

THIOCYANATES
Comparison of chloro and thiocyanato groups as fungal toxiphores in dinitrobenzenes.
2187

THIOGLYCOLIC ACIDS
Method of killing pests by application of an O,Odiloweralkyl phosphorodithioyl methyl-substituted mercaptoacetate. Patent 3,433,870.
5345

THIOLS
Olfactory response of larvae of the onion maggot, thylemya antiqua Meigen (Diptera: Anthomyiidae) to organic sulfur compounds.
5458

Method for deodorizing O,O-dialkyl S-(alkylthio)alkyl phosphorodithioates. Patent 3,439,071.
7357

THIOPHENOL
Pesticidal uses of thiosubstituted phenols. Patent 3,443,012.
4341

THIOPHOSPHATES
Extraction and cleanup procedure for the determination of organo-thiophosphate pesticide residues in vegetables and fruits by thin layer chromatography and gas liquid chromatography.
491

THIOTEPA
The treatment of pupal integuments with chemosterilants as a way of the turnip moth sexual sterilization.
3452

THIOUREA
The effect of carbamide and thiocarbamide on the resistance of apple to apple scab.
3375

House fly, Musca domestica, control with chemosterilants and insecticides.
7927

THIRAM
Determination of sec-Butylamine residues in fruit.
1144

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Thiram.
2417

Botrytis disease of lettuce.
3391

Why is the disinfection treatment of corn seeds absolutely necessary.
4030

Damages done to beet seeds by the forest mouse (Apodemus sylvaticus).
4092

Efficiency of some fungicides in the disinfection of the carnation roots.
4692

Thiram thins Granny Smith apples.
4726

The detection of thiram by thin layer chromatography.
8009

THOMISIDAE
Two new species of crab spiders (Araneae: Thomisidae) from North Dakota.
700

The Imbecillus and Rufus groups of the spider genus Philodromus in North America. (Araneida: Thomisidae).
5020

THORAX
Radiographic examination of the heartworm-infected patient.
1751

An electron microscope study of thoracic mitochondriac membranes in developing adults of the blowfly Lucilia cuprina.
3887

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. I. Effect on thoracic weight, development of hypopharyngeal glands, and brood rearing.
5348

Adenosinetriphosphatases from thoracic muscle mitochondria of the American cockroach.
7659

THOROUGHBRED HORSES
The influence of streptococci on the genitals and fertility of thoroughbred mares.
6804

THREONINE
The threonine requirement of the pullet and adult hen. (Abstract).
4199

THRIPIDAE
Observations and records for some British Thysanoptera. VII. Thripidae, Thrips flavus Schrank and Thrips brevicornis Priesner.
670

A preliminary review of the genus Isoneurothrips and the subgenus Thrips (Isothrips) (Thysanoptera: Thripidae).
699

A tabular summary of the species of the fringe-winged insect genus Dendrothrips Uzel 1895.(Thysanoptera; Thripidae).
733

Observations and records for some British Thysanoptera. VII. Thripidae. Thrips klapaleki Uzel.
1438

New synonymy in the South African genus Synaptothrips Trybom (Thysanoptera) with a key to the species.
4414

Redefined concept of the genus Synaptothrips with redescriptions of two species (Thysanoptera: Thripidae).
4426

New records of South African Thysanoptera with description of a new Phlaeothripid genus.
4446

The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae).
5166

Annual pest control programs for Central California.
6260

THRIPS
Papular eruption secondary to thrips bites.
1534

THRIPS BREVICORNIS
Observations and records for some British Thysanoptera. VII. Thripidae, Thrips flavus Schrank and Thrips brevicornis Priesner.
670

THRIPS FLAVUS
Observations and records for some British Thysanoptera. VII. Thripidae, Thrips flavus Schrank and Thrips brevicornis Priesner.
670

THRIPS HUKKINENI
The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae).
5166

THRIPS PHYSAPUS
The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae).
5166

THRIPS TABACI
Thrips infesting the tips of asparagus spears.
4740

THROMBOSIS
Myocardium infarct in horses with infectious anemia.
7878

THUJA
Bagworm.
5662

Control of some pests of evergreens.
6162

THYMELICUS LINEOLA
How do native insect parasites behave in relation to imported insect hosts, alien to the native fauna.
5695

THYMIDINE
Influence of aging on the rate of incorporation of tritiated thymidine in the nurse cells of Drosophila melanogaster.
2068

Thymidine-3H uptake by X-bodies associated with cauliflower mosaic virus infection.
3380

DNA synthesis in the neo-X neo-Y sex determination system of Dichroplus bergi (Orthoptera: Acrididae).
4633

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster.
4639

Incorporation of tritiated thymidine into the ovarian DNA of stable flies: Effects of treatment with apholate.
5259

The metabolism of nucleic acids in the wing buds of Pieris brassicae (L.) (Lepidoptera, Pieridae).
7637

THYMIDINE, H-3-,
Thymidine teratogenesis and mutagenesis in Drosophila melanogaster.
5732

THYREUS
A review of old world species of Thyreus Panzer (0Crocisa Jurine) (Hym., Apoidea, Anthophoridae). Part 4. Palearctic species.
7498

THYRIDOPTERYX EPHEMERAEFORMIS
Bagworm.
5662

Bagworm photographs: Eggs, larvae, pupae, and adults of Thyridopteryx ephemeraeformis (Psychidae: Lepidoptera).
7674

THYROID GLAND
Enlarged thyroid glands in calves born to heifers fed a sole diet of Leucaena leucocephala.
1072

Insulin and thyroid hormones in relation to mammary development in hypophysectomized rabbits.
1088

Lymphocytic thyroiditis in the dog.
2320

Contribution to the question of the effect of radioactive iodine on thyroid function in goats.
3494

The influence of feed and water restriction and pitressin administration upon thyroxine secretion in domestic fowl.
4100

Effect of aminotriazole on thyroid function in the rat.
7164

THYROPROTEIN
Excretion and storage of dieldrin in dairy cows fed thyroprotein and different levels of energy.
473

THYROXINE
Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones.
2880

The influence of feed and water restriction and pitressin administration upon thyroxine secretion in domestic fowl.
4100

THYSANOCNEMIS BISCHOFFI
A life history study of the ash seed weevils, Thysanocnemis bischoffi Blatchley and T. helvola Leconte. (Coleoptera; curculionidae).
748

THYSANOCNEMIS HELVOLA
A life history study of the ash seed weevils, Thysanocnemis bischoffi Blatchley and T. helvola Leconte. (Coleoptera; curculionidae).
748

THYSANOPTERA
Observations and records for some British Thysanoptera. VII. Thripidae, Thrips flavus Schrank and Thrips brevicornis Priesner.
670

Allomorphic growth patterns in relation to sex-limited polymorphism in some mycophagous Tubulifera (Thysanoptera).
1496

New records of South African Thysanoptera with description of a new Phlaeothripid genus.
4446

New Thysanoptera from central Asia (U. S. S. R.).
5118

Two new species of Oedaleothrips (Thysanoptera) from Asia.
5119

On the multiple effects of oedymerism in the males of Nesothrips falcatus Ananthakrishnan.
5190

Early season insects no problem for B. A. Jordan.
5196

Control cotton insects .
6278

THYSANURA
Thermobia domestica (Packard 1873).
5673

New contributions to the knowledge of the Apterygota collection of the State Zoological Institute and the Zoological Museum of Hamburg. Iii Meinertellidae and Machilidae (Thysanura).
7519

TICK PARALYSIS
Scrub tick paralysis in farm animals.
333

Pest-management concepts and control of tick paralysis in British Columbia.
4849

TILLAGE
How to produce high yields.
194

A minimum cultivation trial with maize using paraquat herbicide.
309

Effect of topsoil deepening on weed infestation of following crops.
310

Fungus leaf spot in soybeans.
3353

Minor predisposition to lodging and stalk rot of maize cultivated with minimum tillage (without hilling).
3410

Potato tuber eelworm.
3459

The control of rushes.
3479

Breeding and propagation of virus-free grapes in hydroponic cultures.
4045

Weeds mean waste Know your weeds and how to control them.
4066

Autumn weed control for continuous cereal growers.
4069

Perennial bindweeds.
4074

Cultivation of the sapogenin-bearing Dioscorea species.
4664

Experimental husbandry farm experience with herbicides and tillage systems for cereal growing.
4678

Possibilities of limiting tillage measures in potato cultures when using herbicides. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4773

Results of tests with a new corn cultivation technology, using a minimum of work effort and the effectiveness of new herbicides under the conditions prevailing in the Socialist Rumanian Republic. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4783

Effect of cultivation on emergence of eye gnats (Hippelates spp.) in South Carolina.
5320

Specialist advice on groundnuts.
5776

Soya beans - specialist advice.
5777

Practical soil biology.
5786

Production of maize in tobacco areas.
5821

Description, damage and control of the southwestern corn borer.
6188

Indications on plant care for olive crop cultivation.
6192

Problems of herbicide treatments in the potato crop.
6327

Herbicide versus cultivation for corn with two methods of seedbed preparation.
6343

Weed control in California vineyards.
6358

Weed control in nursery sod.
6371

Influence of agrotechnical and chemical treatments on the changeableness of field plant associations.
6389

Reduction in or elimination of cultural practices in potato cultures following the application of herbicides.
6394

Experimental husbandry farm experience with herbicides and tillage systems for cereal growing.
6399

A sub-surface applicator for herbicides.
7399

TILLAGE EQUIPMENT
Weed control in corn.
6333

TILLAM
A sub-surface applicator for herbicides.
7399

TILLANDSIA USNEOIDES
Studies on free colonies of Cryptocerus texanus Santschi (Hymenoptera: Formicidae).
1378

TILLETIA CARIES
Applicability of mildew-infested wheat to feeding.- Short communication.
7214

TILLETIA CONTROVERSA
Resistance power of the Austrian winter wheat assortment against dwarf bunt (Tilletia controversa Kuhn).
264

TIMBER
Timber. Tetrameles nudiflora R., resistant to teredid borers in Bombay harbour.
198

Apion seed weevil introduced for biological control of Scotch broom.
2254

TIME
The olive fly, Dacus oleae Gmel. and its parasites in Corsica, in 1959 and 1960.
84

Effect of the time of day at which honeybee colonies are first allowed flight in a new location on their choice of flower species.
89

Pyrethrum as an insect repellent. III. A study of the persistence of pyrethrins films, when applied in three types of formulation, as insect repellents to human skin.
187

First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) II. Plankton in general and phytoplankton.
204

Triticale in 1967.
225

First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) IV. Beothos.
335

First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) III. Zooplankton.
336

First report of the regular limnological survey of Lake Biwa (Oct. 1965-Dec. 1966) V. Abiotic environment.
559

Seasonal and daily chirping cycles in the northern spring and fall field crickets, Gryllus veletis and G. pennsylvanicus.
738

The analysis of response in crop and livestock production.
942

Flashes of Photuris fireflies: Their value and use in recognizing species.
2005

The use of imaginal disks for the determination of the developmental stage of larvae of Chironomus (Dipt.). 2071

1968 U.S. rice production statistics. 2099

On the incubation period of Puccinia horiana. 2197

End of squaring as an economic indicator of approximate time to end insecticidal treatments for boll weevil control. 2227

Damage by the strawberry spider mite to cotton when infestations commenced at the beginning, middle, and end of the flowering period. 2228

Influence of moisture content, temperature, and time of storage upon invasion of rough rice by storage fungi. 2380

The possibility of the use of some biological analytical techniques for the control of the safety periods of pesticides. 2694

Insects of the season 1967 related to fruit, vegetables and ornamentals. 2807

Important forest insects of Ontario in 1967. 2819

Insects and other arthropods of importance during 1967 in households and on livestock in Ontario. 2986

The dynamics of actinomyces-antagonists development of Verticillium dahliae of cotton. 3354

Stored fifty years virus sill active. 3365

A large-scale experiment in the artificial biological control of the olive fly, Dacus oleae, by means of Opius concolor siculus in Sicily, Palermo, July-October 1966. 3444

Influence of time and method of application on turkey oak response to picloram plus 2,4-D. 3468

Foot-and-mouth disease immunity as dependent on vaccine dosis and on the reactivity of the organism. 3572

The effect of household freezing on the infestiveness of Diphyllobotarium latum from fish to man. 3631

The promulgation of a maximum tolerance level ordinance (plant protection). 3735

Avoid yellow dwarf virus by late sowing. 3981

Aphids and virus in north Canterbury wheat, 1965-66 season. 4040

Herbicides in the perspectives of 20 months and 20 years. 4089

Temperature and termination of diapause in Epicauta gorhami Marseul (Coleoptera, Meloidae), with particular reference to the mechanism of contemporaneous emergence. 5491

Virus enhancement with a growth product of Streptomyces scabies. I. Production and properties of scaben. 5810

Forest disease control in California; July 1, 1966 to June 30, 1967. aSB761.A3. 6117

Timing insecticide applications for European corn borer control in Southwestern Quebec, 1967. 6194

Long distance dispersal of seeds by retention in digestive tract of birds. 6436

Ovarian cycle in cows with irregular estrus cycles. 6644

TINEA COLUMBARIELLA
- Tinea columbariella Wck. as a pest on imported duck feathers. 1124

TINEIDAE
- African termites of the genus Schedorhinotermes (Isoptera: Rhinotermitidae) and associated termitophiles (Lepidoptera Tineidae). 28
- Contribution to the knowledge of the Tineidae of the Eastern Mediterranean. 680
- Contribution to the knowledge of the Palearctic Tineids (Lepidoptera, Tineidae). 1227
- Taxonomy and distribution of the palearctic Nemapogon species (Lepidoptera, Tineidae). 3761
- A new tineid from Africa: Tinea roesleri n. sp. (Lep.). 5047
- Third contribution to the knowledge of the geographical distribution of the tineids on the Iberian Penninsula (Lepidoptera:Tineidae). 7522

TINEOLA BISSELLIELLA
- Co-resistance and resistance inheritance in a dieldrin resistant laboratory stock of the clothes moth (Tineola bisselliella (Hum.), Lep.). 5423

TINGIDAE
- Tingidae from Korea (Heteroptera). 654
- Lace bugs collected during the Bredin-Archbold-Smithsonian biological survey of Dominica, B. W. I. (Hemiptera: Tingidae). 1249
- Acalypta pulchra sp. n.- A new species of Tingidae from Bulgaria. (Heteroptera, Tingidae). 3776
- The nymphal instars of four lace bugs from Czechoslovakia. (Heteroptera, Tingidae). 4604
- A new tingid from Pakistan (Hemiptera). 5021
- Immature stages of Elasmotropis testacea (H. - S.) and notes on the bionomics of the species (Heteroptera, Tingidae). 5632
- Lace bugs. 5661

TIPHIIDAE
- Three species of Mexican Krombeinia having an elongated tegula with an extended apical angle (Hymenoptera: Tiphiidae). 3793
- Results of the Albanian 1961 Expedition of the German Entomological Institute. 66. Contribution. Hymenoptera: Tiphiidae. 7516

TIPULA FLAVOLINEATA
- Study of the tegumentary glands and their secretory cycle in the larva of Tipula flavolineata Meig.. 4579
- Study of the tracheal units and nodular tracheal cells in Tipula flavolineata Meig.. 4580

TIPULA IRIDESCENT VIRUS
- Host range of insect viruses. 794
- Development of virus antigen in tissues of Pieris brassicae inoculated with Tipula iridescent virus. 5534

TIPULA OLERACEA
- Results of a study on controlling Tipula olercea L. showing a marked resistance to some chlurorganic insecticides. 4750

TIPULIDAE
- Records and descriptions of Tipulidae from South America (Diptera). II. 1210
- Undescribed species of crane flies from the Himalaya Mountains (Diptera: Tipulidae), XVII. 2473
- A description of the developmental stages of Ctenophora guttata Wied. and a review of the Czechoslovak species of the genus Ctenophora (Dipt., Tipulidae). 3847
- Several discoveries of Tipulidae and Limoniidae (Dipt.) from Corsica. 4386
- A re-assessment of the genera Holorusia Loew (0Ctenacroscelis Enderlein), Ischnotoma Skuse and Zelandotipula Alexander (Diptera: Tipulidae), with notes on their phylogeny and zoogeography. 5161
- The leatherjacket risk grows. 5447
- Evolution of wing reduction in crane flies (Diptera: Tipulidae). 7584

TISSUE CULTURE
- Cultures of insect tissues with the aid of mammalian serum. 168
- Application of stresses to foot-and-mouth disease virus. 358
- Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus. 375
- Isolation and characterization of a porcine enterovirus. 386
- Characterisation and fractionisation of various strains of Teschen virus by column chromatography and electrophoresis. 391
- Evaluation of the fluorescent antibody-cell culture tests for hog cholera diagnosis. 393
- Indirect complement fixation in foot-and-mouth disease. I. Study of antibody response in experimental cattle and sheep. II. Screening of cattle serum. 429
- The development of the polyhedrosis virus after oral infection of Galleria mellonella L. 805
- On the cultivation of Trypanosoma brucei and of its reproductive capacity in virus-infected hosts. 1055
- Uncoating and development of vaccinia virus in tissuecultured cell-fragments induced with concentrated extracts from marine algae. 1109
- A quantitative study on the ovarian function of the lepidopterous pyralid Galleria mellonella L. by means of the graft technique. 1353
- The effect of ecdysones on the maintenance and development of ocular imaginal discs in vitro. 1369
- An autoradiographic technique for insect cell monolayers in Rose multipurpose tissue culture chambers. 1384
- Morphological aspects of the development in vitro of the imago discs of Drosophila. 1471
- Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro . 1581
- Interference phenomenon in the culture of chick embryo cells infected with Schmidt-Ruppin strain of Rous sarcoma virus. 1673

TISSUE CULTURE

Comparative study of the multiplication of Newcastle Disease Virus (NDV) on Hela, KB and human amnion cells. 1701

Studies on the physiology of the fat body of Pyrrhocoris apterus L. 2008

Fatty acids in Hyalophora cecropia: Biosynthesis and constitution during development. 2055

The gross and microscopic changes in sublethal staphylococcal alpha-toxin pancreatitis in dogs. 2276

Effects of whole-body irradiation on baby pigs (Sus scrofa). 2283

Attenuated infectious canine hepatitis live virus vaccine and method of producing same. Patent 3,432,391. 2298

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells. 2327

Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363

The effect of maleic hydrazide on the mitosis of phytohaemagglutinin stimulated human lymphocytes cultured in vitro. 2443

Epoxidation of aldrin by plant materials. 2457

Multivesicular bodies in Sclerotinia fructigena and their possible relation to extracellular enzyme secretion. 2718

The accumulation of phenolic acids in tissue culture pathogen combinations of Solanum tuberosum and Phytophthora infestans. 2780

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character. 2911

Toxoplasma and toxoplasmosis. 2923

Shope fibroma virus growth curve in suspended tissue culture. 2932

Diagnostic tests for brucellosis. 2934

Porcine polioencephalomyelitides. 2942

In vitro absorption of bovine serum-albumin, gammaglobulin and Brucella-antigens by spleen cells. 2952

The development of feline cell lines for the growth of feline infectious enteritis (panleucopaenia) virus. 2954

Essay on prevention of rabbit rabies by means of a tissue extract of the interference type injected during the incubation period. 2977

East Coast fever. 2981

An electron microscopic analysis of phagocytes infected with Brucella abortus. 2984

The post-embryonic developmental stages of cestodes. 3004

The sterol esters of maize seedlings. 3055

Fowl plague prevention by immunization. 3576

Identification and differentiation of Bacillus anthracis in cultures and tissues from other germs of the genus Bacillus with the aid of fluorescent antibodies. 3582

Newcastle disease virus (NDV) in cell cultures. I. A comparative study of two strains in different cell systems. 3590

Residues on sugarcane tissues 24 hours after application of different formulations of azinphosmethyl. 3685

Isolation and characterization of ribonucleic acid from Musca domestica (L.). 3798

Multiplication of tobacco mosaic virus in suspension culture of tobacco cells. 3987

The in vitro establishment of pith calluses and nodal tumors of Brassica oleracea. 4004

Comparative interactions of Erwinia carotovora and Erwinia amylovora with pear and potato tissues. 4008

Intestinal histology of vitamin A deficient chicks. (Abstract). 4113

Newcastle disease virus. Characteristics of a strain (2425) isolated in Cordoba, Argentina in 1961. II. Comparative study of immunologic relationships and cellular affinities. 4116

Virulence, adsorbability, and antigenicity of foot-and-mouth disease virus selected by adsorption with homogenized mouse kidney. 4124

Progress of the Soviet virology in foot-and-mouth disease studies. 4181

Avian virus-induced tumors. 4242

Studies on several strains of pseudorabies (Aujeszky) virus showing different virulence by means of the immuno- and acridine orange fluorescence. 4266

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). The importance of the composition of the medium for survival, growth, and yolk formation. 4541

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). Growth and yolk formation. 4546

Study of the multiplication, in a unique clone cycle, of classic swine fever virus in an immunofluorescent medium. 4794

The effects of pantothenic acid, pantoyltaurine, salicylate and related compounds on the in vitro and in vivo growth of Trypanosoma lewisi. 4839

Persistance of the genome of the Rous virus in hamster cells changed in vitro, and the action of inactivated Sendai virus on its transmission to chick cells. 4848

Structure and development of vesicles in larval tissue culture of Aedes aegypti (L.). 5227

The in vitro pathogenesis of insect viroses. 5307

In vivo and in vitro cytological diagnosis of densonucleosis in Lepidoptera. 5469

Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. 5474

Development of virus antigen in tissues of Pieris brassicae inoculated with Tipula iridescent virus. 5534

Maintenance of imaginal discs of Drosophila melanogaster in chemically defined media. 5563

Growth of cells derived from Culiseta inornata and Aedes vexans in tissue culture. A preliminary note. 5638

Virus enhancement with a growth product of Streptomyces scabies. I. Production and properties of scaben. 5810

Virus enhancement with a growth product of Streptomyces scabies. II. Increased release of coxsackievirus B5 from hEp-2 monolayers treated with scaben. 5811

The expression of R-gene resistance to Phytophthora infestans in tissue cultures of Solanum tuberosum. 5969

Research on the associated culture of viruses and vegetable tissues. 6049

Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. I. Assay, extraction, and concentration. II. Characterization and partial purification. 6051

Competitive saprophytic ability and inoculum potential of cotton root-infecting fungi in five soils. 6062

Gnotobiotic culture and its significance to plant nematology. 6309

Studies on an ocular infectious laryngotracheitis vaccine. 6459

Suitable blood sources permitting reacquisition of infectivity by culture-form Trypanosoma (Trypanozoon) brucei. 6461

Electronmicroscopic, cytochemical and immunochemical study of B. anthracis and B. cereus. 6477

Isolation of equine rhinopneumonitis virus from acute respiratory disease in a horse in Queensland. 6480

Biological assay of virus contents of tissues of rabbits infected with lapinised rinderpest virus. 6485

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VII. Influence of the Orphan virus L1 on the virus of hog cholera in swine kidney cell cultures. 6501

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD). 6536

Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease. 6562

Influence of synthetic insect T. C. medium on the survival of malaria sporozoits in vitro (Plasmodium berghei yoeli and P. cathemerium). 6576

A complement fixation test for the study of avian mycoplasma. 6583

Use of ampicillin instead of streptomycin in Salmonella-infected mouse peritoneal macrophage cultures. 6605

Observing the sensitivity of Francisella tularensis to antibiotics in vitro. 6621

Comparative studies on blood-stream and culture forms of Trypanosoma lewisi--I. Oxygen utilization, carbon dioxide production and glucose uptake. 6625

The experience with the indirect immunofluorescence application to the rabies virus identification. 6632

Central-nervous-system lesions of spontaneous Pasteurella anatipestifer infection in ducklings. 6654

Propagation of swine-fever virus in cell culture. 6655

Reproduction of type 12 adenovirus in HeLa culture cells.
6659

Attempts to induce recombinant somatic cells in chicken erythrocyte chimaeras by repeated injection of western equine encephalomyelitis virus.
6660

Control of Marek's disease by the use of inoculated chicken embryo fibroblasts.
6677

The detection of the ECPO virus antigen in tissue culture with the aid of fluorescent antibodies.
6681

A formalinized and adjuvanted rabies vaccine of tissue culture origin.
6683

Transformation of chick fibroblast cultures with avian myeloblastosis virus.
6731

A comparative study of morphologic changes within Hep-2 culture cells inoculated with various adenovirus serotypes.
6744

Establishment and characterization of a feline neurofibrosarcoma (FNFS) cell line.
6746

Action of Bayer preparation A 139 on rabies virus.
6785

Effect of cytostatics on the replication of vaccinia, pseudo-rabies and sindbis viruses and on the interferon production by tissue culture cells.
6791

Synthesis of radioactive Trichinella spiralis larval antigen in vitro.
6799

Herpesvirus in Marek's disease tumors.
6800

Egg transmission studies of Type II leukosis infection (Marek's disease).
6809

Avirulent mutant of Aujeszky's virus, induced by 5-iodo-2-deoxiuridine (IUDR).
6838

Pathomorphological studies on rabbits and guinea-pigs experimentally infected with the virus of Aujeszky's disease.
6854

An autoradiographic and immunofluorescent study of the infectious cycle of sheeppox virus in cell cultures exposed to 5-fluorodeoxyuridine.
6855

Biochemical and biophysical characteristics of vesicular exanthema virus and the viral ribonucleic acid.
6864

Cell culture techniques for primary isolation of Marek's disease-associated herpesvirus.
6872

Evidence for a herpesvirus as an etiologic agent of Marek's disease.
6873

Multiplication and differentiation of Trypanosoma cruzi in an insect cell culture system.
6875

Metabolic fate of histidine in the parasitic worm Fasciola hepatica L..
6965

Standard techniques for larval discovery in microascaridic infection by Toxocara canis (Werner, 1782) in the white mouse; observations on the larval migrations and burdens in the experimental infections conferred through oral, intraperitoneal and subcutaneous route.
6969

The pharmacology of cardioaccelerators in the central nervous system of Periplaneta americana (L.).
7609

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro.
7611

Protein synthesis in cell-free preparations from Musca domestica L..
7643

Genus Candida Berkhout. IX. Continuous cultivation of Candida albicans.
7803

Use of alveolar macrophages for cultivation of canine distemper virus.
7862

A case of teratoma in the liver of sheep.
7864

Physiological events in the course of the growth and differentiation of Trypanosoma cruzi.
7881

Cultivation of Trypanosoma cruzi in a protein-free dialysate medium.
7907

Immunogenic value of bivalent vaccine of atipic fowl pest and fowl pox produced on tissue culture.
7921

Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures.
7977

TISSUE EXTRACTS

Study of the synthesis of lysopine by tissue extracts of crown-gall in vitro.
5993

Abscission of cotton flower buds and petioles caused by protein from boll weevil larvae.
7831

TISSUE GRAFTING

Adoptive transfer of immunity to Babesia rodhaini by spleen cells from immune rats.
1098

Syngeneic marrow graft: Effect on persistence of preirradiation immunity to Hymenolepis nana in mice.
7940

TISSUE THERAPY

Hydroxyproline formation and its relation to auxin-induced cell elongation in the Avena coleoptile.
1812

The effect of various biogenic amines on the activity of the foregut of the cockroach, Blaberus giganteus.
3811

TISSUE TRANSPLANTS

Study of the morphogenesis of the maxillary stylet of Rhodnius prolixus by transplantations of incomplete stylogenetic organs.
3862

The immobilization reflex associated with tactile stimulation of the pronotum of normal larvae of Blaberus craniifer (Burm.) and ones having received implantations of the corpora allata.
4495

The effects of implantations of corpora allata on reproduction of collected females of Schistocerca gregaria (Forsk.) and on the polymorphism of their progeny.
5255

Studies of house flies. I. Breeding of Musca sorbens, Wied..
5282

The growth and activity of the corpora allata in the larval firebrat, Thermobia domestica (Packard) (Thysanura, Lepismatidae).

Localization of dehydrogenases in the nodular tissues of leguminous crops.
3060

Comparative histopathology of experimental bluetongue disease and epizootic hemorrhagic disease of deer. Abstract.
3557

Lymphoepithelial tissues of the intestine and differentiation of antibody production.
4213

Investigations concerning the ultrastructure and etiology of the mast cell tumors in the dog.
4259

Food additives permitted in feed and drinking water of animals or for the treatment of food producing animals. Food additives permitted in food for human consumption. Buquinolate.
4297

Investigation of the residues of two antibiotics of the macrolide family (oleandomycin and spiramycin) in the tissues of chickens receiving anibiotic feed supplements.
4301

An autoradiographic study of invertebrate uptake of DDT-CL36.
4618

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster.
4639

The effect of 3-amino-1,2,4-triazole on the ultrastructure of plastids of Triticum vulgare seedlings.
4685

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas.
4876

Flea Ctenophthalmus: Heterogeneous hexagonally organized layer in the midgut.
5558

Changes in the content of fixed amino acids in tissues of silk worm during development.
5592

Relation of infection to tissue temperature in mice infected with Mycobacterium marinum and Mycobacterium leprae.
6813

Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue.
7278

Morphogenetic analysis of the effects of juvenile hormone analogues and other morphogenetically active substances on embryos of Schistocerca gregaria (Forskal).
7665

Studies on the composition of extracts of the reproductive glands of Agriolimax reticulatus, the grey field slug (Pulmonata, Stylommatophora).
7856

Observations of infectious diarrhea as part of the shipping fever syndrome in feedlot cattle.
7889

Abdominal fat necrosis as a herd problem in Georgia cattle.
7923

The synthesis of fatty acids from acetate by intact tissue and muscle extract of Ascaris lumbricoides Suum.
7931

TITYUS BAHYENSIS

Release of an acetylcholine-like substance from guinea pig ileum by scorpion venom.
2429

TITYUS SERRULATUS

Release of an acetylcholine-like substance from guinea pig ileum by scorpion venom.
2429

Effect of the venom of the scorpion Tityus serrulatus on adrenal gland catecholamines.
2433

TOBACCO

Tender trap. (Abstract).
266

Virus insecticides.
275

Defense possibilities of society against pollution of food and environment.
466

Studies on the mechanism of injurious effects of toxic gases on crop plants. I. Relation between the concentration of sulfur dioxide and the degree of leaf injuries in several crops.
541

The transfer of blue mold resistance to tobacco from Nicotiana debneyi. Part IV. Breeding progress 1957-1967.
968

Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants.
978

Effects of two inhibitors of protein synthesis on the multiplication of tobacco mosaic virus and turnip yellow mosaic virus.
1548

On the release of a primary oncogenic substance from the tissues of tobacco crown gall by X-rays.
1557

Resistance of tomato lines to TMV.
1568

Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection.
1572

Increase of tobacco mosaic local lesion size and virus multiplication in hypersensitive hosts in the presence of actinomycin D.
1574

Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro .
1581

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction.
1584

Study on the sucker control of decapitated (topped) tobacco plants.
1819

North Carolina initiates nematode advisory service.
1849

Measuring newly hatched phytophagous larvae in the field or greenhouse.
2058

Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco.
2116

Effect of 2,4-dichlorophenoxyacetic acid on tobacco mosaic virus infection.
2127

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection.
2142

Cell inclusions of Holmes' ribgrass virus, an analog of tobacco mosaic virus.
2153

Effect of dimethyl sulfoxide on tobacco mosaic.
2165

Distribution of cucurbit viruses in Kansas.
2171

Electron microscopic observations on the causal agent of the Brazilian tomato ring spot disease.
2175

Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid.
2178

Morphology, pathogenicity, and cultural characteristics of single conidium isolates of Alternaria longipes.
2180

Mutual antagonism between Heterodera tabacum and some other parasitic nematodes.
2248

Necrosis in leaves induced by volatile materials produced in vitro by bacteria.
2725

Control of tobacco mosaic virus in tobacco.
2731

The multiplicity of bands in the gel diffusion precipitin analysis of the protein of tobacco mosaic virus.
2756

Records and descriptions of Palearctic and south Asiatic Laspeyresiini (Lepidoptera: Tortricidae). 4417

The biology and control of Archips occidentalis (Wals.) and Tortrix dinota Meyr. (Lepidoptera: Tortricidae) on coffee in Kenya. 4744

Remarks on some larch-feeding Tortricids (Lepidoptera, Tortricidae). 5179

The photoperiod as a control agent against Adoxophyes reticulana (Lepidoptera; Tortricidae). 5193

The Norwegian species of Dichrorampha Gn. Lep. Tortricidae. 5505

Improvement of the agricultural warning (device) against the cereal gall moth (Cnephasia pumicana Zell., Lep. Tortricidae). 6164

Chemical control of the tea tortrix (Homona coffearia Nietner). 6171

Brinjal leaf roller. 6255

Annual pest control programs for Central California. 6260

Influence of magnesium and zinc fertilizing on the yield, quality as well as health of hops. 7266

TORTRIX VIRIDANA

The mass increase in the population of Tortrix viridana L. 756

Bacteria instead of poison used against the oakleaf roller moth, as a contribution to biological pest control. 1012

Investigation of the latent period of the oak leaf roller Tortrix viridana L. (Lepidoptera). 7660

TORYMIDAE

New species of palearctic Torymidae (Hym. Torymidae). 49

Redescription of Sycaphaginae from Ceylon and India, with description of lectotypes, and a world catalogue of the Otitesellini (Hymenoptera, Chalcidoidea, Torymidae). 5169

TORYMUS FAVARDI

New species of palearctic Torymidae (Hym. Torymidae). 49

TOXAPHENE

Residual effect of a number of insecticides on adults of the carabid Pseudophonus rufipes (Dej.). 79

Controlling the Japanese beetle. 5187

Early season insects no problem for B. A. Jordan. 5196

Response of the striped lynx spider, Oxyopes salticus, to two commonly used pesticides. 5550

Evaluation of acaricidal dips for control of Psoroptes ovis on sheep. 6900

Stem applications of azodrin for control of the cotton fleahopper. 7838

Insecticide residues in milk and dairy products. 7964

TOXASCARIS LEONINA

Immunological studies on experimental ascariasis. 2378

An attempt to eliminate the principal parasitic nematodes of dogs by using a new phosphoric ester. 4277

TOXEMIA

Livestock health - planning to prevent pregnancy toxaemia. 7887

TOXICITY

Comparative study of the enzymatic hydrolysis of the crystals of the strains of Bacillus thuringiensis serotype I Berliner and serotype II Anduze. 114

Some facts about fungicides. 262

Establishment of tolerances for pesticide residues. 493

Destruction of wasps. 743

Phosphine: A versatile fumigant. 882

Fish deaths and plant protection preparations. 1136

The toxicological effect on animals of mixtures of chlorophos and DDT. 1156

The toxicological effect on animals of mixtures of thiophos, and chlorophos. 1157

Contribution to the study of the mode of action of certain synthetic insecticides, most particularly of Lindane, and of the phenomena of resistance to these compounds in Musca domestica L. 1457

Paraquat poisoning treated by forced diuresis. 1801

Childhood poisoning accidents. 1807

The plant protection law and its responsibility towards human health. 1855

The residual contact toxicity to honey bees of insecticides sprayed on to white clover (Trifolium repens L.) in the laboratory. 1942

Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230

Effect on honey bees of dichlorvos and bromophos applied as sprays to white clover (Trifolium repens L.). 2440

The development of research on insect secretions. 2630

TOXICOLOGY

Laboratory investigations on the effect of insecticides on the larvae and adults of Coccinella septempunctata L. (Col., Coccinellidae). 2668

The accumulation of phenolic acids in tissue culture pathogen combinations of Solanum tuberosum and Phytophthora infestans. 2780

Qualitative and quantitative determination of Ekatin residues and analytical results obtained in various cultures. 3021

Growth and resistance to stress in brook trout fed sublethal levels of DDT. 3040

Possible toxic effects of accessory substances of pesticide products. 3043

The campaign of the National Society for the Prevention of Accidents against the use of pesticides, with particular reference to the Emilia-Romagna region. 3078

Specificity in insecticides. 4507

Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control. 4722

Aflatoxin in the groundnut crop at harvest in Northern Nigeria. 7185

Effect of DDT poisoning on the longevity and fecundity of the pink bollworm. 7566

Studies on a series of branched-chain analogs of diethyl malathion and malaoxon with regard to toxicity and in vitro enzymatic reactions. (abstract). 7151

TOXICOLOGY

Metabolism of methylcarbamate insecticides by the NADPH2-requiring enzyme system from houseflies. 4

The toxicity of insecticides to larvae of the codling moth, Cydia pomonella (L.). I. Intrinsic toxicity and toxicity and persistence. (Abstract). 95

Control of insect and mite pests of small fruits. 283

Analysis for aflatoxin M in milk. 458

DDT residues on pasture and in the butterfat of cows grazing pasture treated with DDT prills and DDTsuperphosphate. (abstract). 477

Findings concerning nourishment and toxic residues in plants, other health hazards and life threats. 478

Pesticide residues in ointment bases of natural origin. 496

Drugs - their use and abuse. 501

Household insecticides. 503

Potentiation of toxicology of sumithion by phosphamidon in the rat. (abstract). 505

Safe use of pesticides. 506

Macrozamia poisoning. 508

The use of organic tin compounds fungicides in agriculture, looked at from the toxicological point of view. 509

Effects of 2,4-D on emergence and seedling growth of range grasses. 510

Suspected sodium fluoroacetate poisoning in sheep and cattle. 511

Studies of toxicity and enzyme activity resulting from interaction between chlorinated hydrocarbon and carbamate bon and carbamate insecticides. (Abstract). 512

Oral and parenteral toxicity of Bacillus thuringiensis exotoxin , and its inactivation in larvae of Galleria mellonella. 880

Studies on the mode of action of tomatine as a fungitoxic agent. 960

The contribution of insect control to high yields of rice. 993

Compatibility studies on Bacillus thuringiensis Berlinar with chlorinated hydrocarbons. 1010

Responsibilities and organisation of toxicology in veterinary medicine. 1141

Toxicological problems of dinitro-ortho-cresol with particular consideration of its quantitative detection in biological material. 1154

Mortality among bobwhites confined to a heptachlor contaminated environment. 1155

State of our knowledge on the toxic activity of Bacillus thuringiensis on vertebrates. 1158

What are pesticides . 1159

Cycad husk from Guam: Its toxicity to rats. 1162

The toxicity of biuret to plants as depending on soil conditions. 1166

Permeability of the cuticle to Pyrethrin II. 1404

On the evolution of Carabids' scent gland secretion. On Arthropod defense substances. 1470

A study on toxicity of pyrimethamine for chicks. 1775

Stemphone, a biologically active yellow pigment produced by Stemphylium sarcinaeforme (Cau.) Wiltshire. 1798

DDT toxicity in rye (Secale spp.). 1800

Effects of simulated rain and dew on the toxicity of certain ultra-low-volume insecticidal spray formulations. 2020

Effect of droplet size on persistence of ULV malathion and comparison of toxicity of ULV and EC malathion to tobacco budworm larvae. 2031

Biochemical aspects of triazine based herbicides. 2255

Aflatoxin metabolism by liver microsomal preparations of two different species. 2332

Degradation of DDT in Atlantic salmon (Salmo salar). 2400

Residues of organochlorine insecticides in dead birds in the United Kingdom. 2422

Effect of DDT or parathion on condition avoidance response of offspring from DDT or parathion treated mothers. (abstract). 2427

The early effects of low DDT doses on the nervous system in animal experiments. 2428

The effect of DDT in the diet on the resting and loading electrocorticogram record. 2430

Toxicity of fentin hydroxide to rats. 2431

Cholinesterase inhibition in the acute toxicity of alkylsubstituted 2-aminoethanols. 2432

Incomplete sodium inactivation in nodes of Ranvier treated with scorpion venom. 2436

Research and testing of preparations on rodents in the habitat of man. 2442

The toxic effect of herbicides upon ants and earthworms. 2588

Drug residues, synergism and antagonism. 3017

A study of pyrazon and its herbicidal residues in the soil. 3019

The role of interfacial water in the tolerance of roots to toxic solutions. 3031

Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 3032

Effect of pH and ionic force on the reaction rate of organophosphorus compounds with serum-derived cholinesterase. 3033

Nitrate-nitrite intoxication in swine. 3035

Photoaldrin and its toxicity to mosquito larvae. 3341

Long-acting sulfonamides in cattle: A study of pharmacologic properties. 3503

Factors influencing the toxicity of aqueous formulations of pyrethrum against an aphid, Macrosiphum Euphoribae (Thomas). (abstract). 3664

Preventing fish and wildlife losses. 3671

Some significant health aspects of insecticidal poisoning. 3674

Insect metabolism of photoaldrin and photodieldrin. 3837

Comparative toxicology of organic and inorganic arsenicals in swine. 4306

British poisonous plants. 4308

Proceedings of the American College of Veterinary Toxicologists, 1967. 4309

Effects of heptachlor and nicotine on the barbels of a catfish (Heteropneustes fossilis). 4310

Contribution to the study of hydrogen sulfide poisoning of domestic animals. 4311

Some recent aspects of veterinary toxicology: Attempted comparison with human toxiocology. 4316

DDT: Sublethal effects on brook trout nervous system. 4892

Effects of chronic exposure to zinc on toxicity of a mixture of detergent and zinc. 4894

A synopsis of the pesticide problem. 4899

An analytical method for determining arsenic in biological material. 4900

Use insecticides safely. 4901

The toxic action of Bacillus thuringiensis exotoxin on Drosophila reared in yeast-containing and yeast-free media. 5221

Effect of certain alkylating and non-alkylating chemosterilants on Culex fatigans Weid. 5342

Toxicological studies on cutworms. I. Laboratory studies on the toxicity of insecticides to the dark-sided cutworm. 5357

Temperature effects on the toxicity of five insecticides against five species of stored-product insects. 5384

Insect answers; insecticide toxicity to alfalfa-pollinating bees. 5394

Chlorinated hydrocarbon insecticide inhibition of cockroach and honey bee ATPases. 5414

The relation between temperature and lethal action of carbaryl on adults on the housefly and the oriental housefly (Diptera: Muscidae). 5490

The influence of site application on the toxicity of insecticides in red cotton bug, Dysdercus cingulatus, F. 5549

Heart poisons in the monarch butterfly. 5554

Some effects of Metarrhizium anisopliae and its toxins on mosquito larvae. 5564

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. I. Production and translocation of a necrosisinducing toxin. 5890

Locoweed poisoning. 6581

Anticoagulant resistance. (Part 2). 6640

Cassia occidentalis toxicosis in cattle. 6717

Variation in concentration and composition of toxic alkaloids among strains of Phalaris tyberisa L. 6750

Interaction of rubidium and potassium in chick diets. 6797

Advances in cattle ectoparasite control with a discussion of some problems related to treatment with systemic insecticides. 6902

On the use of TEGO 51 in animal food industries--toxicity and bactericidal properties. 7067

Determination of residual bHC and lindane quantities in the soil and plants and investigations on their toxicity. 7091

Toxicity of pesticides to man: Risks from present levels. 7107

Residues of dieldrin (HEOD) in the tissues of experimentally poisoned birds. 7130

Detection and differentiation of pathogenic Clostridia and their toxins. 7144

Manganese toxicity of legumes seeded in Kentucky strip-mine spoils. 7145

Biological methods for determining the toxicity of grain in connection with its infestation with toxigenic microfungi. 7147

Hematological effects of apholate on channel catfish (Ictalurus punctatus). 7156

Synergistic toxicity and carcinogenicity of 'freons' and piperonyl butoxide. 7160

Common poisonous plants in home and grounds. 7161

Purification and properties of in vitro--produced anthrax toxin components. 7162

Tolerance of sheep with regard to a new phosphoric ester: Chlorfenvinphos. 7167

Experimental arsanilic acid poisoning in pigs. 7169

Aversion to strychnine sulfate by Norway rats, roof rats, and pocket gophers. (abstract). 7171

Selected Crotalidae venom properties as a source of taxonomic criteria. 7172

Antifungal action of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract). 7175

Central neurotoxic effects of the venoms of Naja naja and Vipera palestinae. 7179

Phospholipase A in the venom of the Australian bulldog ant Myrmecia pyriformis. 7180

Antigenic relationships of the venom of Atractaspis microlepidota to that of other snakes. 7186

Effects of Echis carinatus venom on tissue and blood histamine and their relations to local tissue reactions and eosinophil changes. 7187

Effect of floxosceles reclusa Gertsch and Mulaik venom against hemocytes of Acheta domesticus (Linnaeus). 7191

Residues in the body fat of steers fed kelthane in their ration. (Abstract). 7192

Pesticide safety: Plain ol' good judgement. 7193

Poisoning on the farm. A report of a case of organophosphorus poisoning. (abstract). 7197

The effect of sex and age on the response to warfarin in a non-inbred strain of mice. 7198

Combined action of DDT with chlorophos and of thiophos with chlorophos. 7206

Nickel toxicity in young growing mice. 7212

Applicability of mildew-infested wheat to feeding.- Short communication. 7214

Permissible levels of occupational exposure to airborne toxic substances. Sixth report of the joint ILO/WHO Committee on Occupational Health. 7216

On the mechanism of chloride toxicity. 7243

On the toxicology of Pyrethrum to warm blooded animals. 7384

The toxic effect of three organophosphate insecticides on female Lebistes reticulatus Peters. 7715

Toxic metabolites produced by fungi implicated in mycotoxicoses. 7794

Toxins in plant disease: Structure and mode of action. 7799

Blood cholinesterase activity as an index of acute toxicity of organophosphorus pesticides in sheep and cattle. 7861

Kale anaemia. I. The toxicity to various species of animal of three types of kale. 7885

Contribution to the study of arthritis of the dog. Attempts of treatment with orotic acid. 7900

Fish brain cholinesterase: Its inhibition by carbamates and automatic assay. 7974

Effects of insecticides on algae. 7976

Pyrethrum effects on domestic cats. 7980

TOXINS

The biochemistry and mode of action of Bacillus thurengiensis Berliner and its varieties. 58

The methods of titration and the standardization of Bacillus thuringiensis Berliner preparations. 67

Study of the soluble heat-stable toxin in various strains of Bacillus thuringiensis Berliner. 68

A study proteolytic enzymes contained in the chyle of Pieris brassicae and of substances active on the crystal of Bacillus thuringiensis. 77

Considerations on the toxic and labile substance produced by Bacillus thuringiensis var. thuringiensis Berliner (labile exotoxin). 154

A contribution to the study of the mode of action of Bacillus thuringiensis Berliner in regard to the flour moth Anagasta (Ephestia) kuehniella Zeller (Lepidoptera). 177

Characterization of the thermostable toxin in the different industrial preparations of Bacillus thuringiensis Berliner. 761

Influence of the nature of rearing media on the sensitivity of the larval stage of Musca domestica Linnaeus to the thermostable toxin of Bacillus thuringiensis Berliner. 792

Oral and parenteral toxicity of Bacillus thuringiensis exotoxin , and its inactivation in larvae of Galleria mellonella. 880

The problem of the utilization of entomopathogenic microorganisms in combination with insecticides. 896

Dietary efficiency of natural foods for the growth and development of Tribolium castaneum Hbst. and Corcyra cephalonica Staint. 1160

The chemical control of some aquatic plants. 1634

In vivo--produced anthrax toxin. 1663

Paraquat poisoning, lung transplantation. 1803

Recovery from paraquat poisoning. 1804

Viruses, serums, toxins and analogous products: Organisms and vectors. Labels. Miscellaneous amendments. 1851

Aliphatic amines against insecticide-susceptible and resistant strains of Culex pipiens quinquefasciatus and Anopheles albimanus. 1968

On the fine structure of insect cuticle. A contribution to the question of the characteristic protection against toxins of the Hemiptera cuticle. 1972

Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

The gross and microscopic changes in sublethal staphylococcal alpha-toxin pancreatitis in dogs. 2276

Occurrence of a skin response to intracutaneous injection of adrenaline as a method to detect the effects of endotoxines in pig organism. 2349

Lysozyme retention by cockroach Periplaneta americana L. 2666

Haemorrhagic nephritis in experimental bovine leptospirosis bratislava. 2901

The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella. 3008

Influence of refrigeration on aflatoxin production. (abstract). 3044

Concerning Bacillus thuringiensis and its applications. 3231

Summary of chemical, physical, biological and medical research on pederin, extracted from the Coleoptera Paederus fuscipes Curt. 3260

Mycostasis in semi-arid soil of West Pakistan. 3376

Process for detecting staphylococcienterotoxin in foodstuffs Patent 3,408,259. 3646

The toxic action of a mixture of gamma-BHC and EDB to Cryphalus fulvus Niijima. Studies on the control of forest pests. V. 3857

Teratological effects on the nymphs and adults of insects, the larvae of which have ingested sublethal doses of the thermostable toxin of Bacillus thuringiensis Berliner. 4468

Two strains of Bacillus thuringiensis Berliner isolated from larvae of disparate Bombyx Lymantria dispar. 4503

Use of cherry-laurel foliage for preparation of an effective insect-killing jar. 4504

The nature of pathogenicity of Pseudomonas aeruginosa for Galleria mellonella. 4551

Poisoning of Pieris brassicae L. by an enzyme fraction of the toxin of the crystals of the strains Bacillus thuringiensis serotype U Berliner and serotype. III. Anduze. 4560

New fungicide for potato blight. 4684

Staphylococcal intoxication of young suckling whelps. 4840

Persistence and movement of parathion in irrigation waters. 4871

Some observations concerning the maximum dosage ordinance. 4897

Heat-stable elements in commercial preparations based on Bacillus thuringiensis Berliner. 4924

Screening method for zearalenone, aflatoxin, and ochratoxin. 4928

The comparative actions of urea and thioglycolate on the representative toxin of Bacillus thuringiensis. 4933

Inhibition of DNA-DEPENDENT RNA polymerase by the exotoxin of Bacillus thuringiensis var. gelechiae. 5597

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. 1. Production and translocation of a necrosisinducing toxin. 5890

Ergot disease of bajra--its symptoms and control. 6100

Relation between DDT in diets of laying birds and viability of their eggs. 6431

Contribution to the problems of toxic action of Ascaridia galli on laboratory animals. 6917

Production of enterotoxin-B in cured meats. genigeorgis, c. 7063

Detection and differentiation of pathogenic Clostridia and their toxins. 7144

Purification and properties of in vitro--produced anthrax toxin components. 7162

Trolene toxicity for bed bugs. 7165

Effect of carbaryl on the neuroendocrine system of rats. 7201

Novel substituted 1,2,4-triazoles(4H). Patent 3,444,162. 7352

Effects of low volume aerial spraying of Dursban and fenthion on fish. 4885

TOXOCARA

Toxocariasis in man and animals. 4282

TOXOCARA CANIS

Immunological studies on experimental ascariasis. 2378

Notice of filing of petition for food additive nitrodan. 4144

An attempt to eliminate the principal parasitic nematodes of dogs by using a new phosphoric ester. 4277

Standard techniques for larval discovery in microascaridic infection by Toxocara canis (Werner, 1782) in the white mouse; observations on the larval migrations and burdens in the experimental infections conferred through oral, intraperitoneal and subcutaneous route. 6969

Efficacy of tetramisole on nematode infections of dogs. 6981

TOXOCARA CATI

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 4811

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 6582

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 6811

TOXOPLASMA

Endodyogeny of Toxoplasma gondii. A morphologic analysis. 1712

TOXOPLASMA GONDII

Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363

Toxoplasmosis infrction from rabbit to men. Report of a case. 2913

Toxoplasma and toxoplasmosis. 2923

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

Toxoplasma infection: Some factors possibly contributing to the mechanism of toxoplasmic infection. 4189

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 4811

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 6582

TOXOPLASMOSIS

Researches concerning the toxoplasmosis identification and the toxoplasmic abortion in the ovic cattle of Banat. 2294

Toxoplasmosis infrction from rabbit to men. Report of a case. 2913

Toxoplasma and toxoplasmosis. 2923

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

Control of toxoplasmosis by 60Co gamma-irradiation of lamb meat. 3553

Toxoplasma infection: Some factors possibly contributing to the mechanism of toxoplasmic infection. 4189

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 4811

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

Therapeutic effect of SDDS (2-sulfamoyl-4,4'-diaminodiphenyl sulfone) on experimental toxoplasmosis. 4843

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 6582

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 6811

TOXOPTERA AURANTII

Contribution to the study of the population dynamics of the plant louse Toxoptera autantii (Boyer) on lemon trees (Citrus limon Burm). 5674

TRACHEA

The regulation of breathing in insects. 128

Prothoracic tracheae of a buprestio beetle. 897

Study of the tracheal units and nodular tracheal cells in Tipula flavolineata Meig.. 4580

Aspects of the morphogenesis, in organotypical culture in vitro, of the tracheal system in Diptera Calliphoridae. 7677

Contribution to the study of the larval tracheation of the Empididae (Diptera, Orthorraphidae): Its interest from the phylogenetic and ecological points of view. 7712

TRACHOMA

Cytology of pink-eye of sheep, including a reference to trachoma of man, by employing acridine orange and iodine stains, and isolation of Mycoplasma agents from infected sheep eyes. 2344

TRACHYOSTUS

Notes on the biology of ambrosia beetles of the genus Trachyostus Schedl (Coleoptera: Platypodidae) in West Africa. 3125

TRACHYSPHYRUS

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae). 685

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae). 5124

TRACTORS

A simplified mechanism for controlling delivery of insecticide from a granular distributor drawn by a tractor. 3081

Brush control through shredding. 4077

For a better and more profitable technique in the application of soil fumigants. 4946

Applying insecticides to cotton crops. 4971

TRANQUILIZERS

Enhanced metabolism of methyprylon, meprobamate, and chlordiazepoxide hydrochloride after chronic feeding of a low dietary level of DDT to male and female rats. 7152

TRANSFORMATIONS (MATHEMATICAL)

A criterion of transformation for age-weight data on insect larval growth. 4481

TRANSLOCATION

Long-term movement of DDT applied to soil for termite control. 492

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. I. Production and translocation of a necrosisinducing toxin. 5890

TRANSMISSIBLE GASTROENTERITIS

TGE prevention your goal. 6845

TRANSPLANTING

Transmission of equine sarcoid. 2348

The onogenic action of bovine papilloma virus in hampsters. 2960

A new induced transplantable rat mammary carcinoma. 3543

Responses of lettuce (Lactuca sativa L.) to plant growth regulator sprays. 3708

Some observations on tobacco yellow dwarf control. 6033

TRANSPORTATION

Interstate transportation of animals and poultry. Scabies in sheep. Interstate movement. 338

Sodium tri-polyphosphate carried by tanker. 4950

TRAPS

2,4-hexadienyl butyrate and related compounds highly attractive to yellow jackets (Vespula spp.). 778

The crow mass trap, a possibility for the reduction of the carrion crow population (Corvus corone corune). 1042

The collection of biting flies in west Texas with Malaise and animal-baited traps. 1383

Control of rabies in wildlife in New York. 2329

Aspects of trapping slugs with metaldehyde and bran. (abstract). 3493

Choice of resting site by Noctuidae (Lepidoptera). 4352

The muskrat in Loire-Atlantique. 6410

TREE CONTROL

Designing systemic insecticides. 1829

The clearing of underbrush and the destruction of undesireable vegetation in the forest. Inventory of materials and techniques. 5800

TREE DISEASES

Some experiences with the use of Bacillus thuringiensis Berl. against forest pests. 72

Comandra rust damage to ponderosa pine in Oregon and Washington. 2104

Control of thorn trees can double veld capacity. 3343

The attraction to Pissodes notatus (Col. Curculionidae) of the wounds formed by Matsuococcus feytaudi Duc. (Hom. Coccoidea) on maritime pine. 4034

The important forest pests of Spain. 4660

Red rot in residual ponderosa pine stands on the Navajo Indian Reservation. 4663

Diagnoses of pear decline and rootstock identification in young pear orchards. 4687

Report on forest research for the year ended March 1968. 5845

Dwarfmistletoe effects on ponderosa pine growth and trunk form. 5892

Forest disease control in California; July 1, 1966 to June 30, 1967. aSB761.A3. 6117

TREE INCREMENT MEASUREMENT

Fertilization of semi-mature stands in Newfoundland. 4652

TREE INJURIES

Leaf deteriorations brought about by the cicadella Empoasca flavescens F. (Hom., Typhlocybidae) grown on apple trees. 268

The apple moth (Recurvaria leucatella Cl.) a little known pest of our fruit trees. 269

Studies on the Wooly beech scale Cryptococcus fagi Baer (Insecta, Coccina), a representative bark-sucker. 999

White fir stands killed by tussock mothi 70-mm. color photography aids detection. 1019

Dwarfmistletoe on Brewer spruce in Oregon. 1028

Spruce budworm larvae damage western larch cones and seeds. 1603

Annotated list of insects infesting bark and wood of Fraser fir. 2200

Sofar unnoticed damage to fruit trees, brought about by field mice. 2263

Important forest insects of Ontario in 1967. 2819

Actual state of research in progress on integrated pest control in the case of Coccidae in France. 3430

Infestation rate and damage by the Nantucket pine tip moth in six loblolly pine stand categories. 6156

Concerning a mass population increase of the false pine webworm, Acantholyda erythrocephala Chr. in Steinfeld, Lower austria, in the years 1964-1967. Preliminary communication. 6196

Abnormal ray tissue in three true firs infested by the balsam woolly aphid. 6226

Observations of Odontopus calceatus (Coleoptera: Curculionidae), a leaf miner damaging yellow-popular. 7692

TREE PLANTING

Influence of soil and site on red pine (Pinus resinosa Ait.) plantations in New York. II. Soil type and physical properties. 7240

TREES

Some impacts of beekeeping on the management of the Miombo in Tanzania. 213

The gypsy moth threat in America. 216

An outline of the biology of Hypsipyla robusta Moore, the shoot borer of the meliaceae (mahoganies) of Nigeria, together with brief comments of two stem borers and one other lepidopteran fruit borer also found in Nigerian Meliacaea. 286

Tree line weed control in Goulburn Valley orchards. 325

New evidence that a number of leaf- and needle-eating insects depend on the sugar-content of their food. 881

On Diaporthe on plum-trees - a study of literature. 977

Bromacil tested as an injection herbicide. 1030

Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun. 1594

Tree physiology and forest pests. 1607

Pests of flowering trees. 1609

A comparative study on urea sprays upon some deciduous fruit trees. 2100

Reduction in mortality of peach trees following preplant soil fumigation. 2103

Sofar unnoticed damage to fruit trees, brought about by field mice. 2263

Important forest insects of Ontario in 1967. 2819

Pathogenecity of Pratylenchus brachyurus to citrus. 2828

Drench your trees against San Jose scale. 4738

Trials with carbon dioxide, light and growth substances on forest tree plants. 4909

Southern tree chapter briefed on borer control. 5459

Bagworm. 5662

Controlling insects and diseases on trees. 5897

Infection, recovery from infection and resistance of apricot trees to Verticillium albo-atrum. 6105

San Jose scale (Quadraspidiotus perniciosus) 6199

Maryland arborists discuss insect control. 6221

Bark beetles. 6273

Results of herbicide tests carried out in 1966 by the Vegetable Protection Service. 6326

Effect of the triazine herbicides simazine and atrazine upon young plum trees. 7260

A new method for controlling tree size . 7764

TREFLAN

Trifluralin and benefin--new herbicides for vegetable growers. 3482

TREHALASE

Sugars and trehalase in the reproductive organs and hemolymph of the queen and drone honey bees (Apis mellifica L. var. Ligustica Spin.). 3152

TREHALOSE
Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L.. 1432
Isolation and mapping of Salmonella typhimurium mutants defective in the utilization of trehalose. 1706
Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L. 3235
Nutrients derived from the fungus cultured by the fungusgrowing ant Atta columbia tonsipes. 3240
An action of insect hormones on carbohydrate metabolism in insects. 4531
Trehalose regulation of gucose-6-phosphate hydrolysis in blowfly extracts. 5317

TREMATODA
The life span of Fasciola hepatica in cattle. 448
On Fischoederius cobboldi--a pouched amphistome from cattle in India. 1129
On the synonymy of the genus Artyfechinostomum Lane, 1915 (Trematoda: Echinostomatidae). 1764
Method for dispersing toxicants to kill disease-spreading water-spawned larva, trematodes, mollusks and similar organisms, and products used in such method. Patent 3,417,181. 3491
The liver fluke in sheep. 3617
Metabolism of 3,3'-dichloro-5,5'-dinitro-0,0'-biphenol (bayer 9015) anti-fluke agent in a lactating cow. 3670
Minimum time for development and life span of metacercariae. 4270
Brachylaima degiustii n. sp. from Columba livia in Venezuela. 6980
Ectoparasites and helminth endoparasites of the tree squirrels of southwest Tennessee. 6982
Complex investigation of the functional state of the liver in the course of experimental flukeworm disease in sheep. 6989
On the biology of Apatemon gracilis (Rud., 1819), a trematode parasitizing in domestic and wild ducks. 6994
The numbers and dynamics of eggs produced by a trematode Apatemon gracilis (Yamaguti, 1933) in relation to the age of a host and post-infection immunity. 6995
A survey of parasites in laboratory primates. 6998
Adults of Eumegacetes artamii from white leghorn pullets infected with the metacercariae from two dragonflies. 7009

TREMATODIASIS
Research on paramphistoma-induced infections in the ruminants of the Tulcea district. 3634
A damsel-fly as the second intermediate host of a pleurogenetine trematode. 5488

TRI-ALLATE
Wheat control in wheat. 2868

TRIATOMA
Studies on wild reservoirs and vectors of Trypanosoma cruzi. XXVIII. on the presence of Triatoma sordida Stal., 1859 and Rhodnius neglectus Lent, 1954 in nests of Furnariid birds (Hemiptera, Reduviidae). 2885
A comparative electrophoresis study of the Triatoma rubida Complex (Hemiptera: Reduviidae: Triatominae). 5181

TRIATOMA DIMIDIATA
Vapona for the control of museum pests. 5576

TRIATOMA INFESTANS
The induction of NAD kinase by DDT in Triatoma infestans. 5182
Some properties of the microsomal system metabolizing DDT in Triatoma infestans. 5183
Survival of western equine encephalitis virus in Triatominae. 5761

TRIATOMINAE
Ecological observations on three species of Pimeliaphilus parasites of triatominae in the United States (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5192

TRIAZINE
On the application of herbicides on bodies of water. 3473
Soybean injury from triazine residues in soil. 3686
The lasting influence of triazines and the effect of herbicide mixtures in the treatment of corn. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4064
Chemical control of weeds in the Hungarian vineyards. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4086
Chemical weed control and defoliation in potato fields. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4775
Precision placement of herbicides for weed control in seedling alfalfa. 6359
A comparison of new techniques for the detection and determination of triazine herbicides separated by thin-layer chromatography. III. Fluorescence quenching. 7343

TRIAZINE HERBICIDES
Polarographic analysis of s-triazine herbicides. 1183
Biochemical aspects of triazine based herbicides. 2255
Effect of the triazine herbicides simazine and atrazine upon young plum trees. 7260
The influence of increasing doses of simazine upon the rate of root and green parts growth of winter wheat. 7306

TRIAZINE-3,5(2H,4H)-DIONE, 6-AS
Effect of 6-azauracil against apple powdery mildew and apple scab. 5909
Effect of 6-azauracil on infection with tobacco mosaic virus. 5914

TRIAZINES
Improved GLC method for s-triazine residue determination. 498
A novel methoxylation during oxidation of simple dihydropyrimido (5,4-e)-as- triazines. 3066
The influence of herbicides on the morphology of cereal cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4320
Process for the production of substituted triazines. Patent 3,428,636. 4337
The influence of some electrolytes on the adsorption and release of symmetrical triazines on some organic colloids. 7104

TRIBOLIUM
A mathematical model for two Tribolium populations in competition. 164
Infectiousness of coccidians for insects. 174
A new species of Tribolium from North America previously confused with Tribolium madens (Charp.) (Coleoptera: Tenebrionidae). 5055
New possibilities of pest control in mills and flour storages by DDVP chemicals. 7035
Physico-chemical studies of pesticides. III. Effect of soap on the biological activity of DDT suspensions. 7858

TRIBOLIUM CASTANEUM
The influence of selection and mating systems on larval weight in Tribolium. 931
Dietary efficiency of natural foods for the growth and development of Tribolium castaneum Hbst. and Corcyra cephalonica Staint. 1160
The influence of selection and mating systems on larval weight in Tribolium. 1524
Temporal distribution of Tribolium castaneum Herbst and Cadra cautella Walker on temperature gradients. 1917
The life history of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae). 1994
Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230
Sub-zero mortality responses of Tribolium confusum Duval (two stocks) and T. castaneum (Herbst) (four stocks) analyzed by weighted regression lines based on individual temperature LD50 s. 2626
Genetic analysis of a population of Tribolium. II. Metabolic pattern of corn oil sensitive anomaly. 3327
Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion. 3337
Susceptibility of irradiated insects to Bacillus thuringiensis infection. 4519
Response of some stored-product insects to Trogoderma granarium pheromones. 4625
Temperature effects on the toxicity of five insecticides against five species of stored-product insects. 5384
The stochastic simulation of Tribolium populations. 7743

TRIBOLIUM CONFUSUM
Acclimation to low temperatures in Tribolium confusum Duval (Col., Tenebrionidae). 1476
The use of Drosophila melanogaster Meig., Calandra oryzae L. and Tribolium confusum Duv.

for the detection of pesticides and for the evaluation of some extractive techniques.
2547

Sub-zero mortality responses of Tribolium confusum Duval (two stocks) and T. castaneum (Herbst) (four stocks) analyzed by weighted regression lines based on individual temperature LD5O s.
2626

Neuroleptic substances and insect behavior-- VI. The influence of reserpine on the body weight of Tribolium confusum.
2633

The reproducing capacity of gamma-irradiated adult males of the confused flour beetle.
3300

Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion.
3337

Susceptibility of irradiated insects to Bacillus thuringiensis infection.
4519

The incidence and burden of Hymenolepis diminuta cysticercloids as a function of the age of the intermediate host, Tribolium confusum.
4524

Mobility in Tribolium confusum.
4565

Temperature effects on the toxicity of five insecticides against five species of stored-product insects.
5384

Biochemical correlates of respiratory and developmental changes in anoxic Tribolium confusum pupae.
5408

Stored grain insects as carrier of fungi.
7034

TRIBUTYL(2,4-DICHLOROBENZYL)PHOSPHONIUM CHLORIDE
Effects of growth retardants on Vitis vinifera L.
7218

TRIBUTYLTIN OXIDE
Annosus root-rot in slash pine plantations four years after thinning and stump treatments.
2138

TRICALCIUM ARSENATE
Renovation toward bentgrass.
1041

Finesse in weed control.
4778

TRICARBOXYLIC ACID CYCLE
Diurnal variation in some Krebs cycle enzymes in cactus (Nopalea dejecta) phylloclades.
4910

Tricarboxylic acid cycle activity in a pseudomonad.
4922

Effect of ultraviolet radiation on the oxidation of certain Krebs cycle substrates in Vibrio cholerae.
4930

TRICHINAE
Trichinae in garbage fed swine.
2995

TRICHINELLA SPIRALIS
Trichinosis and sarcosporidiosis in a puma.
380

Experimental investigation of goss immunity between Trichinella spiralis and Ascaris suum.
1758

Ecological factors which determine the wild type of trichiniasis west of San Luis and east of Mendoza.
1761

Observation of the migrant larva of Trichinella spiralis in the capillary blood.
1769

Epizootics of trichinosis in pigs and its relation with anti-rat procedures using warfarin.
4227

Trichinella spiralis infection in Rattus norvegicus from the municipal abattoir of Santiago, Chile.
4228

General method for the culture of helminths in anaerobic conditions.
4854

Synthesis of radioactive Trichinella spiralis larval antigen in vitro.
6799

Trichinella spiralis: Immune elimination in mice.
6935

Remarks concerning the experimental infestation of guinea pigs with the East African strain of Trichinella spiralis.
6946

Comparative susceptibilities of the cat and the domestic pig to the west African strain of Trichinella spiralis. (Owen, 1835).
6947

The value of some standardized Trichinella spiralis antigens, as estimated by intradermal tests.
6948

Homocytotropic antibody response in mice infected with Schistosoma mansoni: Comparasion with the response following Trichinella spiralis infection.
6979

Survival of encysted larvae of Trichinella spiralis: Effect of exposure to 0 F, using precooled and fresh ground pork.
7039

TRICHINOSIS
On the natural focus-problem of trichinellosis in Switzerland.
1743

Trichinae in garbage fed swine.
2995

Epizootics of trichinosis in pigs and its relation with anti-rat procedures using warfarin.
4227

Trichinella spiralis infection in Rattus norvegicus from the municipal abattoir of Santiago, Chile.
4228

Thiabendazole as a broad-spectrum anthelmintic. (abstract).
4853

TRICHIOCAMPUS IRREGULARIS
Trans-ovum transmission of insect viruses as a biological control.
4600

TRICHIOCAMPUS VIMINALIS
Trans-ovum transmission of insect viruses as a biological control.
4600

TRICHLORFON
A note on the control of the semi-cooper, Achaea Janata L., on castor.
291

The toxicological effect on animals of mixtures of chlorophos and DDT.
1156

The toxicological effect on animals of mixtures of thiophos, and chlorophos.
1157

The biology and control of Archips occidentalis (Wals.) and Tortrix dinota Meyr. (Lepidoptera: Tortricidae) on coffee in Kenya.
4744

Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen.
6150

Chemical control of the tea tortrix (Homona coffearia Nietner).
6171

Combined action of DDT with chlorophos and of thiophos with chlorophos.
7206

Thin-layer chromatographic-enzymatic identification of organophosphorus insecticides. Actiuation of weak esterase inhibitors.
7324

Nuclear magnetic resonance studies of phosphorus(V) pesticides- III, the hydrolysis of aliphatic pesticides by aqueous solutions.
7347

The toxic effect of three organophosphate insecticides on female Lebistes reticulatus Peters.
7715

Ridding groundnut of red hairy caterpillar.
7837

Stem applications of azodrin for control of the cotton fleahopper.
7838

The cotton leaf weevil, Bucculatrix thurberiella Busck. The history, habits, biology and methods of control.
7839

House fly, Musca domestica, control with chemosterilants and insecticides.
7927

Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures.
7977

TRICHLOROACETIC ACID
Weeds and their control.
4782

TRICHLOROBENZYL CHLORIDE
Notice of filing of petition regarding pesticide chemicals.
2395

TRICHLOROPHENOXYACETIC ACID
Increasing the yield of dried fruit from the Sultana with growth regulators.
1808

TRICHLOROPHENOXYACETIC ACID, 2,4,6-
Short-term growth response to growth regulators in roots of Zea mays.
515

Penetration of chlorinated phenoxyacetic and benzoic acids into leaves.
7289

TRICHOCLADIUS
Occurrence of the species Trichocladius trifascia Edwards (Chironomidae, Diptera) in the Danube.
3816

TRICHODERMA
Studies on the microfungi in the forest floor of subarctic pine forests.
983

Some cultural studies on Rhizoctonia solani the causal organism of sheath blight of paddy.
3382

Butt rot in yellow-poplar seedling-sprout stands.
5947

TRICHODERMA VIRIDE
Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil.
7236

TRICHODORUS CHRISTIEI
Systemic pesticides for control of sting and stubby-root nematodes on vegetables.
2239

TRICHOGRAMMA
Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments.
769

Experiments concerning the sensitivity of Trichogramma (Hymenoptera, Chalcidoidea) to fungicides.
1190

Chambers for incubating individual insect eggs and egg parasites.
2054

Some concluding remarks.
2670

Use of some host insects to increase trichogram effectiveness.
5692

Field experiments with Trichogramma brasiliensis Fland. for the possible control of the pink bollworm of cotton, Pectinophora gossypiella Saund., in Mexico. 6198

Bagworm photographs: Eggs, larvae, pupae, and adults of Thyridopteryx ephemeraeformis (Psychidae: Lepidoptera). 7674

TRICHOGRAMMA CACOECIAE

Experiment on the influence of Bacilluscereus var. Galleriae and of lindane on Sitotroga cerealella Oliv. and on Trichogramma cacoeciae March. 4591

TRICHOGRAMMA EMBRYOPHAGUM

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the help of Trichogramma embryophagum (Hartig). (abstract). 2652

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the aid of Trichogramma embryophagum Hartig. 3276

The significance of oviposition rates in the egg parasite, Trichogramma embryophagum Htg.. 5410

TRICHOGRAMMATIDAE

Trichogrammidae--the smallest winged insects. 42

The nomenclature problem of Trichogramma species. 45

Investigations concerning the biological control of the apple moth (Carpocapsa pomonella (L.)) by means of egg parasites of the genus Trichogramma. 161

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development. 1970

Taxonomy of the genus Trichogramma (Hymenoptera, Chalcidoidea, Trichogrammatidae). 3098

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the aid of Trichogramma embryophagum Hartig. 3276

TRICHOMONAS

The discovery of two species of Trichomonas in feces of two dogs. 2946

TRICHOMONAS FAECALIS

Equine protozoan diarrhea (equine intestinal Trichomoniasis) at Trinidad racetracks. 2278

TRICHOMONIASIS

Equine protozoan diarrhea (equine intestinal trichomoniasis) at Trinidad racetracks. 1729

TRICHOPHYTON MENTAGROPHYTES

Ringworm due to Trichophyton mentagrophytes in a dog. 6529

TRICHOPLUSIA NI

A microsporidian, Thelohania sp., pathogenic for the cabbage looper Trichoplusia ni. 158

Light traps as detection devices for moths of cabbage looper and bollworm. 1602

Field and laboratory studies of attraction of the synthetic sex pheromone to male cabbage looper moths. 1986

On the food utilization and digestion of major food nutrients in the lepidoaterous larvae feeding on cauliflowers. 2009

Serratia marcescens found in eggs of Heliothis zea: Tests against Trichoplusia ni. 3165

Comparative susceptibility in the laboratory of larval instars of Trichoplusia ni and Pieris rapae to Bacillus thuringiensis var. thuringiensis. 3166

A polyethylene bag for dispersing the synthetic sex pheromone of the cabbage looper. 3292

TRICHOPROSOPON DIGITATUM

Laboratory colonization of Trichoprosopon digitatum (Rondani) (Diptera: Culicidae). 1350

TRICHOPTERA

The genus Poecilopsyche n. gen. (Trichoptera, Leptoceridae). 1323

The family Arctopsycidae (Trichoptera). 1324

The proventriculus of some trichopterous larvae. 3206

Use of freshwater sponge in case construction of Limnephilus species (Trichoptera: Limnephilidae). 3810

Studies of neotropical caddis flies. VIII: The immature stages of Barypenthus claudens (Trichoptera: Odontoceridae). 3818

New data on the biology of caddisflies (Trichoptera, Limnephilidae, Apataniinae) of Lake Baical. I. Life span and mass flight of adults. 3851

The behavior of adults of abundant species of caddisflies (Trichoptera) in the tributaries of Lake Sevan. 3852

A new species of Ecnomus McLachlan (Trichoptera: Psychomyidae) from South Africa. 4430

The immature stages of Lype diversa (Banks) (Trichoptera, psychomyiidae). 5032

The endemic Rhycophila from Corsica. Description of Rhyacophila tarda sp. n. (Tricoptera). 5046

Life cycles of benthic insects in Lapland streams (Ephemeroptera, Plecoptera, Trichoptera, Diptera Simuliidae). 5653

Some new or little-known Nearctic Trichoptera. 7536

The Tricoptera of the Lule Lappmark (Sweden), II. Inventory of the species, habitats, and flight periods. 7555

The Trichoptera of the Lule Lappmark (Sweden), II. Catalog of the species, habitats and flight periods. 7556

TRICHOSPORON

Yeasts and yeast-like fungi in the genital organs of cows and heifers. V. Genital candidiasis and abortions caused by yeasts belonging to the genera Candida, Trichosporon and Saccharomyces. 6608

TRICHOSTRONGYLIDAE

Antibody and cellular response in lambs immunized against Trichostrongylus axei. 1132

In vitro development of invasive Nematode-larvae to parasitic stages. 1738

On the physiology of invasive larvae of Trichostongylidae. 1739

Treatment of gastrointestinal parasitism of cattle with Parbendazole. 7004

TRICHOSTRONGYLOSIS

Pseudohookworm infection - trichostrongyliasis. Treatment with thiabendazole. (abstract). 2373

TRICHOSTRONGYLUS

Sheep disease problems associated with high density stocking. 2878

Epizootiologic factors of infestation by Trichostrongylidae in ovines in Leon. 6937

Amino acid composition of some strongyle parasites of cattle. 6952

TRICHURIASIS

Studies on the pathogenesis of trichocephaliasis in sheep. 6920

The investigations of main intestine enzymes--enterokinase and alkaline phosphatase in experimental pig trichocephaliasis. 6964

The dynamics of total protein amount and protein fractions in the blood serum during experimental pig trichocephaliasis. 6971

TRICHURIS

Hygromix (hygromycin B). Drugs for veterinary use; drug efficacy study implementation. 2364

Dizan powder and tablets. Drugs for veterinary use; drug efficacy study implementation announcement. 2367

Parasites of sows and pigs in Europe. 3625

Evaluation of the anthelmintic activity of thiabendazole in man. (abstract). 4860

Studies on the pathogenesis of trichocephaliasis in sheep. 6920

Worm control in swine. 6942

A comparative study of the activities of 2,6-diiodopara-nitrophenol (Disophenol) and 2-para-thiazolylbenzimidazole (Thiabendazole) as anthelmenthic for sheep. 6999

TRICHURIS VULPIS

An attempt to eliminate the principal parasitic nematodes of dogs by using a new phosphoric ester. 4277

The systemic action of methyridine against helminths, especially whipworms, in dogs. 6929

Efficacy of tetramisole on nematode infections of dogs. 6981

TRIFLURALIN

Notice of filing of petition regarding pesticide chemicals. 2391

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil. 2459

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 2866

A new herbicide for use on cultivated plants. 3047

The disppearance of trifluralin from field soils. 3663

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 3692

Tolerances and exemptions tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin. 4299

Preplanting applications of prometryne in cotton. 6340

Effects of methods of placement on performance of trifluralin, CDEC, and DCPA applied to soil. 6364

Pre-emergence weed control in the nursery. 6383
Herbicides in cotton and their compatibility with soil-applied insecticides. 6388
Cotton unaffected by systemics and herbicides. 7220
Effect of trifluralin on growth, morphology, and nucleic acid synthesis. 7292

TRIGONELLA
The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces. 5837

TRIGONELLA FOENUM-GRAECUM
Natural infection of fenugreek by two legume viruses. 6086

TRIGONOTYLUS PSAMMAECOLOR
A review of the British Trigonotylus (HeteropteraMiridae, Mirinae). 830

TRIGONOTYLUS RUFICORNIS
A review of the British Trigonotylus (HeteropteraMiridae, Mirinae). 830

TRIIODOBENZOIC ACID, 2,3,5-
The nature of TIBA action. 3691
TIBA fractures the soybean yield barrier. 5787
Inhibition of strawberry runner production with Alar, Cycocel, maleic hydrazide, and TIBA. 7985

TRIMEDLURE
A contribution to the study of some dry attractant products effects on Ceratitis capitata Wied. 3432

TRIMEROTROPIS HELFERI
Pericentric inversion polymorphism in Trimerotropis helferi (Orthoptera: Acrididae) and its effect on chiasma frequency. 2088

TRIMETHYLPHENYL METHYLCARBAMATE, 2,3,5-
Insecticide mixture. Notice of extension of temporary tolerance. 3013

TRIOLEIN
Influence of microorganisms on intestinal absorption: Oleic acid 131I and triolein 131I absorption by germfree and conventionalized rats. 427

TRIPHENYLLEAD ACETATE
Laboratory assay of the molluscacide, triphenyllead acetate. 3673

TRIPHENYLTIN HYDROXIDE
Chemical control of scab on citrus in Florida. 2136
Toxicity of fentin hydroxide to rats. 2431
New fungicide for potato blight. 4684
Studies on the antifeedant against the catterpillars of Pericallia ricini F. (Arctiidae) and Spodoptera littoralis Boesd. (Noctuidae: Lepidoptera) on castor (Ricinus communis L.). 6259

TRIPLOCHITON SCLEROXYLON
Imported Cerambycidae. 3151

TRIPSICUM DACTYLOIDES
The relationship of Johnson grass and other perennial hosts of maize dwarf mosaic virus to disease spread and control. 6108

TRISTEZA
Aphid populations in relation to tristeza in Florida citrus. 2235

TRITICALE
Triticale in 1967. 225

TRITICUM AESTIVUM
Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 2111
Weed control and plant residue maintenance with various tillage treatments in a winter wheat-fallow rotation. 2862
Three laboratory techniques for screening small grains for resistance to the cereal leaf beetle. 3448

TRITICUM VULGARE
On the application of herbicides on bodies of water. 3473

TRITIUM
Enrichment of auxotrophic mutants of Aspergillus flavus by tritium suicide. 1834
Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster. 4639
The localization of spermidine in salivary gland cells of Drosophila melanogaster and its effect on H-3-uridine incorporation. 5288

TRITYLMORPHOLINE, N
Liver fluke disease control with a new molluscicide . 3616

TRIZONE
Methyl bromide, Trizone and Telone PBC compared in the control of fusarium wilt of the greenhouse tomato. 4716

TROGODERMA
On the knowledge of the morphology and biology of Trogoderma angustum Solier, 1849 (Coleoptera; Dermestidae). 1447

TROGODERMA GRANARIUM
Changes in body weight, fat, glycogen, and protein during diapause of Trogoderma granarium. 3226
Response of some stored-product insects to Trogoderma granarium pheromones. 4625
Nutritional behavior of Trogoderma granarium Everts (Coleoptera: Dermestidae) on leguminous seeds. 5230
Stored grain insects as carrier of fungi. 7034

TROMBICULIDAE
New larvae of Trombiculidae (Acaridae), parasites on the mammals of rumania. 1878
Schizeckenosy: The substitute for defecation in chigger mites. 2615
Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692
A new species and new records of Mackiena (Acarina, Trombiculidae). 5111
The establishment ofa lectotype for Leptotrombidium (Leptotrombidium) akamushi (Brumpt, 1910) (Acarina: Trombiculidae). 5163
A technique for rearing trombiculid mites (Acarina) developed in a tropical laboratory. 5489
A technique for feeding larval trombiculid mites on laboratory mice. 5748

TROMBIDIFORMES
Epimyodex talpae n. g., n. sp., a sub-cutaneous parasite of the mole in Belgium (Demodicidae: Trombidiformes). 5029

TROMBIDIIDAE
South American Thrombidiidae. II. Chyzerini Thrombidiinae; solenocyte taxonomy of the palpus in several Thrombidii a ; th r latio-ship between Podothrombium Berlese 1910 -- Variathrombium n. g., and Thrombidiinae. 5137

TROPICAL PLANTS
We Squashed the weeds. 326

TROPICS
On the problem of the importance of the larval haemoglobin for the respiration of the tropical chironomid Chironomus strenzkei Fittkau (Diptera). 1451
Bacteriostatic properties of milk from tropical countries. 4868

TROUT
Pisciculture: Raising trout in salt water. 1046
Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 1649
Experimental plantings of brook trout (Salvelinus fontinalis) from furunculosis-infected stock. 1688
DDT residues and metabolites in Canadian Atlantic coast fish. 3011
Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 3032
Growth and resistance to stress in brook trout fed sublethal levels of DDT. 3040
Pesticides in hatchery trout---differences between species and residues levels occuring in commercial fish food. 4874
DDT: Sublethal effects on brook trout nervous system. 4892
Effects of chronic exposure to zinc on toxicity of a mixture of detergent and zinc. 4894
Some pathological effects of sub-acute and acute poisoning of rainbow trout by phenol in hard water. 4898
DDT. Sublethal effects on brook trout nervous system. 7087

TRYPANOSOMA
On the Trypanosome-infection rate of Glossina morsitans in the Ulanga District, (Tanzania). 1120
Evolutionary trends in mammalian trypanosomes. 2917
Blood parasites found in imported birds at post-mortem examination. 6987

TRYPANOSOMA BRUCEI
On the cultivation of Trypanosoma brucei and of its reproductive capacity in virus-infected hosts. 1055
Suitable blood sources permitting reacquisition of infectivity by culture-form Trypanosoma (Trypanozoon) brucei. 6461

TRYPANOSOMA CRUZI
Studies on some silvatic reservoirs and vectors of Trypanosoma cruzi. XXI: observations on the ecology of Panstrongylus geniculatus (Latreille 1811) (Hemiptera Reduviidae). 9
Epizootiology of Trypanosoma cruzi in Southwestern North America. XI-XII. Biology of the genus Reduvius in North America and the possible relationship of Reduvius to the

epizootiology of Trypanosoma cruzi (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomidae).
875

Electron microscope studies on the life cycle of Trypanosoma cruzi. With special consideration on the developmental forms in the vector, Rhodnius prolixus.
1365

Epizootiology of Trypanosoma cruzi in Southwestern North America. XII. Does Gause's rule apply to the ectoparasitic Triatominae (Hemiptera: Reduviidae) (Kinetoplastidae: Trypanosomidae) (Rodentia: Cricetidae).
1467

Studies on wild reservoirs and vectors of Trypanosoma cruzi. XXVII. Natural infection of bats by Trypanosoma vespertilionis Bataglia, 1904.
1650

Studies on wild reservoirs and vectors of Trypanosoma cruzi. XXVIII. on the presence of Triatoma sordida Stal., 1859 and Rhodnius neglectus Lent, 1954 in nests of Furnariid birds (Hemiptera, Reduviidae).
2885

Experimental Trypanosoma cruzi infection in beagle puppies. The effect of variations in the dose and source of infecting trypanosomes and the route of inoculation on the course of the infection.
3566

Multiplication and differentiation of Trypanosoma cruzi in an insect cell culture system.
6875

Physiological events in the course of the growth and differentiation of Trypanosoma cruzi.
7881

Cultivation of Trypanosoma cruzi in a protein-free dialysate medium.
7907

TRYPANOSOMA EVANSI
The natural occurrence of surra in the African longhaired fox.
4236

TRYPANOSOMA GLABRA
Trypanosoma glabra n. sp., parasite of Mexican frogs. Morphology and cycle in the vertebrate.
436

TRYPANOSOMA LEWISI
The effects of pantothenic acid, pantoyltaurine, salicylate and related compounds on the in vitro and in vivo growth of Trypanosoma lewisi.
4839

Mechanical transmission of Trypanosoma lewisi (Kinetoplastida: Trypanosomidae) by Rhodnius prolixus (Hemiptera: Reduviidae).
5261

Comparative studies on blood-stream and culture forms of Trypanosoma lewisi--I. Oxygen utilization, carbon dioxide production and glucose uptake.
6625

TRYPANOSOMATIDAE
Evolutionary trends in mammalian trypanosomes.
2917

Crithidia mellificae n. sp. an acidophilic trypanosomatid of the honey bee Apis mellifera.
4539

Some observations on flagellate parasites of hemipterans Corimelaena, Euschistus, Gerris, Leptocoris and Oncopeltus in the United States.
5444

TRYPANOSOME
Experimental Trypanosoma cruzi infection in beagle puppies. The effect of variations in the dose and source of infecting trypanosomes and the route of inoculation on the course of the infection.
3566

TRYPANOSOMIASIS
Studies on some silvatic reservoirs and vectors of Trypanosoma cruzi. XXI: observations on the ecology of Panstrongylus geniculatus (Latreille 1811) (Hemiptera Reduviidae).
9

Observations on the use of Antrycide Prosalt and the resistance of cattle to Trypanosomiasis.
2285

A study of the distribution of Glossina in Ethiopia.
2987

Comparative studies of American and African Trypanosomiasis.
3908

The natural occurrence of surra in the African longhaired fox.
4236

Five new cases of Chagas' disease in Zacatecas and Jalisco in the Republic of Mexico.
5760

Trypanotolerant cattle, Breeding in Central African Republic.
6550

TRYPANOSOMIDAE
Study of pinocytosis in the tissues of the Rosaceae Leptomonas ctenocephali.
1569

Mechanical transmission of Trypanosoma lewisi (Kinetoplastida: Trypanosomidae) by Rhodnius prolixus (Hemiptera: Reduviidae).
5261

TRYPORYZA INCERTULAS
The contribution of insect control to high yields of rice.
993

TRYPORYZA INNOTATA
The contribution of insect control to high yields of rice.
993

TRYPSIN
Pancreatic enzymes initiating excystation of Eimeria acervulina sporozoites.
6554

TRYPTOPHAN
Effect of alpha-methyl-DL-TRYPTOPHAN on tryptophan metabolism of Musca domestica L..
3233

Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components.
3379

Effect of Sclerospora graminicola infection on total nitrogen content and free amino acid composition of Bajra plants.
3995

Relationship between serotonin and the circadian rhthym in some nocturnal moths.
5364

Regulation of tryptophan metabolism in the parasitic wasp, Habrobracon juglandis.
5439

TSUGA HETEROPHYLLA
Borax and control of stump infection by Fomes annosus in western hemlock.
5920

TUBERCULIN
Tuberculosis in the pig and the tuberculin test.
388

Towards the eradication op bovine tuberculosis.
4172

TUBERCULIN TEST
Tuberculosis in the pig and the tuberculin test.
388

Allergy tests and false reactions in the prevention of bovine tuberculosis.
4150

Studies of tuberculosis in hens as a problem of food hygiene.
6493

Tuberculosis in ducks.
6819

Experiences and ideas regarding cattle tuberculosis sanitation in a state practitioners area.
6834

Incidence of tuberculosis in cattle in Rajasthan.
7910

TUBERCULOSIS
The eradication of bovine tuberculosis and brucellosis.
368

Tuberculosis in the pig and the tuberculin test.
388

Differentiation of mycobacteria isolated from domestic animals.
422

Market cattle testing for brucellosis and tuberculosis.
1058

Studies on bovine tuberculosis. Effects of repeated tuberculations in infected cattle.
2326

The status of the state-federal tuberculosis eradication program.
2958

Tests on laboratory animals and on tubercular cows in order to determine the value of the morruato cupric colloidal (gadusan) in the intradermal reaction.
4115

Serological typing of mycobacteria for tracing possible sources of avian mycobacterial infections in man.
4170

Towards the eradication op bovine tuberculosis.
4172

Control of bovine tuberculosis and list of officially certified herds.
4846

Studies of tuberculosis in hens as a problem of food hygiene.
6493

Tuberculosis in ducks.
6819

Experiences and ideas regarding cattle tuberculosis sanitation in a state practitioners area.
6834

Results of the prevention of tuberculosis in cattle in Slovenia from 1947 to 1967.
7893

Incidence of tuberculosis in cattle in Rajasthan.
7910

TUBERS
On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers.
1169

TULAREMIA
Notes on Pasteurella tularensis isolated from a vole, Microtus oeconomus Pallas, in Alaska.
2959

Transmission of the tularemia pathogen to homothermal animals by Ixodes ticks. (JPRS 44,105).
5758

Preliminary results in a study of natural foci of tularemia in the Sisak-Gusce-Popavaca region of Croatia. (JPRS 44,159).
6623

Results of microbiological examination of reservoir animals in the west Slovakia region for tularemia.
6701

TULIPA
On the antibiotically active substances of the tulip (Tulipa gesneriana).
543

The occurrence of gibberellin-like substances in tulip bulbs. (Tulipa sp.).
7981

TUNDRAS
The distribution and abundance of Collembola in the tundra zone.
2481

TUNGRO
Hybrids of Nephotettix impicticeps Ish. and N. apicalis (Motsch.) and their ability to transmit the tungro virus to rice.
119

Testing rice varieties for resistance to tungro disease.
5997

Genetics of and breeding for resistance to rice virus diseases.
6111

TUNGRO DISEASE
Transmission experiments on the tungro virus in Thailand.
5429

TURACOECA
A review of the genus Turacoeca with description of a new species (Mallophaga: Menoponidae).
687

TURF
The sod industry's boom is busting.
973

Surveying the pre-emergent chemicals and ideas.
1026

Machinery and timing in renovation-bluegrass.
1040

Renovation toward bentgrass.
1041

Why is the Navy concerned with weed control.
1636

Herbicide research and finesse.
1639

Would you believe.
3027

Turf diseases.
3416

Bioassay for bensulide, DCPA, and siduron in turfgrass.
3695

Perennial bindweeds.
4074

Fairway disease control.
4674

Factors influencing disease development of putting green turf.
5956

Fusarium blight and Merion bluegrass.
6114

Weed control in turf - 1967.
6345

Chemical growth inhibition in turf.
6349

Weed control in turf.
6382

Controlling weeds in turf.
6387

TURKEY EGGS
Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract).
4118

The use of serologic methods for the control of Mycoplasma meleagridis in turkeys. (Abstract).
4198

Salmonella penetration of the outer structures of white- and speckled-shell turkey eggs.
6868

TURKEYS
Airsacculitis relation to mycoplasmas in turkeys free of Mycoplasma gallisepticum.
360

Research note: Observations on immune factors associated with arizona group infections in turkeys.
364

Nutrient requirements of poultry.
397

Breast blisters in turkeys.
402

Pathogenesis of the round heart syndrome in turkeys.
410

Notice of filing of petition for food additive sulfadimethoxine.
1066

Seasonal dynamics of the invasion extensity of the nematode Syngamus trachea (Montagu, 1811) in breeding turkeys (Meleagris gallopavo f. domestica).
1728

Effects of estrogens on aortic connective tissue of turkeys.
2269

The effects of reserpine on the reproductive performance of breeder turkeys receiving artificial insemination.
4106

Emtryl and antibiotics for turkey breeders. (Abstract).
4112

Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract).
4117

Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract).
4118

Epizootiology of influenza in turkeys. (Abstract).
4157

Relationship of biotin to leg weakness in turkeys. (Abstract).
4161

Control of Mycoplasma meleagridis infection in turkeys. (Abstract).
4171

The use of serologic methods for the control of Mycoplasma meleagridis in turkeys. (Abstract).
4198

Amino acids and isonitrogenous turkey starter diets. (Abstract).
4207

Therapeutic efficacy of ronidazole in water against histomoniasis and effect of continuous feed levels on growth in turkeys. (Abstract).
4245

Persistance of Mycoplasma meleagridis in the genitalia of experimentally infected turkeys. (Abstract).
4263

Effect of spectinomycin on experimentally induced Arizona group infection in turkeys. (Abstract).
4265

The Amprolium-Ethopabate combination. A new stage in the prevention of avian coccidiosis.
4720

Effects of dimetridazole and antibiotics on growth and reproduction in turkeys.
6415

Turkey management guide.
6441

The morphologic response of the turkey oviduct to certain pathogenic agents.
6483

Some outbreaks of turkey erysipelas.
6510

The characteristics of Staphylococcus aureus isolated from cases of staphylococcosis in poultry.
6614

Some characteristics of Staphylococcus aureus isolated from the skin and upper respiratory tract of domesticated and wild (Feral) birds.
6615

Requirement of turkey poults for biotin and effect of deficiency of incidence of leg weakness in developing turkeys.
6648

Histologic features of atherogenesis and aortic rupture in turkeys.
6684

A new influenza A virus infection in turkeys. IV. Experimental susceptibility of domestic birds to virus strain turkey/Ontario 7732/1966.
6737

A new influenza A virus infection in turkeys. V. Pathology of the experimental disease by strain turkey/Ontario 7732/66.
6738

A hemagglutination-inhibition test for Mycoplasma meleagridis antibodies.
6787

Isolation of Arizona 7:1,7,8 from litter of pens housing infected turkeys.
6824

Experimental transmission of Histomonas meleagridis and Heterakis gallinarum by the sowbug, Porcellio scaber, and its implications for further research.
6830

Novobiocin for use in chicken and turkey feed. Drugs for veterinary use; drug efficacy study implementation.
7176

TURNIPS
Effects of two inhibitors of protein synthesis on the multiplication of tobacco mosaic virus and turnip yellow mosaic virus.
1548

The action of formamide on turnip yellow mosaic virus: Obtaining artificial capsids.
4686

The action of urea on turnip yellow mosaic virus. The properties of RNA obtained at the time of artificial capsid formation.
4701

First evidences of viral infections in plants.
4704

Changes of plastids which arise under the influence of turnip yellow mosaic virus.
6016

Detection of Plasmodiophora brassicae races 2 and 6 in Ontario.
6056

Matricaria and lambsquarter control in Brassicas with analogs of propachlor.
6368

TURTLES
The mosquitoes attracted to turtles.
1716

The black fly, Simulium venustum, attracted to the turtle, Chelydra serpentina.
5617

Temperature and humidity effects on the oviposition of Hyalomma aegyptium ticks of different engorgement weights.
5637

TYDEUS
Five tydeid mites from Israel (Acarina: Prostigmata).
5041

TYLENCHIDAE
In vitro feeding of Telotylenchus loofi on great millet (Sorghum vulgare) roots.
7849

TYLENCHORHYNCHUS CLAYTONI
Mutual antagonism between Heterodera tabacum and some other parasitic nematodes.
2248

TYLENCHORYNCHUS DUBIUS
Host suitability of a number of plants for the nematode Tylenchorynchus dubius.
2251

TYLENCHULUS SEMIPENETRANS
Citrus-root nematode in Iran.
2246

Some observations on the biological cycle of Tylenchulus semipenetrans Cobb, 1913 (Nematoda, Tylenchulidae).
2250

Results of the control of Tylenchulus semipenetrans Cobb., a parasitic nematode of citrus, by means of 1,2-dibromo-3-chloropropane.
2845

Control of the citrus nematode, Tylenchulus semipenetrans, with 1,2-dibromo-3-chloropropane in Taiwan.
4057

TYLOSIN
Copper sulphate and antibiotics as feed additives for early weaned pigs.
1684

Food additives permitted in food for human consumption. Tylosin.
2407

Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract).
4118

The use of serologic methods for the control of Mycoplasma meleagridis in turkeys. (Abstract).
4198

Field significance of Mycoplasma meleagridis infection. (Abstract).
4214

Growth, feed efficiency and gross chemical composition in market-weight pigs as influenced by a combination of synthetic sex hormones and tylosin.
6420

TYLOSIN TARTRATE
Control of Mycoplasma meleagridis infection in turkeys. (Abstract).
4171

TYPHLOCYBA CRATAEGI
Leaf deteriorations brought about by the cicadella Empoasca flavescens F. (Hom., Typhlocybidae) grown on apple trees.
268

TYPHLOCYBA CRUENTA
Coenosia lineatipes Zett. (Dipt., Muscidae) preying on Typhlocyba cruenta H. S. (Hem., Cicadellidae).
4448

TYPHLOCYBIDAE
Leaf changes brought about by Empoasca flavescens F. (Hom. Typhlocybidae) on apple trees.
2203

TYPHLODROMUS
New species of the genus Typhlodromus from Sudan (Acari: Phytoseiidae).
2485

TYPHOID
Central African utilization of a polyvalent avarian vaccine.
6781

TYPOPSILOPA
The genus Typopsilopa Cresson in the Western Hemisphere (Diptera: Ephydridae).
911

TYROSINE
Enzymic browning and free tyrosine in potatoes as affected by pentachloronitrobenzene.
2188

Studies of an insect mycosis. II. Biochemical changes in the blood of the queen of the mound-building termite Odontotermes obesus accompanying fungal infection.
3274

Halotyrosines as plant root growth stimulants. Patent 3,436,206.
3693

Composition of the gut contents of third-instar tsetse larvae (Glossina morsitans Westwood).
4478

Metabolic activity of pea root ribosomes under conditions of boron deficiency.
5877

Mesosomes in m-tyrosine-inhibited Bacillus thuringiensis.
6474

Relation between black spot and composition of the potato tuber.
7312

TYROTHRICIN
Peptide antibiotics. Do they represent only a few of many yet undiscovered microbial peptides .
1832

UBIQUINONES
Coenzyme Q10 in Brucella abortus Bang.
2345

UDDERS
The use of Brucella whey complement fixation test in a herd outbreak.
408

Composition containing penicillin and dye indicator for treating udders. Patent 3,427,377.
2265

Study on the incidence and etiology of mastitis in sows.
2302

Nocardia asteroides, cause of an endemic mastitis in the cow.
2950

Mastitis.
3541

Spohn's udder aid. Drugs for veterinary use; drug efficacy study implementation.
4176

S.N.F. content of milk.
6446

Incidence of udder infections arising at various stages of lactation of cows.
6734

Metabolic substances of Staphylococcus aureus of bovine udder origin - a quantitative study.
6739

Bovine herpes mammillitis virus. III. Observations on experimental infection.
6796

Influence of some preparations applied into the udder on the pH, microscopic cellular appearance, California Mastitis Test and on the content of catalase and chlorides in milk.
6837

ULCERS
Sheath rot is on the increase.
1674

Mastocytosis with gastrointestinal ulceration in a dog.
6511

Histologic features of atherogenesis and aortic rupture in turkeys.
6684

Hypercalcemia and gastro-duodenal ulcerations.
6849

ULEX
Gorse control at a profit.
3488

ULMUS
Forest insect and disease survey.
939

Low temperature sprays for Dutch elm disease control.
3957

On the elm-tree dieback.
6043

ULMUS ALATA
Effect of moisture stress on the absorption and transport of herbicides in woody plants.
1814

Dutch elm disease detected in Mississippi.
2195

Dutch elm disease detected in Alabama.
3947

The identity of Phyllactinia on winged elm in Georgia.
3965

ULMUS AMERICANA
Dutch elm disease recurrence and recovery in American elm.
962

Dutch elm disease found in Idaho.
2164

Dutch elm disease detected in Mississippi.
2195

Nitrogenous compounds in the xylem sap of American elms with Dutch elm disease.
6083

ULMUS PUMILA
Dutch elm disease in Idaho-1968.
2774

ULOPA TRIVIA
The macropterous form of Ulopa trivia Germar (Hem., Cicadellidae).
689

ULTRA LOW VOLUME APPLICATION
Control of grasshoppers (Phaulacridium vittatum) by ultra-low volume aerial application of technical maldison.
5253

ULTRASONIC WAVES
The application of ultrasound in the treatment of mastitis in cows.
6598

ULTRASTRUCTURE
The ultrastructure of the alimentary tract of the skin-penetrating larva of Nippostrongylus brasiliensis (Nematoda).
2998

Physiological and ultrastructural study of the corpora allata of Locusta migratoria L. (Orthoptera) in the gregarious phase.
3831

Purification, ultrastructure, and composition of axial filaments from Leptospira.
4188

On the structure of horse influenza virus. A contribution to the ultrastructure of influenza viruses.
4235

Ultrastructural peculiarities of the myofibrils in the flight muscles of Lepidoptera.
4452

The existence of inclusions which have a lamella ultrastructure in the nucleus of certain bacteriocytes in the adipose tissue of Periplaneta americana (Insecta, Blattidae).
4498

Ultrastructure of the hemocytes of Locusta migratoria (Orthoptera).
4512

Observations on the ultrastructure of the parasympathetic organs of the phasmids.
4585

Ultrastructure of homogeneous bodies and cellular bodies during the course of rickettsial infections.
4813

Evolution toward a single phenotype and persistance of the molting glands in Locusta migratoria cinerascens, gregarious phase, under the influence of carbonic gas. Experimental and ultrastructural study.
5498

Cuticle ultrastructure of the Meloidogyne hapla larva.
6292

Spermtail finestructure of Echinococcus granulosus and Dicrocoelium dendriticum.
6978

ULTRAVIOLET RAYS
The development of the serosa in male embryos of the mealy bug, Pseudococcus obscurus Essig.
181

Partial purification of sugarcane mosaic virus by filtration through gel.
219

Collaborative study of an ultraviolet method for measuring diquat content in formulations.
549

Collaborative study of the ultraviolet spectrophotometric determination of sulfoxide in formulations.
557

The relative abundance of species in a wild population of Macro-Lepidoptera.
1985

Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid.
2178

Thin-layer chromatography of bromacil residues in soils.
2401

Inactivation of Candida albicans by ultraviolet radiation.
2897

Effect of ultraviolet radiation on the oxidation of certain Krebs cycle substrates in Vibrio cholerae.
4930

Colour vision and colour preference in the tropical eye-fly.
5494

Preliminary investigations on the phenomenon of photoluminescense of seeds of soybean.
5816

The induction of dodine tolerance in Fusarium oxysporum f. melonis: a technique applicable to the study of the bionomics of soil-borne fungal pathogens.
6001

Postirradiation modification of ultraviolet-sensitivity of normal and nitrofurazone-resistant strains of the blue-green alga Anacystis nidulans.
7217

An autosomal recessive yellow-eyed mutation in the blowfly.
7591

Pyrimidine dimer formation in ultraviolet irradiated TMV-RNA.
7992

Prevention of photoreactivation of tobacco mosaic virus--ribonucleic acid by reconstitution.
7996

Gas chromatographic identification of chlorinated insecticides based on their U. V. degradation.
7999

UMWINSIA CAVERNOSA
Four new species and a new genus of Coccidae (Homoptera: Coccoidea) from Africa.
32

UNCINULA NECATOR
Control of anthracnose of grapes in the Transvaal.
7771

UNITED STATES
A note on the salmonella problem in the United States.
3645

Fish and Wildlife Act of 1956 as amended; an excerpt from title 16 of the United States Code.
7420

UPLAND COTTON
A boll weevil oviposition suppression factor in cotton.
2208

Bacterial blight elmiminated from California gins.
4724

Attack on moco cotton by pink bollworm in Ceara.
4756

URACIL
Effect of uracil and 5-nitrouracil on growth and flowering of tomato.
1168

RNA isolated from polyhedra of a nuclear polyhedrosis of the silkworm.
3218

Estimation of residues of uracil herbicides by gas chromatography after evaporative co-distillation.
3658

URACILS
Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth.
540

URANOTAENIA
A revised interpretation of the proctiger of male Uranotaenia with a related note on Hodgesia (Diptera: Culicidae).
1313

UREA
The excretion of nitrogen in insects.
69

Nutrient requirements of dairy cattle.
398

Factors influencing the selectivity of herbicides.
500

A comparative study on urea sprays upon some deciduous fruit trees.
2100

Annosus root-rot in slash pine plantations four years after thinning and stump treatments.
2138

Effect of 2,4-D and urea sprays on yield and fruit quality of Balady oranges.
2462

Preliminary study on the effect of different doses of Nitrogen on the incidence of major pests of mustard.
2644

Fomes annosus and chemical stump treatment in Virginia--a three-year study.
2707

The effect of carbamide and thiocarbamide on the resistance of apple to apple scab.
3375

Defoliant compositions Patent 3,440,034.
3721

Experimental studies on the ammonia poisoning of the goat. I. On the capacity to detoxicate ammonia entering through the portal blood.
4305

The action of urea on turnip yellow mosaic virus. The properties of RNA obtained at the time of artificial capsid formation.
4701

Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control.
4722

The comparative actions of urea and thioglycolate on the representative toxin of Bacillus thuringiensis.
4933

Influence of some herbicides on accumulation of 32P in above-ground organs of oats.
7223

Microbial degradation of five substituted urea herbicides.
7276

Herbicidal, halogenated urea derivative. Patent 3,431,289.
7344

Urea in the ration: How much can we safely add .
7868

Stilbestrol, antibiotics, vitamins, urea, minerals: What we're learning about feeding beef.
7874

UREA COMPOUNDS
Mechanical means for weed control in rice fields.
3075

New herbicides for controlling weeds in upland rice.
4076

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. (abstracts).
6168

UREA DERIVATIVES
Influence of various soil properties and moisture on the action of urea derivitives on grassy weed control in winter grains.
2863

UREA HERBICIDES
Specific detection of urea herbicide residues by separation of their amines on cellulose thin-layer plates.
7963

UREASE
Metabolic substances of Staphylococcus aureus of bovine udder origin - a quantitative study.
6739

UREDINALES
Interrelationships of Ledum species and their rust parasites in Western Canada and Alaska.
6067

The Uredinales on Mexican Gramineae.
7775

UREDIOSPORES
Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors.
4907

UREMIA
A case of bilateral polycystic kidneys in a cat.
4137

Chronic follicular hypertrophic-hyperplastic gastritis in a dog.
4138

URETHRA
Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis.
6646

URIC ACID
Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana.
3217

URIDINE
The localization of spermidine in salivary gland cells of Drosophila melanogaster and its effect on H-3-uridine incorporation.
5288

URINARY CALCULI
Statistical analysis of blood serum composition, urine excretion levels and the occurrence of urolithiasis in sheep.
6687

URINE
Urinary conversion products of injected progesterone-4-14-C in the domestic fowl.
332

Laboratory evaluation of the heartworm-infected patient.
1762

Paraquat poisoning treated by forced diuresis.
1801

Metabolic studies with O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate (dursban) insecticide in a lactating cow.
2296

Loss of serum proteins via the intestinal tract in calves with infectious diarrhea.
2317

An experimental study of the allergen-specific-enzymatic factor . II. Isolation trials of the allergen-specific enzymatic factor from the urine of rabbits.
2322

Oxidative metabolism of phosphamidon in rats and a goat.
2388

Silica excretion in cattle fed a ration predisposing to silica urolitiasis: Total excretion and diurnal variations.
3495

The detection of imidazoles including histidine and some of its derivatives in biological fluids.
3726

Structure of Klein's metabolites of aldrin and of dieldrin.
4926

Urine pH changes in cattle infected with foot-and-mouthdisease virus.
6535

Some observations of hypomagnesemic tetany in cattle.
6606

Urine-retention caused by a peri-urethal leiomyoma, in a female dog.
6691

On the behavior of xanthurenic acid in rabbits treated with massive doses of pyridoxine.
7203

Insecticide exposure: A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion.
7962

UROGENITAL SYSTEM
Structure of the cryptonephridial malpighian region of the larval Hymenopteran Symphyta.
1460

UROLITHIASIS
Silica excretion in cattle fed a ration predisposing to silica urolitiasis: Total excretion and diurnal variations.
3495

Statistical analysis of blood serum composition, urine excretion levels and the occurrence of urolithiasis in sheep.
6687

UROMYCES
Mobilization factors in uredospores and bean leaves infected with bean rust fungus. 5908

UROMYCES PHASEOLI
Joint analysis of experiments with common treatments. 1550
Rust infection protects beans against heat injury. 4732
Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus. 6879

URTICA
Histochemical localization of the soluble amine and aminopeptidase products in the nutrient tissues of the Cecidomyiid galls. 1554

URTICARIA
Mastocytosis with gastrointestinal ulceration in a dog. 6511

USSR
Proteleas, a new genus of Scelionidae with three new species from the USSR. 5085

USTILAGINALES
Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin. 5987

USTILAGO HORDEI
Genetic complementation in Ustilago hordei. 3346
Loose smut of oats. 7766

USTILAGO MAYDIS
Structural features of the development of the polystichoustuberculate form of the blister smut (causative agent Ustilago maydis (Odc). Cda.) on maize leaves. 2786
Callusomorphic stage in development of galls caused by Ustilago maydis (DC) CDA. on corn leaves. 2787

USTILAGO NUDA
Virulence of various groups of physiological races of loose smut of barley Ustilago nuda (Jens.) Rostr.) in the light of anatomical investigations of spring barley varieties different with regard to resistance. 3. The effect of infection upon morphological features of plants. 1571
Virulence of various groups of loose smut of barley (Ustilago nuda (Jens.) Rostri) physiological races in the light of anatomical investigations of barley varieties different with regard to resistance. 2. The effect of infection upon anatomical features of plants. 2145
Virulence of various groups of loose smut of barley, (Ustilago nuda (Jens.) Rostr.) physiological races in the light of anatomical investigations of spring barley varieties different with regard to resistance. I. Spreading of pathogene in host plant tissue. 3978
Field evaluation of a derivative of 1,4-oxathiin for control of cereal smuts. 5986
Results from a three-year test with the anaerobic method in barley seed disinfection from Ustilago nuda (Pers.) Kell. et sw. 6019

USTILAGO SCITAMINEA
Control of smut on sugarcane. Regulation of varieties of sugarcane which can be cultivated in the state of Sao Paulo. 5854

USTILAGO STRIIFORMIS
Chemical control of stripe smut in Merion Kentucky bluegrass. 3964
Additional varieties of Agrostis palustris infected by Ustilago striiformis var. agrostidis. 3968

USTILAGO TRITICI
A race of Ustilago tritici virulent on Thatcher wheat and its derivatives. 3989
Field evaluation of a derivative of 1,4-oxathiin for control of cereal smuts. 5986
Studies on the natural accumulation of loose smut infection on wheat - Ustilago tritici (Pers.) Jensen. 6020

UTERUS
Control by ovarian status of induced leukocytic responses in the sheep uterus. 346
Estrogenic activity of o,p'-DDT in the mammalian uterus and avian oviduct. 4095
Contribution to the study of uterine dysplasias of functional origin in dogs. 6692
Metastatic uterine adenocarcinoma in the cow. (A recognizable clinical entity). 6694
Nebraska's specific pathogen-free (SPF) swine program; tenth year report. 7016

VACCINES
Anti-rabies vaccinations at the Toulouse University Hospital Center in 1967. 339
Duration of immunity due to the use of anti hoof and mouth disease vaccine prepared with 10 and 25 milligrams of saponine per dose. 341
Diagnosis and prophylaxis of infectious laryngeal tracheitis of poultry in the USSR. 343
Two sides to the vaccine picture. 345
Drugs: How do you use them. 350
Erysipelas--our costliest pig disease. 352
Feline panleucopenia- a serological study. 356
Cholera eradication progress report. 374
Anti-rabies vaccinations at the Montpellier Center in 1967. 383
Anti-rabies vaccinations at the Pasteur Institute of Lyon in 1967. 384
Anti-rabies vaccinations at the Pasteur Institute in 1967. 387
The inactivation effect of beta-propiolactone on the virus or the classical fowl plague. 404
The use of Brucella whey complement fixation test in a herd outbreak. 408
Tick fever in poultry. 415
Anti-rabies vaccinations at the Marsille Pasteur Center in 1967. 417
Effect of specific immune mouse serum on the growth of Salmonella enteritidis in mice preimmunized with living or ethyl alcohol-killed vaccines. 1063
Application of latex-agglutination to the measurement of antibody response to M. pneumoniae vaccines. 1078
The organisation of the Australian poultry industry and its influence on disease. 1196
Contribution to the knowledge of the virus of the African horse pest. II. Communication. 1671
Experimental salmonellosis. X. Cellular immunity and its antibody in mouse mononuclear phagocytes. 1682
The immune phenomenon. 1766
Viruses, serums, toxins and analogous products: Organisms and vectors. Labels. Miscellaneous amendments. 1851
Contagious bovine pleuropneumonia, its treatment and control. 2286
Experience obtained from the use of formol-adsorbat vaccines against Salmonella cholerae-suis in pig stocks. 2339
Abortions in cattle: Isolation of Salmonella dublin. 2912
Studies on E. coli vaccines to protect pigs against postweaning coliform infections. 2921
Porcine polioencephalomyelitides. 2942
Use of adult mice for potency testing of inactivated type o foot and mouth disease vaccine. 2967
Brucellosis in Britain. 2969
Essay on prevention of rabbit rabies by means of a tissue extract of the interference type injected during the incubation period. 2977
The incidence of avian leucosis complex in nonnative poultry. 3506
Interstate movement of vaccines and swine treated with such vaccines; notice regarding proposed amendments and of hearing thereon. 3507
Brucellosis vaccination of calves. 3525
Anthrax. 3526
A vaccine against brucellosis of the goat. 3528
Vaccination against swine brucellosis. Second field test. 3530
Bovine Leptospira pomona infection: The disease in inoculated cattle. 3538
Leptospirosis. 3547
Foot-and-mouth disease immunity as dependent on vaccine dosis and on the reactivity of the organism. 3572
Fowl plague prevention by immunization. 3576
Newcastle disease virus (NDV) in cell cultures. I. A comparative study of two strains in different cell systems. 3590
Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pommona. 3593
Duck virus enteritis (duck plague). Interstate movement. 4110
Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract). 4117
Progress of the Soviet virology in foot-and-mouth disease studies. 4181

The epizootiological importance of foot-and-mouth disease carriers. II. The carrier status of cattle exposed to foot-and-mouth disease following vaccination with an oil adjuvant inactivated virus vaccine.
4191

Symposium on Brucellosis in Ireland. I. Brucellosis: Bacteriology and epidemiology. II. Brucellosis: Serological diagnosis. III. Vaccines and brucellosis.
4260

The epizootiological importance of foot-and-mouth disease carriers. II. The carrier status of cattle exposed to foot-and-mouth disease following vaccination with an oil adjuvant inactivated virus vaccine.
4827

Protection against Rinderpest conferred to cattle by an inactivated virus adapted to cattle cells.
4835

Maintaining high-quality veterinary biologics.
6429

Sprayable or subcutaneously adminstrable vaccine for the immunization of mustelines against distemper and process for its preparation. Patent 3,420,934.
6454

Studies on an ocular infectious laryngotracheitis vaccine.
6459

Hot debate boils over vaccines.
6469

Adrenergic mechanism in Bordetella pertusis treated animals.
6475

Duration of rinderpest virus excretion in cattle immunized with an inactivated vaccine.
6496

A note on homologous strain immunity in Babesia argentina infections.
6509

Immune response of chickens to six strains of Newcastle disease virus as measured by hemagglutination-inhibition test.
6517

Vaccination of the horse for equine influenza with an uncomplemented polyvalent vaccine.
6534

Study of the virulence of Contagious Bovine Pleuropneumonia organism (Assam strain) on subcutaneous pathogenicity test.
6542

Disease prevention in the piggery.
6544

Resistance of vaccinated mice to typical and atypical strains of Coccidioides immitis.
6635

Immunogenic properties of polyvalent and associated emulsion vaccine against paratyphoid fever and brucellosis of sheep.
6637

Ranikhet disease can be controlled.
6638

Propagation of swine-fever virus in cell culture.
6655

The effect of social and economic changes in the People's Republic of Bulgaria on morbidity from anthrax.
6661

A formalinized and adjuvanted rabies vaccine of tissue culture origin.
6683

Ovine anti-brucellosis serology. Vaccine and infectious antibodies. Serums negative to the sero-agglutination of Wright and positive to complement deviation.
6689

Influence of a papilloma vaccine on chronic bovine enzootic hematuria.
6757

The use of an avian polyvalent vaccine in central Africa.
6780

Central African utilization of a polyvalent avarian vaccine.
6781

Action of Bayer preparation A 139 on rabies virus.
6785

Colostral immunity against salmonella infection in calves.
6794

Animal diseases and pests.
6818

A tetrazolium reduction test to evaluate the viability of strain 19 vaccines.
6831

Virus hepatitis of ducks. 6. Communication: Passive immunization of ducklings by vaccinating parent ducks.
6858

Immunogenic value of bivalent vaccine of atipic fowl pest and fowl pox produced on tissue culture.
7921

VACCINIA VIRUS
Uncoating and development of vaccinia virus in tissuecultured cell-fragments induced with concentrated extracts from marine algae.
1109

The role of interferon in the interference phenomenon between vaccinia virus and fixed rabies virus.
4847

Effect of cytostatics on the replication of vaccinia, pseudo-rabies and sindbis viruses and on the interferon production by tissue culture cells.
6791

VACUUM
A vacuum probe for manipulating insects.
1859

VACUUM CLEANERS
Vacuum cleaner for use with granular applicators in fieldplot work.
1858

VAGINA
Bovine vibriosis in the state of Sao Paulo (Brazil). Isolation of Vibrio fetus and research of agglutinins anti-Vibrio fetus in the vaginal mucus.
1696

Vaginal papilloma of the cat.
6706

VALANGA IRREGULARIS
A gynandromorphic grasshopper produced by double fertilization.
2094

VALERIC ACID
Sex attractant of sugar beet wirework: Identification and biological activity.
55

VALINE
Intestinal transport and metabolism of D-amino acids in the silkworm, Bombyx mori L.
4599

VANCOMYCIN
An incidence of the effect of glycine on the virulence of a strain of Agrobacterium tumefaciens (Smith and Town) Conn.
2149

VANESSA CARDUI
High localized bird mortality as a function of high insect populations.
1218

Scientific results of the Polish Hindu-Kush Expedition 1966. Part I. The migration of the Painted Lady, Pyrameis (Vanessa) cardui L., in the High Hindu-Kush.
2671

Occurrence of Vanessa cardui L. (Lepidoptera, Nymphalidae) in Finland.
7606

VAPORIZATION
Immobilizing insects by sudden reduction of body temperature. Patent 3,446,892.
7377

Screening methods for organochlorine and organophosphate insecticides in foods and feeds.
8012

VAPORS
Hepatotoxic potency of various chlorinated hydrocarbon vapors relative to their narcotic and lethal potencies in mice.
7166

VARIANCE ANALYSIS
Some elementary statistics for the entomologist. VI. The analysis of variance.
773

Environmental factors regulating the diurnal vertical migration of Chaoborus larvae.
2000

Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality.
4888

Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars.
5206

Immune response of chickens to six strains of Newcastle disease virus as measured by hemagglutination-inhibition test.
6517

VARIATHROMBIUM
South American Thrombidiidae. II. Chyzerini Thrombidiinae; solenocyte taxonomy of the palpus in several Thrombidii a ; th r latio-ship between Podothrombium Berlese 1910 -- Variathrombium n. g., and Thrombidiinae.
5137

VEGETABLES
The susceptibility of some cultivated plants to Sclerotium rolfsii Sacc.
247

Relative efficacy of different oil-cakes on the incidence. of root-knot nematodes.
298

Weed control for the home garden.
306

Official FDA tolerances.
482

Extraction and cleanup procedure for the determination of organo-thiophosphate pesticide residues in vegetables and fruits by thin layer chromatography and gas liquid chromatography.
491

The red-whiskered bulbul.
1044

Observations on the natural predators of the aphid pests in the Ranchi District with special reference to Chilomenes sexmaculata Fabr.
1459

Systemic pesticides for control of sting and stubby-root nematodes on vegetables.
2239

Notice of filing of petition regarding pesticide chemicals.
2411

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid.
2415

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-ethyl S-phenyl ethylphosphonodithioate.
2416

Insects of the season 1967 related to fruit, vegetables and ornamentals.
2807

Herbicide screening trials on vegetable crops.
2854

The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella.
3008

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Endosulfan.
3015

Commercial aspects of pesticide residues in foodstuff.
3025

Histones--animal and vegetable.
3045

Are you discouraging disease in your crops.
3417

Trifluralin and benefin--new herbicides for vegetable growers.
3483

The determination of dimethoate residues in fruits and vegetables.
3653

Insect control for garden vegetables.
3916

The causes of disease in plant pathology.
3939

Plant virus diseases in Turkey which are transmitted by insect vectors.
4036

Overwintering of Meloidogyne incognita in southwestern Ontario.
4047

Weed control in vegetables.
4071

Distribution, importance and problems of herbicide use in Yugoslavia. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4083

Chemical weed control problems in outdoor vegetable growing.
4088

Tolerances and exemptions tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin.
4299

Industrial tests of the biological preparation Entobacterin-3 in the USSR.
4489

Practical application of Bacillus thuringiensis.
4612

Blackberry control near orchards and vegetable gardens.
4770

Biological control of snails exerted by Euglandina rosea (Ferussac) in Bermuda.
4786

Control home vegetable garden insects.
5358

Man insects and pesticides.
5817

Horticulture.
5825

Growing vegetables in South Dakota.
5832

Guidelines for production of vegetables for processing in Arkansas.
5833

Results of insecticide and fungicide tests, carried out in 1966, by the Vegetable Protection Service.
5879

Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables.
5899

Control of vegetable insects and diseases.
6017

Natural infection of fenugreek by two legume viruses.
6086

Vegetable diseases, II. An aid to identification and control.
6136

1969 insect control guide for Colorado. II. Vegetable crops.
6184

Insects and diseases of vegetables in the home garden.
6242

A nematological study of some cultivations on the south coast of Spain.
6294

Tropical nematology.
6305

Results of herbicide tests carried out in 1966 by the Vegetable Protection Service.
6326

1967 guide to chemical weed control.
6385

TDE (or DDD). Proposed reduction of tolerances for residues in or on raw agricultural commodities.
7120

Manganese toxicity of legumes seeded in Kentucky strip-mine spoils.
7145

1968 vegetable crop investigations in southwest Kansas.
7762

Memorandum on plant pathology.
7765

1969 recommendations for insect control on commercial vegetable crops.
7828

A rapid and sensitive procedure for the routine determination of organo-chlorine pesticide residues in vegetables.
7972

VEGETATION
New evidence that a number of leaf- and needle-eating insects depend on the sugar-content of their food.
881

Fauna of the Heteroptera on town waste neopedon of the Prague periphery.
3767

Infection rate of Culex pipiens L. mosquitoes with parasitizing fungus Entomophthora conglomerata Sorok. in the vicinity of Novocherkassk.
5382

Some regularities in the zonal distribution of oribatoid mites.
5421

The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces.
5837

VEHICLES
Insecticidal dusts against Japanese beetles and European chafers for disinsectization of transport vehicles.
1389

VEIGAIA
A defense mechanism in Onychiurus (Collembola, Onychiuridae).
166

VEIN BANDING
The viruses of the black and red currant.
4705

VEINS
The venae cavae or liver failure syndrome of heartworm disease.
1748

VELOCITY
Apparent sap velocities in big sagebrush as related to nearby environment.
573

The effect of reduction in stream flow on invertebrate drift.
5475

VENATION (INSECTS)
Comparative morphology of the male Australian Nepidae (Hemiptera: Aeteroptera).
2602

VENEZUELAN EQUINE ENCEPHALITIS VIRUS
Venezuelan equine encephalitis.
2927

Ribonucleic acids synthesized in Venezuelan Equine Encephalitis-infected cells.
7925

VENOMS
A morphological and functional study of the venom apparatus in representatives of some major groups of Hymenoptera.
2036

Release of an acetylcholine-like substance from guinea pig ileum by scorpion venom.
2429

Effect of the venom of the scorpion Tityus serrulatus on adrenal gland catecholamines.
2433

Incomplete sodium inactivation in nodes of Ranvier treated with scorpion venom.
2436

Pharmacological and enzymic constituents of the venom of an Australian bulldog ant Myrmecia pyriformis.
2438

Insect venoms, attractants, and repellents. XI. Massoilactone from two species of formicine ants, and some observations on constituents of the bark oil of Cryptocarya massoia.
5257

Phospholipase A in the venom of the Australian bulldog ant Myrmecia pyriformis.
7180

Effect of floxosceles reclusa Gertsch and Mulaik venom against hemocytes of Acheta domesticus (Linnaeus).
7191

Venom of the scorpion Vejovis spinigerus.
7199

Spider venoms: biochemical aspects.
7655

VENTILATION
The regulation of breathing in insects.
128

The design of microbiological safety cabinets.
3650

Contribution to the study of hydrogen sulfide poisoning of domestic animals.
4311

Turkey management guide.
6441

VENTURIA CANESCENS
Information on a natural bacterial epizootic disease on Ephestia kuhniella Zeller, caused by a bacillus of the type of Bacillus thuringiensis.
4537

Functional response to host density in a parasitic wasp, with reference to population regulation.
5640

VENTURIA INAEQUALIS
Comparison of chloro and thiocyanato groups as fungal toxiphores in dinitrobenzenes.
2187

The effect of carbamide and thiocarbamide on the resistance of apple to apple scab.
3375

Structures and pesticidal activities of derivatives of dinitrophenols. XII. In vitro activity of C3 to C13 alphabranched alkyldinitrophenols and their esters and ethers against the spores of Venturia inaequalis and other fungi.
3400

Black spot of apple.
4700

A biochemical mechanism of natural resistance of apple to Venturia inaequalis.
5834

Black spots of apples: A warning service for fruitgrowers.
5865

Effect of 6-azauracil against apple powdery mildew and apple scab.
5909

A field comparison of fungicides as medium volume sprays on apples.
7795

VENTURIA PIRINA
Venturia pirina Aderh.; pear (Pyrus communis). Ed. 2.
1644

Supplement to the Plant Protection bulletin. 3923

VERBASCUM THAPSIFORME
The mosaic disease of mullein, Verbascum thapsiforme Schrader, occuring in Czechoslovakia. 6040

VERICILLIUM
Effects of insecticides on insects and pathogenic fungi associated with alsike clover roots. 5815

VERMICULITE
An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

VERMINOUS BRONCHITIS
The incidence of metastrongylosis in swine slaughtered in the Manila abattoir. 3615
Parasites of sows and pigs in Europe. 3625
Home produced cyazid is a highly effective anthelminthic against sheep dictyocaulosis. 6985
Practice of animal dictyocaulosis and fascioliasis control. 6991

VERMINOUS DERMATITIS
Demodectic parasites in livestock. 2993
Studies on stephanofilariasis in Orissa. I. Incidence and seasonal variation of the disease. 3629

VERNAM
A sub-surface applicator for herbicides. 7399

VERNONIA
Vegetative reproduction in western ironweed. 5839
Herbicidal control of western ironweed. 6363

VEROMESSOR
Benzaldehyde: Defensive secretion of a harvester ant. 4460

VERTEBRATES
Biological methods of weed control. Transl. 16892. 1032
State of our knowledge on the toxic activity of Bacillus thuringiensis on vertebrates. 1158
Metamorphosis in the insect world. 1484
Ticks of the National Reactor Testing Station. 4267
The geographical and evolutionary relationships of Australian trichostrongyloid parasites and their hosts. 6955

VERTICILLIUM
Distribution of Verticillium wilt in cotton-growing areas of the United States. 2727
The use of disease resistance in the glasshouse tomato. 2775
Development of a new variety of tomato named Miguel pereira, with resistance to both Fusarium and Verticillium wilts. 3997
Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables. 5899

VERTICILLIUM ALBO-ATRUM
Verticillium wilt in the tomato cultures of the Valais. 231
Record of Verticillium wilt of cotton in Madras state. 1576
Ontogeny of vessels influence the development of Verticillium in young cotton plants. 2166
Infection, recovery from infection and resistance of apricot trees to Verticillium albo-atrum. 2791
The ultrastructure of the stroma of the brown rot fungi. 2797
Resistance of dwarf-internode castor (Ricinus communis) to Verticillium wilt. 3946
New fungicide promises effective and economical plant disease control. 4682
Studies with two systemic fungicides, benlate and thiabendazole. 5962
Infection, recovery from infection and resistance of apricot trees to Verticillium albo-atrum. 6105
The effects of some soil-borne fungi on the sex ratio of Heterodera rostochiensis on tomato. 7786

VERTICILLIUM DAHLIAE
Varietal resistance of eggplant to Verticillium wilt. 1562
Protein-lipid-polysaccharide complex from the culture and mycelium of the fungus Verticillium dahliae Kleb, the causative agent of verticilliaceous wilt of cotton. 2758
Residual effect of treatment with methyl bromide against Verticillium infection of tomatoes in the second year of cultivation. 2760
The dynamics of actinomyces-antagonists development of Verticillium dahliae of cotton. 3354
Verticillium wilt of groundnut in Israel: Screening for varietal resistance. 5931

VERTICILLIUM TRICORPUS
Fluctuations in natural soil populations of Verticillium tricorpus. 6106

VERTICILLIUM WILT
Accustoming of fungi-antagonists to cotton rhizosphere and their effects on cotton productivity and disease with verticillium wilt. 7247

VESICULAR EXANTHEMA VIRUS (SWINE)
Biochemical and biophysical characteristics of vesicular exanthema virus and the viral ribonucleic acid. 6864

VESICULAR STOMATITIS VIRUS
Studies on the epidemiology of vesicular stomatitis virus. 376
Evidence of a variant of the vesicular stomatitis virus (Indiana strain) which confers a retarded sensitivity to carbonic gas in Drosophila melanogaster. 4584
Fluorescent antibody techniques for vesicular stomatitis virus. 4799

VESPIDAE
The position of Polistes (Leptopolistes) bischoffi Weyrauch (Hymenoptera: Vespidae). 27
Wasp nests. 747
Parasites of social wasps (Vespidae). 793
The type of the genus Odynerus Latreille (Hymenoptera, Vespoidea). 1318
On the life of Vespula vulgaris (L.) and V. maculifrons (Buysson) (Hymenoptera: Vespidae). 1357
Vespula maculifrons (Hymenoptera: Vespidae) preying on the European earwig Forficula auricularia. 1425
Some effects of castration on the protocerebral neurosecretion of the females of Polistes (Hymenoptera, Vespidae). 4601

VESPULA
2,4-hexadienyl butyrate and related compounds highly attractive to yellow jackets (Vespula spp.). 778

VESPULA MACULIFRONS
On the life of Vespula vulgaris (L.) and V. maculifrons (Buysson) (Hymenoptera: Vespidae). 1357

VESPULA VULGARIS
On the life of Vespula vulgaris (L.) and V. maculifrons (Buysson) (Hymenoptera: Vespidae). 1357

VETERINARIANS
Scrub tick paralysis in farm animals. 333
Pharmaceutical guide for veterinarians and students of veterinary medicine. 334
Brucellosis and the veterinary surgeon. 2982

VETERINARY MEDICINE
Disease prevention. 330
Pharmaceutical guide for veterinarians and students of veterinary medicine. 334
Medical observations concerning ornithosis control in the poultry industry. 365
Studies on vibrionic infection of sheep and carrion crows. 450
Cooperation between veterinary examination centers and vaccination stations of human medicine in the control and protection of persons potentially exposed to rabies infection. 1075
Sulfamerazine. Drugs for veterinary use; drug efficacy study implementation. 1083
Responsibilities and organisation of toxicology in veterinary medicine. 1141
Persistent viremia in EIA infected horses. 1664
Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Oleandomycin. 1679
Hygiene and practical medicine of the cat. 1702
The trained falcon in health and disease. 2266
P.L.A. (pituitary luteinizing hormone). Drugs for veterinary use - drug efficacy study implementation. 2271
Vetistat. Drugs for veterinary use - drug efficacy study implementation. 2272
Parterol, Drugs for veterinary use; drug efficacy study implementation. 2304
Progesterone-estradiol benzoate (hormonal implant). Drugs for veterinary use; drug efficacy study implementation. 2305
Testosterone proprionate-estradiol benzoate (hormonal implant). Drugs for veterinary use; drug efficacy study implementation. 2306
F.S.H.-P. (follicle stimulating hormone-pituitary). Drugs for veterinary use - drug efficacy study implementation announcement. 2313
Dr. Mayfield ML-23. Drugs for veterinary use - drug efficacy study implementation. 2314

Tympanol. Drugs for veterinary use; drug efficacy study implementation. 2315

Insecticidal drug containing lindane. Drugs for veterinary use; drug efficacy study implementation announcement. 2355

Hygromix (hygromycin B). Drugs for veterinary use; drug efficacy study implementation. 2364

AH-NBC capsules. Drugs for veterinary use; drug efficacy study implementation. 2365

Dr. Mayfield large roundworm tablets. Drugs for veterinary use; drug efficacy study implementation. 2366

Dizan powder and tablets. Drugs for veterinary use; drug efficacy study implementation announcement. 2367

VIABILITY

Viability, proportion between the sexes and of the X chromosomes of Drosophila melanogaster. 2074

Survival of ascarid eggs in soil under conditions of Moscow region. 6295

VIBRATION

Evidence against the mutagenic effects of vibration on Drosophila melanogaster. 1507

Modern R17,000 plant for packing insecticides. 1845

VIBRIO

Relationship between indole production, nitrate production and carbohydrate fermentation in Vibrio cholerae. 1090

Hepatic lesions in the rabbit caused by Vibrio sp. 6512

VIBRIO COMMA

The biochemistry of Vibrio cholerae: Part IV. Acid soluble nucleotide constituents. 4927

Effect of ultraviolet radiation on the oxidation of certain Krebs cycle substrates in Vibrio cholerae. 4930

VIBRIO FETUS

Bovine vibriosis in the state of Sao Paulo (Brazil). Isolation of Vibrio fetus and research of agglutinins anti-Vibrio fetus in the vaginal mucus. 1696

Immunity in ewes resulting from natural exposure to Vibrio fetus. 2321

Vaccination of bulls against bovine vibriosis. 6521

Effects of penicillin and glycine on cell wall glycopeptides of the two varieties of Vibrio fetus. 6585

The isolation of Leptospira sejroe from the kidneys of aborting cattle. 6724

VIBRIO FETUS BACTERINS

Studies on vibrionic infection of sheep and carrion crows. 450

Change of O- antigen of the species vibrio fetus. 3570

VIBRIO PARAHAEMOLYTICUS

Studies on the method of experimental infection of Vibrio parahaemolyticus. I. Infection of Vibrio parahaemolyticus into intestinal segments of rabbits. II. Influence of chemotherapeutic agents on intestinal segments of rabbit infected with Vibrio parahaemolyticus. 6617

VIBRIOSIS

Bovine vibriosis in the state of Sao Paulo (Brazil). Isolation of Vibrio fetus and research of agglutinins anti-Vibrio fetus in the vaginal mucus. 1696

Immunity in ewes resulting from natural exposure to Vibrio fetus. 2321

Change of O- antigen of the species vibrio fetus. 3570

Vaccination of bulls against bovine vibriosis. 6521

VIOLAXANTHIN

Effect of simazine on the photosynthetic pigments of green algae. 1821

VIRAL VACCINES

Attenuated infectious canine hepatitis live virus vaccine and method of producing same. Patent 3,432,391. 2298

A new approach to development of live vaccine against tick-borne encephalitis. 2972

The use of measles vaccines in the immunization of the dog. 6453

A new fowl pox vaccine. 6467

Susceptibility of European Zebu crossbred cattle to lapinsed rinderpest vaccine. 6484

Biological assay of virus contents of tissues of rabbits infected with lapinised rinderpest virus. 6485

Remarks on the receptivity of new born lambs towards the foot-and-mouth disease virus. 6649

Vaccination of cattle against epizootic bovine abortion. 6715

Purification of the foot-and-mouth virus by means of fluorocarbon. 7890

VIREMIA

Persistent viremia in EIA infected horses. 1664

Studies on growth curve, viraemia and the localization of African horse sickness virus type IX in adult mice. 3540

Avian leukosis-sarcoma viruses and antibody in field flocks, and their relationship to leukosis mortality. 6784

VIROLOGY

Stability mechanism of polyhedra. 894

Electron microscopy as an aid to the rapid identification of animal viruses. 1107

Relationships among the polyhedrosis and granulosis viruses of insects. 1360

Degradation of alfalfa mosaic virus by pancreatic ribonuclease. 1553

Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection. 1572

Increase of tobacco mosaic local lesion size and virus multiplication in hypersensitive hosts in the presence of actinomycin D. 1574

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction. 1584

Membrane feeding and infectivity neutralization used in a serological comparison of potato leaf roll and beet western yellows viruses. 1601

Evidence for the possible existence of two envelope antigenic determinants and corresponding cell receptors for avian tumor viruses. 1651

Free amino acid contents in corn infected with maize dwarf mosaic virus and sugarcane mosaic virus. 2137

Effect of dimethyl sulfoxide on tobacco mosaic. 2165

Properties of a virus causing pokeweed mosaic. 2173

Electron microscopic observations on the causal agent of the Brazilian tomato ring spot disease. 2175

Purification and properties of broad bean wilt virus. 2189

Interaction of maize dwarf mosaic virus strains and sugarcane mosaic virus H in corn. 2190

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells. 2327

A modified mixed hemadsorption test and its application in the study of the avian leukosis-sarcoma viruses. 2337

Trends in the development of plant virology. 2752

The virus-caused respiratory diseases of the cat. 2906

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character. 2911

RNA isolated from polyhedra of a nuclear polyhedrosis of the silkworm. 3218

A cytoplasmic polyhedrosis of Hemerocampa pseudotsugata. 3239

Light and electron microscopy of cytoplasmic and unusual nuclear inclusion bodies evoked by a virus from necrotic peas. 3360

Proteinaceous and virus-like inclusions in cells infected with beet mosaic virus. 3377

Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components. 3379

Thymidine-3H uptake by X-bodies associated with cauliflower mosaic virus infection. 3380

Electron microscopy of pokeweed leaf cells infected with pokeweed mosaic virus. 3381

Phycovirus SM-1: A virus infecting unicellular blue-green algae. 3409

The infectivity of tobacco mosaic virus RNA in coat proteins from spherical viruses. 3421

Structure of lettuce necrotic yellows virus. II. Electron microscopic studies on the effect of pH of phosphotungstic acid stain on the morphology of the virus. 3424

Studies on the stability of some biological properties of the rabbit-adapted swine fever virus strain C. 3522

The production and effect of interferon on influenza virus growth in chick embryo lung epithelial and fibroblast cell cultures. 3546

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus. 3552

Newcastle disease virus (NDV) in cell cultures. I. A comparative study of two strains in different cell systems. 3590

Fatty acid composition of three strains of Newcastle disease virus. 3597

Isolation of the rabies virus in foxes in Argentina. 3601

Electron microsocpy of fowl-pox virus. 3605

Notes on the International Meeting on Virus and Virus Diseases of Grapes, held at Bernkastel (West Germany) in September 1967. 3938

Investigations on hydrangea ring spot virus and proof of its presence in Italy. 3942

Freezing and thawing of purified suspensions of the tobacco mosaic virus and its effect on infectivity. 3944

The present state of grape culture virus research. 3948

Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. IV:ABABIS mosaic virus in Petunia hybrida Hort. 3959

Broad-bean stain and true broad-bean mosaic virus. 3960

Multiplication of tobacco mosaic virus in suspension culture of tobacco cells. 3987

Newcastle disease virus. Characteristics of a strain (2425) isolated in Cordoba, Argentina in 1961. II. Comparative study of immunologic relationships and cellular affinities. 4116

Virulence, adsorbability, and antigenicity of foot-and-mouth disease virus selected by adsorption with homogenized mouse kidney. 4124

C -type viral particles in plasma of cats with feline leukemia. 4164

Progress of the Soviet virology in foot-and-mouth disease studies. 4181

Pathogenesis of and recovery from respiratory syncytial and influenza infections in ferrets. 4215

The animal adenoviruses. 4217

Electron microscopy as an aid to the rapid identification of animal viruses. 4239

Avian virus-induced tumors. 4242

Aspects of virus multiplication and average reduplication time for a granulosis virus of Zeiraphera diniana (Guenee). 4456

Virus multiplication. 4614

Fluorescent antibody techniques for vesicular stomatitis virus. 4799

Studies of serum enzymes in swine infected by two strains of hog cholera virus. 4804

Appeal concerning the classification of invertebrate viruses.
5160

Ultrastructure of a cytoplasmic polyhedrosis virus affecting the monarch butterfly, Danaus plexippus. I. Development of virus and normal polyhedra in the larva.
5197

The in vitro pathogenesis of insect viroses.
5307

Conditions for the massive multiplication of the intestinal cytoplasmic virus of Mamestra brassicae L. (Lepidoptera).
5426

In vivo and in vitro cytological diagnosis of densonucleosis in Lepidoptera.
5469

Development of virus antigen in tissues of Pieris brassicae inoculated with Tipula iridescent virus.
5534

Initiation of polyhedrosis production in vitro.
5685

Survival of western equine encephalitis virus in Triatominae.
5761

Shifting of virus Y from stems to tubers in dependence on the plant age.
5874

An antiviral principle from tomatoes systemically infected with tobacco mosaic virus.
5887

Possibilities for inter- and intracellular translocation of some icosahedral plant viruses.
5906

Identification of soybean mosaic virus in Venezuela.
5907

Effect of 6-azauracil on infection with tobacco mosaic virus.
5914

A D serotype of satellite virus specifically associated with a D serotype of tobacco necrosis virus.
5949

The behavior of potato mop-top virus in soil, and evidence for its transmission by Spongospora subterranea (Wallr.) Lagerh.
5979

Studies on an Italian isolate of the tobacco necrosis virus.
6003

Cross interaction between different components of two strains of alfalfa mosaic virus.
6004

The crinkly mosaic of sweetvetch (Hedysarum coronarium L.).
6005

Evidence for the presence of the Ohio strain III of tobacco mosaic virus in tomato in The Netherlands.
6045

Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. I. Assay, extraction, and concentration. II. Characterization and partial purification.
6051

Cell-free synthesis of tobacco mosaic virus coat protein and its combination with ribonucleic acid to yield tobacco mosaic virus.
6073

Assembly of protein and nucleoprotein particles from extracted tobacco rattle virus protein and RNA.
6074

Mycoplasma-like bodies in the salivary glands of insect vectors carrying the aster yellows agent.
6191

Biological assay of virus contents of tissues of rabbits infected with lapinised rinderpest virus.
6485

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VII. Influence of the Orphan virus L1 on the virus of hog cholera in swine kidney cell cultures.
6501

Immune response of chickens to six strains of Newcastle disease virus as measured by hemagglutination-inhibition test.
6517

Rabies, disease of today. Its new etiological and epidemiological aspects.
6519

Experimental exposure of deer to California encephalitis virus.
6530

Avian reoviruses. IV. Relationship to human reoviruses.
6548

Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease.
6562

Infectious disease review: newer concepts of rabies.
6563

Susceptibility of scrapie agent to ionizing radiation.
6575

Investigation on the viruses of the Orphan type occuring in pigs in Poland. III. Pathogenic properties of virus L1.
6645

Propagation of swine-fever virus in cell culture.
6655

Reproduction of type 12 adenovirus in HeLa culture cells.
6659

The effect of quaternary ammonium compounds on Newcastle disease virus and parainfluenza virus.
6670

A formalinized and adjuvanted rabies vaccine of tissue culture origin.
6683

Myxoviruses of animals.
6728

Viral etiology of the bovine lympholeukosis.
6729

Electron microscopic observations of inclusion bodies in swinepox.
6735

Studies on infectious laryngotracheitis (ILT) virus of poultry. I. Isolation and identification of the virus.
6775

Studies on infectious laryngotracheitis (ILT) virus of poultry. II. Survey of the infection by immuno-diffusion test.
6776

Rinderpest protection in cattle by measles virus. Application in calves with passive immunity from maternal antibodies.
6779

Resistance against canine distemper induced by measles virus. I. Measles vaccination in the presence of distemper antibodies.
6782

Bovine herpes mammillitis virus. III. Observations on experimental infection.
6796

Herpesvirus in Marek's disease tumors.
6800

Studies on goat-pox virus. I. Host range pathogenicity.
6805

Avirulent mutant of Aujeszky's virus, induced by 5-iodo-2-deoxiuridine (IUDR).
6838

Comparative study of the Aujeszky virus and of the herpes simplex virus by the immunofluorescence method. II. Kinetic study of the herpes simplex virus by the immunofluorescence method.
6843

Neuraminidase activity of the Newcastle disease virus. I. A study of the enzyme activity in differently cultivated strains.
6847

Purification of the foot-and-mouth virus by means of fluorocarbon.
7890

Diagnosis of rinderpest.
7915

VIRUCIDES

Variable results of sodium deoxycholate tests of Nodamura virus, an ether and chloroform resistant arbovirus.
1100

Biochemistry of friend virus-infected cells. I. Virionspecific RNA.
2292

On the effect of fat emulsion on virus transmission.
2750

Use of alkylguanidine salts as virucides. Patent 3,436,461.
3586

A virus inhibitor circulating in the blood of chickens, induced by Francisella tularensis and Listeria monocytogenes.
7901

VIRULENCE

Varying virulence in rabbits infected with different filamentous types of Histoplasma capsulatum.
1660

An incidence of the effect of glycine on the virulence of a strain of Agrobacterium tumefaciens (Smith and Town) Conn.
2149

An electron microscopic analysis of phagocytes infected with Brucella abortus.
2984

Determination of the virulence of the Mycobacterium tuberculosis by the fluorescence method.
4248

Studies on several strains of pseudorabies (Aujeszky) virus showing different virulence by means of the immuno- and acridine orange fluorescence.
4266

Salmonella abony-Salmonella typhimurium recombinant nonvirulent for the mouse.
4822

Remarks on the receptivity of new born lambs towards the foot-and-mouth disease virus.
6649

Effects of freezing on African horse-sickness virus.
6754

Avirulent mutant of Aujeszky's virus, induced by 5-iodo-2-deoxiuridine (IUDR).
6838

VIRUS DISEASES

Medical parasitology and exotic pathology.
185

Identification of the host range of Culex tritaeniorhynchus mosquitoes on Okinawa, Ryukyu Islands.
5765

Encephalitis field surveillance in Orleans Parish.
6903

VIRUS DISEASES (ANIMALS)

Research yields easily applied virus deadly to codling moth larvae.
276

A perplexing case of hog cholera confirmed by virus isolation and supported by the fluorescent antibody serum neutralization test.
348

Feline panleucopenia- a serological study.
356

Medical observations concerning ornithosis control in the poultry industry.
365

A focal point of pseudorabies of dogs in the Department of Ain.
366

Studies on the epidemiology of vesicular stomatitis virus.
376

The practice of the present diagnostic of rabies. 377

Concentration of certain myxoviruses with polyethylene glycol. 378

If vaccines go - Will hog cholera follow . 381

Susceptibility of embryonic swine spleen and swine kidney cell lines to hog cholera virus. 385

Isolation and characterization of a porcine enterovirus. 386

Characterisation and fractionisation of various strains of Teschen virus by column chromatography and electrophoresis. 391

An outbreak of duck virus enteritis (duck plague) in the United States. 395

The inactivation effect of beta-propiolactone on the virus or the classical fowl plague. 404

Isolation of rabies virus from fruit bats in Thailand. 419

Indirect complement fixation in foot-and-mouth disease. I. Study of antibody response in experimental cattle and sheep. II. Screening of cattle serum. 429

Experimental bluetongue disease in white-tailed deer. 431

Penetration patterns of Mycoplasma gallisepticum and Newcastle disease virus through the outer structures of chicken eggs. 433

Lanjan virus, a new agent isolated from Dermacentor auratus in Malaya. 437

On the cultivation of Trypanosoma brucei and of its reproductive capacity in virus-infected hosts. 1055

Control of equine infectious anemia (swamp fever). 1059

Foot-and-mouth disease (1). 1067

Equine coital exanthema. 1091

An electron microscopic study of transmissible gastroenteritis in swine. 1093

Variable results of sodium deoxycholate tests of Nodamura virus, an ether and chloroform resistant arbovirus. 1100

The susceptibility of some Australian fauna to infection with foot and mouth disease virus. 1105

Electron microscopy as an aid to the rapid identification of animal viruses. 1107

Evidence for the possible existence of two envelope antigenic determinants and corresponding cell receptors for avian tumor viruses. 1651

Isolation of western equine encephalomyelitis virus from an opossum. 1662

Interference phenomenon in the culture of chick embryo cells infected with Schmidt-Ruppin strain of Rous sarcoma virus. 1673

Studies on cytopathogenic viruses isolated from cats with respiratory infections. I. 1677

Isolation, immunodiffusion, immunofluorescence, and electron microscopy of a syncytial virus of lymphosarcomatous and apparently normal cattle. 1687

Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690

The incubation period of rabies virus inoculated into guinea-pigs intramuscularly. 1692

Inhibitory effect of neutral red on bovine virus diarrheamucosal disease plaque formation. 1704

Contribution to the occurrence of Aujeszky's virus in clinically healthy porkers from chronically infested pig fattening centres. 1711

Materials on the epidemiology of tick-borne encephalitis in the zone of construction of Sayano-Shushenskaya hydropower station. 2289

Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292

Cytochemical studies on the lesion of equine infectious anemia. VII. Especially on the enzyme histochemistry of RES (Reticulo-Endothelial System) in the liver and spleen. 2300

The pathogenesis of ovine Contagious Ecthyma. 2307

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells. 2327

Research on the relationship between the tumor causing virus of the quail and the rous sarcoma virus. 2334

Pathologic responses of the mature and developing nervous system to bluetongue virus. 2336

A modified mixed hemadsorption test and its application in the study of the avian leukosis-sarcoma viruses. 2337

The pathogenesis of experimental distemper in mice. 2350

Epidemiological trends in disease of livestock kept under intensive conditions. 2877

The pathogenesis of street rabies virus in rats. 2884

Egg production and disease. 2888

Control of DNA synthesis in cells infected with polyoma virus. 2894

Equine infectious anemia. 2899

The virus-caused respiratory diseases of the cat. 2906

Shared group-specific antigen of murine and feline leukemia viruses. 2909

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character. 2911

The outbreak of foot-and-mouth disease in Worcestershire. An epidemiological study: With special reference to spread of the disease by wind-carriage of the virus. 2915

Epidemiological considerations for the control of bovine virus diarrhea. 2924

Venezuelan equine encephalitis. 2927

Observations on polyoma virus filaments. 2938

Influenza in animals. 2939

Dermal lesions in avain leucosis. 2940

Porcine polioencephalomyelitides. 2942

Equine infectious anemia-A diagnostic problem. 2943

Infectious bursal disease (gumboro). 2947

Equine infectious anemia--The second time around . 2953

The development of feline cell lines for the growth of feline infectious enteritis (panleucopaenia) virus. 2954

The fractionation of foot-and-mouth disease hyperimmune serum from cattle by a combination of gel filtration and column electrophoresis. 2955

Safety testing hog cholera live virus modified vaccines. 2957

The onogenic action of bovine papilloma virus in hampsters. 2960

A prospectus on equine infectious anemia with guidelines. 2970

The proteins specified by herpes simplex virus. I. Time of synthesis, transfer into nuclei, and properties of proteins made in productively infected cells. 2973

Status of State-Federal hog cholera eradication program. 2975

Heterotypic hog cholera protection in swine: An analysis of the response. 2978

Spreading characteristics of commercial hog cholera modified live virus vaccines in swine. I. In vivo studies. 2985

The incidence of avian leucosis complex in non-native poultry. 3506

A study on the ecology of arbovirus in the provinces of Latina and Gorizia (1964-1967). 3509

An interference type of serological test for infectious bronchitis virus using Newcastle disease virus. 3510

Birds. In: Diseases of man acquired from his pets. 3515

Rodents. In: Diseases of man acquired from his pets. 3516

Non-human primates. In: Diseases of man acquired from his pets. 3517

Ungulates. In: Diseases of man acquired from his pets. 3520

Avian leucoses: 1966-1967. 3523

Case report: Mixed infections with subgroups A and B avian leukosis viruses in commericial white leghorn chickens. 3531

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 3534

Virus isolation and serologial studies of arthropod-borne virus infections in a high rainfall area of North Queensland. 3539

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus. 3552

Anaphylactic shock type reactions subsequent to rabies vaccination of cattle. 3563

VIRUS DISEASES (ANIMALS)

Research note: Cultivation of avian encephalomyelitis virus in chicken embryo kidney cell culture. 3565

Research note: Some observations on experimental avian encephalomyelitis. 3571

Studies of avian leukosis group-specific complement-fixing serum antibodies in pigeons. 3585

Use of alkylguanidine salts as virucides. Patent 3,436,461. 3586

Isolation and characterization of the aetiologic agent of buffalo-pox. 3588

Newcastle disease virus (NDV) in cell cultures. I. A comparative study of two strains in different cell systems. 3590

Virus involvement in the avian heart: Effect on protein synthesis. 3591

Fatty acid composition of three strains of Newcastle disease virus. 3597

Isolation of the rabies virus in foxes in Argentina. 3601

Electron microsocpy of fowl-pox virus. 3605

Arthropod-borne viral zoonoses in Malaya. 3611

Food sources of some mosquito species in the natural focus of Tahyna virus in southern Moravia. 3854

Duck virus enteritis (duck plague). Interstate movement. 4110

Investigation of some enzymatic activities (GOT, GPT, aldolase, LDH, LDP, SDH) in the liquid amnio-allantoids of healthy chick embryos or those infected with newcastle disease virus. 4133

The interaction of a nonpathogenic Mycoplasma sp. (TU) with Mycoplasma gallisepticum, and Newcastle disease virus in the avian respiratory tract. (Abstract). 4134

Studies on acute Marek's disease. 9. Resistance to MD by inoculation with the GA isolate. 4147

Proteins before and after inoculation with RSV. (Abstract). 4153

Epizootiology of influenza in turkeys. (Abstract). 4157

C -type viral particles in plasma of cats with feline leukemia. 4164

Polyvalent parainfluenza CF antigen for serodiagnosis. 4166

Isolation of the tick-borne encephalitis virus from the squirrel Sciurus vulgaris. 4168

Progress of the Soviet virology in foot-and-mouth disease studies. 4181

The epizootiological importance of foot-and-mouth disease carriers. II. The carrier status of cattle exposed to foot-and-mouth disease following vaccination with an oil adjuvant inactivated virus vaccine. 4191

Pathogenesis of and recovery from respiratory syncytial and influenza infections in ferrets. 4215

The animal adenoviruses. 4217

Egg transmission studies of Type II leukosis infection (Marek's disease). 4230

The levels of Type II infection (Marek's disease) in 8-week-old chickens processed at dressing plants. (Abstract). 4231

On the structure of horse influenza virus. A contribution to the ultrastructure of influenza viruses. 4235

Electron microscopy as an aid to the rapid identification of animal viruses. 4239

Avian virus-induced tumors. 4242

The reappearance of rabies in France. First case in a fox in Moselle. 4793

Study of the multiplication, in a unique clone cycle, of classic swine fever virus in an immunofluorescent medium. 4794

Respiratory disease in the pig. II. 4798

Fluorescent antibody techniques for vesicular stomatitis virus. 4799

Studies of serum enzymes in swine infected by two strains of hog cholera virus. 4804

Research on the oncogenic constituents of three zones of hemagglutinating activity, obtained by centrifugation of polyoma virus purified in density gradients with cesium chloride. 4806

Quantitative studies on the neutralization reaction between African horse-sickness virus and antiserum. 4817

Theory of classification of the densonucleose viruses , based on the study of molecular structures and physiochemical properties. 4823

Characterization of a small porcine DNA virus. 4826

The epizootiological importance of foot-and-mouth disease carriers. II. The carrier status of cattle exposed to foot-and-mouth disease following vaccination with an oil adjuvant inactivated virus vaccine. 4827

Competitive development of enzymatic activity of transcriptase and replicase in the course of a viral disease in cattle. 4837

Gambusia for Colorado. 5746

Efficacy of use of some phospho-organic compounds as acaricides in foci of tick-borne encephalitis. 5772

Sprayable or subcutaneously adminstrable vaccine for the immunization of mustelines against distemper and process for its preparation. Patent 3,420,934. 6454

Newcastle disease in poultry. 6455

Studies on an ocular infectious laryngotracheitis vaccine. 6459

A new fowl pox vaccine. 6467

Hot debate boils over vaccines. 6469

Isolation of equine rhinopneumonitis virus from acute respiratory disease in a horse in Queensland. 6480

The morphologic response of the turkey oviduct to certain pathogenic agents. 6483

Duration of rinderpest virus excretion in cattle immunized with an inactivated vaccine. 6496

Investigations on the viruses of the Orphan type occurring in pigs in Poland. IV. Haematological findings in piglets artificially infected with virus L1. 6500

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VII. Influence of the Orphan virus L1 on the virus of hog cholera in swine kidney cell cultures. 6501

Studies on avian encephalomyelitis. IV. Early incidence and longevity of histopathologic lesions in chickens. 6506

Immune response of chickens to six strains of Newcastle disease virus as measured by hemagglutination-inhibition test. 6517

Rabies, disease of today. Its new etiological and epidemiological aspects. 6519

The immunity induced in cattle and sheep by inoculation of neurotropic or pantropic Rift Valley fever viruses. 6523

Experimental infection of cattle with pantropic Rift Valley fever virus. 6524

Experimental exposure of deer to California encephalitis virus. 6530

Vaccination of the horse for equine influenza with an uncomplemented polyvalent vaccine. 6534

Equine influenza in Mexico. Isolation and study of the strain E/Equi 2/ Mexico/1/66. 6538

Viral lung diseases of the cat. 6546

Avian reoviruses. IV. Relationship to human reoviruses. 6548

Characterization of a cytoplasmic fraction from Sindbis virus-infected cultures. 6553

Contribution to the importance of inoculation against hog cholera as a measure for eradication of this infection in Yugoslavia. 6558

Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease. 6562

Infectious disease review: newer concepts of rabies. 6563

Induction of lung adenomatosis (jaagziekte) in sheep. II. 6564

Susceptibility of scrapie agent to ionizing radiation. 6575

Distribution of experimentally induced scrapie lesions in the brain. 6580

Outbreak of ornithosis in a flock of carrier pigeons in Copenhagen. 6584

Newcastle disease in Francolinus francolinus, Francolinus pondicerianus and in Bambusciola thoracica. 6588

Arbovirus-erythrocyte interaction. Adsorption, elution and neutralization of virus. 6589

Bovine respiratory disease, diagnosis and control. 6593

Clinical observation of experimental pseudorabies in mink and ferrets. 6600

The olfactory bulb lesion in the hibenating squirrel (Citellus lateralis) infected with coxsackievirus B-3. I. Virus assay, light microscopic and immunofluorescent study. 6604

Natural scrapie in a goat. 6630

Ranikhet disease can be controlled. 6638

Early changes in bursa of Fabricius from Marek's disease. 6642

Investigation on the viruses of the Orphan type occuring in pigs in Poland. III. Pathogenic properties of virus L1. 6645

Remarks on the receptivity of new born lambs towards the foot-and-mouth disease virus. 6649

Propagation of swine-fever virus in cell culture. 6655

An enzooty of strangles caused by virus A2 equi Miami 63 in the region of Lyon. 6656

Influence of various strains of the Aujeszky virus on the metabolism of cells cultured in vitro. 6658

Pathology of extranasal lesions in experimental inclusion-body rhinitis of pigs. 6664

Transmission of classical Marek's disease by affected and carrier birds. 6666

The effect of quaternary ammonium compounds on Newcastle disease virus and parainfluenza virus. 6670

Control of Marek's disease by the use of inoculated chicken embryo fibroblasts. 6677

Marek's disease: A review. 6678

The detection of the ECPO virus antigen in tissue culture with the aid of fluorescent antibodies. 6681

A formalinized and adjuvanted rabies vaccine of tissue culture origin. 6683

Prevalence of Sindbis virus antibodies in an Egyptian rural community. 6710

Properties of the in vitro soluble RNA methylase activity of hamster tumors induced by adenovirus-12. 6713

On antibody metabolism in pigs and calves, following the application of homologous and heterologous specific gamma-globulins. 6718

Myxoviruses of animals. 6728

Viral etiology of the bovine lympholeukosis. 6729

Electron microscopic observations of inclusion bodies in swinepox. 6735

Establishment and characterization of a feline neurofibrosarcoma (FNFS) cell line. 6746

A study of experimental ornithosis in the white mouse infected through the peritoneal cavity. 6751

Outbreak of influenza A/equi 2 in Italy. 6756

Preparation of stable noninfective influenza virus antigens for typing by hemagglutination-inhibition. 6773

Rinderpest protection in cattle by measles virus. Application in calves with passive immunity from maternal antibodies. 6779

Avian leukosis-sarcoma viruses and antibody in field flocks, and their relationship to leukosis mortality. 6784

Bovine herpes mammillitis virus. III. Observations on experimental infection. 6796

Herpesvirus in Marek's disease tumors. 6800

Western Encephalitis virus in Alberta. 6812

The olfactory bulb lesion in the hibernating squirrel (Citellus lateralis) infected with coxsackievirus B-3. II. Immunological study. 6816

Fowl pox inclusion-body formation in skin epithelium of chicks. 6817

Field observation of a mucosal type of disease at Aarey Milk Colony. 6826

Avirulent mutant of Aujeszky's virus, induced by 5-iodo-2-deoxiuridine (IUDR). 6838

Comparative study of the Aujeszky virus and of the herpes simplex virus by the immunofluorescence method. II. Kinetic study of the herpes simplex virus by the immunofluorescence method. 6843

TGE prevention your goal. 6845

Neuraminidase activity of the Newcastle disease virus. I. A study of the enzyme activity in differently cultivated strains. 6847

A preliminary report on the incidence of infectious laryngotracheitis (ILT) of poultry by gel-diffusion test. 6852

Pathomorphological studies on rabbits and guinea-pigs experimentally infected with the virus of Aujeszky's disease. 6854

The transmission of west equine encephalomyelitis virus from chicken to chicken by Culex pipiens (SAY). 6856

Cell culture techniques for primary isolation of Marek's disease-associated herpesvirus. 6872

Evidence for a herpesvirus as an etiologic agent of Marek's disease. 6873

The influence of cortisone and low environmental temperature on experimental infectious canine hepatitis in the guinea-pig. 6878

Investigations on the viruses of the Orphan type occurring in pigs in Polannd. V. Histopaphological changes in the central nervous system of piglets infected with virus L1. 6885

The guilty fox. 6977

Table of human infections. In: Diseases of man acquired from his pets. 7146

Use of alveolar macrophages for cultivation of canine distemper virus. 7862

Virus diseases of the respiratory tract in cattle. 7866

Caprine pneumonitis caused by a virus of psittacosis lymphogranuloma venerum (PLV) group. 7871

Serological relation between bovine epizootic fever and ephemeral fever. 7891

Contagious ecthyma in sheep in the state of Sao Paulo. 7909

Diagnosis of rinderpest. 7915

VIRUS DISEASES (INSECTS)

The use of micro-organisms for the control of insect pests. 136

Host range of insect viruses. 794

Relationships among the polyhedrosis and granulosis viruses of insects. 1360

A virus disease in Chironomus plumosus. 1481

Report of third work conference on the use of nuclearpolyhedrosis virus for control of Heliothis species. 1934

A field test comparing resistant varieties plus applications of polyhedral virus with insecticides for control of Heliothis spp. and other pests of cotton, 1967. 1962

Specificity of insect viruses. 1987

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. I. Laboratory experiments. 2003

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. II. Experiments related to transmission in nature. 2004

The isolation and biophysical characterization of an insect virus from Pachypasa capensis (Lepidoptera: Lasiocampidae). 2570

A virus-like structure in the desert locust. 2808

The infection of leafhoppers by western x-disease virus. VI. Cytopathological interrelationships. 3310

The infection of leafhoppers by western x-disease virus. V. Properties of the infectious agent. 3422

Study of the multiplication of Sindbis arbovirus in Drosophila. 4509

On the presence of a virus in the testicle of a homopteran insect. 4555

Evidence of a variant of the vesicular stomatitis virus (Indiana strain) which confers a retarded sensitivity to carbonic gas in Drosophila melanogaster. 4584

Appeal concerning the classification of invertebrate viruses. 5160

Diagnosis of the diseases of insects. 5455

Conditions determining the initiation and development of nuclear polyhedrosis epizootics in Lepidoptera. 5506

Determination of nucleopolyhedron counts and size frequency distributions by means of a Coulter transducer. 6009

VIRUS DISEASES (PLANTS)

Pests are endangering our cultivated plants. 211

Partial purification of sugarcane mosaic virus by filtration through gel. 219

Protection against virus diseases, an essential aspect of maintenance breeding in fruit growing in Czechoslovakia. 223

Possibilities and limits of visual selection in the control of the virus diseases of grapevines: An experience with some red varieties in the Swiss romand. 224

The detection of primary infections of virus diseases in potato plant cultures. 244

Oat diseases and their control. 256

Inhibition by blasticidin S of the ability of leafhoppers to transmit rice stripe virus. 279

Study of the interaction of growth retardants and a virus on the growth of Prunus persica line GF 305. 535

Systematic investigations of weather-controlled flight and migration phenomena of virus-carrying insects in western, northern, and southern Germany. 802

The healthy juice effect in virus transmission. 961

Possibilities for inter- and intracellular translocation of some icosahedral plant viruses. 969

Diseases of citrus trees. 975

Potato cultivation in Mysore State. 980

Virus leaf spot in grape plants. 986

Preparation of non-infectious arbovirus antigens by photodynamic inactivation. 1552

Degradation of alfalfa mosaic virus by pancreatic ribonuclease. 1553

Plant pathology in New Zealand. 1555

Resistance of tomato lines to TMV. 1568

Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection. 1572

Increase of tobacco mosaic local lesion size and virus multiplication in hypersensitive hosts in the presence of actinomycin D. 1574

A new virus of celery (Apium graveolens L.). 1575

Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro. 1581

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction. 1584

Free amino-acids in healthy and virus-infected chrysanthemum. 1587

Grassy shoot disease of sugarcane. II Hot-air therapy. 1588

Membrane feeding and infectivity neutralization used in a serological comparison of potato leaf roll and beet western yellows viruses. 1601

Aphids and the increase of potato leaf roll virus in seed potatoes on the Wolds of the East Riding of Yorkshire. 1604

The overwintering of aphids and viruses on sugar beet seed crops in England, 1963-1966. 1606

The new seed legislation and its consequences for the planting of seed potatoes. 1852

Laboratory rearing of aphids. 2019

Diseases of sugarbeet in Arizona. 2112

Line pattern disease of raspberry. 2118

Proof of the presence of the tomato bushy stunt virus in grape tendrils. 2120

Stem pitting of Italian prune. 2124

Effect of 2,4-dichlorophenoxyacetic acid on tobacco mosaic virus infection. 2127

Local reaction and cross protection for strains of squash mosaic virus. 2131

Alfalfa mosaic virus-induced lesions on bean: Effect of light and temperature. 2133

Free amino acid contents in corn infected with maize dwarf mosaic virus and sugarcane mosaic virus. 2137

Grain yield of corn reduced by maize dwarf mosaic virus infection. 2141

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection. 2142

Plot techniques with maize dwarf mosaic virus: II. Greenhouse studies. 2150

Cell inclusions of Holmes' ribgrass virus, an analog of tobacco mosaic virus. 2153

Stem pitting in Prunus spp. other than peach. 2154

Epidemiology of cucumber mosaic and other virus diseases of lettuce in Arizona. 2159

Effects of temperature on expression and transmission of stubborn disease of citrus. 2161

Effect of dimethyl sulfoxide on tobacco mosaic. 2165

Investigations concerning ringspot virus disease of the cherry. III. Serological investigations. 2168

Distribution of cucurbit viruses in Kansas. 2171

Cucurbit virus studies in Hawaii. 2172

Properties of a virus causing pokeweed mosaic. 2173

Electron microscopic observations on the causal agent of the Brazilian tomato ring spot disease. 2175

Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid. 2178

The effect of aphid numbers and stage of plant growth in determining tolerance to barley yellow dwarf virus in cereals. 2179

Purification and properties of broad bean wilt virus. 2189

Interaction of maize dwarf mosaic virus strains and sugarcane mosaic virus H in corn. 2190

Plot techniques with maize dwarf mosaic virus: I. Field studies, 1966. 2192

Influence of the proliferation virus upon the quality and quantity of apple fruits. 2199

Greenhouse studies of host plant suitability to Graminella nigrifrons, a vector of corn stunt virus. 2206

Transmission of maize dwarf mosaic by the greenbug, Schizaphis graminum. 2214

Preference of green peach aphids for virus-infected sugarbeet leaves. 2224

Aphid populations in relation to tristeza in Florida citrus. 2235

The influence of latent apple viruses on the growth of various ornamental apples. 2703

Concentration of potato-M-virus in potatoes and tomatoes. 2709

Problems in plant virus investigations. 2710

Electron microscopy of plant viruses. Bibliography 1935-1965. 2714

Studies of peanut stunt virus on Trifolium species, especially Trifolium repens L. 2722

Virus diseases of lettuce. 2724

Studies on virus diseases of strawberries in the western Cape Province. II. The latent period of mild yellowedge and crinkle viruses in the vector Chaetosiphon fragaefolii (Ckll.). 2734

Interpreting plant disease dispersal gradients. 2746

Latent viruses in apple varieties and grafting stock. 2749

On the effect of fat emulsion on virus transmission. 2750

Trends in the development of plant virology. 2752

Scientists find the cause of the bean wilt disease. 6147

On the significance of the Lygus species as a plant pest. 6154

Mycoplasma-like bodies in the salivary glands of insect vectors carrying the aster yellows agent. 6191

Effect of rice-pathogenic viruses on their insect vectors. 6216

Vectors of rice viruses in Asia. 6228

Controlling peach yellows in a peach breeding program. 6232

Insects and diseases of vegetables in the home garden.
6242

Host range studies of oat blue dwarf virus.
6274

Developmental tendencies in phytonematology.
6308

Burning weeds in drainage ditches to suppress populations of green peach aphids and incidence of beet western yellows disease in sugarbeets.
6395

Sources of tolerance to soil-borne oat mosaic virus from the World Oat Collection.
6602

Tobacco stalk and root destruction with herbicides and their effect on tobacco mosaic virus.
7249

Flavone composition, flowering, and hypersensitivity to virus in vegetables.
7281

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production.
7315

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients.
7316

Testing cherry rootstocks for resistance to infection by raspberry ringspot and cherry leaf roll viruses.
7774

Some observations of pea enation mosaic virus isolated in Slovakia.
7787

Transmission of pea leaf rolling virus by aphids.
7788

Difference in the transmission of pea leaf rolling virus by two strains of pea aphid Acyrthosiphon pisum Harris.
7789

Vector-virus relationship of two less known aphid vectors of pea mosaic virus.
7790

Self-construction of RNA extracts of three different viruses and of the protein sub-units of the lucerne (alfalfa) mosaic virus,.
7791

Yield experiments with potato virus S-free and potato virus S-infected Bintje potatoes.
7798

Intracellular inclusions in epidermal cells of tobacco infected by tobacco rattle virus.
7802

Tolerance of virus infection in crop plants.
7804

Withering of citrus trees.
7805

Thin layer chromatographical studies on phenolic markers of the greening virus in various citrus species.
7806

Linear variation in stability of tobacco mosaic virus to stripping of protein by detergent.
7810

Performance of sweetcorn under natural epiphytotic of maize dwarf mosaic virus.
7812

The effect of the barley yellow dwarf virus disease on barley and oats in the Western Cape.
7816

Occurrence of Bemisia tabaci (Genn.) in the field and its relation to the leaf curl disease of tobacco.
7829

The influence of tobacco ring spot virus and tobacco mosaic virus on the growth of Meloidogyne javanica.
7844

Some observations on tobacco yellow dwarf control.
6033

VIRUS DISEASES PLANTS

New trapping and recording methods for investigations into the migration phenomenon of virus-transmitting insects.
2583

VIRUS HEPATITIS

Virus hepatitis of ducks. 6. Communication: Passive immunization of ducklings by vaccinating parent ducks.
6858

VIRUS M

Concentration of potato-M-virus in potatoes and tomatoes.
2709

VIRUS MUTATION

An X-ray diffraction study of a tobacco mosiac virus mutant.
5861

VIRUS NEUTRALIZATION

Quantitative studies on the neutralization reaction between African horse-sickness virus and antiserum.
4817

Protection against Rinderpest conferred to cattle by an inactivated virus adapted to cattle cells.
4835

VIRUS S

Concentration of potato-M-virus in potatoes and tomatoes.
2709

Yield experiments with potato virus S-free and potato virus S-infected Bintje potatoes.
7798

VIRUS SEROLOGY

Quantitative studies on the neutralization reaction between African horse-sickness virus and antiserum.
4817

VIRUS X

Studies on the application of electrophoresis to the isolation of RNA infective fractions from tobacco plants infected with the potato virus X. I. Characterisation of RNA preparations from tobacco leaves, analysed by means of electrophoresis in coloured agar gels.
4710

The respiratory pathways of tobacco leaves infected with potato virus x.
5918

Respiration of tobacco leaves infected with different strains of potato virus X.
5919

Purification of potato virus X and preparation of infectious ribonucleic acid by degradation with lithium chloride.
5930

Etiology, symptomatology and epidemiology of a virus disease of cultivated mushrooms.
6069

Tests on the behavior of X and Y viruses of some rieties of potatoes, important in Brazil.
6079

VIRUS Y

Inhibitory ability of sap from different tobacco varieties on potato virus Y.
3362

The inheritance of a new source of resistance to the potato virus Y in pepper (Capsicum annuum L.).
4713

Shifting of virus Y from stems to tubers in dependence on the plant age.
5874

Tests on the behavior of X and Y viruses of some rieties of potatoes, important in Brazil.
6079

VIRUS 1

Host range and particle length of passionfruit woodiness virus.
3420

VIRUSES

Electrophoretic separation of the hemolymph proteins in the silkworm, Bombyx mori L., infected with the nuclearpolyhedroses virus.
171

Genetic resistance of the silkworm, Bombyx mori L., to an infection of a flacherie virus.
182

Fenetic study of a mutation modifying the sensitivity of a lambda phage to immunity.
184

Virus insecticides.
275

Two sides to the vaccine picture.
345

Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus.
375

Current accomplishments and perspectives of the microbiological control.
801

Stability mechanism of polyhedra.
894

Hypersensitivity of Nicotiana Xanthi n. c. to virus, temperature, and soluble proteins.
1396

Evidence for the possible existence of two envelope antigenic determinants and corresponding cell receptors for avian tumor viruses.
1651

Viruses, serums, toxins and analogous products: Organisms and vectors. Labels. Miscellaneous amendments.
1851

On the effect of fat emulsion on virus transmission.
2750

Laboratory breeding of Pieris brassicae transmitting a granulosis virus.
3182

Mass production of insect viruses during the shedding of the pupal skin.
3296

The conservation of viruses and entomopathogenous bacteria in tablet form.
3297

Respiratory diseases of poultry.
3555

Health hazards associated with production and preparation of foods.
3657

Study of the multiplication of Sindbis arbovirus in Drosophila.
4509

A preliminary study on the polyhedrosis virus of jute semilooper, Anomis sabulifera Guen.
4516

Virus multiplication.
4614

Effect of some disinfectants on the flacherie virus of the silkworm, Bombyx mori L.
4617

Study of the multiplication, in a unique clone cycle, of classic swine fever virus in an immunofluorescent medium.
4794

Preliminary study of an intestinal virus isolated from a lesion in baland-posthite cattle.
4810

Inhibition of the multiplication of foot-and-mouth virus in an adult mouse which had first been treated with the adjuvant of Freude .
4814

Serological identification.
5280

Pathogens of the gypsy moth.
5289

The problems associated with the standardization of insect viruses.
5361

Suitability of pathogens for biological control.
5452

The natural and artificial dispersion of pathogens.
5561

Parasites as vectors of granulosis virus of Hadena sordida Bkh.
5599

The study of virus epizootics in insect populations. 5625

Basic functions in Bacillus thuringiensis affecting its mode of pathogensis. 5636

Virus enhancement with a growth product of Streptomyces scabies. I. Production and properties of scaben. 5810

Virus enhancement with a growth product of Streptomyces scabies. II. Increased release of coxsackievirus B5 from hEp-2 monolayers treated with scaben. 5811

Aspects of the industrial production of microbial insect control agents. 7404

Transmission of densonucleosis virus by parasitism of a hymenopteran. 7635

Structures derived from cowpea chlorotic mottle and brome mosaic virus protein. 7768

The protein subunit of the satellite tobacco necrosis virus. 7792

Nuclear changes in mesophyll cells of Gomphrena globosa L. associated with infection by beet mosaic virus. 7793

Experimental infection of calves with bovine adenovirus types 1 and 2. 7876

Lipids of plasma membranes of monkey and hamster kidey cells and of parainfluenza virions grown in these cells. 7894

Immunogenic value of bivalent vaccine of atipic fowl pest and fowl pox produced on tissue culture. 7921

VISCERA

Studies on the chromatin isolated from the organs of animals received whole-body x-ray irradiation. 423

The toxicity of fly ash for cattle. 507

Age structure, population dynamics and vector potential of Phlebotomus in Northern California. I. Distinguishing parous from nulliparous flies. 765

The spermatophore of Tetrix Latreille (Orthoptera: Tetrigidae). 783

Localization of Cysticercus bovis in the organs of slightly infested cattle. 1754

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster. 4639

Reduction of flight organs in some cryptobrachypterous Lygaeidae (Hem., Het., Lygaeidae). 5398

Chronic panleukopenia in cats. 6565

Visceral cysticercosis in bovine animals. 7000

VISION

Image formation and sensory transmission in the compound eye. 70

On the mechanism involved in perception of light stimuli during the photoperiodic reaction in Lepidoptera caterpillars. (TT 61-23975). 1967

On the ethometry of sign stimuli; the theory of the telotactic choice, and the power principle of the terminal cumulation in arthropods. 1990

A comparative study of communication in grasshoppers. 2023

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060

Visual form discrimination of the honey bee within the range of 6- and 4-pointed stars. 2651

The influence of the width of black stripes on visual goniometry in the bee (Apis mellifera). 3307

Fundamental properties of intensity, form, and motion perception in the visual nervous systems of Calliphora, phaenicia and Musca domestica. 3849

Single unit activity in the visual pathway of the butterfly Heliconius erato. 4605

Medium and long-term changes in the behavior of visual neurones in the tritocerebrum of locusts. 5371

Colour vision and colour preference in the tropical eye-fly. 5494

Optical orientation mechanisms in the homing behavior of Cataglyphis bicolor Fab. (Formicidae, Hymenoptera). 5671

The capacity of insects to learn and to evaluate visual stimuli. 7652

Vitamin A in the vision of termites. 7694

VISUAL CLASSIFICATION

Possibilities and limits of visual selection in the control of the virus diseases of grapevines: An experience with some red varieties in the Swiss romand. 224

VITACEA

A study of the synthesis of lysopine from lysine by crown-gall tissues. 5994

VITAMIN A

Vitamin A deficiency: Effect on mosquito eye ultrastructure. 65

The primary importance of food. 1049

Wheat as a stock fodder. 1056

Ultrastructure of photoreceptor cells in a vitamin Adeficient moth (Manduca sexta). 2550

Further data on hypovitaminosis A in swine. 3511

Vitamin A deficiency: Effect on retinal structure of the moth, Manduca sexta. 3807

Intestinal histology of vitamin A deficient chicks. (Abstract). 4113

The efficacy of trans and cis vitamin A. (Abstract). 4158

Further studies on avian biliary cirrhosis with particular reference to aetiology. 6590

Hypovitaminosis A and hypomagnesaemia of swine. 6882

Vitamin A in the vision of termites. 7694

VITAMIN A ALDEHYDE

Vitamin A in the vision of termites. 7694

VITAMIN B6

On the behavior of xanthurenic acid in rabbits treated with massive doses of pyridoxine. 7203

VITAMIN D

The influence of varying dietary levels of magnesium, calcium and vitamin D on magnesium metabolism. 2341

Recent advances in our knowledge of parturient paresis with particular reference to the role of vitamin D in its prevention. 2956

Milk fever in the dog. 4262

Zinc toxicity and vitamin D for chicks. (Abstract). 4314

Influences of an anti-ovulatory compound on the expression of vitamin D deficiency signs in laying hens. 6518

VITAMIN E

Effect of ascorbic acid withdrawal on interior egg quality. (Abstract). 4204

On the antioxidative mechanism of alpha-, beta-, gamma- and delta tocopherols in lard. 4865

Medium-chain triglycerides as a stress factor in vitamin E deficiency of chicks. 6502

Dietary hepatic necrosis associated with selenium-vitamin E deficiency in swine. 6723

VITAMIN K

The relation of protein level of alfalfa meals to their vitamin K activity. (Abstract). 4130

VITAMINS

Nutrient requirements of poultry. 397

Nutrient requirements of dairy cattle. 398

Nutrient requirements of horses. 399

Simple method for determination of glycine and niacin in drug mixtures. 1180

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. II. Selected environmental and nutritional factors affecting development and sex ratio. 2834

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. I. Selected environmental factors affecting penetration. 2835

Nutrition of the almond moth. I. Analysis and improvements of the experimental diet. 3302

Some significant health aspects of insecticidal poisoning. 3674

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

The nourishment of milk calves is essential for the future of the product. 4787

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee-Ii. Effect of vitamin content of pollens. 5347

Stilbestrol, antibiotics, vitamins, urea, minerals: What we're learning about feeding beef. 7874

VITEX MEGAPOTAMICA

The occurrence of 20-Hydroxy-ecdyson in Vitex megapotamica. 3703

VOCABULARY

Water pollution. 2nd edition. 1781

VOLATILE SUBSTANCES

Volatile growth inhibitors produced by Salvia leucophylla: effect on seedling growth and respiration. 1171

Volatile neutral compounds emanating from laboratory-reared colonies of the desert locust, Schistocerca gregaria.
3171

The alarm-defence system of the ant Acanthomyops claviger.
5553

Substances that attract caged honeybee colonies to consume pollen supplements and substitutes.
5565

Persistent pesticides.
7083

Retention and vooatilization of lindane and DDT in presence of organic colloids isolated from soils and leonardite.
7129

Chemistry of pesticides. (JPRS 47038)
7360

Immobilizing insects by sudden reduction of body temperature. Patent 3,446,892.
7377

VOLUMETRIC ANALYSIS

Stability mechanism of polyhedra.
894

Simple method for determination of glycine and niacin in drug mixtures.
1180

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae).
2546

Antibody titer against leptospira in liver- and other internal diseases.
3559

Leptospirosis II.
3599

The precision of virus end-point determinations.
6458

Enzootic abortion and sterility from bovine leptospirosis in the Po valley.
6488

High praise for low volume insecticide spraying.
7136

Relation between volumn and contents of cysts of Heterodera rostochiensis Wollenweber.
7848

WALKABOUT DISEASE

Experimental whitewood, Atalaya hemiglauca, poisoning in the horse. (Abstract).
1114

WALLROTHIELLA ARCEUTHOBII

Biological control for dwarf mistletoe.
1631

WALNUTS

Pre-emergence herbicides for weed control in walnuts.
1031

Laboratory evaluation of malathion as a protectant for stored walnuts.
3666

Codling moth control with carbofuran.
5547

WALSHIIDAE

A revision of the Cosmopterigidae of American north of Mexico, with a definition of the Momphidae and Walshiidae (Lepidoptera: Gelechioidea).
4395

WARBURG APPARATUS

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season.
949

Vertical distribution of biological activity in peat of some virgin and drained swamp types.
950

Methods for testing the effectiveness of fungicides against Botrytis cinerea.
3702

WARFARIN

Epizootics of trichinosis in pigs and its relation with anti-rat procedures using warfarin.
4227

Anticoagulant resistance. (Part 2).
6640

Tolerance status of some rats to an anticoagulant rat poison.
7038

Anticoagulant resistance in Europe.
7040

Thieves in the poultry house.
7041

Control of rodents.
7043

Cortisone nephropathy in the rabbit. The effect of warfarin administration.
7195

The effect of sex and age on the response to warfarin in a non-inbred strain of mice.
7198

WASTE

Pollution costs money.
465

WATER

Effects of temperature and water on viability and virulence fo Bacillus thuringiensis var. thuringiensis Berliner spores.
106

How to produce high yields.
194

Nutrient requirements of dairy cattle.
398

Note on the effect of water on soxhlet extraction of some organochlorine insecticides from soil and comparison of this method with three others.
470

Breeding of Empusa muscae and its use in fly control.
902

Uptake of water by eggs of Cardiaspina densitexta (Homoptera: Psyllidae) from leaf of host plant.
907

The effect of malachite green as a fungicide.
1050

Notice of filing of petition for food additive sulfadimethoxine.
1066

Sulfamerazine. Drugs for veterinary use; drug efficacy study implementation.
1083

Water balance in pinottii malaria of pigeons.
1086

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera). I. Variations in body weight, dry weight and water content.
1376

Softening of Coleoptera.
1380

A preliminary note on the fauna of water-filled tree-holes.
1420

Why is the Navy concerned with weed control.
1636

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Diethylstilbestrol.
1641

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Calcium periodate.
1776

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Dimethoate.
1789

Determination of the water content of nematode worms by interference microscopy.
2242

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Zoalene, 3-nitro-4-hydroxyphenylarsonic acid.
2268

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice.
2445

The dynamics of nematode movement.
2851

A check of the resistance to washing of various pesticides on apples and grapes.
3028

The role of interfacial water in the tolerance of roots to toxic solutions.
3031

The effect of the association of organic material with clays on parathion and DDT adsorption.
3072

Volatile neutral compounds emanating from laboratory-reared colonies of the desert locust, Schistocerca gregaria.
3171

Dynamics of the permeation of nematodes by water, nematocides and other substances.
3456

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Feed grade biuret.
3498

Salt and water transport by the in vitro cockroach midgut.
3870

Low temperature sprays for Dutch elm disease control.
3957

Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract).
4117

Therapeutic efficacy of ronidazole in water against histomoniasis and effect of continuous feed levels on growth in turkeys. (Abstract).
4245

Effects of temperature on Drosophila--V. Weight and water, protein and RNA content.
5247

Gas-liquid chromatography analysis of DDT metabolism in Aedes aegypti.
5370

Laboratory tests of larvicides for mosquito control in potable waters. (abstract).
5389

The relations between transpiration, humidity reaction, thirst and water content in the shorebug Saldula saltatoria L. (Heteroptera: Saldidae).
5443

Effect of starvation on the scorpion Palamnaeus bengalensis.
5612

Salivary secretion in the cattle tick as a means of water elimination.
5641

Cuticular water pump in insects.
5681

Apple scab, pecan scab, and the duration of leaf wetness.
5878

Botran used as an orchard spray vs. Botran in the hydrocooler and control of post-harvest decay of peaches.
5904

Common aquatic weeds.
6398

Pesticide residues; history, alternatives and analysis.
7138

Effects in warmblooded animals of thiometon (2-ethylthioethyl o,o-dimethylthiophosphate) ingested in drinking water.
7149

Fungal polysaccharide composition and method for making same. Patent 3,436,311.
7244

Gas chromatographic analysis of dalapon in water.
7342

Positive phototaxis of Chironomidae larvulae as a factor regulating their distribution in stagnant bodies of water.
7497

Thermodynamic state of the water in healthy or infected grains of wheat.
7801

Effects of various water volumes on the effectiveness of methyl parathion-DDT in controlling the cotton boll weevil, Anthonomus grandis. 7979

Gas chromatographic characteristics of chlordane. II. Observed compositional changes of the pesticide in aqueous and non-aqueous environments. 8000

WATER ANALYSIS

Objectives and role of the water pollution control administration on water quality standards. 467

Are fertilizers creating pollution problems . 468

Effect of agriculture on nitrate pollution of groundwater. 469

Research on the fauna of the Sarno river. I.Description of the course of the water and population data on the invertebrates in the source and upper stream. 580

Signs of water pollution in the Riviere des Prairies. 2385

Pesticide pollution control. 3651

Preventing fish and wildlife losses. 3671

Pesticides in water, Pesticides in selected western streams--A contribution to the national program. 4870

Persistence and movement of parathion in irrigation waters. 4871

Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality. 4888

Screening method for zearalenone, aflatoxin, and ochratoxin. 4928

Water pollution laws called ambiguous weak . 4961

Strontium-90: Concentrations in surface waters of the Atlantic Ocean. 7070

DDT: The critics attempt to ban its use in Wisconsin. 7071

Water pollution and agriculture. 7075

Interaction of pesticides with natural organic material. 7081

Collection and analysis of synthetic organic pesticides from surface and ground water. 7957

Bioassay determination of aircraft swaths and rice canopy penetration by low volume insecticidal sprays at Colusa, California. 912

Studies of effects of Dursban and fenthion insecticides on wildlife. 1140

Residues of Dursban insecticide following mosquito control applications. 1153

WATER CONSUMPTIVE USE

Irrigation by spraying. 4659

Uptake of atmospheric water by the hen flea Ceratophyllus gallinae (Schrank). 5377

WATER POLLUTION

Pollution costs money. 465

Defense possibilities of society against pollution of food and environment. 466

Objectives and role of the water pollution control administration on water quality standards. 467

Are fertilizers creating pollution problems . 468

Effect of agriculture on nitrate pollution of groundwater. 469

Improved GLC method for s-triazine residue determination. 498

Methoxychlor as a blackfly larvicide, persistence of its residues in fish and its effect on stream arthropods. 1139

Water pollution. 2nd edition. 1781

Mercury which poisons the environment in Sweden. 1782

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies . 1784

Galveston Bay pesticide study- water and oyster samples analyzed for pesticide residues following mosquito control program. 1786

Signs of water pollution in the Riviere des Prairies. 2385

The condition of cysts of potato nematodes in purification plants. 2847

Gas chromatographic study on the environmental and foodstuff pollution through residues of synthetic organo-chlorinated insecticides. 3029

Water containing algae may be dangerous to stock. 3039

Mastitis conditioned by feeding. 3574

Pesticide pollution control. 3651

Chemical weed control in irrigation channels and drains. 4061

Research into environmental pollution. 4290

The warble fly. 4568

Pesticides in water, Pesticides in selected western streams--A contribution to the national program. 4870

Persistence and movement of parathion in irrigation waters. 4871

Effects of chronic exposure to zinc on toxicity of a mixture of detergent and zinc. 4894

Some pathological effects of sub-acute and acute poisoning of rainbow trout by phenol in hard water. 4898

Water pollution laws called ambiguous weak . 4961

Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5336

Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick. 5380

These weeds mean trouble. 7042

DDT: The critics attempt to ban its use in Wisconsin. 7071

Environmental pollution: Scientists go to court. 7072

Water pollution and agriculture. 7075

DDT: Criticism, curbs are on the upswing. 7077

Pesticides: Transatlantic movements in the Northeast trades. 7079

Effects on wild young salmon of spraying DDT over New Brunswick forests. 7103

Effects of forest spraying with DDT in New Brunswick on food of young Atlantic salmon. 7111

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 7112

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary. 7113

Toxicities of two insecticides to young coho salmon. 7210

Influence of simazine on apparent photosynthesis of aquatic plants and herbicide residue removal from water. 7305

Degradation of gamma-BHC in simulated lake impoundments as affected by aeration. 7362

WATER TREATMENT

Application of insecticides to paddy water for more effective rice pest control. 205

Water pollution. 2nd edition. 1781

The condition of cysts of potato nematodes in purification plants. 2847

Preventing fish and wildlife losses. 3671

Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality. 4888

Water management units and shore line modifications used in mosquito control investigations. 5768

Biological investigations of an infiltration area and experiments with some algicides. 7076

Bioassay determination of aircraft swaths and rice canopy penetration by low volume insecticidal sprays at Colusa, California. 912

WATERMELONS

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethoate. 1790

Bacterial fruit rot of watermelon in Florida. 2130

Distribution of cucurbit viruses in Kansas. 2171

The actual situation of inquiry into the resistance of varieties of watermelon withering with Fusarium. 3364

The occurrence of wilt in watermelon in the state of Sao Paulo. 5901

Susceptibility of watermelon cultivars to watermelon mosaic virus-2. 6091

WATERSHED MANAGEMENT

Water management units and shore line modifications used in mosquito control investigations. 5768

Salt marsh mosquito control in relation to beef cattle production: A preliminary report. 6904

WATSONIA

Watsonia; (Watsonia spp. and Chasmanthe aethiopica (L.) N. E. Brown). 1033

WAXES

Lipid metabolism and function in insects. 92

The presence waxes in two kinds of lac cells. 2006

Disinfection in parasitoses. 4148

The germination of conidia and the appressoriun formation of Alternaria porri on the surface of onion leaves. 5860

WEATHER

Tachinidae catch in the Swiss Jura, using tent traps. 30

The occurrence of the important causes of damage to cultivated plants in Austria during 1967. 196

The influence of the sowing time on the intesity of attack by the panicle generation of frit fly (Oscinella frit L.). 288

Slugs cause damage in Ohio cornfields. 328

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera). 638

Seasonal and daily chirping cycles in the northern spring and fall field crickets, Gryllus veletis and G. pennsylvanicus. 738

Systematic investigations of weather-controlled flight and migration phenomena of virus-carrying insects in western, northern, and southern Germany. 802

The dispersion of the resettlement of Dendroctonus micans Kugel. on Picea orientalis Link, in the Borshom Gorge. 826

Dutch elm disease recurrence and recovery in American elm. 962

Mass appearance of a typical permanent forest infestor, the larch casebearer (Coleophora laricella). 1013

The influence of weather on the activity and behavior of greenhead flies, Tabanus nigrovittatus Macquart and Tabanus lineola Fabricius. 1413

Seasonal dynamics of the invasion extensity of the nematode Syngamus trachea (Montagu, 1811) in breeding turkeys (Meleagris gallopavo f. domestica). 1728

Ecological factors which determine the wild type of trichiniasis west of San Luis and east of Mendoza. 1761

Flight and ground collection records of Costelytra zealandica (White) at a site in Canterbury, New Zealand. 1996

Hourly and seasonal collections of six harmful insects in traps equipped with blacklight lamps. 2056

The ecology of Sminthurus viridis (L.)(Collembola). I. Processes influencing numbers in pastures in Western Australia. 2067

Soil factors contributing to atrazine carryover. 7084

Aflatoxin in the groundnut crop at harvest in Northern Nigeria. 7185

The terminology of the phenomena connected with the weather in ecology. 7704

WEED BURNERS

Weed control in separate cultures by burning off. 2861

A laboratory sprayer-flamer. 3728

WEED CONTROL

Weed control for the home garden. 306

Aquatic weed control. 307

Proposed program for accelerated weed control in Wyoming. 311

Chemical control of pigweed. Patent 3,408,176. 315

Weed biology - A future. 321

Sainfoin - a dryland forage crop for Montana. 322

Apparent sap velocities in big sagebrush as related to nearby environment. 573

Surveying the pre-emergent chemicals and ideas. 1026

Pre-emergence herbicides for weed control in walnuts. 1031

Watsonia; (Watsonia spp. and Chasmanthe aethiopica (L.) N. E. Brown). 1033

Chou moellier yields dramatically increased by weed control. 1039

Machinery and timing in renovation-bluegrass. 1040

Renovation toward bentgrass. 1041

Influence of crop sequence, nitrogen fertilizer and herbicides on weed seed populations in sugar beet fields. 1632

Controlling weeds in carrots. 1635

Why is the Navy concerned with weed control. 1636

Economic estimation of chemical weed control of sugar beet. 1638

Herbicide research and finesse. 1639

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies. 1784

Apion seed weevil introduced for biological control of Scotch broom. 2254

Progress report on Johnsongrass control in orchards. 2256

Comparison of herbicides and times of spraying for the control of blackberry (Rubus fruticosus). 2258

Domestic quarantine notices. Witchweed. Regulated areas. 2259

Selective herbicides control weeds in lucerne at Cowra. 2262

Appearance of weeds and disease in grain and corn after direct drilling. 2784

Effect of repeated annual use of atrazine on corn. 2857

Perennial weed grasses and their control in relation to cereal growing. 2859

Weed control in separate cultures by burning off. 2861

Weed control and plant residue maintenance with various tillage treatments in a winter wheat-fallow rotation. 2862

Herbicides in plant protection. 2864

Chlorthiamid against bind weed in basket willow cultures. 2865

Autumn weed control for continuous cereal growers. 2867

Chemical weed control in Finland in 1887--1965. 2869

The significance of the granulation of dichlobenil for weed control in several year old cultures. 2870

Progress and goals of chemical weed control. 2871

Chemical weed control experiments DPA in rice. 2873

Weed control with growth regulating substances in micro granule herbicides. 2874

Control of dicolyledon weed seeds and millet weed in beans with soil herbicides. 2875

Potato tuber eelworm. 3459

The status of preventive weed control. 3465

Concerning the problem of the persistence of certain weeds in weeded cultures and in the fall sowing of the Banat region. 3467

Weed problems in developing countries. 3472

Herbicides in use. 3478

Process of killing plants. Patent 3,416,912. 3481

Ecological aspects of weed control in cotton in the Ord River valley, W.A. i. Conditions affecting germination of weeds. 3482

Studies on weed control in potato by pre-emergence treatment with 2,4-dichlorophenoxyacetic acid. 3484

On the effect of herbicides on some agrophytocoenoses. 3485

Gorse control at a profit. 3488

Barban for wild oat control. Patent 3,416,913. 3490

Concerning the interrelationship between soil pests, weeds and their control. 3661

Weeds mean waste Know your weeds and how to control them. 4066

Control of Orobanche under natural and artifically infested conditions. 4068

Autumn weed control for continuous cereal growers. 4069

Foaming agents as ground cover against weeds. 4078

Studies on weed control in groundnut (Arachis hypoceae) - a review. 4082

Fairway disease control. 4674

Thrips infesting the tips of asparagus spears. 4740

Some observations on ecological, physiological and biochemical aspects of weed control. 4776

Response of mixed crop of wheat and rape to three chlorophenoxy herbicides. 4777

Finesse in weed control. 4778

Weed control studies in strawberries. 4779

Weed control in potato cultures without adverse effects on the potato quality. 4781

Weeds and their control. 4782

The sugar beet. 5791

Breeding and management of forage crops in the Eastern Plains. 5797

Cotton as a supplement to tobacco. 5807

Soya beans - practical aspects. 5830

Are herbicides doing their job . 6311

Weed control and the economics of direct reseeding. 6318

Progress in witchweed control seen as pest fails to spread. 6319

Weed and brush control for drainage ditches. 6320

Herbicide versus cultivation for corn with two methods of seedbed preparation. 6343

Weeds. 6344

Chemical weed control in tropical root crops. 6352

Test weed killers yourself. 6353

Nagal Thakaran no longer worries about weeds. 6361

Broadleaf weed control in rice. 6370

Chemical weed control in groundnuts. 6374

Water hyacinth: Noxious weed that must be checked. 6379

Weed control in turf. 6382

Pre-emergence weed control in the nursery. 6383

Alligatorweed found in Arkansas. 6384

Influence of agrotechnical and chemical treatments on the changeableness of field plant associations. 6389

Study of certain herbicides against weeds in garden peas. 6392

Common aquatic weeds. 6398

Experimental husbandry farm experience with herbicides and tillage systems for cereal growing. 6399

These weeds mean trouble. 7042

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies . 7078

Some factors affecting germination and seedling growth of scotch thistle (Onopordum acanthium L.). 7293

New equipment answer to demand for improved herbicide product. 7387

WEEDS

Effect of topsoil deepening on weed infestation of following crops. 310

Studies of the influence of some predominant weeds on the yield pattern of spring barley. 313

The state of weeds when applying herbicides and insecticides in corn fields. 318

Control of Dalmatian toadflax. 320

Weed biology - A future. 321

We Squashed the weeds. 326

A guide to chemical weed control in tropical and subtropical fruit and nut crops in Hawaii. 327

Bibliography of biological control. VII. 946

Biological methods of weed control. Transl. 16892. 1032

Little noticed kinds of weeds in tree nurseries. 1034

Weed seed reserves in the soil, in cereal crops. 1037

Seasonal dynamics of weeds in winter wheat culture. 1038

Indices of weed-crop interference in Zea mays Linn. 1633

Chemical weed control in strawberry plantations. 1637

Potato tuber eelworm. 2249

Arceuthobium pusillum on eastern larch in Wisconsin. 2257

Weed control tests in onion fields. 2858

Tests of chemical weed control in onion fields. 2872

The important crop diseases and pests in the Federal Republic of Germany in the growing seasons of 1965 and 1966 (November, 1964 through October, 1966). 3347

Concerning the problem of the persistence of certain weeds in weeded cultures and in the fall sowing of the Banat region. 3467

Competitive effects of annual weeds on Spanish peanuts. 3471

Weed problems in developing countries. 3472

Light filtration by foliar canopies: Significance for light-controlled weed seed germination. 3486

Effect of foliar spray of hormones on the rhizosphere mycoflora of leguminous weeds. 3711

Plant protection in the heart of Europe. Austrias contribution to the international fight against plant pests and diseases and, through this, to the improvement of the food situation. 3911

Now can you spot those weeds. 4059

Weeds mean waste Know your weeds and how to control them. 4066

Domestic quarantine notices. Witchweed. Regulated areas. 4067

Chemical control of weeds in the Hungarian vineyards. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4086

Chemical weed control problems in outdoor vegetable growing. 4088

Bibliography of biological control. VIII. 4661

Experimental husbandry farm experience with herbicides and tillage systems for cereal growing. 4678

Comparison of various methods for the determination of the herbicidal action of herbicide preparations against annual weeds in sugarbeets and potatoes. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4774

Studies of phytotoxicity in the use of herbicides for controlling annual weeds in almond orchards. 4780

Our struggle against pests. II. 4872

Germination of Russian thistle seeds. 4916

The determination of the embryo viability of weed seeds by the TTC method. 4917

Growing vegetables in South Dakota. 5832

The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces. 5837

Vegetative reproduction in western ironweed. 5839

Are herbicides doing their job . 6311

Proclaimed noxious weeds in Victoria. 6312

Proclaimed noxious weeds. 6313

Weeds and man. 6325

Problems of herbicide treatments in the potato crop. 6327

Microsporogenesis of the bird's-foot trefoil (Lotus corniculatus L.). 6329

Results from experiments with herbicides for weed control in pea grain crops grown in Dobroudja. 6336

The effect of three fumigants on natural weed infestation in a tobacco seed bed. 6337

Weeds. 6344

Weed problems now and in the past. 6351

Chemical weed control information for North Carolina, 1969. 6357

Experiments on the use of new chemicals in weed control in maize. 6367

Influence of certain insecticides applied for the control of Ostrinia nubilalis Hbn. on the weeds of treated surfaces. 6372

The influence of increasing doses of simazine upon the rate of root and green parts growth of some weeds occuring in the winter wheat stand. 7307

Pesticide chemicals; a programmed text. TP248.P47C6. 7419

Control of undesirable vegetation. Patent 3,436,207. 6386

WEIGHTS

A criterion of transformation for age-weight data on insect larval growth. 4481

Effect of paddock size, stocking rate, anthelmintics, and trace elements on the weight gain of young cattle. 6828

WEIL'S DISEASE

Leptospirosis in Argentina. 3581

WENYONELLA PHILIPLEVINEI

Wenyonella philiplevinei, n. sp., a coccidial organism of the white Pekin duck. 3627

WESMAELIUS

A new Wesmaelius from central Asia (Neuroptera, Hemerobiidae). 4434

WEST AFRICA

Notes on the biology of ambrosia beetles of the genus Trachyostus Schedl (Coleoptera: Platypodidae) in West Africa. 3125

WEST NILE VIRUS

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus. 3552

Hemagglutination inhibiting antibodies to arboviruses in the population of Hajdu-Bihar District, Hungary. 4167

WESTERN EQUINE ENCEPHALOMYELITIS VIRUS

Isolation of western equine encephalomyelitis virus from an opossum. 1662

Survival of western equine encephalitis virus in Triatominae. 5761

Attempts to induce recombinant somatic cells in chicken erythrocyte chimaeras by repeated injection of western equine encephalomyelitis virus. 6660

WESTERN NORTH AMERICA

New species of Pheidole from Pacific Coast Islands (Hymenoptera: Formicidae). 5050

WESTERN X

The infection of leafhoppers by western x-disease virus. VI. Cytopathological interrelationships. 3310

The infection of leafhoppers by western x-disease virus. V. Properties of the infectious agent. 3422

WESTERN YELLOWS

Burning weeds in drainage ditches to suppress populations of green peach aphids and incidence of beet western yellows disease in sugarbeets. 6395

WHEAT

Triticale in 1967. 225

Physiological races of Puccinia striiformis in the wheat of Iran. 246

The effect of sowing dates on the reactions of six wheat strains to stem rust. 248

Resistance power of the Austrian winter wheat assortment against dwarf bunt (Tilletia controversa Kuhn). 264

The Hessian fly. 281

Morphological changes in wheat caused by the action of chlorcholinchloride-CCC. 524

Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein. 536

The in vitro and in vivo oxidation and hydrolysis of malathion by wheat grain esterases. (abstract). 566

Pratylenchus thornei - A cause of root necrosis in wheat. 1021

Weed seed reserves in the soil, in cereal crops. 1037

Seasonal dynamics of weeds in winter wheat culture. 1038

Wheat as a stock fodder. 1056

A note on two isolates of Rhizoctonia solani Kuhn from wheat. 1560

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Atrazine. 1794

CCC as a growth regulant of soft white winter wheat. 1813

Effect of metabolic inhibitors on systems involved in the growth of elongating cells during root formation. 1827

Morphology of the head capsule of Aelia rostrata Boh. (Hemiptera: Pentatomidae). 2051

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 2151

32P and 35S transfer from susceptible wheat to Erysiphe graminis f. sp. tritici during primary infection. 2156

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses. 2185

Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230

Control of weeds in wheat crop by 2,4-D. 2260

Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba. 2646

Effect of maleic hydrazide on wheat and barley against different rusts. 2704

The recovery of Gibberella zeae from wheat straws. 2716

The influence of herbicides on Cercosporella infection and lodging of winter wheat. 2751

Appearance of weeds and disease in grain and corn after direct drilling. 2784

Physio-chemical problems of developing dusting chemicals and seed incrusting chemicals adhering in net conditions. 2810

Ten year observations on the appearance of oat nematodes in the Rheinland-Pfalz. 2837

Investigation into the oat nematode problem. 2839

Effect of herbicides on growing wheat applied simultaneously with calcium cyanamide fertilizers. 2860

Influence of various soil properties and moisture on the action of urea derivitives on grassy weed control in winter grains. 2863

Wheat control in wheat. 2868

Tests of (2-chloroethyl)trimethylammonium chloride on varieties of hard wheat. 3050

Effects of soil fumigation on disease incidence, growth, and yield of spring wheat. 3367

Microorganisms in the rhizosphere of wheat. 3371

Effect of micronutrients on yield and their contents in wheat. 3373

Pythium root rot of wheat in Queensland soil. 3383

Damage to seeds through storage on chemically treated wood. 3637

Changes in the arthropod fauna of an experimental bulk of stored wheat. 3640

Saw-toothed grain beetle. 3641

Persistance pattern for diuron and linuron in Norfolk and Duplin sandy loam soils. 3712

Growth responses of Marquillo X Kenya Farmer wheat dwarf 1 and 2 to gibberellic acid, kinetin, and indolebutyric acid under controlled environmental conditions. 3714

Stem rust of wheat in Canterbury. 3953

Studies of Leptosphaeria avenaria f. sp. triticea on wheat in North Dakota. 3970

Lodging resistance in wheat. II. Identification of superior genetic stocks. 3977

A race of Ustilago tritici virulent on Thatcher wheat and its derivatives.
3989

Leaf rust of wheat in Canada in 1968.
3999

Field evaluation of some fungicides for control of leaf and stem rusts of wheat.
4006

The effect of low doses of gamma irradiation upon the rate of infection of plants with powdery mildew. II. A differentiated susceptibility of winter wheat zelazna variety to infection with powdery mildew (Erysiphe graminis F. tritici DC March).
4009

Aphids and virus in north Canterbury wheat, 1965-66 season.
4040

Insecticide granules and virus in autumn-sown wheat.
4041

O-isopropoxyphenol methylcarbamate. Notice of establishment of temporary tolerance for pesticide chemical.
4294

Role of potash application in reducing black rust of wheat.
4680

The effect of 3-amino-1,2,4-triazole on the ultrastructure of plastids of Triticum vulgare seedlings.
4685

Wheat.
4691

Polysome formation with tobacco mosaic virus RNA.
4708

Black stem- the second stem disease of grains.
4734

Response of mixed crop of wheat and rape to three chlorophenoxy herbicides.
4777

Bulk wheat pests can be controlled by simple precautions.
4866

Controlling insect pests in header-harvesters.
5678

Copper and manganese content in different varieties of spring and winter wheat.
5783

Results of tests of wheat varieties as to their resistance against grain diseases, carried out in the reclaimed land of the North East between 1961 and 1964.
5875

Saprophytic survival of Ophiobolus graminis on various hosts.
5889

Breeding for Septoria and Fusarium resistance in wheat.
5925

The occurrence and observation of Puccinia striiformis in the State of Washington.
5935

Wheat and stem rust - specialist advice.
5958

Controlling diseases of dwarf wheats.
5980

Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin.
5987

Notes on the appearance in France of Ophiobolus graminis, avenae variety.
5995

Chromosome location and linkage studies involving the Pm3 locus for powdery mildew resistance in wheat.
6013

Studies on the natural accumulation of loose smut infection on wheat - Ustilago tritici (Pers.) Jensen.
6020

The problems of plant disease control.
6034

Control of survival of Ophiobolus graminis between consecutive crops of winter wheat.
6072

Retention and transformation of anhydrous ammonia in soil and effects on foot rot Fusaria.
6088

Investigations on yellow rust in wheat and barley, 1962-1965.
6096

Some aspects of Fusarium infection of wheat seeds.
6107

Alternate hosts of the greenbug.
6170

Dryfarm wheat insects.
6208

DDT-C14 translocation in alfalfa.
6270

Nagal Thakaran no longer worries about weeds.
6361

Studies on stored grain fungi. Part I.--Fungi from wheat and rice from Karachi.
7026

The effect of herbicide residue in the soil on the yield of winter wheat.
7123

Insecticide residues in spring wheat plants grown in the field from seed treated with aldrin or heptachlor.
7132

Applicability of mildew-infested wheat to feeding.- Short communication.
7214

Effect of the moisture content and post-irradiation temperature on the radiosensitivity of wheat and barley seeds.
7239

The influence of increasing doses of simazine upon the rate of root and green parts growth of winter wheat.
7306

The influence of increasing doses of simazine upon the rate of root and green parts growth of some weeds occuring in the winter wheat stand.
7307

Lodging in wheat and its control by (2-chloroethyl) trimethylammonium chloride (CCC) in solid form.
7308

Effects of 2-chloroethyl-trimethylammonium chloride (CCC) on yield and lodging of wheat.
7313

The influence of CCC on disease contraction of grain.
7322

Disease resistance breeding.
7772

Thermodynamic state of the water in healthy or infected grains of wheat.
7801

WHEAT GERM
Artificial diet for cecropia and other saturniid silkworms.
5560

WHEY
The use of Brucella whey complement fixation test in a herd outbreak.
408

WHITE CLOVER
Varietal resistance to clover rot in white clover.
217

The residual contact toxicity to honey bees of insecticides sprayed on to white clover (Trifolium repens L.) in the laboratory.
1942

Effect on honey bees of dichlorvos and bromophos applied as sprays to white clover (Trifolium repens L.).
2440

Studies of peanut stunt virus on Trifolium species, especially Trifolium repens L.
2722

A parasite to destroy clover pest.
2815

WHITE MUSCLE DISEASE
Influence of sulfur on incidence of white muscle disease in lambs.
6865

WHITE ROT
Tests concerning the control of the white rot of garlic.
2739

Control of Armillaria mellea with systemic chemicals.
6018

WILDLIFE
The susceptibility of some Australian fauna to infection with foot and mouth disease virus.
1105

Eradication of cattle tick (Boophilus microplus) from Magnetic Island, Queensland, in the presence of native fauna.
1121

The secret forest.
1264

Ecological factors which determine the wild type of trichiniasis west of San Luis and east of Mendoza.
1761

Effects of pesticides on wildlife.
1783

Linognathus digitalis n. sp. (Anoplura: Linognathidae) from the Springbuck (Antidorcas marsupialis (Zimmermann)).
2497

Host-parasite relationships in Brucellosis. I. Reservoirs of infection and interhost transmissibility of the parasite.
2941

The control of Ixodid ticks--vectors of human diseases by means of alteration of their environment.
3340

Residues in fish, wildlife, and estuaries. Chlorinated pesticide levels in the Eastern oyster (Crassostrea virginica) from selected areas of the South Atlantic and Gulf of Mexico.
4875

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas.
4876

An evaluation of the effects of the Aedes aegypti eradication program on wildlife in South Florida.
4884

Use insecticides safely.
4901

Results of microbiological examination of reservoir animals in the west Slovakia region for tularemia.
6701

Investigations on the incidence of rinderpest virus infection in game animals of n. Tanganyika and s. Kenya 1960/63.
6769

Studies on the epizootiology of rinderpest in blue wildebeest and other game species of northern Tanzania and southern Kenya, 1965-7.
6840

Pesticide residues; history, alternatives and analysis.
7138

Fish and Wildlife Act of 1956 as amended; an excerpt from title 16 of the United States Code.
7420

Studies of effects of Dursban and fenthion insecticides on wildlife.
1140

The effect of low volume application of DURSBAN on non-target organisms.
1152

WILDLIFE CONSERVATION
Preventing fish and wildlife losses.
3671

WILDLIFE DISEASES
Experimental plantings of brook trout (Salvelinus fontinalis) from furunculosis-infected stock.
1688

History and epidemiology of rabies in wildlife in New York. 2293
Control of rabies in wildlife in New York. 2329
Fish (including other marine animald). In: Diseases of man acquired from his pets. 3518
On the effect of Sevin on sexual functions of warm-blooded animals. 6439
Rabies, disease of today. Its new etiological and epidemiological aspects. 6519
More abstracts of papers presented at the 1967 Annual Wildlife Disease Conference Urbana, Illinois June 15-16, 1967. 6533
Four cases of systemic mycosis in cervids. 6577
Staphylococcus epizootic in western Oregon cottontails. 6712
Detection of complement fixing antibody to the agents of tick typhus fever of northern Asia and Q fever in wild animals of the extreme north of western Siberia. 6810
A survey of diseases in fallow, Virginia and Japanese deer, chamois, tahr, and feral goats and pigs in New Zealand. 7875

WILDLIFE PESTS
Birds and plant protection-a reply. 2700
Rodents. In: Diseases of man acquired from his pets. 3516

WILT
Verticillium wilt in the tomato cultures of the Valais. 231
Control of race 2 Fusarium of tomatoes. 237
Atkinson, a rootknot and Fusarium wilt resistant tomato variety of the Rutgers class. 1545
Varietal resistance of eggplant to Verticillium wilt. 1562
Record of Verticillium wilt of cotton in Madras state. 1576
Varietal resistance of cotton to Fusarium wilt. 1585
Ontogeny of vessels influence the development of Verticillium in young cotton plants. 2166
Purification and properties of broad bean wilt virus. 2189
Distribution of Verticillium wilt in cotton-growing areas of the United States. 2727
Cylindrocladium scoparium on azalea in south Florida. 2728
Protein-lipid-polysaccharide complex from the culture and mycelium of the fungus Verticillium dahliae Kleb, the causative agent of verticilliaceous wilt of cotton. 2758
Control of branch wilt disease of grapes. 2766
Purification and properties of broad bean wilt virus. 2792
The dynamics of actinomyces-antagonists development of Verticillium dahliae of cotton. 3354
Resistance of dwarf-internode castor (Ricinus communis) to Verticillium wilt. 3946
Fusarium wilt (race 2) of tomato: Calcium, pH, and micronutrient effects on disease development. 3974
Development of a new variety of tomato named Miguel pereira, with resistance to both Fusarium and Verticillium wilts. 3997
Investigations on cotton wilt in Western Turkey. 4252
Physiological studies on incitants of guava wilt Fusarium solani (Mart.) App. and Wr. emend Snyder and Hansen and Macrophomina phaseoli (Maubl.) Ashby. 4688
Methyl bromide, Trizone and Telone PBC compared in the control of fusarium wilt of the greenhouse tomato. 4716
Fusarium foot rot of kenaf (Hibiscus Iannabinus L.) in Iran. 4723
Diseases and pests of coconut in Kerala. 5814
Arsenal for disease control. 5864
The occurrence of wilt in watermelon in the state of Sao Paulo. 5901
Verticillium wilt of groundnut in Israel: Screening for varietal resistance. 5931
Studies with two systemic fungicides, benlate and thiabendazole. 5962
Betel's wilt disease can be kept under control. 6025
Sorbic acid as an inhibitor of the Fusarinm vasinfectum fungus, which induces wilt in the cotton plant. 6030
Diseases of pulses pose a challenge to plant pathologists, breeders. 6047
Fusariosis of the legume crops in Lithuania. 3. Main forms of lupine fusariosis and its distribution. 6065
Considerations on the resistance of varieties of tomatoes to Fusarium wilt . 6080
Scientists find the cause of the bean wilt disease. 6147

WILT (COCONUTS)
A note on the anatomical derangement in the root tissue of root (wilt) diseased coconut palm. 5383

WILT (TOMATOES)
Role of root knot nematode in breaking resistance to Fusarium wilt in tomato. 3359

WIND
Insect migration and air currents. (abstract). 870
The soybean cyst nematode threat. 1621
Wind dispersal of Puccinia horiana. 2196
Effect of climatic factors on the susceptibility of insects to insecticdes. 6251

WIND DISPERSAL
The outbreak of foot-and-mouth disease in Worcestershire. An epidemiological study: With special reference to spread of the disease by wind-carriage of the virus. 2915

WINDBREAKS
Herbicides in plant protection. 2864
Synecological studies of soil macroentomofauna in two different agricultural biotopes. 5332
Faunal and zoocenological analysis of the soil insect communities in the ecosystem of shelterbelt and field. 5333

WINE
Possible toxic effects of accessory substances of pesticide products. 3043

WINGS (INSECTS)
The control of polymorphism in aphids. 115
Correlations between characters in species of Colias (Lepidoptera: Pieridae). 625
The influence of wing-dimorphism on the distribution of Curculionidae. 890
The nervous control of insect flight and related behavior. 1491
Homeotic wing structure in the loboid-allele ophthalmoptera (ldoph) in Drosophila melanogaster. 1508
Wing micro-sculpturing in termite genera Odontotermes, Hypotermes and Microtermes (Termitidae: Macrotermitinae) and its taxonomic value. 1906
Structures of unknown, possibly stridulatory, function of the wings and body of Neuroptera; with an appendix on other endopterygote orders. 2034
Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060
Genotypes and environment in the determination of the ground- and winged forms of aphids. 2554
The determining factors in the appearance of winged forms among aphids. 3268
Structure and development of the imaginal wing discs of larva in a holometabolous insect, Bombyx mori (Lepidoptera, Bombycidae). 3806
Hereditary nature of the two forms of Argyrogramma albostriata (Bremer and Grey) (Noctuidae, Plusiinae). 3898
Some biometrics in Pieris and Colias (Lepidoptera: Pieridae) in Quebec and Nova Scotia. 4502
The role of the exuvial fluid swallowed before emergence, in the expansion of the wings of Bombyx mori L.. 4572
Prothetely in Carabidae of the genus Pterostichus. 4577
Barriers to gene flow in natural populations of grasshoppers. I. The Black Canyon of the Gunnison River and Arphia conspersa. 4650
The wing mechanism involved in the courtship of Drosophila. 5219
Reduction of flight organs in some cryptobrachypterous Lygaeidae (Hem., Het., Lygaeidae). 5398
Wing reduction in endemic Hawaiian psocids. 5643
Environmental and genetic variations of wing size, cell size and cell division rate, in Drosophila melanogaster. 5700
Evolution of wing reduction in crane flies (Diptera: Tipulidae). 7584
The metabolism of nucleic acids in the wing buds of Pieris brassicae (L.) (Lepidoptera, Pieridae). 7637

Experiments with the measurement of the intensity of the wing beat resonance of the mosquito, Culex pipiens.
7664

WOOD
Annotated list of insects infesting bark and wood of Fraser fir.
2200

The action of calcium cyanamide on the development of some basidiomycetes of wood.
5941

WOOD BORERS
Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion.
4754

Estimation of marine-borer attack on wooden surfaces.
7046

WOOD DECAY
Decay of rubber wood in a replanting and its effect on root disease.
245

Survey of decay and stain in sugar maple in the Maritimes.
957

Isolation of microorganisms from preservative-treated wood.
1546

Preservative treatments and service life of fence posts in Puerto Rico.
4658

WOOD DESTROYING FUNGI
Survey of decay and stain in sugar maple in the Maritimes.
957

The death and decay of trees.
985

The physiology, inter-relationships and effects on the wood of fungi which attack birch and aspen pulpwood.
1567

Comandra rust damage to ponderosa pine in Oregon and Washington.
2104

On the sensitiveness of several wood-decaying fungi to gaseous sterilization with propylene oxide.
2449

WOOD DURABILITY
Fence posts used to evaluate preservatives.
938

Natural durability of some woods used in Hawaii; preliminary findings.
5843

WOOD PROPERTIES
Preservative treatments and service life of fence posts in Puerto Rico.
4658

WOOD-DESTROYING INSECTS
Forest insect and disease survey.
939

Wood-and-bark-feeding Coleoptera of felled spruce in interior British Columbia.
4425

Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion.
4754

WOODEN PILES
Timber. Tetrameles nudiflora R., resistant to teredid borers in Bombay harbour.
198

WOODPECKERS
Are woodpeckers the answer to pine bark beetle attacks.
4450

WOOL
Gains from worm drenching ewe hoggets in South Canterbury.
445

Animal science.
6442

WOOL FAT
Investigation of sheep dips. 3. The influence of breed on stripping and deposition in the fleece of diazinon.
7124

WORKMEN'S COMPENSATION INSURANCE
Ain't nuthin' as good as it used to be .
3730

WORLD AGRICULTURAL SITUATION
Weed problems in developing countries.
3472

X-RAY DIFFRACTION
An X-ray diffraction study of a tobacco mosiac virus mutant.
5861

X-RAYS
Preliminary laboratory study on the effects of X rays on the fertility of the apple moth (Laspeyresia pomonella L.).
86

The chitin/protein complexes of insect cuticles.
144

The development of the serosa in male embryos of the mealy bug, Pseudococcus obscurus Essig.
181

Contribution to the study of the protection of domestic rabbit against total irradiation by gamma radiation.
407

Studies on the chromatin isolated from the organs of animals received whole-body x-ray irradiation.
423

Effect of ecdysone on the puparium formation in irradiated Ephestia kuhniella Z.
532

Note on aflatoxin M,: Optical and X-ray crystallographic data.
560

Developmental effects of X-rays on embryos of Drosophila melanogaster.
809

The effects of sodium fluoride and iodoacetamide on mutation induction by X-irradiation in mature spermatozoa of Drosophila.
851

Fine structure analysis of a chromosome segment in Drosophila melanogaster. Analysis of X-ray-induced lethals.
925

Repair of dominant lethal damage induced by X-rays in immature oocytes of Drosophila melanogaster.
930

On the release of a primary oncogenic substance from the tissues of tobacco crown gall by X-rays.
1557

Selection methods for pathogenic forms of microorganisms.
1956

Failure of oral Escherichia coli endotoxin to induce either specific tolerance or toxic symptoms in rats.
2280

Effects of whole-body irradiation on baby pigs (Sus scrofa).
2283

Experiences with the house fly, sterilized by X rays.
2649

Selection methods for pathogenic forms of microorganisms.
3196

Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen.
3213

Studies on the biology of Rhyssa persuasoria (L.) (Hymenoptera: Ichneumonidae) incorporating an X-ray technique.
3219

The contribution of Italy to research concerning the use of nuclear energy in insect control.
3246

A new induced transplantable rat mammary carcinoma.
3543

Susceptibility of irradiated insects to Bacillus thuringiensis infection.
4519

X-ray analysis of hyphal and sclerotial walls of Sclerotium rolfsii Sacc.
5059

The mutagenic effect of 600 MeV protons in Drosophila melanogaster.
5717

Relationships of X-irradiation to the enhancement of Candida albicans infections.
6599

The effects of X-rays on the chromosomes of locust embryos. III. The chromatid aberration types.
7731

The effects of X-rays on the chromosomes of locust embryos. IV. Dose-response and variation in sensitivity of the cell cycle for the induction of chromatid aberrations.
7732

On the X-ray diagnostics of intestinal helminthiases of poultry.
7939

Syngeneic marrow graft: Effect on persistence of preirradiation immunity to Hymenolepis nana in mice.
7940

XANTHIC ACID COMPOUNDS
Studies on the biocidal activity of cyanomethyl xanthates.
1837

XANTHINE DEHYDROGENASE
Studies on the genetic and environment regulation of xanthine dehydrogenase and its genetically related enzymes in Drosophila melanogaster.
2075

Effects of the inhibitor of xanthine dehydrogenase, 4-hydroxypyrazolo(3,4 d)pyrimidine (or HHP) on the red eye pigments of Drosophila melanogaster.
5232

XANTHIUM ORIENTALE
Proclaimed noxious weeds.
6313

XANTHOMONAS
Bacteriophage reactions and pathogenic spectra of Xanthomonas species to cotton.
2135

DNA base composition and hybridization in the taxonomy of phytopathogenic bacteria.
2729

Eradicating citrus canker from New Zealand.
2732

A day of study on the Pelargonium.
2761

Citrus cancroid.
3356

Host range of Xanthomonas oryzae in the Philippines.
4689

Bacterial blight disease of Cynodon dactylon pers..
5912

Bacterial spot of ivy caused by Xanthomonas hederae (Arnaud, 1920) Dowson, 1939, in New Zealand.
7778

Pectolytic activity of phytopathogenic xanthomonads.
7808

XANTHOMONAS MALVACEARUM
Variation in the host-parasite relationship of a crop disease.
218

Bacterial blight of cotton in the Ord River.
3368

Detectable levels of Xanthomonas malvacearu in cotton gin debris with the seed-soak method.
4002

Bacterial blight elmiminated from California gins.
4724

XANTHOMONAS ORYZAE
Oryzoxymycin, a new antibiotic.
371

Epidemiology and prevention of bacterial blight disease of rice in India.
2183

A preliminary study on the variability of Xanthomonas oryzae on some rice varieties.
2730

Screening rice varieties for resistance to bacterial blight.
6093

XANTHOMONAS PHASEOLI
Necrosis in leaves induced by volatile materials produced in vitro by bacteria.
2725

XANTHOMONAS VESICATORIA
Necrosis in leaves induced by volatile materials produced in vitro by bacteria.
2725

Bacterial leaf spot of chillies in Kerala State.
4719

XANTHOPHYLL
Effect of simazine on the photosynthetic pigments of green algae.
1821

XANTHOPIMPLA
The neotropic species of Xanthopimpla (Hymenoptera: Ichneumonidae).
3782

XANTHURENIC ACID
On the behavior of xanthurenic acid in rabbits treated with massive doses of pyridoxine.
7203

XENOPSYLLA
Comparative morphology of the larvae of certain genera of fleas (Aphaniptera).
2598

A note on the feeding mechanism of two fleas.
5283

XENOPSYLLA CHEOPIS
A simple method for measuring the motor activity of fleas (Xenopsylla cheopid Roth.).
3285

A note on the feeding mechanism of two fleas.
5283

Effect of differences in ambient temperature upon the fate of Pasteurella pestis in Xenopsylla cheopis.
6894

XENOPSYLLA CHEOPSIS
Experimental transmission of plague by Synopsyllus fonquerniei of Madagascar.
4800

XIPHINEMA
Reduction in mortality of peach trees following preplant soil fumigation.
2103

XIPHINEMA AMERICANUM
Systemic pesticides for control of sting and stub-by-root nematodes on vegetables.
2239

XYLEBORUS
The distribution and host-range of the Shot-hole Borer (Xyleborus fornicatus Eichh.) of tea.
5278

XYLEBORUS AFFINIS
Observations on blue-stain and pin-hole beetles and their control, in unpeeled logs of Pings caribaea in trinidad.
207

XYLEM
Ontogeny of vessels influence the development of Verticillium in young cotton plants.
2166

Nitrogenous compounds in the xylem sap of American elms with Dutch elm disease.
6083

XYLORYCTES JAMAICENSIS
The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles.
5456

Diseases and pests of coconut in Kerala.
5814

XYSTICUS POSTI
Two new species of crab spiders (Araneae: Thomisidae) from North Dakota.
700

YAMS
Cultivation of the sapogenin-bearing Dioscorea species.
4664

Tropical nematology.
6305

YEAST CULTURES
Nutritional behavior of Trogoderma granarium Everts (Coleoptera: Dermestidae) on leguminous seeds.
5230

YEAST SPOT
Isolation of the organism causing yeast-spot disease from the salivary system of the green stink bug.
6176

YEASTS
Mastitis prevention and control.
416

The present state of the knowledge concerning the influence of fungicides on the fermentation of grape juices.
1145

On the behavior of pesticide residues during the preparation and processing of foods. 1st. Communication. The behavior of radioactive labelled lindane during the baking process.
1150

The effect of different fungicides on the yeast flora during the treatment of grape vines.
4329

The toxic action of Bacillus thuringiensis exotoxin on Drosophila reared in yeast-containing and yeast-free media.
5221

Yeasts and yeast-like fungi in the genital organs of cows and heifers. V. Genital candidiasis and abortions caused by yeasts belonging to the genera Candida, Trichosporon and Saccharomyces.
6608

Antifungal action of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract).
7175

YELLOW DWARF
The effect of aphid numbers and stage of plant growth in determining tolerance to barley yellow dwarf virus in cereals.
2179

Barley yellow dwarf virus.
2767

Additional sources of resistance to the barley yellow dwarf virus in barley.
3406

Avoid yellow dwarf virus by late sowing.
3981

Aphids and virus in north Canterbury wheat, 1965-66 season.
4040

Insecticide granules and virus in autumn-sown wheat.
4041

Pessimism over crop diseases.
4679

The present status of virus diseases of rice in Ceylon.
5858

Dwarf, yellow dwarf, stripe, and black-streaked dwarf diseases of rice.
5968

Varietal resistance to stripe, dwarf, yellow dwarf, and black-streaked dwarf.
6064

Genetics of and breeding for resistance to rice virus diseases.
6111

Virus diseases of rice in Thailand.
6125

The effect of the barley yellow dwarf virus disease on barley and oats in the Western Cape.
7816

Some observations on tobacco yellow dwarf control.
6033

YELLOW EDGE
Studies on virus diseases of strawberries in the western Cape Province. II. The latent period of mild yellowedge and crinkle viruses in the vector Chaetosiphon fragaefolii (Ckll.).
2734

YELLOW FEVER
Gross variations in the response to man among yellow-fever mosquito populations in the laboratory.
2098

Studies on yellow fever in Ethiopia. 6. Epidemiological study.
2690

YELLOW MOSAIC
Studies on resistance to yellow mosaic in barley. II. Comparison of varietal reactions to the viruses of different sources and relation between disease symptom and damage.
6103

YELLOW MOSAIC VIRUS
Changes of plastids which arise under the influence of turnip yellow mosaic virus.
6016

YELLOW TOP
Tomato yellow top.
3395

YELLOWS
Preference of green peach aphids for virus-infected sugarbeet leaves.
2224

Inactivation of lettuce necrotic yellows virus by chelating agents.
3355

Structure of lettuce necrotic yellows virus. II. Electron microscopic studies on the effect of pH of phosphotungstic acid stain on the morphology of the virus.
3424

The viruses of the black and red currant.
4705

Relation of beet yellows virus to the phloem and to movement in the sieve tube.
5923

Transitory yellowing of rice in Taiwan.
6097

Investigations on certain virus diseases on pear tree in Bulgaria.
6112

Leafhopper transmission of transitory yellowing of rice.
6167

Controlling peach yellows in a peach breeding program.
6232

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production.
7315

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients.
7316

YOLK SAC
Cellular and extracellular activities implementing selective assimilation of yolk proteins by Cecropia oocytes.
1919

Demonstration of the synthesis of a yolk protein under the influence of the corpora allata in Leucophaea maderae.
2046

Pinocytosis during vitellogenesis in the mealworm, Tenebrio molitor L. (Coleoptera, Tenebrionidae).
3789

ZANCLOGNATHA TENUIALIS
Some interesting Noctuidae finds from the Tessin. 1908
Zanclognatha tenuialis Rebel in France (in Alsace and L'Isere). (Lep. Noctuidae, Hypeninae). 4376

ZEARALENONE
Biosynthesis of an estrogenic metabolite by Fusarium graminearum. (Abstract). 3696
Screening method for zearalenone, aflatoxin, and ochratoxin. 4928

ZEBRA DISEASE
Investigations on chemical control of zebra disease in Agave hybrid no. 11648. 6036

ZEBU CATTLE
Liver-fluke in Madagascar. Biological cycle of Fasciola gigantica. 2361
Susceptibility of European Zebu crossbred cattle to lapinsed rinderpest vaccine. 6484
Trypanotolerant cattle, Breeding in Central African Republic. 6550

ZECTRAN
The effects of IPC, CIPC, Sevin and Zectran on Bacillus subtilis. 2132
Carbamate and phosphate resistance in adult granary weevils. 5716

ZEIRAPHERA DINIANA
Influence of mating, insemination, and other factors on oogenesis and oviposition in the moth Zeiraphera diniana. 3169
Aspects of virus multiplification and average reduplication time for a granulosis virus of Zeiraphera diniana (Guenee). 4456
The influence of light and temperature variations on the behavior and fecundity of the larch-bud moth Zeiraphera diniana (Gn.) (Lepidoptera: Tortricidae). 5467

ZETHES PEPLARIA
Conodontis peplaria Geyer, a noctuid, not a geometrid (Lepidoptera). 3762

ZEUZERA PYRINA
Biology and control of leopard moth on pear trees in the United Arab Republic. 5294

ZIERIA ARBORESCENS
Zieria arborescens (stinkwood) intoxication in cattle. 7188

ZINC
The status of some micronutrients in healthy Robusta banana plants. 544
Toxicological problems of dinitro-ortho-cresol with particular consideration of its quantitative detection in biological material. 1154
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Coordination product of zinc ion and maneb. 2406
Crop response to applied zinc in ammoniated phosphate fertilizers. 2455
Zinc toxicity and vitamin D for chicks. (Abstract). 4314
Effects of chronic exposure to zinc on toxicity of a mixture of detergent and zinc. 4894
Zinc deficiency may limit maize yields. 6075
Recent trends in disease control in coffee. 6099
Identifying manganese deficiency in avocado trees. 6124
Effect of a soluble fraction of oil seed meals on uptake of 65Zn from ca.mg.65Zn.phytate complexes by the chick'. 6690
Influence of magnesium and zinc fertilizing on the yield, quality as well as health of hops. 7266

ZINC BACITRACIN
Copper sulphate and antibiotics as feed additives for early weaned pigs. 1684
Effects of dimetridazole and antibiotics on growth and reproduction in turkeys. 6415

ZINC ISOTOPES
Influence of various chelating agents on absorption of 60Co, 59Fe, 54Mn, and 65Zn by chickens. 4105
Effect of prolonged infection by intestinal coccidia upon zinc-65 and oleic acid absorption in broilers. (Abstract). 4250

ZINC PHOSPHIDE
Note on the evaluation of the efficacy of rodenticides. 7044

ZINC PROPYLENEBIS(DITHIOCARBAMATE)
Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables. 5899

ZINC SULFATE
Changes in insecticide sensitivity in the bean weevil Acanthoscelides obtectus Say, brought about by induced pigment formation. 3867

ZINC SULPHATE
Khaira disease of rice and its control. 6028
Zinc deficiency may limit maize yields. 6075
The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections. 7297

ZINEB
Late blight disease on potatoes and its control. 959
The present state of the knowledge concerning the influence of fungicides on the fermentation of grape juices. 1145
Downy mildew of stocks. 2741
Absorbtion and degradation of zineb. 3068
Lemon scab (Sphaceloma fawcettii scabiosa). 3394
Tobacco blue mould (Peronospora tabacina Adam) in north Queensland. 3. Fungicide screening and efficacy experiments. 3404
Diseases and parasites of the rose. 3956
Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables. 5899
Potato early blight and storage rot. 5911
Controlling diseases of dwarf wheats. 5980
Lemon scab (Sphaceloma fawcettii scabiosa). 6029
Ergot disease of bajra--its symptoms and control. 6100
Recent developments in the detection and determination of pesticides and their residues by oscillographic polarography. 8003
Tomato leaf mould: Its assessment and effects on yield. 6089

ZIRAM
Late blight disease on potatoes and its control. 959
Determination of sec-Butylamine residues in fruit. 1144
Ergot disease of bajra--its symptoms and control. 6100
Recent developments in the detection and determination of pesticides and their residues by oscillographic polarography. 8003

ZIRCONIUM COMPOUNDS
Zirconium compounds as algaecides. Patent 3,446,656. 7336

ZONOSEMATA ELECTA
Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae). 2573
The importance of Solanum carolinense L. as a host of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae) in southwestern Ontario. 2574

ZOO ANIMALS
Investigations on Coccidia in zoo ruminants. 4195

ZOOGEOGRAPHY
The Nemouridae of Assam (Plectopera). 7
Contribution to the knowledge of the lepidoptera fauna of Iran. 8
Sometimes old collections contain surprises. (Noctuidae). 10
Some interesting Rhopalocera of Eastern Spain. 13
Listing of the trifid Noctuidae of France and Belgium. 16
Notes on the fauna of the Armoricaine Mountains. 20
Notes on the fauna of the Armoricaine Mountains. 21
Sialis nigripes Pictet,Raphidia (Agulla) aloysiana Costa and Inocellia keiseri Aspoeck, new for Switzerland. (Neuroptera s.l.). 22
Preliminary report on the distribution in Switzerland of Boreus hiemalis L. and Boreus westwoodi Hag (Mecoptera, Boreidae). 23
Original descriptions, synonyms and geographical distribution of the species of the Syrphidae (Diptera) family in chile. 24
Furthur descriptions of Halictophagbus pontifex Fox and H. regina Fox (Strepsiptera: Halictophagidae) from Uganda. 25
African termites of the genus Schedorhinotermes (Isoptera: Rhinotermitidae) and associated termitophiles (Lepidoptera Tineidae). 28
Four new species and a new genus of Coccidae (Homoptera: Coccoidea) from Africa. 32
Apamea pabulatricula Brahm in Belgium. (Noctuidae). 36
Hunting at night at Losheimergraben. 37

New species for the Belgian fauna. 39

The Diptera described by W. J. Rainbow from Funafuti Atoll, Ellice Islands. 43

A new Japanese species of Atherigona Rond. (Diptera: Muscidae) reared from sugar-cane. 44

New species of palearctic Torymidae (Hym. Torymidae). 49

The biology and ecology of the Rhyparochrominae of New England (Heteroptera: Lygaeidae). I. 50

On the genus Dejanira Thomson (Col. Cerambycidae Cerambycinae). 53

Biological notes on eye-frequenting moths from North Thailand. 71

Biting cycles and parity of the mosquito Mansonia (Mansonioides) uniformis (Theo.) in Ceylon. 146

A model of the plant-to-plant movement of aphids. I. Description of the model. 153

Sampling pests and diseases of tea. II. 254

Eelworms in tea: Some problems. 295

Lanjan virus, a new agent isolated from Dermacentor auratus in Malaya. 437

A new genus (Neostereopalpus) of the Eurygeniini (Coleoptera: Anthicidae) from Japan. 586

Systematic and faunistic description of the cockchafer Melolontha melolontha (vulgaris F.) in Switzerland. 591

Records and descriptions of African Encyrtidae--4 (Hymenoptera: Chalcidoidea). 592

Notes on two Coenonympha of the Paris basin. (Lepidoptera Nymphalidae Satyrinae). 594

Carabus (Procrustes) mulsantianus Mor. n. nurdagensis nov. 596

Darkling beetles of the genus Epitrichia Gebler (Coleoptera, Tenebrionidae). 597

List of the nocturnal Trifids of France and Belgium. 599

The Dermaptera of Venezuela. 600

Notes on the fauna of the Armorique mountains. 604

The genus Ischnothyreus (Araneae, Oonopidae) in Central America and the West Indies. 605

The discovery of a new Damaster from Formosa (Coleoptera, Carabidae). 606

Water mites of the genus Stygomomonia in North America (Acarina: Momoniidae). 608

New species and records of Hesperiidae from Mexico (Lepidoptera). 622

A new pine bark beetle in Germany, Gnathotrichus materiarius Fitch. 623

A new click beetle of the genus Agriotes Esch. (Coleoptera, Elateridae) from Soviet Central Asia. 626

Notes on Helconini (Ichneumonoidea, Braconidae, Helconinae).Part I. 629

On the orthopterous fauna in the south of the Krasnoyarsk Territory. 632

Conclusion of a revision of Aphanocephalus (Coleoptera, Discolomidae). 635

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera). 638

Gampsocleis glabra (Herbst) and Homorocoryphus nitidulus (Scopoli), two faunistically noteworthy grasshoppers in the Fischa-Wiese Nature Preserve near Gramatneusiedel, Lower Austria. (Orthopteroidea, Saltatoria). 639

A revision of the termitophilous tribe Termitodiscini (Coleoptera: Staphylindae). Part I. The genus Termitodiscus Nasmann; its systematics, phylogeny, and behavior. 647

Review of the parasitic Diptera of the genus Eriothrix Meigen (Diptera, Tachinidae) in the USSR. 650

Mysmena jobi n. sp., a Symphytognathide in middle Europe (Arachnida, Araneae, Symphytognathidae). 652

Entomological tour of Spain. 653

Tingidae from Korea (Heteroptera). 654

New psyllids (Homoptera, Psylloidea) from the far east of the USSR. 658

Notes on two species of Machimus Lw. in northern Europe (Diptera, Asilidae). 659

Hemiptera of the Stat e Preserve of Westhoek. Pentatomoidea. 662

A preliminary list of Tachinidae (Diptera) from Japan. 664

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 3. Subfamilies Ophioninae, Cremastinae and Ichneumoninae. 668

A key to ichneumonid parasites of rice stem borers in Asia (Hymenoptera: Ichneumonidae). 669

Chloropid flies of the genus Dicraeus Lw. (Diptera, Chloropidae). 673

Calliphora subalpina (Ringdahl) new for Denmark and other species of Calliphora (Diptera: Calliphoridae) found on the stinkhorn (Phallus impudicus). 674

On the syrphid larvae attacking the aphids in Japan (Diptera). 677

New species of horse flies (Diptera, Tabanidae) from Palaearctica. 678

Neuquenaphis papillata, a new Nothofagus-infesting aphid from Chile, with a review of related species from South America (Homoptera: Aphididae). 691

A new species of Iziphya from Ontario and Quebec, with a review of the nearctic species (Homoptera: Aphididae). 692

Calaphis manitobensis, a new aphid collected on Betula pumila in Manitoba (Homoptera: Aphididae). 693

A new genus of parasitic tachinid flies (Diptera, Tachinidae) from Soviet Central Asia. 694

Palearctic species of the genus Sphenometopa Townsend (Diptera, Sarcophagidae). 696

Distribution of seed beetles (Coleoptera, Bruchidae) in the forest-steppe zone of the eastern Ukraine. 698

Two new species of crab spiders (Araneae: Thomisidae) from North Dakota. 700

On the synonyms of the bark beetles XVI. 242. Contribution to the morphology and taxonomy of the Scolytoidea. 701

Two new Chlorops Mg. (Diptera, Chloropidae) from Kazakhstan. 704

The butterfly fauna of Pian San Giacomo, Misox, Graubunden (A contribution to the Lepideptora fauna of Switzerland). 707

The Orthoptera of Alaska, Yukon and the MacKenzie district of the Northwest territories. 715

The genus Alloeonotus Fieber, 1878 (Heteroptera, Miridae). 722

The subgenus Compsocerocoris Reuter, 1876 the genus Phytocoris Fallen (Heteroptera, Miridae). 723

The British Teratocoris Fieber 1858 (Hem., Miridae) including T. elegans sp. nov.. 724

Observations on the insect life of Czechoslovakia; together with some notes on other fauna and flora. 726

Notes on Sciomyzidae collected in paddy field (Diptera), I. 727

Polyphylla Harris in America, north of Mexico. I. The diffracta complex (Coleoptera: Scarabaeidae: Malolonthinae). 730

Some new or little known species of non-gall making Cecidomyiidae from Hiko-San (Diptera). 731

New species of Bombyliidae (Diptera) from Palaearctica. 732

A tabular summary of the species of the fringe-winged insect genus Dendrothrips Uzel 1895.(Thysanoptera; Thripidae). 733

Ecological notes on some Anthophagus species in Britain and northern Norway (Coleoptera, Staphylinidae). 774

Ecology and biogeography of high altitude insects. 841

Wireworms (Coleoptera, Elateridae) of the Smolensk region, their distribution and incidence in different soil types. 855

The influence of wing-dimorphism on the distribution of Curculionidae. 890

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 891

Some interesting forms of Lepidoptera and souvenirs of the chase. 904

The genus Typopsilopa Cresson in the Western Hemisphere (Diptera: Ephydridae). 911

The parasite complex of the European and North-American pine roller moth (Choristoneura spp., Lep. Tortricidae), from a bio-geographical point of view. 918

Ecological studies on the green peach aphid, Myzus persiche (Sulzer) and the cabbage aphid, ZOOGEOGRAPHY

Brevicoryne brassicae (Linnaeus) in Japan, with special reference to their biological control. 1015

Dwarfmistletoe on Brewer spruce in Oregon. 1028

Black flies (Diptera, Simulidae) of Vologda region and their control. 1119

Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer. 1125

Bibliography of the faunistic literature on microlepidoptera for the area of the German Democratic Republic. II. 1203

Description of a new genus of Lasiocampidae and of its holotype. (Lep. Lasioc. Gonometinae). 1207

Middle German leaf miner finds. Part 2. 1208

New taxonomic position of an African chrysomelide. (Col.). 1215

Annotated listing of works on Lepidoptera. 1221

Noctuidae (Lep.). Description of 26 new palearctic species of Noctuidae Trifinae and of a new sub-genus of the subfamily Apatelinae. Contribution no. 160 to the study of Noctuidae Trifinae. 1222

Short notes on Coleoptera VIII. 1223

The revision of the tribe Chalepini of America north of Mexico. II. Genus Chalepus Thunberg (Coleoptera, Chrysomelidae). 1225

Description of Leptothorax monjauzei n. sp. from Algeria. (Hym. Formicidae Myrmicinae). 1226

Contribution to the knowledge of the Palearctic Tineids (Lepidoptera, Tineidae). 1227

A new locality record for Ixodes woodi Bishopp (Acarina: Ixodidae). 1232

Microlepidoptera of the Philippine Islands. 1239

Three new species of phytosciid mites from Western Sudan (Acarina: Phytosciidae). 1242

Supplement to the knowledge of the Cyclocephalids (Col., Dynastinae). 1243

Revision of the Epitgini (Col., Tenebridnidae). Part I. 1246

Bibliography of the faunistic literature on microlepidoptera for the area of the German Democratic Republic. I. 1248

A revision of the ground beetles belonging to Scaphinotus, subgenus Brennus (Coleoptera, Carabidae). 1253

Diptera: Empididae, Acalyptratae families and Scatophagidae. 1260

Notes on the arthropod fauna of Spitsbergen II. 9. Mallophaga from Spitsbergen and Bear Island. 1261

Bibionidae (Diptera) of New Guinea. 1262

Discolomidae in museums of Amsterdam. 1269

Hoverflies (Dipt., Syrphidae) from Spitsbergen. 1271

Notes on the Odonata of the Netherlands. Crocothemis erythraea (Brulli, 1832) in the Netherlands (Libellulidae, Sympetrinae). 1273

The systematic position of Orthophrys mexicanum Van Duzee (Hemiptera Heteroptera: Saldidae). 1282

Oligia fasciuncula hispaniea, subsp. nov. (Lep., Noctuidae). 1285

Further records of New Jersey aphids (Homoptera: Aphididae). 1286

The genera Athlia Erichson (Col. Scarabaeidae, Sericinae). 1295

The genus Inopus (0Metoponia, Altermetoponia) (Diptera: Stratiomyiade). 1302

New species of horse flies (Diptera, Tabanidae) from palaearctica. 1306

Calameuta filiformis (Eversm.) a forgotten straw wasp (Hym., Cephid.). 1307

Rare or little known coleophores (Lep. Coleophoridae). 1308

A new synonymy in Hybomitra (Diptera: Tabanidae). 1309

The Aradidae of New Zealand (Hemiptera, Heteroptera). III--THE Aradinae and Calisiinae. 1310

New and mistaken Aphodiinae from all over the world (Col., Scarab.). Part V. 1311

Genera and species of the Dermaptera. 6. Labidurinae, Apachyinae and Allostethinae (Labiduridae). 1314

Coleoptera from northeast Africa. Staphylinidae. (50. Contribution to the knowledge of the Steninae). 1315

Concerning Stenus-type Boheman, including notes on synonymies. Coleoptera, Staphylinidae. 1316

Snellenius in the Neotropical region (Hymenoptera: Braconidae: Microgasterini). 1325

A review of Hadrurus scorpions (Vejovidae). 1328

Nasonovia vannesii n. sp. (Homoptera, Aphididae) on Ribes x cultorum. 1329

A new mosquito record for the United States (Diptera: Culicidae). 1330

Gyrophaena keeni Casey and G. orientalis A. Str. (Col., Staphylinidae). 1332

Studies on Norwegian aphids (Hom., Aphidoidea) I. The subfamily Dactynotinae Borner. 1337

Muscidae (Dipt.) of Spitsbergen. 1338

Distributional notes on Metamasius (Coleoptera: Curculionidae). 1339

Preliminary key for the identification of the nymphs of North European Homoptera Cicadina. I. Delphacidae. 1340

Megeremaeidae, a new family of oribatid mites (Acari: Cryptostigmata). 1345

The effect of day length on geographical races of Pectinophora gossypiella (Saund.) (Lepidoptera, Gelechiidae). 1356

Studies on some land snails injurious to agriculture in U.A.R. 1363

A contribution to the study of the Mediterranean Rhizopulvinariae. (Hom. Coccidae). 1370

A preliminary report of Plusia festata Graeser (Lep., Noctuidae). 1373

Studies on free colonies of Cryptocerus texanus Santschi (Hymenoptera: Formicidae). 1378

Some new information on the Bostrychidae of Africa. 1381

Tetranychus lintearius Dufour, 1832, is a valid species (Acar.) Notulae ad Tetranychidas II. 1388

Further contributions to the knowledge of the distribution and ecology of beetles in central south Norway. 1391

Studies on the fauna of mayflies (Ephemeroptera) in the environs of Cracow. 1398

Further studies on the internal anatomy of the Meloidae. III. The digestive and reproductive systems as bases for tribal designation of Pseudomeloe miniaceomaculata (Blanchard) (Coleoptera: Meloidae). 1403

Oviparous morphs of Lipaphis erysimi (Kaltenbach) in India (Homoptera: Aphididae). 1446

Mode of life and difficulties in the rearing of Scopula umbelaria Hbn. (Lep. Geom.). 1487

Barriers to gene flow in natural populations of grasshoppers. I. The Black Canyon of the Gunnison River and Arphia conspersa. 1523

Forest tree and timber insect pests in the territory of Papua and New Guinea. 1605

Behavior of tobacco budworm larvae on flue-cured tobacco and possibilities of improving the effectiveness of insecticidal treatments applied mechanically for control. 1611

Parasitic and ecological study of the small mammals (insectivores and rodents) of the Allondon valley (Geneva). 1643

Report of five years of epizootiology of the foot-and-mouth disease in the state of Sao Paulo. 1657

A note on the distribution of various types of footand-mouth disease virus in Uttar Pradesh. 1705

Gastrophilus species recorded in equine (horses, donkeys, and mules) from Turkey. 1724

Geographical distribution, vectors, and life cycle of Dirofilaria immitis. 1767

Redescription of Taenia solium Linnaeus, 1758 and Taenia saginata Goeze, 1782. 1773

Orthopterological notes. XXII. The genus Myrmecophilus Berth. in Italy. 1866

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LII. Lepidoptera Pieridae. 1869

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. L. Orthoptera Gryllodea. 1874

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LIII. Homoptera Cicadidae. 1876

The aphid fauna of Spitsbergen. 1880

Euderomphalus clavicornis Thoms. (Hymenoptera, Chalcididae) found in Finland. 1883

Some remarks concerning sphinx moths catches on the island of Sumatra. Supplementary information concerning the knowledge of sphinx moths (II) (Lep. Sphingidae). 1887

On some species of the genus Arctosa C. L. Koch and Tricca Simon (Araneae-Lycosidae). 1892

Glossina palpalis gambiensis Vanderplank 1949 (Diptera in the Niayes and 1899

On some Steninae from the Helsinki Zoological Museum (Coleoptera, Staphylinidae). (43. Contribution to the knowledge of the Steninae). 1904

A review of the praying mantises of Ghana. (Dictyoptera Mantodea). 1905

Some interesting Noctuidae finds from the Tessin. 1908

On the distribution of Coleoptera in the Tvarminne archipelago. 1912

Revision of African Reduviidae. II. Harpactorinae. Genus Nagusta Stal. 1914

A bibliography of the alfalfa weevil, Hypera postica (Gyllenhal) Supplement I. 1944

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development. 1970

Dispersal and local distribution of laboratory-reared sterile screw-worm flies released in winter. 1980

The possibility of the occurrence of warm- and cold season relicts on the Zitzmannsdorf meadow at the Neusiedler lake. 1995

Supplementary information on Korean Psyllidae. (Homoptera Psyllodea). 1999

The color change of Poecilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae). 2017

Sampling to detect economic infestations of Limonius spp. 2022

Record of Acantholyda circumcincta (Hymenoptera: Pamphiliidae) in Florida. 2210

Consideration of the problems raised by the recent cecidomyiid attack on corn flowers. 2213

Rhyacia augur F. and other climbing cutworms (Lepidoptera). 2215

Aphids and leafhoppers found on red clover in eastern Washington. 2221

Distribution of hibernating larvae of the western budworm, Choristoneura occidentalis, on Douglas-fir in Colorado. 2226

Salmonella species. First isolations, names and occurrence. QR82.S27K4. 2303

Influence of the form of traps upon the attractiveness of sexual odour of gypsy moth females. 2472

Zoogeographic analysis of mites of the family Rhinonyssidae (Gamasoidea, Parasitiformes) of the USSR fauna. 2477

Two genera of the family Encyrtidae (Hym., Chalcidoidea), new for Europe. 2492

On the genus Nasocoris Rt. (Het., Miridae). 2501

Description of Scaphidium comes sp. n. and notes on some other palaeartic species of the genus Scaphidium (Coleoptera, Scaphidiidae). 2502

Considerations on the distribution of some genera of Coleoptera, Carabidae and Chrysomelidae in the Appenine mountains of Italy. 2506

The cereal leaf beetle-a new insect in Ontario. 2510

New Pyemotidae finds in Hamburg (Acarina, Pyemotidae). 2519

Preliminary reports on the Lepidoptera of Mount Terminillo. 2537

Distribution of the face fly, Musca autumnalis (Diptera: Muscidae), in western Canada and the relation between its environment and population density. 2568

Studies on the Byron Bog in southwestern Ontario XXXIII. Distribution of Dytiscidae and Hydrophilidae (Coleoptera) in the bog. 2592

Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692

Eradicating citrus canker from New Zealand. 2732

Cereal cyst nematode--a nematode new to New South Wales. 2841

Note on occurrence of the Isospora bigemina (Stiles, 1891) Luhe, 1906 in Canis familiaris in Sao Paulo and geographic distribution of the Isospora species in dogs and cats, in Brazil. 2883

Salmonella and Arizona in reptiles and man in Western Australia. 2922

Notes on Pasteurella tularensis isolated from a vole, Microtus oeconomus Pallas, in Alaska. 2959

A study of the distribution of Glossina in Ethiopia. 2987

Mite parasites of small mammals from scrub typhus foci in Australia. 2989

Cuterebrid infestation of Microtus in eastern North Dakota, Pennsylvania, and New York. 2991

Some parasites from the Ceylon elephant (Elephas maximus). 3001

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964. 3087

Studies of Queensland Tetranychidae. 2. Tetranychus dianellae sp. n., a spider mite found on Dianella caerulea Sims. 3094

New beetle finds in the forest of Allschwil. 3100

The North American Microcrambus (Lepidoptera:Pyralididae). 3112

Observations on the blowflies (Dipt., Calliphoridae) in Spitsbergen. 3123

Notes on the biology of ambrosia beetles of the genus Trachyostus Schedl (Coleoptera: Platypodidae) in West Africa. 3125

Rhynchota (Heteroptera,Homoptera, Auchenorrhyncha) topographical and synonym catalog. 3128

Occurrence of Chaoborus alpinus Peus (Diptera, Culicidae), a new species in Poland. 3130

A supplement to the revision of Australian Pristomyrmex species (Hymenoptera: Formicidae). 3133

Hemipterous Reduviidae and Pachynomidae of Sudan and Ethiopia. 3138

Hemipterous Henicocephalidae of Sudan. 3139

Imathia and Amblycnemus (Coleoptera: Curculionidae: Cryptorhynchinae). 3141

The mosquitoes of Nevada. 3175

The Carabidae of Estonia. 3211

Seasonal occurrence and physiology of Culex tarsalis in foothills of Fresno County, California. 3229

The giant bark beetle (Dendroctonus micans Kugel) in Georgia (USSR). 3230

Northern records of the genus Culiseta Felt in Australia with the description of a new species (Diptera: Culicidae). 3238

The genus Crotchia Fowler (Col. Languriidae). III. Species with parallel-sided elytra. 3242

The leafhopper vectors of phytopathogenic viruses (Homoptera, Cicadellidae) taxonomy, biology, and virus transmission. 3258

Hedges. IV. A comparison between the Carabidae of a hedge and field site and those of a woodland glade. 3261

The influence of climatic factors on the development of Clysiana ambiguella Hb. 3284

Pupal development and moth emergence of the red bollworm (Diparopsis castanea)Hmps. in Malawi and Rhodesia. 3295

Distributional notes on Metamasius (Coleoptera:Curculionidae). 3299

The brown-banded cockroach in Hamburg. 3308

List of plant diseases recorded in Tasmania. 3419

The distribution of the cereal cyst nematode (Heterodera avenae) in Victoria and its relation to soil type. 3457

Studies on the Crambinae (Lepidoptera). Part 44. New Neotropical genera and species. Preliminary check-list of Neotropical Crambinae. 3741

Contributions to the knowledge of Analgesoidea of Czechoslovakia. 3743

Contribution to the fauna of the Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. XLV. Coleoptera Ochodaeidae. 3745

Climate and the phylogeny and distribution of Tabanidae. 3746

Catalog of the Coleoptera of Angola. 3747

Three new records of the genus Phanaeus from Georgia (Coleoptera: Scarabaeidae). 3748

Geographic distribution of the ant genus Formica (Hymenoptera: Formicidae). 3750

A new click beetle of the genus Agriotes Esch. (Coleoptera,Elateridae) from Soviet central Asia. 3751

On the Orthopterous fauna in the south of the Krasnoyarsk Territory. 3754

ZOOGEOGRAPHY

Notes on the Chrysomelidae from Taiwan I. 3755

Papilionoidea and Hesperioidea (Lepidoptera) of the virgin forest of Bialowieski. 3758

On the status of Cresson's Stenophasmus species from Cuba (Hymenoptera: Braconidae: Doryctinae). 3759

The palearctic species of Megatoma Herbst (Coleoptera, Dermestidae). 3760

Taxonomy and distribution of the palearctic Nemapogon species (Lepidoptera, Tineidae). 3761

The colonization of Lake Constance with Chironomidae. 3765

Ecological and systematic investigations of the Chironomidae (Diptera) of Lake Constance. A contribution to the lake chironomide fauna of the northern foothills of the Alps. 3766

Fauna of the Heteroptera on town waste neopedon of the Prague periphery. 3767

A contribution to the genus Mantis Linne and Paramantis, nov. (Mantidae). 3768

Fauna and ecology of mosquitoes in the southern part of the Moscow district. 3770

Supplementary communication concerning the occurrence of Caradrina kadenii Frr. (Lep.Noct.) in Switzerland. 3771

Collembola fauna of Malta. 3774

Three new species of Eriophyid mites (Acariformes: Eriophyidae, Rhyncaphytoptidae) from Poland. 3779

New distribution records for Meropleon titan Todd (Cepidoptera: Noctuidae). 3781

Sphecoidea from the Ryukyus and Formosa (Hymenoptera). 3783

Materials to the knowledge of the scale insects fauna of Yugoslavia (Homoptera, Coccoidea). 3786

New species of Hypera (Coleoptera, Curculionidae) from the Crimean Mountains. 3787

On the occurrence and seasonal dynamic of Diptera, Tachinidae in the reservation area of Jasov. 3808

Occurrence of the species Trichocladius trifascia Edwards (Chironomidae, Diptera) in the Danube. 3816

European species of the genus Myospila Rond. (Dipt., Muscidae). 3823

Remarks on fluctuations in density of Carabidae populations. 3824

Faunal and ecological study on the families Nycteribiidae and Streblidae (Dipt., Pupipara) of the Nangahar Province (Eastern Afghanistan). 3829

Review of the parasitic Diptera of the genus Eriothrix meigen (Diptera, Tachinidae) in the USSR. 3838

The insect fauna in the burrows of the long-clawed mole-vole, a Caucasian endemic species. 3845

New data on the biology of caddisflies (Trichoptera, Limnephilidae, Apataniinae) of Lake Baical. I. Life span and mass flight of adults. 3851

The behavior of adults of abundant species of caddisflies (Trichoptera) in the tributaries of Lake Sevan. 3852

A contribution to the bionomy of Culex modestus Fic. (Diptera, Culicidae) in southern Moravia. 3855

Distribution of seed beetles (Coleoptera, Bruchidae) in the forest-steppe zone of the Eastern Ukraine. 3869

Golden nematode found in Delaware. 4056

Study of the genus Rhytidodus Fieb. (Homoptera, auchenorrhyncha) with description of two new species from the Soviet Union. 4357

A record of Megachile rotundata (F.) from Ashcroft. British Columbia. 4358

Listing of Trifid noctuidae of France and Belgium. 4361

Valley centipedes (Chilopoda, Symphyla) from northern Kentucky. 4362

Taxonomic notes on the larva of British Diptera. no. 25, The larva and pupa of Dioctria rufipes (Degeer) (Asilidae). 4363

First records of eye-frequenting moths from Ceylon. 4365

On a collection of termites from Daman. 4369

The discovery in France of the Acarina Nematalycidae Strenzke while organizing the material from Languedoc-Rousillon. 4372

Coleoptera of northeast Africa. Brentidae. 4373

Zanclognatha tenuialis Rebel in France (in Alsace and L'Isere). (Lep. Noctuidae, Hypeninae). 4376

Panthea coenobita Esp. in the French Jura. (Lepidoptera Noctuidae Pantheinae). 4377

Coleoptera from northeast Africa. Mordellidae. Supplement: Paraconalia n. gen. a new genus from South America. 64. Contribution to the knowledge of the Mordellids. 4380

New Malthodes from western North America (Coleoptera: Cantharidae). 4382

Contribution to the knowledge of the hosts of the genus Opius (Hymenoptera, Braconidae). 4385

Lepidoptera of southern Spain. 4389

New genera and species of chalcid flies (Hym., Chalcidoidea) and a new species of Foenatopus Smith (Hym., Ichneumonidae, Stephanidae) from Hoggar. 4391

A revision of the Cosmopterigidae of American north of Mexico, with a definition of the Momphidae and Walshiidae (Lepidoptera: Gelechioidea). 4395

Records of Ohio fleas (Siphonaptera). 4397

New species of Meubelia Willemse, 1932, from the Philippines (Orthoptera: Pyrgomorphidae). 4400

A new genus and species of Sciomyzidae from Tanzania, with a key to the genera of the Ethiopian region and distributional notes (Diptera: Facalyptratae). 4401

Tabanidae (Diptera) of the Netherlands. 4403

Systematics of the Cryptocephalinae (Coleoptera, Chrysomelidae) from Soviet Central Asia and Kazakhstan. 4408

Contribution to the systematics and zoogeography of Halticinae (Col.) in the Canary Islands. 4410

A review of darkling beetles of the tribe Leptodini (Coleoptera, Tenebrionidae). 4411

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 2. Subfamilies Porizontinae, Metopiinae and Diplazontinae. 4412

New Palearctic species of the genus Cyphon Payk. IV. Studies on the Helodidae family. IX. 4416

A revision of the subgenus Hirtodrosophila of the Old World, with descriptions of some new species and subspecies (Diptera, Drosophilidae, Drosophila). 4418

Aphids from the subtribe Schizolachnina (Aphidoidea, Lachninae) in Middle Europe. 4420

Concerning the taxonomic clarification of Narraga tessularia ilia Whli and some remarks about this genus. (Lepidoptera, geometridae). 4421

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. 4424

On nocturnal darkling beetles of the genus Melanesthes Lac. (Scoleoptera, Tenebrionidae) from central Kazakhstan. 4431

Abundance and microdistribution of larval Chironomidae in stabilization lagoons. 4432

Identification of the braconid parasites of rice borers (Hymenoptera: Braconidae). 4440

First occurrence of balsam woolly aphid in the interior of British Columbia. 4441

Studies on the Japanese gall midges II, two new and a known species of the genus Camptomyia from Kyushu (Diptera: Cecidomyiidae). 4443

New species of Hypera (Coleoptera, Curculionidae) from the Crimean Mountains. 4444

New species of the genus Trachina Mg. (diptera, Tachnidae), parasites of injurious Lepidoptera in the Ussr. 4445

The introduction, release, and recovery of parasites of the alfalfa weevil in Eastern United States. 4466

Biology, ecology and distribution of Amara pseudocommunis Burak. (Coleoptera, Carabidae). 4467

Aradidae in the Bishop Museum, Honolulu (HemipteraHeteroptera). 4533

Ecological and morphological study of robber flies of the tribe Asilini (Diptera, Asilidae) with descriptions of new genera and species from Kazakhstan and Soviet Central Asia. 4548

Biology of the ant Formica sanguinea Latr. (Hymenoptera, Formicidae) in the Tien Shan. 4559

Intraspecific qualitative and quantitative variations of the hemolymph proteins of Cophopodisma pyrenae (Fisch.), (Orthoptera, Catantopidae) as a function of biogeographic area. 4562

The Plecoptera of a headwater stream (Gaitscale Gill, English Lake District). 4569

Observations on the morpho-biology of Pnigalio mediterraneus Ferr. and Del. (Hym. Eulophidae). 4615

Parallel polymorphism for supernumerary segments in Chorthippus parallelus (Zetterstedt). I. British populations. 4638

Preliminary observations on the choice of host plants by adults of the citrus psylla, Trioza erypreae (Del Guercio) (Homoptera: Psyllidae). 4749

The cicadelle Empoasca flavescens and the grill of grapevines in the South-West of France. 4761

Soviet entomology during the period 1917-1967. (JPRS 43,647) Transl. 16962. 4966

New species of chironomids (Diptera, Chironomidae) from Yashil-kul and Bulun-Kul lakes (Pamirs). 4982

Bees of the Nevada Test Site. 4986

Lepidoptera of the Nevada Test Site. 4987

Argas (Secretagas) transgariepinus White, 1846, new tick for France and Algeria. 4995

A probable troglobiont Pseudochthonius (Pseudoscorp.) from Brazil. 4996

Two variant females of Colias (Zerene) cesonia (Pieridae). 4997

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXV. Lepidoptera Hesperiidae. 4998

New Lamiidae from the British Museum (Natural History), (Coleoptera, Cerambycidae). 5002

Systematic revision of the species of the genus Oberea Mulsant all over the world. (Coleoptera Cerambycidae). Second part. 5003

Systematic revision of the species of the genus Oberea Mulsant all over the world. (Coleoptera Cerambycidae) Third part. 5004

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLIV. Coleoptera Elminthidae. 5016

A revision of the leafhopper genus Macropsidius Rib. (Hom., Auchenorrhyncha). 5018

New and so far undescribed Cicadellidae species from Rumania and Italy (Hom., Auchenorrh.). 5019

The Imbecillus and Rufus groups of the spider genus Philodromus in North America. (Araneida: Thomisidae). 5020

Two Noctuidae new for the fauna of Belgium. 5022

Malayoglyphus intermedius n. g., n. sp., a new mite from house dust in Singapore and Djakarta (Pyroglyphidae: sarcoptiformes). 5028

Chironomus strenzkein. sp. (Chironomidae, Dipt), a new laboratory animal. 5031

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVIII. Lepidoptera: Nymphalidae, Danaidae and Riodinidae. 5034

The genus Plectris (Philochlaenia) (ColeopteraMelolonthinae). 5035

New Melolonthids (Col.). 5036

Two new Galerucinae from Nainital district (Coleoptera-Chrysomelidae). 5039

The genus Protogamasellus Karg (Acari) with descriptions of new species and subspecies from the Ethiopian Region. 5040

Five tydeid mites from Israel (Acarina: Prostigmata). 5041

The spider genus Loxosceles in South America (Araneae, Scytodidae). 5042

Beetle finds in the South Ticino, July 1964. 5043

New species of Pseudosinella from caves (Insecta: Collembola). 5045

The Alysiinate (Hym. Braconidae) parasites of the Agromyzidae (Diptera). V. The parasites of Liriomyza Mik and certain small genera of Phytomyzinae. 5051

The species of the sub-family Cassidinae (Chrys., Col.) in Bulgaria. 5052

A new species Chrysomela rufoaenea SUFF. for the fauna of Bulgaria from the collection of the Zoological Museum in Sofia, Chrysom., Col. 5053

Notes on the Trigonoderus-group (Hym., Chalcidoidea). 5056

Burmese Ichneumoninae IV. 5057

New African Ennominae (Lep. Geometridae). 5062

A new genus of European butterflies (Lep. Lycaenidae). 5063

An undescribed European butterfly:(Lep. Satyridae). 5064

The genus Lasiodactylus Perty in Japan (Coleoptera: Nitidulidae). 5067

Descriptions of new species of the family Encyrtidae from Czechoslovakia (Hym., Chalcidoidea). II. 5068

New combinations affecting the genus Aiolopus (Orthoptera: Acridoidea) and a description of a related new genus and species from Australia. 5071

Descriptions of two new aphid species (Sitobion equiseti sp. n. and Linosiphon asperulophagus sp. n.) from Czechoslovakia (Homoptera, Aphididae). 5072

A larva of Citheronia sepulchralis (Citheroniidae) from New Jersey. 5073

The synonomy in Citrinophila Kirby and further notes on Epitola Westwood and Alaena Boisduval (Lepidoptera: Lycaenidae). 5075

Hadrodactylus branderi n. sp. (Hym., Ichneumonidae) from Finland. 5076

Orthoptera-Caelifera from northern Kenya and Jubaland. IV. Acrididae, s. str.: Calopteninae, Euryphyminae, Eyprepocnemidinae, Catantopinae, Cyrtacanthacridinae. 5080

Ixodes (Lepidixodes) kopsteini Oudemans, 1925, valid name for I. (L.) paradoxus Kohls and Clifford, 1961, with notes on distribution and hosts (Acarina: Ixodidae). 5083

Proteleas, a new genus of Scelionidae with three new species from the USSR. 5085

Contribution to the study of Aphididae (Hom) of the French forests. 5087

On the presence in France of Nearctaphis bakeri Cowen, a dangerous pest of cultivated clover in the U. S. A. (Homoptera, Aphididae). 5089

Notes on some new or little known Lucanidae Coleoptera. 5091

New descriptions of Psorergate species (Psorergatidae: Trombidiformes). 5093

Catalogue of the Oedemeridae of Italy (Coleoptera). 5095

Coleoptera from northeast Africa. Cicindelidae and Carabidae: Carabini. 5096

Description of a new species of the genus Bovicorina Delamare Deboutteville 1947 (Collembola, Symphylla) and a key for identification of the species in the genus. 5097

First records of two butterflies in Wisconsin (Nymphalidae, Pieridae). 5098

Cosymbia pupillaria Hbn. at an altitude of 3200 meters. 5099

The genus Cairnsimyia Malloch (Diptera, Heleomyzidae, Rhinotorini). 5100

Notes on some larval and pupal chironomids (Diptera) from Lake Kariba, Rhodesia. 5101

Some remarks on the tampans of the Ornithodoros moubata complex in southern Africa. 5102

Parachernes (Arachnida, Chelonethida, Chernetidae) from the coast of North Carolina. 5107

Distributional and biological notes on the tree hole mosquitoes of the western United States. 5112

The genera of Palearctic Tortricidae. II. The subfamily Olethreutinae 7th part. Eucosmini (Heinr. 1923) tribe--continuation. 5115

Notes on Rhynchocephalus tauscheri Fischer (Diptera: Nemestrinidae). 5116

Systematic entomology: Distribution of insects in the Pacific. 5117

New Thysanoptera from central Asia (U. S. S. R.). 5118

Two new species of Oedaleothrips (Thysanoptera) from Asia. 5119

A new species of Poecilmitis Butler (Rhopalocera) from the South Western Cape. 5120

Genera and species of the Dermaptera. 10. Forficulinae (Forficulidae). 5122

Genera and species of Dermaptera (9) Opisthocosminae (Forficulidae). 5123

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae). 5124

New description of palearctic Scrobipalpa species. (Lepidoptera, Gelechiidae). 5126

New and known Dermaptera from south India with two generic records new to India. 5129

A redescription of the type specimen of Crotonia (0Acronothrus) obtecta (O. Pickard-Cambridge, 1875), (Acari, Cryptostigmata) and a discussion of its taxonomic relationships. 5130

North American species of Taeniopteryx (Plecoptera, Insecta). 5132

ZOOGEOGRAPHY

What is Pieris dubiosa Rober (Lep., Pieridae). 5133

A revision of the Neotropical species of the moth genus Glena (Lepidoptera, Geometridae). 5135

South American Thrombidiidae. II. Chyzerini Thrombidiinae; solenocyte taxonomy of the palpus in several Thrombidii a ; th r latio-ship between Podothrombium Berlese 1910 -- Variathrombium n. g., and Thrombidiinae. 5137

Contribution to the fauna of the Congo (Brazzaville). mission A. Villiers and A. Descarpentries. XLVI. Lepidoptera, Attacidae. 5138

Preliminary note on a review of subgenus Tacniothrips (Isochactothrips) (Thysanoptera: Thripidae). 5139

New contribution to the knowledge of the Italian Psychodidae (Diptera). 5141

The identity of Naphius seed bug pests in Africa (Hemiptera: Lygaeidae). 5143

Key for the determination of species from U.S.S.R. belonging to the genus Scolytus Geoffroy (Scolytidae, Coleoptera). 5145

Two new species of Praon Haliday from Czechoslovakia (Hym., Aphidiidae). 5146

Entomological results of catches in the area of San Bernardino (Misox Gr), which has not been fully explored lepidoterologically. (A building block of the Swiss Lepidoptera fauna). 5147

The bumblebee fauna in the neighborhood of the Kuku-Nor. (Hymenoptera, Bombinae). 5155

On some Sphecoidea from the Ryukyus (Hymenoptera). 5157

A re-assessment of the genera Holorusia Loew (0Ctenacroscelis Enderlein), Ischnotoma Skuse and Zelandotipula Alexander (Diptera: Tipulidae), with notes on their phylogeny and zoogeography. 5161

A revision of the Nedtropical genus Metamasius (Coleoptera, Curculionidae, Rhynchophorinae). 5162

The establishment ofa lectotype for Leptotrombidium (Leptotrombidium) akamushi (Brumpt, 1910) (Acarina: Trombiculidae). 5163

Spider wasps of Finland (Hym., Pompiloidea). 5171

A review of Simulium (Pternaspatha) Enderlein (Simuliidae, Diptera). 5173

The morphology and systematic of Coptopteryx gayi (Blanchard) 1851 (Mantidae). 5176

Hughes virus from Trinidadian ticks and terns. 5188

Observation on Laspeyria pactolana Zell.: A pyralid of verticillate Picea. 5214

Notes on some Nematinae from Czechoslovakia (Hym., Tenthredinidae). 5218

New contributions to the study of chalcids in the Socialist Republic of Rumania (XIV). 5234

A redescription of Pteronyssoides tyrrelli (Canestrini, 1899). A feather mite from the tree swallow (Acari-Acariformes). 5241

Life history notes on Lithophane subtilis (Noctuidae). 5270

The distribution and host-range of the Shot-hole Borer (Xyleborus fornicatus Eichh.) of tea. 5278

Studies on interspecies competition between the azuki bean weevil and the southern cowpea weevil. III. Some characteristics of strains of two species. 5318

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan; June 1961-June 1966. Part I. Scale insects. 5323

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan. June 1961 - June 1969. Part II. Fruit flies. 5324

VPI cockroach research. 5339

Bibliography of New Guinea entomology. 5341

On the biology of Simulium damnosum Theobald, 1903, the main vector of onchocerciasis in the Mahenge Mountains, Ulanga, Tanzania. 5360

Heterotylenchus spp. parasitising the Australian bush fly: Additional information on the origin of the parasite of the face fly. 5375

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae). 5407

Notes on the Swedish species of the genus Centromerus F. Dahl. (Araneae, Linyphiidae). A faunistic report with ecological remarks. 5422

Cyclophora pupillaria Hb. in Belgium (LepidopteraGeometridae). 5438

The leatherjacket risk grows. 5447

The effect of reduction in stream flow on invertebrate drift. 5475

The Norwegian species of Dichrorampha Gn. Lep. Tortricidae. 5505

The beetles (Coleoptera) of Babia Gora Mountain (Polish Western Carpathians). 5518

Phytophagous mites; species of widest distribution in Argentina. 5540

Synoptic tables of larvae and imagos of the species of the family Chrysotribax Reitter. (Col. Carabidae). 5548

Mosquito collections in a high rainfall area of North Queensland, 1963-1964. 5626

Report of the Suffolk County Mosquito Control Commission. 5633

On the biology and ecology of the opilionid Mitopus morio F.. 5644

On emergence times within the genus Polamorphylax Wallengren (Trichoptera, Linnephilidae). 5645

The occurrence of Argas japonicus and Ixodes lividus in Nagano Prefectur, Japan (Ixodoidea: Argasidae; Ixodidae). 5652

Homing in the ant Cataglyphis bicolor. 5672

New records and species of neotropical bark beetles (Scolytidae: Coleoptera). 5682

Erysiphaceae (Mycophyta) in the nature preserve of Cheile Turzii. 5871

Hosts and geographic distribution of Scirrhia pini--the cause of red band needle blight in California. 5895

Twig and branch mortality of American beech infested with oystershell scale. 6172

Description, damage and control of the southwestern corn borer. 6188

Aphytis mytilaspidis (Le Baron), a parasite of Parlatoria blanchardi (Targ) in the palm plantations of the Adrar region of Mauritania. 6211

A contribution to the study of the zoocecidia of Snowdonia National Park and adjacent parts of North Wales. 6212

Old pests with new appetites. 6215

The principle insect pests of beets and the means of their control in turkey. 6234

The conditions for occurrence of potato root eelworm (Heterodera rostochiensis Woll.) in Poland. 6302

The muskrat in Loire-Atlantique. 6410

On the agricultural importance of the rook (Corvus frugilegus L.). 6435

Long distance dispersal of seeds by retention in digestive tract of birds. 6436

Parasites of man and domestic animals in Vietnam, Thailand, Laos, and Cambodia. Host list and bibliography. 6437

The occurrence of the capillate louse, Solenopotes capillatus, in South Africa. 6887

A record of the mite, Speleognathus australis, in bovines in South Africa. 6888

Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil. 6911

Basic,facts on the parasitic nematodes of the sheep (Ovis aries) in tunisia. 6915

Contribution to the knowledge of parasitic fauna of domestic animals and some game in Vojvodina. 6945

Regional research in nematode parasites of ruminants in the western United States, a 10-year summary, 1958-1968. 6949

Brachylaima degiustii n. sp. from Columba livia in Venezuela. 6980

Mass appearance at Brussels of Sitotroga cerealella Ol. (Gelechiidae). 7036

The murids in the vicinity of Lake Kivu and neighboring regions (Central Africa) and their ecology. 7045

New or remarkable lepidopteran forms from the Greater Baucasus. 7427

New species of the Aphodiidae family (Coleoptera). 128. Contribution to the knowledge of the Scarabaeoidea. 7429

Czechoslovak species of Pontania crassipes-group (Hymenoptera, Tenthredinidae). 7431

Aquatic Coleoptera collected in South Africa and Rhodesia (Bertrand. 1959). 7434

Study of the new Mexican Carabus of the state of New Leon (Insecta, Coleoptera, Carabidae). 7437

Notes on the horse-flies of Cuba (Diptera, Tabanidae). 7444

Scientific results of the Hungarian zoological expedition to the Congo-Brazzaville. 24.--Bostrychidae (Coleoptera: Bostrychoidea). 7446

Systematic catalogue of the Indochinese Buprestidae. XII. Agrilinae. (suppl). 7450

Commentary on the Harpactorinae in the Royal Institute of Natural Sciences of Belgium (Hemiptera-Heteroptera: Reduviidhe). 7451

A contribution to the knowledge of the genus Spheginobaccha De Meijere (Diptera, Syrphidae). 7452

Parnassiana nava XLIV. Supplementary considerations on the revision of the Parnassiinae subfamily (Continuation 17). Three new subspecies Kailasius charltonius bryki Haude and K. charltonius basharianus subsp. nova. 7453

Pantala hymenea (Say) (Odonata: Libellulidae) of Quebec. 7455

Aeshna clepsydra (Say) Odonata: Aeshnidae) of Quebec. 7456

The American species of the genera Euopius, Gnaptodon, and Pseudognaptodon (Hymenoptera: Braconidae). 7457

A new central European species of the genus Stilbus Seidlitz. 7460

Results of the Albanian 1961 Expedition of the German Entomological Institute. 61. Contribution Catalog of Albanian habitats. 7461

Results of the Albanian 1961 Expedition of the German Entomological Institute. 60. Contribution. Review of the first evaluation period 1961 until 1965. 7462

Results of the Albanian 1961 Expedition of the German Entomological Institute. 65. Contribution. Hymenoptera: Scoliidae. 7463

Liodes (Oreosphaerula) nitida sedlicaensis ssp. n. from Czechoslovakia (Coleoptera, Liodidae). 7469

A survey of the wild species of Drosophilidae within Monongalia County, West Virginia. 7471

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking arthropoda in Vietnam. 7472

Contributions to the knowledge of North American Ichneumoninae. 7473

Comparative notes on the species of the Holarctic genus Stemonyphantes Menge (Araneida, Linyphiidae). 7474

Results of the Albanian 1961 Expedition of the German Entomological Institute. 71. Contribution. Coleoptera: Cerambycidae. 7476

Revision of the genus Liporrhopalum Waterston, 1920 (Hymenoptera Chalcidoidea, Agaonidae). 7477

Study on the Japanese Aneurhynchus Westwood (Hymenoptera: Diapriidae). 7478

An interesting species-group of the genus Epuraea from Africa and Madagascar (Coleoptera, Nitidulidae). 7481

Basis for a monograph on the Saginae. I. Super revision of the genus Saga Charpentier (Saltatoria; Tettigoniidae). 7482

Results of the Albanian 1961 Expedition of the German Entomological Institute. 69. Contribution. Coleoptera: Meloidae. 7484

The sphingid genus Sphinx Linne (Lep., Sphingidae). 7486

A fifth species of Nitela from North America (Hymenoptera: Sphecidae). 7492

Chironomidae (Diptera) from the Hula Nature Preserve, Israel. 7493

Zyrus from Tanzania (East Africa) with description of a new species. Material of the zoological collection of the Bavarian States, munich (Coleoptera Staphylinidae). 7495

Sawfly studies (Hymenoptera, Symphyta). 7500

New and little known Palearctic species of the Scaphosoma Leach genus (Col., Schphidiidae) (18. Contribution to the knowledge of the Scaphidiidae). 7501

Mites of the families Tenuipalpidae and Tetranychidae intercepted entering New Zealand from overseas. 7503

Epilachna niponica Lewis. On the type-specimens of Epilachna niponica Lewis. 7509

Descriptions of males of Haematopota scutellata including descriptions of the Haematopota Meig. genus in Czechoslovakia (Diptera, Tabanidae). 7511

Third contribution to the knowledge of the geographical distribution of the tineids on the Iberian Penninsula (Lepidoptera:Tineidae). 7522

Notes on the Muscidae of New Guinea (Diptera). iii. Species described by Stein in 1900, Termeszetr. Fuz., Volume 23. 7524

The geographical distribution of the Dermaptera--a case for continental drift. 7525

On a new species of Philodicus Loew (Asilidae, Diptera) from India. 7526

Distribution of lake-dwelling Chironomidae (Diptera) in the Alpine Region. 7527

Phycitinae-study V (Lepidoptera Pyralidae). 7530

The mites of subfamily Labidophorinae Zachvatkin, 1941 (Acarina, Acarinhe) from the nests of small mammals. 7531

Contribution to the knowledge of the Collembola of China. 7532

Some new or little-known Nearctic Trichoptera. 7536

Results of the Albanian 1961 Expedition of the German Entomological Institute. 68. Contribution. Hymenoptera Apidae. III. (Genus Nomada Scopoli). 7537

New Carabus forms from Anatolia (Col., Carabidae). 7538

The world Rhyparochrominae (Hemiptera: Lygaeidae). IV. On some Rhyparochrominae types in the Museum National d'Histoire Naturelle, Paris. 7539

Braconidae described by l'abbe Provancher. 7542

Study on the Japanese Calocarcelia Townsend and Eucarcelia Baranov (Diptera: Tachinidae). 7544

The Czechoslovakian species of the Ancyrophorus Kraatz genus (Col., Staph.). (76. Contribution to the knowledge of the Staphylinidae.). 7546

Distribution of the Macrolepidoptera in the Baltic. III. Nocturnal moths (Fam. Noctuidae). 7548

The African species of the genus Literna Stal (Homoptera: Cercopidae). 7550

Entomological survey of the Cook Islands and Niue. 1-Hymenoptera-Formicidae. 7551

The Trichoptera of the Lule Lappmark (Sweden), II. Catalog of the species, habitats and flight periods. 7556

Contribution to the study of the dipteran Braulidae and Pupiparans: Hippoboccidae, Nycteribiidae, and Strebidae. 7558

Cercyon-studies with descriptions of two new German species. 7559

Rhabdoblatta stipata (Walker, 1868), an aquatic cockroach. 7563

Sympatric host race formation and speciation in frugivorous flies of the genus Rhagoletis (Diptera, Tephritidae). 7583

Evolution of wing reduction in crane flies (Diptera: Tipulidae). 7584

Habitat and distribution of Mecoptera in East Tennessee. 7588

Investigation into the variability of European populations of Orthotylus ericetorum Fall. (Heteroptera: Miridae). 7631

Contribution to the study of mosquitoes (Diptera, Culicinae) occurring in some areas of central and south Moravia. 7668

The carabid fauna of the Hoher Vogelsberg nature conservation park. 7696

Supernumerary chromosomes in the human bed bug, Cimex lectularius Linn. (Cimicidae: Hemiptera). 7759

New pests of sugarcane in Mexico (Sacchardsydne saccharivora Westw.). 7822

The hymenopterous parasites of soft scales on citrus in Israel. 7841

Forest entomology in the USSR. 7843

Survey, identification and pathogenicity tests of nematodes associated with tobacco grown in Cagayan Valley and the Ilocos Region. 7845

ZOOLOGY

Integrated pest control from the point of view of zoological pesticide examination. 948

Zoological nomenclature in the Jet Age. 5577

ZOONOSES

Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690

Researches concerning the toxoplasmosis identification and the toxoplasmic abortion in the ovic cattle of Banat. 2294

Ascariasis in pig and in man. 2876

Zoonosis with special reference to the diseases transmitted from dogs and cats. 3521

Arthropod-borne viral zoonoses in Malaya. 3611

Zoonoses in india.
6667

ZOOSPORES
Zoospore in Phytophthora parasitica var. sub-dariffae.
4666

ZYGAENA
Absorption measurements on butterflies of the genus Zygaena Fab. (Lep.) as an explanation of the litoral melanism.
3173

1-(1-NAPHTHYL)-2-THIOUREA
Note on the evaluation of the efficacy of rodenticides.
7044

2,4-D
2,4-D metabolism. Enzymatic hydroxylation of chlorinated phenols.
5784
2,4-D metabolism; enzymatic degradation of chlorocatechols.
5785
Conversion of 4-(2,4-dichlorophenoxy) butyric acid to homologs by alfalfa; mechanism of resistance to this herbicide.
7264

Barrows, H L
Agricultural Research Service, Beltsville, Md.; O. S. Soils Lab.
7092

Barry, B D
Ohio Agricultural Research and Development Center, Wooster
328

Barry, D H
Huntingdon Research Centre, England; Dept. of Histochemistry
1727

Barry, J M
University College, Cork, Ireland; Dept. of Zoology
2876

Barskaya, T A
Karelian Affiliate USSR Academy of Sciences; Inst. of Biology
1809

Bartell, R J
Commonwealth Scientific and Industrial Research; Organization, Canberra, Australia; Div. of Entomology
3161

Bartels, P C
Arizona Univ., Tucson; Dept. of Biological Sciences
4685

Bartels, R
Biologische Bundesanstalt fur Land-und Forstwirtschaft,; Braunschweig, West Germany; Inst. fur Virusserologie
2709

Bartha, A
Veterinary Medicine Univ., Budapest, Hungary; Inst. for Epizootiology
7866

Bartlett, A C
Agricultural Research Service. State College, Miss.; Boll Weevil Research Lab.
7726

Bartlett, B R
California Univ., Riverside; Dept. of Biological Control
5212

Bartlett, F J
Agricultural Research Service, Gulfport, Miss.; Entomology Research Division
6153

Bartos, S
Research Inst. of Veterinary Medicine, Brno, Czechoslovakia
4795

Barus, V
Czechoslovak Academy of Sciences, Prague; Institute of Parasitology
1728

Basak, W
Laboratory of Plant Pathology, Skierniewice, Poland; Inst. of Pomology
2118

Basargin, N N
Institut Pitaniya AMN SSSR, Moscow
5783

Basch, H
Squibb Inst. for Medical Research, New Brunswick, N. J.
2886

Baseman, J B
Massachusetts Univ., Amherst; Dept. of Microbiology
4796

Baseman, J B
Massachusetts Univ., Amherst; Dept. of Microbiology
4797

Baskerville, A
Bristol. university.; Dept. of Pathology
7867

Bassler, R
Friederich Schiller Univ., Jena, East Germany; Inst. fur Acker-und Pflanzenbau
4771

Bassus, W
Technische Univ., Dresden, East Germany; Inst. fur Forstschutz und Jagdwesen
1020

Basu, S K
University Coll. of Science and Technology, Calcutta 9,; India; Dept. of Biochemistry
4922

Batayev, S
Institute of Sanitation, Hygine, and Occupational; Diseases, Moscow, USSR
7143

Batchelor, G S
Allied Chemical Corp., New York, N. Y.
7328

Bateman, M A
Sidney Univ., Australia; Joint Unit of Animal Ecology
1926

Bateman, M A
Sydney Univ., Australia; Joint Unit of Animal Ecology
2205

Bates, J A R
Ministry of Agriculture, Harpenden, Herts, England; Plant Pathology Lab.
1200

Batka, A
Academy of Sciences, Warsaw, Poland; Institute of Ecology
60

Batra, H N
Directorate of Extension, New Delhi, India
2382

Baudin, P
Ecole Nationale Superieure Agronomique de Tananarive,; Madagascar
219

Baudry, N
Centre National de la Recherche Scientifique, Paris,; France; Equipe de Neuro-endocrinologie
5213

Bauer, A C
National Inst. of Health, Bethesda, Md.; Lab. of Physical Biology
3162

Bauer, H
Max-Planck-institut fur Virusforschung, Tubingen, Germany; Biologish-medizinische Abteilung
1651

Baumann, P
Zurich Univ., Switzerland; Zoologisch-vergl Anatomisches Inst.
1358

Baur, J R
Texas A M Univ., Coll. Station; Depts. of Range Science and Plant Sciences
7983

Bavenboer, L
Research Station for Fruit and Vegetable Growing under; Glass, Naaldwijk, Netherlands
4291

Baxter, R I
Sydney Univ., New South Wales, Australia; Dept. of Agricultural Botany
1021

Baxter, W L
Nebraska Game, Forestation, and Parks Commission, Lincoln
502

Bay, D E
Kansas State Univ., Manhattan
1927

Bayer, R
Munich Univ., West Germany; Zoologisches Institut
5215

Bayer, R C
Vermont Univ., Burlington; Dept. of Poultry Science
4113

Bayne, C J
University Coll. of North Wales, Anglesey, England; Marine Science Labs.
7856

Baynes, I D
Animal Research Inst., Yeerongpilly, Queensland, Australia; Dept. of Primary Industries
6487

Bayramoglu, O
Institute de la Fievre Aphteuse, Ankara, Turkey
341

Bazin, J C
Laboratoire de Parasitologie, Paris, France
4854

Beament, J W L
Cambridge Univ., England; Dept. of Zoology
1359

Beament, J W L
Cambridge Univ., England; Dept. of Zoology
3800

Beames, C G
Oklahoma State Univ., Stillwater; Dept. of Physiology and Pharmacology
7931

Beard, C W
Agricultural Research Service, Athens, Ga.; Southeast Poultry Research Lab.
3510

Beard, R L
Connecticut Agricultural Experiment Station, New Haven,
62

Beaucournu, J C
Faculte de Medecine et de Pharmacie, Rennes, France; Lab. de Parasitologie et Zoologie appliquee
4995

Beccari, F
Istituto Agronomico per l'Oltremare, Florence, Italy; Laboratorio di Entomologia Agraria
5216

Bech, R
Martin-Luther-Univ. Halle-Wittenberg, West Germany; Phytopathologischen Inst.
6154

Beck, E C
Florida State Board of Health, Jacksonville
1868

Becker, A
Beuel, West Germany
220

Beckwith, A C
Food and Drug Administration, Washington, D. C. 20204; Div. of Food Chemistry
451

Bedard, W D
Forest Service, Berkeley, Calif.; Pacific Southwest Forest and Range Experiment Station
5217

Bedford, E C G
Care Tobacco Research Inst., Rustenburg, South Africa
4741

Bedford, E C G
Citrus and Subtropical Fruit Research Inst., Nelspruit,; South Africa.
6155

Bedford, G O
Lowlands Agricultural Experiment Station, Keravat via; Rabaul, Territory of Papua and New Guinea; U. N./s. P. C. Rhinoceros Beetle Project
3164

Beer, J
Humboldt Univ., Berlin, East Germany; Institut fur Mikrobiologie und Tierseuchenlehre
4114

2013

McDonough, L M
Agricultural Research Service, Yakima, Wash.; Entomology Research Div.
2014

McEnroe, W D
Massachusetts Univ., Waltham; Waltham Field Station
5460

McFadden, L A
New Hampshire Univ., Durham; Plant Science
3982

McFadden, M W
Washington State Univ., Pullman; Dept. of Entomology
3243

McFarlane, E S
Dalhousie Univ., Halifax, Nova Scotia; Dept. of Microbiology
6713

McGaughey, W H
Rice-Pasture Research and Extension Center, Beaumont, Tex.
2608

McGhee, R B
Georgia Univ., Athens; Dept. of Zoology
392

McGill, A E J
Shell Research Ltd., Sittingbourne, Kent, England; Tunstall Lab.
7121

McGillivary, J J
International Minerals and Chemical Corp., Libertyville,; Ill.; Growth Sciences Center
4190

McGillivray, W A
Dairy Research Inst., Palmerston North, New Zealand
7061

McGinnis, A J
Canada Dept. of Agriculture, Winnipeg, Manitoba; Research Station
3244

McGlohon, N E
Georgia Univ., Athens; Cooperative Extension Service
3983

McIlwain, P K
North Dakota State Univ., Fargo; Dept. of Veterinary Science
6714

McIntosh, D L
Canada Dept. of Agriculture, Summerland, British Columbia; Research Station
6012

McIntosh, R A
Sydney Univ., Australia; Dept. of Agricultural Botany
2151

McIntosh, R A
Sydney Univ., Australia; Dept. of Agricultural Botany
6013

McIver, S B
Toronto Univ., Ontario; Dept. of Parasitology
5461

McKay, D
Adelaide Univ., Australia; Dept. of Microbiology
5462

McKean, W I
Dunedin Public Hospital, Otago, New Zealand
1804

McKee, R K
Ministry of Agriculture, Ireland; Plant Pathology Research Division
3386

McKercher, D G
California Univ., Davis; Dept. of Veterinary Microbiology
6715

McKercher, D G
California Univ., Davis; School of Veterinary Medicine
6716

McKnight, M E
Forest Service, Fort Collins, Colorado; Rocky Mountain Forest and Range Experiment Station
2226

McKnight, M E
Colorado State Univ., Fort Collins
5463

McLachlan, A J
University Coll. of Rhodesia, Salisbury; Dept. of Biology
5101

McLaughlin, J E
Animal Research Inst., Yeerongpilly, Australia; Biochemical Branch
3662

McLaughlin, R E
Agricultural Research Service, State Coll., Miss. 39762; Entomology Research Div.
3245

McLean, L A
Velsicol Chemical Corp.
5819

McLeod, C C
Department of Agriculture, Timaru, New Zealand
445

McLeod, D G R
Canada Dept. of Agriculture, London, Ontario; Research Inst.
3333

McLeod, R W
Dept. of Agriculture, Rydalmere, New South Wales
299

McLeod, R W
Department of Agriculture, ydalmere, Australia; Biology Branch
2841

McManus, M L
Purdue Univ., Lafayette, Ind.
2015

McManus, M L
Forest Service, Hamden, Conn.; Forest Insect and Disease Lab.
5464

McPhail, J
Shepparton, Australia
6014

McQueen, J L
National Communicable Disease Center, Atlanta, Ga.
2939

McVicar, J W

Punjab Agricultural Univ., Ludhiana
3484

Singh, G
Indian Veterinary Research Inst., Mukteswar-Kumaon
6819

Singh, G B
Punjab Agricultural Univ., Hissar, India; Dept. of Agronomy
4082

Singh, G R
Sugarcane Breeding Inst., Coimbatore, India
6084

Singh, Harcharan
Directorate of Plant Protection, Quarantine and Storage,
6251

Singh, I P
Punjab Agricultural Univ., Hissar; Dept. of Veterinary Bacteriology and Hygiene
3588

Singh, J
Canada Dept. of Agriculture, Ottawa, Ontario; Plant Products Div.
1151

Singh, K
Indian Inst. of Sugarcane Research, Lucknow, India
1588

Singh, K
Indian Inst. of Sugarcrane Research, Lucknow
6304

Singh, K G
West Malaysia. padi Experiment Station (Wellesley)
6085

Singh, K R P
Virus Research Centre, Poona, India
5609

Singh, K V
Near East Animal Health Inst., Beirut, Lebanon; Fanar Regional Poultry Lab.
1704

Singh, P
Grain Storage Research and Training Centre, Hapur, Uttar; Pradesh, India
882

Singh, P
U. P. College of Veterinary Science and Animal Husbandry,; Mathura, India; Dept. of Parasitology
7009

Singh, P P
U. P. Coll. of Veterinary Science and Animal Husbandry,; Mathura, India; Dept. of Bacteriology
1705

Singh, R
Gorakhpur Univ., India; Dept. of Botany
2785

Singh, R P
College of Veterinary Medicine, Hissar, Haryana, India
416

Singh, R P
Canada Dept. of Agriculture, Fredericton, New Brunswick; Research Station
6086

Singh, R P
Punjab Acricultural Univ., Hissar, India
7294

Singh, S
Panjab Univ., Chandigarh, India; Dept. of Zoology
5610

Singh, S R
Indian Agricultural Research Inst., New Delhi; Div. of Entomology
6252

Singla, C L
Panjab Univ., Chandigarh, India; Dept. of Zoology
5611

Sinha, A K
Gorakhpur Univ., Uttar Pradesh, India; Dept. of Zoology
6253

Sinha, P K
Bengal Veterinary Coll., Calcutta, India; Dept. of Pathology and Preventive Veterinary Medicine
1132

Sinha, R C
Patna Univ., India; Dept. of Zoology
5612

Sinha, R N
Canada Dept. of Agriculture, Winnipeg, Manitoba; Research Station
3414

Sinjh, T
National Inst. of Communicable Diseases, Delhi, India
3589

Sinoir, Y
Faculte des Sciences, Orsay, France; Laboratoire d'Entomologie
5613

Sippel, W L
Florida Dept. of Agriculture, Kissimmee
2970

Siriez, H
Ministere de l'Agriculture, Paris, France
7134

Sisli, N
Ankara Univ., Turkey; Dept. of Systematic Zoology
2051

Sissons, D J
Unilever Research Lab., Sharnbrook, England
7972

Sivan, J
Service Pasteur, Marseille, France; Laboratoire Municipal de Biologie et de Chimie
417

Siverly, R E
Ball State Univ., Muncie, Ind.
2654

Six, K M
Rutgers-State Univ., New Brunswick, N. J.
2341

Skene, K G M
Commonwealth Scientific and Industrial Research; Organization; Div. of Horticultural Research
7295

Skepper, A H
Department of Agriculture, Sydney, Australia
2236

Skepper, A H
Department of Agriculture, Sydney, Australia
7702

Skidmore, P
Grains Road, Shaw, Lancs
883

Skilling, D D
Forest Service, St. Paul, Minn.; North Central Forest Experiment Station
3928

Skilling, D D
Forest Service, St. Paul, Minn.; North Central Forest Experiment Station
4007

Skolmen, R G
Forest Service, Honolulu, Hawaii
5843

Skopik, S D
Delaware Univ., Newark; Dept. of Biological Sciences
884

Smirnoff, W A
Canada Dept. of Forestry, Sillery, Quebec; Forest Research Lab.
5616

Smirnov, G B
Academy Of Medical Sciences of the USSR, Moscow; Gamaleya Inst. for Epidemiology and Microbiology
7373

Smirnov, Ye S
Moscow Univ., USSR; Dept. of Entomology
704

Smissman, E E
Kansas Univ., Lawrence; Dept. of Medicinal Chemistry
4645

Smith, A R
Wisconsin state Dept. of Agriculture, Madison
2971

Smith, C E G
Microbiological Research Establishment, Porton, Nr. Salis; Bury, Wiltshire
437

Smith, C M
Montana Agricultural Experiment Station, Corvallis; Cooperative Extension Service
7296

Smith, D B
State College, Miss; Boll Weevil Research Lab.
571

Smith, D R
Agricultural Research Service, C/o U. S. National Museum,; Washington, D. C.; Systematic Entomology Lab.
3773

Smith, D S
Cambridge Univ., England; Dept. of Zoology
155

Smith, D S
Canada Dept. of Agriculture, Lethbridge, Alberta; Research Station
2656

Smith, E L
California Univ., Davis
2052

Smith, E M
Ohio Cooperative Extension Service; Landscape Horticulture
6383

Smith, G E
Missouri Univ., Columbia
468

Smith, G E
Tennessee Valley Authority, Muscle Shoals, Ala. 35660; Div. of Health and Safety
4888

Smith, G S
Florida Univ., Gainesville
3709

Smith, H C
Department of Scientific and Industrial Research,; Christchurch, New Zealand; Crop Research Div.
2179

Smith, H W
Animal Health Trust, Stock, England
6821

Smith, J L
Agricultural Research Service, Beltsville, Md.; Eastern Utilization Research and Development Div.
7066

Smith, J M B
Microbiology Dept.; Medical School, Dunedin
7919

Smith, J P
Texas A and M Univ., College Station; Dept. of Veterinary Parasitology
4279

Smith, K J
National Cottonseed Products Association, Inc., Memphis,; Tenn.
7135

Smith, K P
Oxford University; Bureau of Animal Population
885

Smith, M E
Amherst, Mass.
4978

Smith, P C
Southeast Asian Treaty Organization Medical Research Labora; Tories, Thailand
419

Smith, P M
Glasshouse Crops Research Inst., Littlehampton, England
6089

Smith, R J
U. S. agricultural Research Service.; Crops Research Division, Stuttgart
6384

Smith, R W
Coconut Industry Board, Jamaica; Dept. of Research
6412

Smith, S M
Manitoba Univ., Winnipeg; Dept. of Entonology
5617

Smith, T L
College of the Ozarks, Clarksville, Ark.
7752

Smith, V K
Forest Service, Gulfport, Miss., 39501; Wood Products Insect Lab.
492

Smittle, B J
Agricultural Research Service, Gainesville, Fla.; Entomology Research Div.
1780

Smittle, B J
Agricultural Research Service, Gainesville, Fla.; Entomology Research Div.
2691

Smorodintsev, A A
Academy of Medical Sciences, Leningrad, USSR; State Research Inst. of Influenza
2972

Smyth, P J
Department of Agriculture and Fisheries; Veterinary Research lab., Castlenock, Ireland
6822

Snelling, R R
Los Angeles County Museum of Natural History, Calif.
1327

Snitzer, C M
Department of Agriculture And Food, Toronto, Ontario
6385
